Mass transit must continue to develop momentum. There needs to be a greater push for mixed use instead of just apartments. Walkability needs to continue to progress through traffic-calming/streetscape projects. Monroe Road and Independence Corridor solutions need to be pushed because they serve a real need. She perceives that frontage road on Independence is a sign of City corruption. That space is best used as a park or light rail corridor. Planning as exhibited by growth today is disjointed and shows a lack of overall vision of Council and City. Existing infrastructure needs to be better maintained city-wide. She perceives that Myers Park gets special priority on roadway repaving. Rama Road is desperate need of traffic calming. There are schools on that road but no parent allows children to walk to school because cars travel too quickly.
