	Interactive Directives Guide		Limitation of Liability
		Effective Date: 5/3/2023	1 of 1

I. PURPOSE

This manual consists of departmental directives, which are for the internal use of the Charlotte-Mecklenburg Police Department (CMPD) and in no way enlarges a sworn employee's civil or criminal liability. It should not be construed as the creation of a higher standard of safety or care in an evidentiary sense, with respect to third-party claims. Violations of the departmental directives, if proven, can only form the basis of complaints by CMPD in a non-judicial administrative hearing. This limitation of liability shall apply equally to all departmental directives, rules of conduct, and standard operating procedures.

	Charlotte-Mecklenburg Police Department		100-003
	Interactive Directives Guide		Jurisdiction and Authority
	Effective Date: 12/14/2021		1 of 3

I. PURPOSE

This directive establishes guidelines for the territorial jurisdiction and delegation of authority of sworn officers of the Charlotte-Mecklenburg Police Department (CMPD).

II. POLICY

A. Jurisdiction

1. CMPD derives its authority from the North Carolina General Statutes and Session Laws, the Code of the City of Charlotte, and the Agreement between the City of Charlotte and Mecklenburg County for the Consolidation of the Charlotte and Mecklenburg Police Departments.
2. The Chief of Police and all sworn officers will have full law enforcement authority within the boundaries of Mecklenburg County and on all property owned by or leased to the City of Charlotte or Mecklenburg County wherever located within the State of North Carolina.

NOTE: The territorial jurisdiction of CMPD extends to and includes the entirety of Lake Norman, Lake Wylie, Mountain Island Lake, and the shoreline area of each body of water.

3. The Chief of Police and all sworn officers have the authority to arrest anywhere in the State of North Carolina for a felony committed in Mecklenburg County as described in paragraph II - A – 2 and have the authority to pursue an offender who is in immediate and continuous flight, outside of this jurisdiction, in accordance with CMPD policy.
4. When an offense is committed within the territory described above, under circumstances that would authorize an arrest without a warrant, an officer has the authority to pursue and arrest an offender who is in immediate and continuous flight, outside said territory, in accordance with CMPD policy.
5. Officers in pursuit of a person who is in immediate and continuous flight from the commission of a crime dangerous to life are authorized to enter South Carolina in a vehicle or foot pursuit to affect the arrest of the offender. Officers engaged in a vehicle pursuit into the State of South Carolina for a crime dangerous to life must adhere to the provisions set forth in CMPD Directive 600-022 Emergency Response and Pursuit Vehicle Operations.
6. Cooperation Between Law-Enforcement Agencies

The Chief of Police, or designee, pursuant to state law, may temporarily provide assistance to another municipal or county police department, or sheriff's office in enforcing the laws of North Carolina if requested in writing by the head of the requesting agency. While working for the requesting agency, officers will have the same jurisdiction, powers, rights, privileges, and immunities as the officers of the requesting agency.

		Effective Date: 12/14/2021	2 of 3

7. Assistance to State Law Enforcement Agencies

The Chief of Police, or designee, pursuant to state law, may temporarily provide assistance to a state law enforcement agency in enforcing the laws of North Carolina if requested in writing by the head of the state agency. While working with the state agency, an officer will have the same jurisdiction, powers, rights, privileges, and immunities as the officers of the state agency.

B. Oath of Office

Before entering upon the discharge of their duties, the Chief of Police and each CMPD officer will swear or affirm to the following oath administered by the City of Charlotte Clerk or other official authorized by law to administer such oaths:

I, [individual officer's name], do solemnly swear (or affirm) that I will support and maintain the Constitution and laws of the United States, and the Constitution and laws of North Carolina not inconsistent herewith; that I will be alert and vigilant to enforce the criminal laws of this State; that I will not be influenced in any manner on account of personal bias or prejudice; that I will faithfully and impartially execute the duties of my office as a law enforcement officer according to the best of my skill, abilities, and judgment; so help me, God.

C. Discretion

CMPD officers are authorized to make discretionary decisions within their lawful span of authority. Officers have the discretion not to arrest except for offenses and violations in which the suspect, by law, must be arrested. The use of discretion includes the use of alternatives to arrest.

Alternatives to arrest available to officers include, but are not limited to, the use of citations for non-violent misdemeanors; verbal and written warnings; referral to other agencies; and referrals to drug treatment programs.

D. Empowerment

Empowerment is the concept of transferring decision-making, controls, and information to the lowest ranking levels of CMPD.

1. Supervisors and managers must create a work environment where employees will choose to exert themselves to deliver a higher level of service to the public and the department. This environment will enable employees to make prompt, informed decisions within their responsibility.
2. This decision-making ability is accompanied by the delegated authority and each employee is accountable for the use of this delegated authority.
3. The empowerment of employees will require supervisors to clearly communicate expectations to employees to transfer decision-making responsibility to the employee. Supervisors will remain accountable for the activities of employees under their immediate command.

	Interactive Directives Guide		Jurisdiction and Authority
	Effective Date: 12/14/2021		3 of 3

E. Delegated Authority

When command level supervisors and managers are unavailable to provide command and supervision of their area of responsibility, they will delegate this authority to another supervisor or manager. When delegating this authority, notification will be made electronically or in writing to their immediate superior and communications supervisors.

1. The supervisor that has been delegated the authority of his/her command level supervisor or manager will have the authority and responsibility to supervise their delegated area of responsibility and all personnel. These supervisors are accountable for the decisions made under that delegated authority.
2. In the sudden or unplanned absence of the command level supervisor or manager, and if no acting commanding officer or manager has been designated, the senior ranking officer in that same chain of command will assume command until relieved by a higher authority.

The public grants law enforcement in general, and the Charlotte-Mecklenburg Police Department (CMPD) in particular, considerable authority to act on its behalf to create an environment as free of crime, the fear of crime, drug abuse, violence, and disorder as possible. In *Policing a Free Society*, Herman Goldstein notes:

Tensions and hostility are a part of policing. Police officers must, as part of their job, issue orders to people, catch them in violation of laws, deprive them of their freedom, and bring charges that may lead to the imposition of severe punishment. Contacts between officers and citizens are often initiated under conditions that are emotionally charged, such as immediately after a fight or other disturbance, or following the commission of a crime. Even the person getting a traffic ticket frequently becomes indignant. However scrupulous the policy may be in carrying out their responsibilities, they are bound to incur the wrath of some of those against whom they must proceed. This hostility manifests itself in various forms – sometimes immediately, by verbal abuse or physical resistance to the police; sometimes later, by alleging that the officer's actions were improper or illegal. Under such circumstances, an officer must be able to count on support for actions taken in the line of duty. As we noted in the preceding chapter, the police officer expects and indeed needs some insulation from the community being served. But insulation can serve as a shield for the officer who is not so scrupulous – who in fact acts improperly.¹

The adversarial nature of policing is one of the key factors noted by Goldstein (1977) that complicates the control and review of law enforcement actions and behavior. Although in almost all encounters with the public, CMPD employees use this authority appropriately, there are instances when citizens have legitimate questions about how this authority has been used. Unfortunately, there are instances when this authority is abused. Therefore, a system of discipline must be established that contributes to minimizing abuse of authority and supports the professional reputation of the CMPD.

The most effective disciplinary system is one that combines reinforcement of the right set of employee values with consistently and fairly applied behavioral standards that are established in clear policies, procedures, and rules. Each CMPD employee must understand and be guided by the standards established in the CMPD's policies, rules, regulations, and procedures.

Employees of the CMPD are expected to conduct themselves, both in interactions with each other and with the public, in a manner that conveys respect, honesty, integrity, and dedication to public service. In turn, employees of the CMPD can expect to be treated fairly, honestly, and respectfully by their peers and other CMPD employees who hold positions of greater or lesser organizational authority.

It is recognized and understood that errors in judgment will occur while employees of the CMPD carry out their job duties. In fact, employees who never make any mistakes are less likely to identify ways to improve the performance of the CMPD. While each error in judgment offers an opportunity for the CMPD and the individual to learn, some errors will have greater consequences for the public, the CMPD, and the employee than others. The CMPD is obligated to make its expectations as clear

as possible to employees. The department has an equal obligation to make the consequences for failing to meet those expectations clear. While both obligations are difficult to meet, the latter is more complex. There are often contributing circumstances that need to be considered when determining the appropriate consequences for errors of judgment and/or poor decisions.

Employees often say they would like the department to give them a list of the prohibited behaviors along with the consequences for engaging in those behaviors, but it can be difficult to outline fair and consistent consequences in advance of abstract disciplinary matters. Experience tells us that when employees are directly involved in the disciplinary process – either as the subject of the process or as a reviewer in the process recommending or deciding the consequences – most want the circumstances that may have contributed to the violation considered. While this is a critical component of consistent and fair discipline application, some employees see fairness and consistency as the same consequences for the same behavior in every case. For the CMPD, **consistency** is defined as holding everyone equally accountable for meeting behavior expectations, and **fairness** as understanding the contributing circumstances in instances where behavior does not meet expectations and applying consequences in a way that reflects this understanding. To ensure that employees are treated consistently and fairly, the application of consequences for behaviors that are not in keeping with the expectations of the department will be based upon a balanced consideration of several factors.

Factors that are considered in the application of discipline are identified and discussed below. It is important to note that not all of these factors will apply in every case, some may not apply to a particular set of circumstances, and it may be necessary to isolate one factor and give it greater importance than another. The listed factors should generally be thought of as interactive and having equal weight unless there are circumstances associated with a specific incident that would give a factor greater or less weight. Factors that will be considered in disciplinary matters include:

Employee Motivation: The CMPD exists to serve the public. One factor in examining an employee's conduct will be whether the employee was operating in the public interest. An employee who violates a policy to accomplish a legitimate law enforcement purpose while demonstrating an understanding of the broader public interest inherent in the situation will be given more positive consideration in the determination of consequences than one who was motivated by personal interest. It will be difficult from time to time for an employee to determine what is in the public interest. For example, would it be acceptable for an employee to knowingly violate an individual's First Amendment right to the freedom of speech to rid the public of what some might call a nuisance? Or is it acceptable as being in the public interest to knowingly violate a Fourth Amendment right against an unlawful search to arrest a dangerous criminal? Although it would not be acceptable for a sworn employee to knowingly violate a citizen's constitutional rights, these are examples of the very complex issues that sworn employees are asked to address. Sworn employees have sworn an oath and have a duty to uphold the U.S. Constitution. It is in the **greater public interest** to protect those constitutional guarantees while carrying out law enforcement responsibilities, even though it could be argued the public interest is better served if they were violated in these individual examples. However, if a sworn employee attempts to employ an innovative nontraditional solution for a persistent crime or public issue and unintentionally runs afoul of a minor procedure, the CMPD's desire to encourage creativity in our public safety efforts will carry significant weight in the application of resulting consequences.

The Degree of Harm: The degree of harm caused by an error is also an important aspect in determining the consequences of an employee's behavior. Harm can be measured in a variety of ways. It can be measured in terms of the monetary cost to the CMPD and the community. If, for example, an error causes significant damage to a vehicle, the repair costs can be a consideration when determining consequences. Harm can also be measured in terms of personal injury caused by the error. If, for example, an individual is physically harmed because of an unnecessary level of control, the degree of injury can be a consideration when determining the consequences. Another way in which harm can be measured is the impact of the error on the public's confidence in the CMPD. If, for example, an employee engages in criminal behavior like selling drugs or driving under the influence, and the consequences do not send a clear unmistakable message that this behavior will not be tolerated, the public's confidence in the CMPD can be negatively affected.

Employee Experience: The experience of the employee will be taken into consideration as well. A relatively new employee (or a more experienced employee in an unfamiliar assignment) will be given greater consideration when judgmental errors are made. In the same vein, employees who make judgmental errors that would not be expected of one who has a significant amount of experience may expect to receive more serious sanctions.

Intentional/Unintentional Errors: Employees will make errors that can be classified as either intentional or unintentional. An **unintentional** error is an action or decision that turns out to be wrong but, based on the information available at the time, seemed to be compliant with policy and the most appropriate course of action. For example, a supervisor permits the continuance of a vehicle pursuit because the vehicle and occupants meet the general description of armed robbery suspects. The pursuit ends in a serious accident, and it is determined that the driver was not connected to the armed robbery but was fleeing because his driver's license is expired. Under these circumstances, the supervisor's decision would be supported by policy based on the information available at the time that the decision was made. **Unintentional** errors also include those momentary lapses of judgment or acts of carelessness that result in minimal harm (e.g., backing a police cruiser into a pole, failing to turn in a report, etc.). Employees will be held accountable for these errors, but the consequences will be more corrective than punitive unless the same errors persist.

An **intentional** error is an action or a decision that an employee makes that is known (or should be known) to conflict with laws, policies, procedures, or rules when the action was taken, or the decision was made. Generally, intentional errors will be treated more seriously and carry greater consequences. Within the framework of intentional errors, certain behaviors are entirely inconsistent with the responsibilities of CMPD employees, including lying, theft, abuse of citizens, and other equally serious breaches of the trust placed in members of the law enforcement profession. The nature of law enforcement responsibility requires that sworn employees be truthful. It is recognized, however, that it is sometimes difficult to determine whether an individual is being truthful. **The department will terminate an employee's employment when it is clear the employee is intentionally being untruthful. Every effort will also be made to separate individuals from the department found to have engaged in theft or serious abuse of citizens.**

Employee History: To the extent allowed by law and policy, an employee's history will be taken into consideration in determining the consequences of a failure to meet the department's expectations. An employee who continually makes errors can expect the consequences of this

POLICE	Charlotte-Mecklenburg Police Department		100-004
	Interactive Directives Guide	Discipline Philosophy	
		Effective Date: 9/9/2024	4 of 4

behavior to become progressively more punitive. An employee who has a record of few or no errors can expect less stringent consequences. Also, an employee whose past reflects hard work and dedication to the community and department will be given every consideration in the determination of any disciplinary action.

Following the careful consideration of all applicable factors in any disciplinary review, every effort will be made to determine consequences that consistently and fairly fit each specific incident, and the rationale for disciplinary decisions will be explained as clearly as possible.

The CMPD has a well-established tradition of serving the community with integrity and in a professional manner. It is among the finest law enforcement organizations in this nation. To maintain that tradition and continue improving the quality of service the department provides to the community, every employee must accept responsibility for their role in maintaining integrity, quality, and high professional standards.

I. PURPOSE

This directive outlines the general organizational structures and composition of the Charlotte-Mecklenburg Police Department's (CMPD) Patrol Services Group.

It is designed to provide sworn employees assigned to patrol with a source of information to assist in accomplishing administrative tasks, preliminary investigations, and basic service functions. II. POLICY

The CMPD will provide twenty-four (24) hour police service to the City of Charlotte and the unincorporated areas of Mecklenburg County. Every patrol division within the Patrol Services Group will maintain shift configurations to ensure adequate staffing for twenty-four (24) hour police coverage for their assigned geographic locations. I. PURPOSE

This policy establishes guidelines and procedures for the Charlotte-Mecklenburg Police Department (CMPD) related to addressing employee misconduct in a uniform manner, providing the public with fair and effective avenues for complaints against the CMPD or employees, and ensuring that employees accused of misconduct are treated fairly.

II. POLICY

CMPD employees are expected to maintain professional standards in their conduct while on and/or off duty and observe all policies and procedures. CMPD will fully investigate and document complaints of employee misconduct to final disposition. When directed by the designated department authority, employees are required to make truthful statements during administrative investigations or inquiries.

CMPD is responsible for identifying and addressing employee behavior that discredits the organization or impairs the efficiency of its operations. The rights of the employee and public must be preserved, and any investigation or hearing that may arise from a complaint will be conducted fairly and timely, with truth as its primary objective.

III. DEFINITIONS

- A. Adjudication: A formal ruling on an allegation of employee misconduct at the conclusion of the investigation. Allegations entered into IACMS will be adjudicated using a ruling of exonerated, not sustained, sustained, or unfounded.
- B. Chain of Command Review Board (COC): A disciplinary review board comprised of an employee's immediate chain of command.
- C. Citizens Review Board (CRB): An eleven (11) member advisory board to the Chief of Police, city manager, and city council with the principal function of reviewing appeals by complainants on dispositions imposed by the Chief of Police regarding allegations of misconduct against sworn employees. The board may hear appeals regarding allegations concerning:
 - 1. Excessive response to resistance
 - 2. Unbecoming conduct
 - 3. Arrest search and seizure
 - 4. Arbitrary profiling
 - 5. Neglect of duty
- D. Civil Service Board (CSB): A seven (7) member board with the principal function of establishing requirements for police and fire applicants. The CSB convenes to hold hearings of sworn employees against whom charges have been brought and approve agency hirings, promotions, demotions, and terminations. Members of the CSB are appointed to three (3) year terms by the city council and mayor.

		Effective Date: 9/14/2023	2 of 16

- E. Impact Statement: A statement offered by the complainant of the personal impact that the alleged misconduct had on the complainant. The impact statement will be considered by the board when deliberating CRB reviewable misconduct allegations and provide information for the board to consider when evaluating the degree of harm caused by the alleged misconduct, specifically related to the complainant.
- F. Independent Chain of Command Review Board (ICOC): A disciplinary review board comprised of supervisors and peers when selected who are not members of the employee's immediate chain of command. ICOC members are selected from a pool of available supervisors and peers.

- H. Mini Board: An independent chain of command board that reviews investigations when there is less than a fair probability that an employee's alleged misconduct occurred. These cases will be given a final disposition of not sustained, exonerated, unfounded, or will be recommended for a full COC. The employee is not required to attend the hearing.
- I. Training and Tactics Review Team (TTRT): An internal review team designated by the Chief of Police comprised of personnel with advanced knowledge, training, and experience regarding a specific subject.

IV. PROCEDURE

- A. Internal Affairs Case Management System (IACMS) investigations of employee misconduct require review and disposition by an employee's chain of command and review by the Internal Affairs Division. Upon completion, each member within the chain of command will utilize the IACMS transfer function to route the investigation to the next higher-level chain of command member.
- B. Allegations of employee misconduct, dispositions, discipline, and completed investigations will be recorded and stored in IACMS except for investigations conducted by the Human Resources Division. Paper copies will be maintained in the secured storage area within the Internal Affairs Division and archived per Directive 800-004, Records Retention and Disposition.
- C. The Chief of Police or designee may place an employee on administrative leave with or without pay when an employee's presence at work would be a detriment to department efficiency or public safety. This action may occur before the employee is provided an opportunity to explain or justify their behavior. The Internal Affairs Division is responsible for notifying the employee in writing of this action and submitting a copy of the notification to the Human Resources Division and the employee's chain of command.

- E. General IACMS Investigative Information
 - 1. Supervisors will enter a preliminary synopsis of all facts known at the time in IACMS before ending their tour of duty on the day that the event occurred.
 - 2. An open internal investigation can be a source of stress for employees. In recognition of this, supervisors will adhere to specific timeframes based on the incident being investigated. If more time is required to conduct a thorough investigation, the employee will be notified of the delay. The following timeframes include the time for the incident to be investigated and ruled upon by the employee's chain of command:
 - a. Motor vehicle crashes 14 days
 - b. Employee injury 14 days
 - c. Animal euthanasia 14 days
 - d. Raid and search 14 days
 - e. Deployment of tire deflation device (TDD) 14 days
 - f. Response to resistance (non-deadly) 14 days
 - g. Non-force subject injury 14 days
 - h. Pursuit 24 days
 - i. All others 45 days
 - 3. Supervisors will ensure that employees, including those involved or witnesses, enter their statements before ending their tour of duty. Employees will not transcribe their IACMS statement to their KBCOPS statement or vice versa (e.g., cut and paste).
- F. Receiving and Processing Allegations of Employee Misconduct
 - 1. Complaints will be accepted from any source, including by person, mail, email, CMPD Website, or telephone. Supervisors must make reasonable and diligent efforts to obtain a statement from any complaining party.
 - a. Every complaining party will be referred to a supervisor, the Internal Affairs Division, or the Human Resources Division so the complaint may be received.
 - b. Without exception, every complaint, which, if true, would constitute a violation of CMPD policy, must be thoroughly investigated and documented by a supervisor or Human Resources Division.

- c. Complaints received electronically or by telephone message (e.g., voicemail) will require a prompt supervisor response and documentation of the response. The supervisors may respond in the same manner the complaint was received (e.g., return phone call or email).
- d. Anonymous complaints will be accepted. The Internal Affairs Division major will review each anonymous complaint and determine the feasibility of further investigation.
2. The Internal Affairs Division may be contacted for consultation on any allegations of employee misconduct.
3. Allegations of employee misconduct serious enough to require immediate action, such as suspension from duty, must be referred promptly to the Internal Affairs Division and the employee's chain of command up to the rank of deputy chief for review and recommendation to the Chief of Police.
4. The Internal Affairs Division major will review all complaint investigations and report directly to the Chief of Police.
5. The investigating supervisor will notify the employee as soon as practical following receipt of the complaint unless doing so would impact the integrity of the administrative and/or criminal investigation.
6. Supervisors will make every effort to investigate and adjudicate a complaint, including employee notification of complaint disposition, within forty-five (45) days of its reception.
7. Complaints will be investigated by the responsible unit outlined in Appendix A unless directed otherwise by the Chief of Police or Internal Affairs Division major. The employee's deputy chief must be notified of a transfer/referral of an investigation/complaint by the Internal Affairs Division to the employee's chain of command or transfer/referral of an investigation/complaint from the employee's chain of command (other than for the formal closing of the case) to the Internal Affairs Division.
8. The supervisor assigned to a complaint will ensure that the complaining party and the accused employee are promptly notified, either orally or in writing, of any delay extending case adjudication beyond the forty-five (45) day period. The notification will include the reason for the delay and the anticipated completion date.
 - a. The supervisor will record delay notifications in an IACMS supervisor synopsis by noting the date and time, the person notified, and the explanation for the delay or by attaching a written notification to the IACMS case file.

		Effective Date: 9/14/2023	5 of 16

- b. The supervisor of the accused employee will ensure the accused employee is notified and acknowledges the allegation through the IACMS case file.
- c. The Internal Affairs Division will notify all complainants in writing of the complaint conclusion, ensuring that the notification is consistent with personnel privacy law provisions, and attach the record to the IACMS case file.

3. The employee's supervisor will be notified when the employee is required to leave their assigned duties or area of assignment.

The employee will, however, be allowed to select a supervisor to speak with about case details and be present during administrative interviews as a means of support throughout the administrative investigation process.
 - a. Any supervisor an employee selects for this purpose will not be an employee subject to investigation in the same incident.
 - b. The supervisor selected must be on duty and available at the time of the initial interview. The supervisor will be only one level above the investigated employee.
 - c. The employee must sign a waiver to speak with the selected supervisor, and the supervisor must sign a confidentiality memorandum.
5. Before the interview begins, the employee must be informed in writing of the administrative advice of rights and the nature of the allegations against them.

B. Employee Interview Participation

1. The employee must completely and truthfully answer all questions the investigating supervisor poses in an administrative investigation and will not intentionally omit material facts.
2. Prior to the interview, the employee must be informed that refusal to answer questions in an administrative investigation can become the basis for corrective action.
3. Prior to the interview, the employee must be advised in writing (or orally, if the interview is conducted by telephone and the conversation is recorded) that they have no constitutional right to refuse to answer questions relating to the investigation because nothing they say in response to questions can or will be used against them in a criminal prosecution.
4. The investigating supervisor shall attach the advisement of administrative rights form or recorded acknowledgment to the IACMS case file

C. Criminal Investigations

Criminal investigations will not be conducted by the Internal Affairs Division and will be referred to the appropriate criminal investigative unit or agency. Employees subject to criminal investigations will be afforded all applicable constitutional rights.

D. Training and Tactics Review Team (TTRT)

The TTRT may review employee case files in accordance with the Training and Tactics Review Team SOP and serve as a resource for the employee's review board hearing. TTRT members must sign a confidentiality agreement to review employee case files. In addition, the employee requesting the TTRT review must provide written consent authorizing the TTRT review. The TTRT may review the following internal cases:

1. Response to resistance and conducted electrical weapons (CEW)
2. Fourth Amendment
3. Any investigation as determined by the Chief of Police

E. Polygraph Examination

The following procedures will be used in situations involving polygraph examinations.

1. In a criminal investigation, the employee must be advised of the right to refuse a polygraph examination. Should the employee waive this right and consent to the polygraph examination, the employee will be informed that CMPD can use any statement or evidence derived from the examination in the administrative and criminal action.

	Charlotte-Mecklenburg Police Department		200-001
	Interactive Directives Guide	Discipline, Internal Investigations, and Employee Rights	
		Effective Date: 9/14/2023	7 of 16

2. In an administrative investigation, employees can be required to submit to a polygraph examination. The results of a polygraph examination compelled through an administrative investigation will not be shared with any criminal investigation. Failure to submit may result in corrective action.
3. An employee who is the subject of an investigation may request a polygraph examination.

F. Searches

1. Desks, lockers, storage space, rooms, offices, equipment, information systems, work areas, and vehicles are the property of the City of Charlotte or Mecklenburg County and are subject to inspection. They may be searched to retrieve City of Charlotte or Mecklenburg County property or to discover evidence of work-related misconduct if there is reason to suspect such evidence is there.
2. Private property can be stored in the areas mentioned above; however, employees will not expect privacy in those areas. Only employees acting in their official capacity may be authorized to search or inspect areas assigned to other employees.

G. By using a police telephone line, an employee consents to the conversation being monitored. This includes all communication on city-owned cellular phones.

H. The procedure outlined in this policy does not preclude a supervisor from holding a corrective interview with any assigned employee regarding conduct, work performance, efficiency, attendance, or appearance at any time the supervisor deems necessary when the employee is on duty.

taken that resulted in the complaint or where audio/video clearly refutes the allegation made, a mini-board hearing may be convened to review and adjudicate the investigation. The employee will not be required to attend the mini-board hearing. These cases will be given a final disposition of not sustained, exonerated, unfounded, or will be recommended for a full ICOC.

- C. Except, as noted above in section VI.A, investigations conducted by the Internal Affairs Division that indicate there is less than a fair probability that employee misconduct occurred may be reviewed by the employee's major and captain/manager or through a mini-board hearing. If recommended for a full COC hearing, the employee may select a division/section-level COC and/or ICOC.

- E. Investigations conducted by the service area-level or section-level chain of command will be given a final disposition of sustained, not sustained, exonerated, or unfounded. The employee may choose to waive a hearing and have his or her chain of command adjudicate the investigation or select a division/section-level COC or ICOC board to determine the final disposition. The review board for an employee discharge of a firearm not at a person can be chaired and adjudicated by the Training Division major.
- H. Peer member of the chain of command review board:
1. For any level independent or division chain of command review board, the accused employee may elect to have a peer serve as a board member.
 2. Peer selection process:

VII. ADJUDICATION OF ALLEGATIONS OF EMPLOYEE MISCONDUCT

- A. Each allegation of employee misconduct entered into IACMS must be adjudicated with one of the following rulings:
 - 1. Exonerated: The acts which provided the basis for the complaint or allegation occurred, but the investigation revealed that the acts were justified, lawful, and proper.
 - 2. Not Sustained: The investigation failed to disclose sufficient evidence to prove or disprove the allegation made in the complaint.
 - 3. Sustained: The investigation disclosed sufficient evidence to prove the allegation made in the complaint.
 - 4. Unfounded: The investigation proved the allegation to be unsubstantiated. The incident never occurred or the employee was not involved in the incident, or the investigation conclusively proved that the employee's alleged act or actions which provided the basis for the complaint or allegations did not occur.
- B. Dispositions resulting in active suspensions will not be deferred or suspended.
- C. The accused employee will be notified electronically through IACMS or in writing of the final disposition of each allegation. This notification will occur as soon as practical after the disposition is made, and the notification form will be attached to the electronic case file in the IACMS.
- D. The employee will have the opportunity to read, sign, and date any document containing the results and/or disposition of any investigation before the document is placed in the employee's personnel file. The employee may attach a reply to any adverse complaint in their personnel file. Any reply will also be attached to the electronic case file in IACMS.
- E. Supervisors must ensure that the employee's annual performance review and development (PRD) record includes a summary of a sustained complaint and related counseling or reprimand, which was adjudicated in a performance year.
- F. All reports resulting from an investigation of an employee, including corrective actions taken, are to be provided to the city manager if requested or if the Chief of Police determines the city manager should be apprised of the investigation.
- G. An employee's resignation will not prevent CMPD from rendering a decision concerning an internal investigation.
- H. The Internal Affairs Division Chain of Command Hearing Diversion Program aims to provide an avenue to adjudicate eligible cases without subjecting employees to the stress of a full board. This process includes:

	Charlotte-Mecklenburg Police Department		200-001
	Interactive Directives Guide	Discipline, Internal Investigations, and Employee Rights	
		Effective Date: 9/14/2023	11 of 16

1. Only internally generated complaints are eligible. External complaints (complaints generated by a member of the public) must follow the standard board process.
2. The employee must admit to violating the Rule of Conduct under investigation to the investigating Internal Affairs Division sergeant.
3. The employee will be given the option of having the case adjudicated by the service area major.
4. The service area major will be limited in the severity of the corrective action imposed. The maximum corrective action will be twenty-four (24) hours suspended without pay. If the service area major believes the corrective action could or should exceed a twenty-four (24) hour suspension, the case will be returned to the Internal Affairs Division, and an ICOC board will be convened.
5. Cases eligible for diversion will be determined by the Internal Affairs Division command staff. The determination will depend on the severity of the event to maintain department-wide consistency within the discipline process.

XIII. CORRECTIVE ACTION GUIDELINES FOR SUSTAINED ALLEGATIONS OF MISCONDUCT

- A. Any internal investigation that results in a sustained finding requires appropriate corrective action by the Chief of Police or designee. Corrective actions will be guided by Directive 100-004, Discipline Philosophy.
- B. Training is a non-punitive component of the CMPD discipline philosophy designed to improve a member's productivity and effectiveness using positive education and instructional methods. Training may be implemented on its own, combined with, or take the place of, other components of the CMPD discipline philosophy to correct employee misconduct and/or improve performance deficiencies. Training may also be recommended for allegations not sustained but where a performance deficiency has been noted. When training is implemented, the employee's supervisor will coordinate with the Training Division to develop a specific training plan.
- C. Counseling is a non-punitive component of the CMPD discipline philosophy intended to correct minor acts of employee misconduct and/or performance deficiencies. Counseling allows supervisors to discuss improvement strategies with the employee concerning work performance deficiencies and/or minor acts of misconduct.
- D. A written reprimand is the lowest form of formal corrective action and is not to be issued when previous corrective actions have not resulted in the expected improvement or when an employee commits a more serious act of misconduct. Written reprimands will include a description of the incident(s) of misconduct, including specific dates and times, locations, policies, and/or procedures violated. The [Written Reprimand Memo](#) located on the CMPD Portal Page should be utilized.

	Charlotte-Mecklenburg Police Department		200-001
	Interactive Directives Guide	Discipline, Internal Investigations, and Employee Rights	
		Effective Date: 9/14/2023	12 of 16

- E. Records of training, counseling, or reprimand resulting from a complaint investigation shall be attached to the IACMS case file before forwarding the case file to the Internal Affairs Division for closure.
- F. Suspension without Pay
 - 1. Suspension hours imposed upon an employee as a result of a formal corrective action will be levied in eight (8) hour increments.
 - 2. Suspension hours imposed upon an employee will be entered into IACMS, where the employee will be electronically notified of the final adjudication and suspension hours prior to case closure by the Internal Affairs Division.
 - 3. Employees suspended without pay for twenty-four (24) hours or less may forfeit accrued vacation leave for all or part of the suspension.
 - 4. Employees suspended without pay for thirty-two (32) hours or more may forfeit accrued vacation leave for as much as one-half of the suspension.
 - 5. Employees may forfeit accrued vacation leave for all or part of a suspension only one time in any consecutive twelve (12) month period.
 - 6. This provision applies only to suspensions imposed by the Chief of Police or designee. It does not apply to any suspension imposed by the Civil Service Board.
- G. Employees are prohibited from engaging in law-enforcement-related secondary employment while on suspension from CMPD.
- H. Employees who have been served a subpoena are still legally bound to attend court while on suspension.

IX. APPEALS AND GRIEVANCES

- A. Employees shall refer to the City of Charlotte's Grievance Policy for full guidelines.
- B. All regular-status full-time, part-time, and temporary-status employees (excluding rehired retirees, seasonal interns, and volunteers) who have successfully completed their new hire probationary period are eligible to initiate the City of Charlotte grievance policy. Sworn employees who have completed their probationary period may use the grievance policy only for matters outside of the purview of the Civil Service Board. Grievable matters include but are not limited to:

 - b. The effective date of the termination.

- e. The board will review the impact statement at the beginning of the deliberation period.

F. Deputy Chief Review Process

1. In cases resulting in a suspension exceeding forty (40) hours, employees may seek their deputy chief's review of the Internal Affairs Division investigative file and hearing audio file. Employees who request a deputy chief review must submit the request in writing using the Appeal to Employee's Deputy Chief Form provided by the Internal Affairs Division to the Internal Affairs Division within three (3) calendar days following the date of the Internal Affairs Division ICOC or COC hearing. The written request must specifically indicate the basis for the appeal and include all relevant facts the employee wishes the deputy chief to consider during the review. Appealable matters include:
 - a. The Internal Affairs Division investigative file was insufficient or lacked key evidence. Employees must specifically state what relevant material or evidence was absent that may have affected the board's decision.
 - b. The ICOC hearing process was insufficient or biased against the employee. Examples may include the employee having articulable cause to believe a board member was biased towards the employee, which influenced the board's decision, or the board did not provide the employee an opportunity to provide any mitigating information or statements.
 - c. Any other specific occurrence to indicate the employee was not afforded his or her due process per this policy or information demonstrating the employee's outcome was inconsistent with the department's discipline philosophy.
2. If a specific reason articulating the justification for a deputy chief appeal is absent, a deputy chief will not review the employee's case. For cases that a deputy chief reviews, the review will occur within five (5) business days upon approval of the appeal from the Internal Affairs Division. The deputy chief will review the relevant content of the case based on the employee's basis for appeal, and one of the following two (2) outcomes may occur:
 - a. The deputy chief may determine there is insufficient cause to indicate the employee's internal affairs process or hearing was not conducted appropriately, in which case the matter will be closed.
 - b. If the deputy chief determines there is sufficient cause to indicate an employee's internal affairs process or outcome was inconsistent with departmental standards, the case will be referred to the Internal Affairs Division, and the employee will be afforded a second board hearing with a different panel of board members. The deputy chief will also determine any further case investigation or evidentiary items to be added to the case file.

Any changes to the ruling and/or suspension time resulting from a secondary hearing will be properly corrected by the Internal Affairs Division and Human Resources Division.
4. Employees who waive their option to have an ICOC or COC hearing are not eligible to request a deputy chief review.
5. Employees who have separated (resigned or retired) from the department prior to the initial board hearing or while pending the secondary hearing are not eligible for the secondary hearing process.

I. PURPOSE

This policy establishes procedures for Charlotte-Mecklenburg Police Department (CMPD) employees that are transferring to a new assignment within or separating from the department.

II. POLICY

When employees separate their employment or transfer within the department, they must transfer the responsibilities of their current position in an organized manner. Employees must have adequate time to complete the final separation. Employees transferring within the department are obligated to ensure a smooth transition between assignments. The Chief of Police has the sole discretion on all personnel assignments. CMPD desires to assign the best possible employee for each assignment.

III. DEFINITIONS

- A. **Transfer:** Reassignment from a currently held position to another position. A newly assigned position made through a transfer can be within or outside of the current organizational unit and can be used to fill vacant positions or positions created by organizational expansion.
- B. **Department-Wide Transfer:** A transfer that is open to any eligible and qualified employee within CMPD for the purpose of filling a vacancy. The vacancy will be approved by a deputy chief or a designee and will be forwarded to the CMPD Human Resources Division (CMPD HR) for posting.
- C. **Division/Bureau-Level Transfer:** A transfer that is open to any eligible and qualified employee within the division/bureau for the purpose of filling a vacancy for a non-patrol function. Division Level transfers can be changed to department-wide transfers at the discretion of the division major. The vacancy will be approved by the service area major of the unit attempting to fill the vacancy.
- D. **Organizational Fit:** The compatibility and balance between the work-related skills of a candidate and the needs of the organization.
- E. **Relevant Job Experience:** Describes previous work, assignments, training, etc., a person has in preparation for a new assignment for which he or she is applying.
- F. **Patrol Immersion Program:** A program that allows a sworn employee to swap divisions with another sworn employee for a month. This will allow CORE-4 growth for the sworn employee through learning a different geographical area and experiencing a new community and policing cultures within CMPD.
- G. **Ride-Along:** An opportunity available to officers to spend a short duration of time (typically less than fourteen (14) days) working in another assignment for professional development.
- H. **Specialized Assignment:** Duties that require specialized training to successfully perform the job requirements. This includes those functions for which both pre- and post-

	Charlotte-Mecklenburg Police Department		200-002
	Interactive Directives Guide	Employee Transfers and Separation

assignment specialized training is required. The following units are considered specialized assignments:

1. Aviation – Helicopter,
2. Bomb Squad,
3. Canine Unit (K9),
4. DWI Task Force,
5. Lake Enforcement Unit,
6. Major Crash Investigation Unit,
7. Motorcycle Unit,
8. Special Weapons and Tactics (SWAT) Team,
9. Violent Criminal Apprehension Team (VCAT).

The eligibility requirements and the process for selection for these assignments are covered in the individual division and unit SOPs.

Vacancies for these specialized assignments will be advertised department-wide.

All specialized assignments will be evaluated annually by the appropriate chain of command. This evaluation will include a review of the initial problems or conditions that justified the creation of the assignment and a review of the services provided during the previous year to determine the continued need for the specialized assignment.

	Charlotte-Mecklenburg Police Department		200-006
	Interactive Directives Guide		Diversion Program
			Effective Date: 10/04/2022

I. PURPOSE

The purpose of this directive is to establish guidelines for the management of the Charlotte-Mecklenburg Police Department (CMPD) diversion program.

II. POLICY

Administered by CMPD, the goal of the program is to improve patterns of offender behavior by offering alternatives outside of the criminal justice system.

Qualified juveniles and adult offenders will be referred to the diversion program manager who will oversee the program. Participants will undergo an assessment that may recommend various interventions to reduce recidivism. Sworn employees should clearly articulate any reason for not referring qualified participants to the diversion program in their confidential narratives.

III. DEFINITIONS

- A. Youth Offender: For the purposes of this directive, the term Youth Offender will refer to any offender ages 10-17 years old.
- B. Adult Offender: For the purpose of this directive, the term Adult Offender will refer to any offender 18-24 years old.
- C. First Time Offender: An offender who has never been charged with any serious crime. A single minor charge such as trespassing or possession of marijuana may not exclude the offender from being considered a First Time Offender. All exceptions are at the discretion of the diversion program manager, and/or unit lieutenant.
- D. Diversion Program Manager: The CMPD designee responsible for the daily administration of the diversion program.
- E. Diversion Specialist: The CMPD assigned civilian responsible for managing and tracking diversions in KBCOPS and reviewing the diversion contract with the offender.
- F. CMPD's Diversion Restitution Program: Funds allotted to participants who cannot provide the resources to reimburse a victim (youth diversion maximum is \$500, adult diversion maximum is \$1500).

IV. PROCEDURE

A. Screening

Prior to completing a juvenile or adult arrest, sworn employees will check the offender's juvenile and or adult arrest histories. In cases involving a qualified felony diversion, sworn employees will check both juvenile and adult arrest records. If the offender has a previous arrest history, he/she may not qualify for diversion. Under limited circumstances, the diversion program manager may accept offenders with a prior arrest or a prior referral. Previous arrests for minor crimes such as trespassing, or possession of marijuana may not automatically disqualify the offenders from the

	Charlotte-Mecklenburg Police Department		200-006
	Interactive Directives Guide	Diversion Program	
		Effective Date: 10/04/2022	2 of 7

diversion. In these cases, the sworn employee must articulate knowledge of the prior arrest or diversion referral and request an exception under special circumstances. The diversion program manager will review the case to determine the offender's eligibility.

1. Youth Diversion Program Disqualifiers:

- a. The offender has a prior arrest history. An arrest or referral for a minor crime such as trespassing, or possession of marijuana may not disqualify the youth.
- b. The case under review is a felony case. A felony case for a property crime and other listed offenses will be considered as approved by the Mecklenburg County District Attorney's Office.
- c. The offender lives outside of the Charlotte Metropolitan Area (Mecklenburg, Union, Stanley, Cabarrus, Rowan, Iredell, Catawba, Lincoln and Gaston counties).
- d. The victim makes a request for restitution of more than \$500.
- e. After consultation, the victim requests that the offender to be criminally prosecuted.
- f. The offender refuses to participate in the diversion process.

2. Adult Diversion Program Disqualifiers:

- a. The offender is over 24 years of age.
- b. The offender has a prior arrest record as a juvenile or adult. A single arrest for a minor crime such as trespassing, or possession of marijuana may not disqualify the offender.
- c. The offender lives outside of the Charlotte Metropolitan Area (Mecklenburg, Union, Stanley, Cabarrus, Rowan, Iredell, Catawba, Lincoln and Gaston counties).
- d. The restitution amount is over \$1,500.
- e. The offender refuses to participate in the diversion process.
- f. A criminal background check reveals an arrest outside of Mecklenburg County that would disqualify the offender from participation.
- g. The Mecklenburg County District Attorney's Office rejects the diversion.

- k. Intoxicated and Disruptive.
- l. Damage to property/vandalism.

C. If the offender has no arrest history and the offense is one of those listed in IV.B. 1 or 2, a referral will be made. Sworn employees will complete the KBCOPS report and click Diverted Youth (under 18) or Diverted Adult (18 -under 25) under the suspect status instead of not in custody or convicted. Sworn employees will also include at the bottom of the narrative: "This case has been routed to the diversion program". The case will be marked for further investigation and the sworn employee's involvement with the case will end, (unless the offender fails to successfully complete the diversion program requirements).

If the sworn employee believes a youth offender can benefit from diversion for undisciplined behavior and there is no KBCOPS report, a KBCOPS Miscellaneous Incident (MI) report should be completed. In the event the case remains in the sworn employee's queue, or the case was not routed properly, the sworn employee should follow up with a member of the diversion unit.

D. Division supervisors approving sworn employee reports will route all diversion cases to "30 Diversion" located in the KBCOPS routing options. The diversion program manager will assign the cases to the diversion specialist, who will track the diversions through completion and close/clear the reports from the KBCOPS system. Declined case referrals or cases with property attached for PLIMS disposition will be routed back to the referring sworn employee for follow-up and closing.

E. Youth Diversion

The program requirements for diversion will be determined by the assessment administered by the Diversion Specialist. Any request to modify program requirements will be reviewed by the program manager/lieutenant. If an offender fails to successfully complete the diversion program requirements within the allotted timeframe for assigned classes, the diversion specialist will complete a supplement indicating the youth did not complete the program. If a juvenile arrest is warranted, an email will be sent to the originating sworn employee along with the notes in the KBCOPS report. The final disposition will be determined by the originating sworn employee to arrest or not to arrest. Arrest determination must be clearly articulated in the confidential narrative prior to closing the case.

F. Adult Diversion

1. The originating sworn employee must confirm positive identification and search KBCOPS, NCIC, AOC, NCAWARE, and any other applicable databases to determine offender eligibility for diversion at the time of the potential arrest. If positive identification is not possible, an arrest should be made.
2. If the offender does not have a previous arrest or has a qualifying previous minor offense, the case can be transferred to the Diversion Program in KBCOPS as a secondary assignment until all papering is complete. The originating sworn employee is responsible for papering the case with the District Attorney's office even if the case is accepted in the diversion program.
3. The diversion specialist will review all referrals to the adult diversion program. If the case does not qualify, the case will be routed back to the originating sworn employee for arrest, papering and prosecution. The specialist will contact the victim listed in the KBCOPS report to verify the restitution amount and explain the diversion program. The diversion specialist will also have the victim complete the necessary paperwork if restitution is owed. The specialist will review the diversion contract with the offender, including class hours, participation, and restitution requirements.
4. If the offender refuses to agree to the requirements in the contract, the case will be routed back to the originating sworn employee for arrest, papering, and prosecution. If the case qualifies for diversion, the diversion specialist will send the case to the Mecklenburg County District Attorney's Office for diversion approval. All adult diversion participants will be added to the KBCOPS watch list for the duration of the program. If the offender is arrested for a new charge while participating in the diversion program, the District Attorney's Office will be notified to determine appropriate next steps.

G. Restitution

1. All restitution required in the contract will be paid to CMPD in the form of a certified check, cashier's check, or money order. If the full restitution amount is paid by a certified check, the certified check can be made payable to the victim and delivered to the victim by CMPD.
2. After full restitution is collected, CMPD will issue a check to the victim.
3. If the offender is participating in CMPD's Diversion Restitution Program or Reach Out, diversion personnel will request a check for the total number of hours completed to be issued to the victim, after completing additional programming.
4. The victim will be required to complete the necessary paperwork to receive the restitution check from the City of Charlotte.
5. The offender has 3, 6, or 12 months from the contract date to complete the restitution requirement based on their assigned class requirements.
6. If the offender fails to complete the restitution requirement within the allotted time frame, the case will be sent to the originating sworn employee for arrest, papering, and prosecution.
7. All restitution payments will be documented in KBCOPS.

H. Program Requirements

All participants in the adult diversion program will be required to complete 25 to 100 hours of diversion classes within 3, 6, or 12 months of the contract date. Failure to complete the class hours will result in the offender's case being routed back to the originating sworn employee for arrest, papering, and prosecution. Allotted time requirements are below:

Offense	Program Duration	Time to Complete
Low Level	25-50 Hours	3 Months
Mid-Level	50-75 Hours	6 Months
High Level	75+ Hours	12 Months

I. Post-Arrest Adult Diversions

If a qualifying adult defendant is identified post-arrest for diversion. CMPD will coordinate with the Mecklenburg County District Attorney's Office to screen the referrals. Post-arrest referrals can include an arrest made by a non-CMPD officer at the request of the Mecklenburg County District Attorney's Office.

Post-arrest diversions will follow the same process and screening as a pre-arrest diversion except for the referral source. In addition to the normal pre-arrest diversions, post-arrest referrals for diversion must include consent from the defendant's assigned defense attorney.

		Effective Date: 10/04/2022	7 of 7

If a post-arrest adult defendant fails to complete the required hours or the full restitution requirement, the Mecklenburg County District Attorney’s Office will be notified, and the prosecution of the case will resume.

J. Final Diversion Disposition

After the offender has completed the required class hours and all restitution has been paid, the diversion specialist will update the original KBCOPS report and notify the Mecklenburg County District Attorney’s Office of the final disposition.

Groups meet in schools during school hours or virtually after school and are led by a program team member with the additional involvement of CMPD sworn employees, particularly school resource officers.

B. Police Activities League (P.A.L.)

The Police Activities League (P.A.L.) is a separate 501C-3 organization with a volunteer board of directors. The goal of the P.A.L. is to provide educational, programmatic, and structured support to youth in underserved communities while aiding them in improving their decision-making skills to prepare them for a successful future. I. PURPOSE

This policy establishes guidelines for documenting employee work schedules, timekeeping, attendance, and absences and acknowledges the Charlotte-Mecklenburg Police Department's (CMPD) compliance with the City of Charlotte's pay policy while ensuring compliance with the Fair Labor Standards Act.

II. POLICY

Due to the nature of law enforcement, duty hours and days vary widely within the department. This diversity in scheduling requires that an accurate record be kept of each employee's schedule, work hours, and absences.

This directive sets forth a standardized procedure for the accurate recording of schedules and payroll information, including employees' work time and absences, while allowing for flexibility regarding the compensation of employees with compensatory time or overtime pay within the guidelines of the Fair Labor Standards Act (FLSA) and the City of Charlotte policies.

III. DEFINITIONS

A. Compensatory Time:

1. Earned Compensatory: Hours worked, in addition to those required by a full-time employee's standard schedule, but not yet paid as overtime or used as time off.
2. Used Compensatory: Hours worked, in addition to those required by a full-time employee's standard schedule, but then used as time off.
3. Paid Compensatory: Hours worked, in addition to those required by a full-time employee's standard schedule and paid at the end of the employee's pay cycle. This will be a seven (7) day or a twenty-eight (28) day cycle, depending on the employee's position.

B. Exempt Civilian Employees: Certain civilian employees who are exempt from overtime under the Fair Labor Standards Act.

C. Exempt Sworn Employees: Includes the sworn assignment of lieutenant and above. These employees are exempt from overtime pay under the Fair Labor Standards Act.

D. Family: The City of Charlotte no longer defines family for the use of well-being (formerly sick) leave or bereavement (formerly funeral) leave. Note: This definition is not correlated with the list of family members for which an employee may qualify for leave under the Family Medical Leave Act.

E. Non-Exempt Civilian Employees: Includes civilian employees who are not exempt from overtime pay under FLSA for hours worked above the standard forty (40) hours in a seven (7) day pay cycle.

	Charlotte-Mecklenburg Police Department		300-001
	Interactive Directives Guide	Scheduling, Timekeeping, and Attendance	
		Effective Date: 6/21/2023	2 of 14

- F. Non-Exempt Sworn Employees: Includes police officers and sergeants. Employees in these positions are not exempt from overtime under FLSA for time worked above 171 hours in a twenty-eight (28) day cycle.
- G. Reason Codes: Codes used in the approved time management system of record to indicate why a sworn or non-exempt civilian employee's standard schedule is adjusted. Reason codes also denote when benefit time is used.
1. A reason code must be selected anytime a sworn or non-exempt civilian employee's standard schedule is adjusted. Reason codes will also be used to denote benefit time used for all employees. A list of reason codes can be found in Appendix A.
 2. Upon departmental approval, reason codes will be created by Human Resources Division for special projects and initiatives.
 3. A reason code should be selected by the person initiating the schedule change. If the employee requests the change, the employee is responsible for selecting the appropriate reason code. If a supervisor initiates the change, the supervisor must select the appropriate reason code.
- H. Scheduling Administrators: Civilian or sworn employees at the rank of sergeant or above who have been designated responsible for selecting and building employee schedules. Each division will have at least one scheduling administrator. Divisions with rotating schedules will have two scheduling administrators. Scheduling administrators will be responsible for building a schedule for each sworn and non-exempt civilian employee in the division.
- I. Standard Schedule: All employees are scheduled to work a standard weekly schedule. These standard schedules include the following:
1. Part-time-regular: Standard half-time schedule of twenty (20) hours, or three-quarter-time schedule of thirty (30) hours, as defined by the employee's position.
 2. Regular Full time
 - a. Forty (40) hours weekly.
 - b. Forty-one (41) hours weekly designated as a ten (10) hour shift roll-call schedule.
 - c. Forty-one and a quarter (41.25) hours weekly designated as an eight (8) hour shift roll-call schedule.
 - d. Forty-two and a half (42.50) hours weekly designated as a School Resource Officer (SRO) schedule
 3. Temporary: Temporary employees may be full-time (forty (40) hours) or part-time (twenty (20) to thirty (30) hours). The Human Resources Division shall

specify the length of the appointment and work schedule upon the start of employment.

- J. Training & Education Time: Time spent in department-approved training or education classes, regardless of whether the employee is in or out of town.

IV. CITY OF CHARLOTTE’S WEEKLY PAY SCHEDULE

- A. CMPD employees will be paid on the City of Charlotte’s weekly pay schedule, which runs from Saturday through Friday of each week. Paychecks and direct deposits will be effective the following Friday.
- B. Non-exempt sworn employees will be paid for their standard hours worked unless they surpass one hundred and seventy-one (171) hours in a twenty-eight (28) day cycle. These employees will be paid an additional .5 time for hours worked more than one hundred and seventy-one (171) hours when that threshold is met within the cycle. Hours worked over a sworn employee’s standard hours and coded as “REG”- Regular Earnings will be accrued as compensatory time weekly. The compensatory time will be paid at the end of the cycle unless that time is used before the end of the cycle.
- C. Non-exempt civilian employees will be paid all regular hours and applicable overtime in a seven (7) day cycle.

V. SCHEDULING

- A. Sworn and non-exempt civilian employees will be assigned a standard weekly schedule for each pay cycle. Any variances from that schedule must be documented in the approved time management system. Civilian-exempt employees will be assigned a standard weekly schedule, but it does not need to be recorded in the system of record in advance.
 - 1. All sworn and non-exempt civilian employees must be scheduled in the system for the current twenty-eight (28) day pay cycle.
 - 2. All changes to sworn and non-exempt civilian employee schedules must be recorded in the system.

I. PURPOSE

To establish guidelines for employees of the Charlotte-Mecklenburg Police Department (CMPD) who are placed on light duty assignment.

II. POLICY

Light duty assignment is a privilege extended to departmental employees during periods of disability. The department reserves the right to approve, modify, or terminate an employee's light duty request or status as necessary to ensure the best interests of the department are addressed.

All light duty assignments are coordinated by the CMPD Human Resources Division. Should a manager receive any documentation from an employee requesting light duty and/or stating the employee cannot perform the essential functions of the employee's job, that manager should refer the employee immediately to the Human Resources Division for further consideration.

III. DEFINITIONS

- A. Light Duty: Employee, because of injury or other temporary medical restriction, has been certified as capable of performing certain types of light duty and has been assigned to a CMPD unit with no loss of salary.
- B. Sensitive Items: All firearms, magazines, ammunition, Body Worn Cameras (BWC), Conducted Electrical Weapons (CEW), portable radios, collapsible baton, OC spray, badge, ID and access cards, take-home cars, keys, and fuel cards or any other items as deemed by the CMPD Chain of Command.

IV. PROCEDURE

A. Light Duty

Light duty will only be offered if there is a position available that meets the employee's restrictions. There is not a guarantee of division, shift, or duties. If CMPD does not have a position available that meets the employee's restrictions, the employee must use benefit time. There is a limit of 365 calendar days for non-work-related light duty per injury.

Employees who are injured on the job and who are eligible for Workers' Compensation benefits will be assigned to light duty subject to the following conditions:

1. All requests for light duty should be directed to the Human Resources Division.
2. The employee is temporarily unable to perform the essential functions of the employee's primary job.
3. A medical doctor, satisfactory to the city, certifies the employee is unable to perform the essential functions of the job, and the expected length of time to recover from the contributing condition and that there is no risk of contagion or

infection to other employees. There is no set limit for the duration of a worker's compensation related to light duty.

B. Light Duty Guidelines

1. Each employee will be evaluated on a case-by-case basis on medical information to determine the length of time on light duty and accommodation will be at the discretion of the Chief of Police or Human Resources designee. There is no set limit for the duration of worker's compensation related to light duty. There is a limit of up to 365 calendar days for non-work-related light duty.
2. All worker's compensation related light duty requests will have priority over non-work-related light duty requests.
3. Light duty assignments are intended to be strictly administrative. Sworn employees are restricted from exercising any law enforcement authority while on light duty. Sworn employees shall not engage in any activity which is beyond the physical limitations place on the sworn employee by the employee's medical provider.
4. If a light duty assignment is not available at the time of notification, employees are expected to remain out of work and utilize benefit time until placement is available.
5. Sworn employees who are anticipated to be on light duty/workers' compensation for a period exceeding 30 consecutive calendar days are required to turn in their CMPD issued firearm and other sensitive items designated by the employee's chain of command or CMPD Human Resources. Any exceptions to this requirement must be approved by the Chief of Police or designee.
6. The employee's immediate supervisor is responsible for ensuring all sensitive items are collected and turned in to the Property and Evidence Management Division for storage within 48 hours when it has been identified that the employee will be on light duty for over 30 consecutive calendar days. There is to be no property stored in a division office or division storage facility. SWAT firearms will be stored by a SWAT supervisor in accordance with SWAT weapons storage guidelines.
7. Employees on designated light duty are prohibited from engaging in police-related secondary employment.
8. Acceptance of non-worker's compensation light duty will be voluntary on the part of the employee involved. Available benefit leave may be used if the employee so desires, subject to city and department regulations.
9. All requests for light duty assignments will be forwarded to and coordinated by the Human Resources Division. An employee will not be assigned to light duty until appropriate medical documentation has been received from the employee's physician. The final decision will be made by the Human Resources Division.

10. All light duty assignments will be coordinated by the Human Resources Division. The light duty assignment will take into consideration the needs of the organization and not solely the division where the employee is assigned.
11. While on light duty, employees will wear civilian, business casual clothing which is professional in appearance and adheres to directive 400-001 Uniform and Grooming Standards.
12. An employee will be required to provide CMPD Human Resources Division with all statements, from a medical doctor satisfactory to the city, regarding the employee's ability to perform the full range of his or her duties. At the conclusion of authorized light duty, the employee must either return to full duty or utilize other forms of leave.

C. Return from Light Duty

1. Return from Work Related Injury (subject to workers' compensation) Light Duty

An employee on work related injury light duty will not return to regular duty without receiving written clearance from the CMPD Human Resources Division and from an approved medical provider which is defined by the Family Leave Act. Upon receiving clearance, the employee must notify the Human Resources Division and provide a copy of the written clearance.

2. Return from Light Duty (not subject to workers' compensation)

An employee on non-work-related injury light duty will not return to regular duty without first receiving written clearance from the employee's treating physician. Upon receiving clearance, the employee must notify the CMPD Human Resources Division and provide a copy of the written clearance.

3. Employees will adhere to the following when returning from either type of light duty, refer to Directive 300-013, Return to Duty:
 - a. Human Resources will notify the employee's chain of command and the Training Academy that the employee has been released by the physician to return to full duty status.
 - b. Employees returning from light duty may be required to report to the academy to demonstrate proficiency with firearms and to complete all overdue state mandated training before returning to full duty. In some instances, absences and/or light duty of fewer than 30 days may require the employee to demonstrate firearms proficiency if the reason for the leave (as with an injury) has the potential to negatively affect the employee's physical performance. Decision will be made in consultation with the Training Academy Range Master.

I. PURPOSE

This policy establishes guidelines for sworn and civilian employees regarding the types of secondary employment that are appropriate and procedures to maintain accountability for any Charlotte-Mecklenburg Police Department (CMPD) employee engaged in secondary employment.

II. POLICY

Standard of conduct while engaged in secondary employment:

- A. Sworn and civilian employees engaged in secondary employment will conform to all laws and CMPD policies when working a secondary employment assignment.
- B. Sworn employees engaged in secondary employment will take appropriate action to enforce the law and preserve public safety.
- C. Sworn employees engaged in secondary employment will not act to enforce the rules and regulations of an employer, which are not otherwise violations of the law.
- D. Sworn and civilian employees engaged in employment outside of CMPD have a duty to report those activities to the Secondary Employment Unit for review, accountability, and approval on behalf of the Chief of Police.

III. DEFINITIONS

- A. **Alcohol Establishment:** Any business that sells alcoholic beverages for on-site consumption as a regular and primary part of its business. For the purpose of this policy, the final determination of whether a business is operating as an alcohol establishment rests with the secondary employment commander and should be based primarily on the percentage of food being sold versus alcohol. The secondary employment commander will make this determination in consultation with the commander of the ABC Unit.
- B. **Apartment Courtesy Officer:** Employment of a sworn employee by an apartment or residential community for the provision of on-site criminal law enforcement in exchange for pay, housing, reduction in rent, or other benefits. Sworn employees must submit a courtesy officer application prior to accepting any courtesy officer position. Apartments or residential communities will submit an Authority to Act As Agent (ATAAA) Form to authorize courtesy officers to enforce trespass laws during times when common areas are closed.
- C. **Civilian Traffic Control Officer (CTCO):** An approved CMPD civilian employee who has successfully completed their probationary period and completed the required training to participate in the CTCO program. CTCO employees can work in a secondary employment capacity where CTCO positions have been approved.
- D. **CMPD Fee:** A non-regulatory user fee to recoup the total costs associated with the special events program. The fee is set annually through the City of Charlotte budget appropriation and will not exceed the total operating cost of the Secondary Employment Program.

- E. Extra Duty: Assignments outside of a sworn employee’s normal CMPD work hours performed on behalf of the City of Charlotte in furtherance of special law enforcement projects or initiatives. Duties such as JAG Grant, Extra Territorial Jurisdiction (ETJ) work, etc., are not considered secondary employment. However, employees with their secondary employment permit suspended for any reason cannot work any such assignments. Extra duty assignments at special events and special event venues designated for payment as “SP” time are considered secondary employment.
- F. High Profile Venue: Any location, establishment, or event that, due to its unique importance within the City of Charlotte infrastructure, will require the command and/or coordination of a member of command staff (lieutenant or above), referred to as the venue commander, regardless of staffing levels. The determination as to whether a location or event is considered a high-profile venue rests with the Chief of Police, as does the determination of the sworn command staff member who holds this position. Staffing for these venues will, in turn, be established by the venue commander.
- G. Job Site Coordinator: Any full-time sworn employee who schedules, manages, and coordinates other sworn employees working a specific secondary employment site, making secondary employment opportunities available to sworn employees equitably.
- H. Law Enforcement Secondary Employment: The provision of a service conditioned on the actual or potential use of law enforcement authority by a sworn employee outside the normal CMPD duty hours of an employee for an employer in exchange for a fee or other service; secondary employment will always remain ‘secondary’ to an employee’s on-duty job responsibilities and will not in any way infringe upon an employee’s on- duty job performance. Secondary employment will always occur within the jurisdiction of the CMPD. Secondary employment also includes unpaid volunteer or charitable work when the sworn employee is in uniform or presents themselves as a member of CMPD.
- I. Non-Law Enforcement Secondary Employment: Any secondary employment that does not require the actual or potential use of law enforcement authority by a CMPD employee (sworn or civilian), including teaching, contracting, sales jobs, personally owned businesses, etc. Employees are prohibited from engaging in any outside employment that would reflect unfavorably upon the employee, impair the operational efficiency of CMPD, or adversely affect CMPD.
- J. Personal Protection Secondary Employment: When a person enlists a sworn member of CMPD to accompany them during their daily activities for purposes of personal security. Personal protection secondary employment is prohibited. For purposes of this policy, protection of property associated with a person is not considered personal protection.
- K. Probationary Period: The probationary period for sworn employees begins on the date the employee is sworn in as a CMPD officer and ends one (1) year from that date. The probationary period for civilian employees is six (6) months from the date of hire.
- L. Restricted Secondary Employment: Employment that by its nature requires more stringent guidelines than other secondary employment. Restricted secondary employment generally requires the sworn employee to complete and sign an addendum

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	3 of 20

attached to this policy. Completed and signed addendums will be forwarded to and maintained by the Secondary Employment Unit.

- M. Secondary Employment: The provision of a service by CMPD employees for an employer other than CMPD in exchange for a fee or other services. Secondary employment is a privilege extended to the employee by the Chief of Police, and the ability to work secondary employment rests solely at the discretion of the Chief of Police or designee. The Secondary Employment Unit will maintain full discretionary authority over all secondary employment matters on behalf of the Chief of Police.
- N. Secondary Employment Commander: The sworn command staff member, holding the rank of captain, who manages the Secondary Employment Unit. The secondary employment commander maintains full discretionary authority over secondary employment matters on behalf of the Chief of Police, subject to the concurrence of the Secondary Employment Unit chain of command.
- O. Secondary Employment Sergeant: The sworn employee who investigates and approves or denies requests for secondary employment, maintains all documentation concerning secondary employment, and makes secondary employment opportunities available to sworn employees equitably. The secondary employment sergeant is responsible for supervising the Secondary Employment Unit and performing investigations of any rule violation solely of the secondary employment policy and subsequently imposing consistent and fair corrective action upon the disposition of rule and policy violations solely of the secondary employment policy.
- P. Secondary Employment System: The computer system where secondary employment jobs are posted, employees' secondary employment history and status are stored and maintained, where secondary employment employer's information is stored, and where payments are processed.
- Q. Venue Commander: The sworn command staff member, holding the rank of lieutenant or above, responsible for the management of a high-profile venue. The appointment of a venue commander is made by the Chief of Police. Any exceptions to this policy will be determined by the Chief of Police.
- R. Work Permit: A permit required for employees to engage in secondary employment.

IV. EMPLOYEE SECONDARY EMPLOYMENT PERMITS

- A. Probationary officers may apply for a work permit through their chain of command once they have completed CMPD's Police Training Officer (PTO) program. Probationary officers may work traffic or security secondary employment jobs but will not work at any alcohol establishment or plain-clothes assignment. Sworn employees who are hired as a lateral transfer from another law enforcement agency are non-probationary for purposes of this policy once they complete CMPD's PTO program. The Chief of Police or designee may assign personnel to work certain events regardless of work permit status.
- B. No employee will work at a secondary employment job without an approved work permit. Employees may have their work permit suspended for cause at any time at the discretion

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	4 of 20

of the Chief of Police or designee, the secondary employment commander for secondary employment matters, or the employee’s chain of command for work performance issues. An employee may appeal the permit suspension to their deputy chief; however, the employee should consider their permit to be suspended until the deputy chief decides otherwise.

- C. Employees must submit a completed Work Permit Form through their chain of command to the rank of major. Once the employee’s chain has approved the permit of command, a copy of the approved work permit will be forwarded to the secondary employment unit to be maintained in a file.

- B. Employees are specifically prohibited from engaging in the following secondary employment:
 1. Employment that presents a real, potential, or apparent conflict of interest between the sworn employee's duties as a CMPD employee and their duties for the secondary employer. Refer to the [City of Charlotte’s Conflict of Interest Policy](#).

interest with CMPD or any of its programs and services. Employees are subject to the City of Charlotte Conflict of Interest policy.

1. Sworn employees are permitted to hold apartment courtesy officer positions consistent with other CMPD regulations.
 2. Sworn employees requesting to engage in a courtesy officer position must obtain and complete a Courtesy Officer Application Packet obtained in the Secondary Employment Unit.

 4. Sworn employees may not act to enforce any rule, regulation, or policy of the apartment or residential community that is not otherwise a violation of the law.
 5. Sworn employees must notify the Secondary Employment Unit when the courtesy officer position ends and/or before moving to another courtesy officer position.
 6. Sworn employees responding to a situation in their capacity as a courtesy officer must wear appropriate attire and equipment to enable them to fulfill an emergency public safety function. At a minimum, this includes their service pistol, handcuffs, radio, flashlight, body worn camera (BWC), and an outer garment identifying the employee as a CMPD employee. The attire worn will be sufficiently appropriate to reflect favorably upon CMPD.
 7. Sworn employees will operate their BWC in accordance with directive 400-006, Body Worn Cameras.

Operations Command. This does not preclude command personnel from working a short-term secondary employment job with prior approval through the rank of deputy chief.

1. Recurring job: a job that occurs at a specific time and day that is repeated daily, weekly, or monthly.
 2. When closing the job, command personnel must document the deputy chief's name and date of approval in the job notes.
- F. Secondary employment that requires the use of specialized equipment received by a sworn or civilian employee through CMPD and/or specialized training, including performing training or teaching in all areas of law enforcement. These subjects may include but are not limited to police driving, police firearms, police defensive tactics, personal safety, community relations, and legal training and must be approved as follows:
1. Sworn and civilian employees using specialized equipment must obtain approval in writing through the rank of deputy chief from the chain of command assigned the equipment and the secondary employment commander.
 2. Sworn and civilian employees performing training and/or teaching in all areas of law enforcement must obtain approval in writing through the rank of deputy chief from the Training Academy chain of command and the secondary employment commander. When requested by the Training Academy chain of command, the employee will provide the Training Academy commander copies in writing of any lesson plans and instructor materials prior to approval. Copies of lesson plans and instructor materials will be maintained on file by the Training Academy commander. Any training and/or teaching by any sworn or civilian employee for secondary employment purposes in the areas of police driving, police firearms, police defensive tactics, personal safety, community relations, and legal training, whether performed inside or outside of the jurisdiction, will always be considered secondary employment subject to all the secondary employment rules specified in this policy.
 3. Instructor materials must be resubmitted every two (2) years or upon request from the Training Academy commander or secondary employment commander.
- G. Sworn and civilian employees engaged in non-law enforcement secondary employment must notify the Secondary Employment Unit by electronically completing the [Notice of Non-Law Enforcement Secondary Employment Form](#).
- Notification must be made to the Secondary Employment Unit or upon a status change, completion, or termination of the non-law enforcement secondary employment. Non-law enforcement secondary employment information must be updated every two (2) years. The employee's chain of command will address failure to comply with this request.
- H. Sworn employees are permitted to engage in "plainclothes" secondary employment but must have prior approval from the secondary employment commander. These assignments must be entered into the secondary employment system as "plainclothes" to distinguish the restrictive nature of this employment.

VII. SUPERVISION OF SECONDARY EMPLOYMENT

- A. A sworn employee of any rank may work any approved secondary employment job staffed by less than five (5) officers.
- B. Any secondary employment job calling for five (5) to ten (10) officers will require one (1) supervisor. The affected division commander, Operations Command for last-minute jobs, or the secondary employment commander may waive this supervisory requirement based upon a variety of factors, including, but not limited to, the presence/absence of supervision, estimated attendance, the sale/or consumption of alcoholic beverages on the premises, previous history, site layout, traffic and/or parking issues, and general crime trends in the vicinity.

1. Secondary employment supervisors will be responsible for the supervision of officers working a secondary employment job. Supervisors will ensure that sworn employees working secondary employment comply with all applicable CMPD policies and the law.
2. Secondary employment supervisors will assist on-duty supervisors in preparing any supervisor reports necessitated by secondary employment officers' actions. Supervisors working secondary employment in a non-supervisory capacity will assist on-duty supervisors with any report preparation as needed.
3. No supervisor will be allowed to work a secondary employment job where an employee of a lower rank supervises them.
4. The Communications Division will be notified of the location and hours of each secondary employment job.
 - a. At the beginning of a secondary employment job, sworn employees will advise over the radio to the telecommunicator of the patrol division where

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	8 of 20

the job occurs of the officer's name, code number, location, and hours of employment. The telecommunicator will enter the off-duty officer into CAD with their location and transfer the off-duty officer to the appropriate division as needed.

- b. Sworn employees will notify the telecommunicator at the conclusion of the job.
- c. The event commander/supervisor or the job coordinator will provide the Communications Division supervisor with a job roster for major secondary employment jobs, which will satisfy the requirement for major secondary employment jobs. The telecommunicator will create a CAD event for the major secondary employment job.

- C. Any secondary employment job requiring staffing levels that exceed more than four (4) officers will require notification to the Secondary Employment Unit for a determination of appropriate staffing levels. This includes jobs with regular job site coordinators.
- D. Any secondary employment job may require an operational plan depending on the size or type of event at the discretion of the Chief of Police, designee, or the secondary employment commander. The supervisor in charge of the job is responsible for completing the plan and submitting it to the division captain, where the job is located, and the Secondary Employment Unit prior to the job. Operational plans will include the traffic plan for the job.
- E. Secondary employment jobs with twenty-one (21) or more officers and requiring at least a second-level supervisor, and it is anticipated that the division's communications will be adversely impacted may be required to hire a Communications Division telecommunicator or supervisor. The secondary employment commander will review these jobs and make the final determination if a telecommunicator/supervisor is required.

VIII. COMPENSATION FOR LAW ENFORCEMENT SECONDARY EMPLOYMENT

- A. Sworn employees working law enforcement secondary employment jobs will be compensated at an hourly rate of pay established by CMPD commensurate with current market trends. Employees may not work for a rate of pay less than the established minimum rate of pay. The minimum compensation for any job will be three (3) hours of pay at the given rate, except for certain traffic jobs that require traffic control for short periods of time. The three (3) hour rate of pay for those jobs deemed too short in duration to require the three (3) hour minimum may be waived by the secondary employment commander, and an exception to the hourly requirement may be permitted.
- B. Sergeants or command personnel working as a supervisor will be compensated at the minimum supervisor rate unless they work as a second-level or third-level supervisor as required by staffing requirements. Command personnel assigned to work as second-level or third-level supervisors will be compensated at the corresponding rate they are assigned as required by staffing. These rates will be evaluated annually. Sergeants or command personnel working as unspecified supervisors will be paid the minimum supervisor rate.

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	9 of 20

The supervisor rate of pay will also be evaluated annually. Sergeants or command personnel working secondary employment but not designated as supervisors for that job are paid at the same rate as police officers. The police officer rate of pay will be evaluated annually.

- C. Rates of pay and fees for equipment for secondary employment will be established by the Chief of Police or designee.
- D. Sworn employees requesting payment from an employer must only seek compensation for those hours actually worked unless an agreement has been reached between the employee and the employer. Sworn employees will not receive compensation or attempt to receive compensation from any other employee of CMPD. Sworn employees who arrange for the secondary employment of another officer will not charge a fee from that employee or attempt to obtain any portion of that employee's designated pay for this service.
- E. A sworn employee may accept offered benefits from an employer if those benefits are offered to all employees of that employer.
- F. Neither CMPD nor the City of Charlotte can be held responsible for any employer's failure to pay for secondary employment work by a sworn employee.
- G. Employees should consult directive 300-005, Workers Compensation and Defense Against Claims and Judgments, for workers' compensation issues.
- H. Employees are prohibited from negotiating rates of pay with an employer; any pay for any job that exceeds the established minimum rate of pay must be arranged through an agreement between the secondary employment sergeant and the employer.
- I. Sworn personnel and CTCOs with a secondary employment work permit must enroll in direct deposit through the secondary employment system, or their permit will be suspended until they are enrolled. Employees who do not maintain current direct deposit information in the system will not be able to engage in secondary employment and will have their work permit suspended until they do so.
- J. Payments for secondary employment jobs will be processed through the secondary employment system, with the following exceptions:
 1. The officer/CTCO is an employee hired by the employer, and the employer withholds income tax, Social Security, and Medicare from wages paid to the officer/CTCO and will receive a W-2 form from the employer. Officers and CTCOs being paid in this capacity must only verify their hours in the secondary employment system and bill at \$0 per hour.
 2. The officer/CTCO receives payment immediately upon completing the secondary employment job and records the payment when closing the job in the system (e.g., cash or check paid to the officer/CTCO at the job site on the same day the job is worked).

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	10 of 20

K. CMPD will assess a fee per hour billed for every secondary employment job. The fee is set by the Chief of Police and is determined based on the cost of the secondary employment program. The fee will be automatically collected in the secondary employment system for all jobs paid using the secondary employment system. Jobs exempt from paying through the secondary employment system (section J) will be billed on a frequency determined by the Chief of Police. Failure to pay the fee will result in the employer being suspended from the secondary employment program.

IX. JOB SITE COORDINATORS FOR LAW ENFORCEMENT SECONDARY EMPLOYMENT

A. The job site coordinator is responsible for the following:

1. Maintain an accurate, updated schedule of jobs with accurate job instructions noted in the job description in the system. Every job must have job instructions noted in the secondary employment system.
2. Keep the roster of officers for the job updated in the system.
3. Serve as a liaison between the officers and the employer.
4. Update employer information in the system.
5. Ensure staffing for the jobs/shifts with accurate job instructions in the secondary employment system.
6. Establish the pool of officers who work the job and ensure staffing is done equitably. The officers working in a job pool and the rationale for their selection will be subject to the approval of the secondary employment sergeant.
7. Ensure the employer completes CMPD's Secondary Employment Agreement and Application every two (2) years for every job coordinated.
8. Bill the employer through the secondary employment system for the CMPD administrative fee and employee payments.
9. Any other reasonable duties assigned by the secondary employment sergeant.

B. The job site coordinator is not the supervisor of sworn employees being scheduled but can serve in that capacity if they are of appropriate rank. The job site coordinator will not negotiate rates of pay with an employer.

C. Job site coordinators desiring to dismiss an officer from a job for cause will forward the reasons for the dismissal to the Secondary Employment Unit in writing prior to taking any action. The officer may appeal the decision to the secondary employment commander, whose decision is final.

D. Sworn employees' requests to become job site coordinators will be approved by the secondary employment sergeant after consulting the officers' division captain. An employee who expresses interest in becoming the job coordinator for an employer must have demonstrated a familiarity with the job assignment by working for the employer at

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
	Effective Date: 3/13/2024		11 of 20

that job site or a different site operated by the same employer. An employer may still make a request for a specific officer to coordinate their job assignments.

- E. Job site coordinators may coordinate for up to five (5) active employers with a combined maximum of four hundred (400) monthly scheduled hours. If a single employer is routinely scheduled for more than four hundred (400) hours a month, that will be the only employer a job site coordinator may coordinate. A branch or single location for a large employer is considered one employer.
 - F. Job site coordinators may be paid up to three (3) hours pay per week for administrative time related to job coordination. Job site coordinators must enter this administrative time in the secondary employment system weekly or monthly. When the jobs are created, the job type must be listed as (Coord Admin Time).
 - G. The secondary employment sergeant must approve any deviation from the standard secondary employment rate.
 - H. Job site coordinators must work any job they coordinate at least once a month while the job is active.
 - I. Job site coordinators will not maintain any sensitive personal information on any employee working for the coordinator.
 - J. School resource officers (SROs) will serve as the job site coordinator for any jobs at their school. The SRO sergeant is responsible for ensuring compliance with this policy regarding the job site coordinator’s responsibilities for SROs; however, the division commander of the officer shares in this responsibility.
 - K. Police hirebacks are not permitted to serve as job site coordinators or courtesy officers unless they receive written approval from the secondary employment commander.
 - L. Job site coordinators can be removed at the discretion of the secondary employment commander.
- X. APPROVAL OF LAW ENFORCEMENT SECONDARY EMPLOYERS
- A. No law enforcement secondary employment is permitted until the employer and the type of employment are approved.
 - B. The Secondary Employment Unit must vet requests for secondary employment of a sworn employee. Employees will not solicit nor negotiate for new secondary employment. Sworn employees may submit a Request for Approval of Secondary Employment Form on behalf of an employer to the Secondary Employment Unit; however, this does not guarantee that the sworn employee presenting this request will be employed by the employer.
 - C. The Secondary Employment Unit will determine which jobs are considered “ongoing jobs,” described as jobs occurring for longer than thirty (30) days, and should be assigned a job coordinator. “Short-term jobs” are jobs that are temporary in nature, occurring for less than thirty (30) days, and would not require a job coordinator. An employer may request that a particular sworn full-time employee be the job coordinator. Such requests

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	12 of 20

will be taken into consideration but will not be binding. Certain employers may be required to be coordinated by a supervisor or member of command staff based on the size or nature of the jobs requested by that employer.

- D. In the absence of the secondary employment sergeant, approval for a short-term job may be given by Operations Command.
- E. No job will be considered approved unless the division in which the specific job is located is noted in the proper field within the secondary employment system. The person entering the job will ensure that the proper patrol division is delineated without exception.
- F. It is the employer's responsibility to maintain accurate contact and job information in the system. The Secondary Employment Unit will periodically audit employers to ensure employers have accurate information and actively use secondary employment services. If the Secondary Employment Unit determines that the employer is no longer utilizing secondary employment services or maintaining accurate information, the employer may be deactivated in the system.

XI. WORK HOURS AND RECORD-KEEPING

- A. Law enforcement secondary employment jobs must be entered and assigned to a sworn employee in the secondary employment system at least twenty-four hours (24) before the job begins. Only the Secondary Employment Unit can enter and/or assign jobs less than twenty-four (24) hours before the job begins, except for one-time jobs entered by Operations Command in exigent situations.
- B. A sworn employee may schedule and work eighteen (18) hours daily of combined secondary employment and actual duty hours to include city-approved overtime, court time, or training time outside the employee's duty hours during any rolling twenty-four (24) hour period. No sworn employee will exceed eighty (80) accumulated hours per week in any combination of actual duty hours, city-approved overtime, court time, or training time outside of the employee's duty hours, and secondary employment hours.
 - 1. A rolling twenty-four (24) hour period is twenty-four (24) consecutive hours, beginning at any time and ending twenty-four (24) hours later.
 - 2. A week begins at 0000 hours on Saturday and ends at 2359 hours on Friday.
 - 3. During any rolling twenty-four (24) hour period, the sworn employee must have a minimum of six (6) consecutive hours in which the employee is not working on duty or engaging in secondary employment.
 - 4. Any exception to the hourly maximum requirements may be granted by the sworn employee's division commander subject to the concurrence of the secondary employment commander or the secondary employment commander in instances affecting CMPD as a whole. Department-wide exceptions must state which event, venue, or time frame the exception applies. A department-wide exception does not constitute permission for an employee to violate this directive by working excessive hours at jobs not tied specifically to the exception. Any exception granted will be

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	13 of 20

done in writing, and it will be the responsibility of the affected employee to denote that an exception has been granted in the job comments section when the employee closes out the job. Unforeseen circumstances may present themselves while an employee is working a secondary employment job that may necessitate an increase in time of the employee's secondary employment shift. In these instances, Operations Command should be notified by the employee or the supervisor of a major secondary employment job, and the circumstances causing the increase in time to the job will be detailed in the comments section when closing out the job.

5. An employee will not work any secondary employment job if they are not showing scheduled in the secondary employment system by the time the job is scheduled to begin. It is incumbent on all employees working secondary employment to ensure they are showing as scheduled in the secondary employment system prior to working any job; if an employee is not showing as scheduled in the secondary employment system prior to the time the job is scheduled to begin, the employee will not work the job. In instances where exigencies exist that make it necessary for an employee to find a last-minute substitute for a job instead of leaving the job unfilled, and the substitute is, therefore, not scheduled, the secondary employment commander should be contacted immediately.
6. Any changes made to the secondary employment system after the time a job is scheduled to begin will only be made by the secondary employment sergeant.
7. In circumstances whereby off-duty officers may be activated to an on-duty status, the secondary employment commander will resolve any conflicts between on and off-duty pay.
8. If twelve (12) hour shifts are activated, all secondary employment is suspended unless the Chief of Police or designee grants an exception.

C. Closing Jobs

Employees working secondary employment must close the job in the secondary employment system within twenty-four (24) hours of completing the job. The closing details must include:

1. The total hours and minutes actually worked.
2. If the employee received payment immediately upon completion of the shift at the job site (cash, check, or instant electronic payment).
3. Any significant circumstances or events occurring while working the secondary employment job must be entered as notes in the comments section.
4. If a vehicle was used at a job, the vehicle number must be entered in the narrative when the job is closed.

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	14 of 20

5. If a waiver of hours or specific approval was granted to work the job, the officer must include those details in the comments of the job.
6. On-duty job assignments entered into the secondary employment system must be closed by the employee within twenty-four (24) hours of completing the job and the employee's actual work hours listed.

D. Sick Leave

1. Employees will not work secondary employment while on personal sick leave, sick family leave, funeral leave, workers' compensation leave, limited or restricted duty, or while on special assignment due to physical reasons. Employees on personal or family sick leave must return to regular duty status and work one regular duty shift or receive permission from the secondary employment commander. Any employee who calls in sick personal or sick family to court or training will not be eligible to work secondary employment until they return to regular duty status and work one regular duty shift.
2. Sworn employees may continue to serve as job site coordinators while on limited or restricted duty but may not be financially compensated for job site coordination while on limited or restricted duty.
3. An employee on approved non-personal FMLA or paid parental leave may be allowed to work secondary employment jobs without returning to regular duty status, but only after obtaining written approval of the secondary employment commander and the chain of command in conjunction with the Human Resources Division.

E. Suspension or Administrative Assignment

Employees are prohibited from engaging in law enforcement secondary employment while on suspension or administrative assignment.

- F.** Employees are prohibited from performing work for any secondary employer or self-employment during on-duty hours and traveling time, which must be accounted for. Traveling time will be a minimum of fifteen (15) minutes between actual duty hours and any secondary employment or between any secondary employment and another secondary employment job, provided that the secondary employment is not at the same physical location. The actual distance between both locations should be considered, and the traveling time should be calculated and adjusted accordingly.

- G.** Employees are not permitted to work law enforcement secondary employment during any time span whereby the employee's on-duty shift is split.

- H.** Employees engaged in secondary employment will not overlap their duty hours with their secondary employment hours, nor will they overlap any secondary employment job with another secondary employment job. When considering if an overlap occurs between secondary employment jobs, the scheduled hours will be the basis for comparison, not the hours actually worked. All traffic jobs being paid at a negotiated rate outside of the

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	15 of 20

three-hour minimum must be scheduled in one (1) hour increments, with a minimum scheduled time of one (1) hour. If an employee works a traffic control job for one employer and remains at one physical location, only one (1) work shift may be scheduled if the officer's work requires them to be on-site for three (3) hours or less. For jobs being paid the three (3) hour minimum and beyond, the job must be scheduled for a minimum of three (3) hours, with fifteen (15) minute increments utilized after that. No sworn employee will utilize scheduling to in any way circumvent the requirements of this policy.

- I. All jobs must be set for specific hours in the day; it is not permitted for a job to be worked when it is set up for flexible hours or unspecified hours in the day. The hours specified in the job must be the hours actually worked.
- J. Job site coordinators building jobs in the secondary employment system will accurately note the job type as "traffic" or "security," and the pay rate will accurately reflect the rate of compensation. If the job is traffic-related and has been approved for an exception to the three (3) hour minimum, the pay rate entered should equal the agreed-upon shift rate between the officer and the employer.

XII. AVAILABILITY OF SECONDARY EMPLOYMENT JOBS

- A. The secondary employment sergeant will ensure that all jobs are available equitably.
 - 1. Sworn employees may sign up for available jobs on a first-come, first-served basis in the secondary employment system.
 - 2. Sworn employees will not sign up other sworn employees for job assignments, except job site coordinators signing up officers in their job pool.
 - 3. Sworn employees will sign up for only those jobs they intend to work.
- B. Employers may request specific sworn employees to work or have a sworn employee serve to recruit other employees for their jobs. However, no employer may discriminate regarding race, sex, religion, or ethnic origin in hiring employees to work secondary employment. An employer's desire to have a particular officer work does not guarantee that the officer will work that employment.
- C. A sworn employee scheduled to work a law enforcement secondary employment job must promptly confirm that job assignment with the employer when specified.
- D. Employees scheduled for a law enforcement secondary employment job may utilize the transfer feature in the secondary employment system to transfer their job to another officer or CMPD as a whole. Transfer of a job to another officer must be done with prior consent and approval of the accepting officer, and the accepting employee must approve the request in the system. All jobs not accepted for transfer will be considered assigned to the originating employee. The transfer feature will not be utilized after the job is scheduled to begin.
- E. A sworn employee who accepts a law enforcement secondary employment job will report for duty at the time and place assigned with all necessary equipment required by CMPD

	Charlotte-Mecklenburg Police Department		300-007
	Interactive Directives Guide	Secondary Employment	
		Effective Date: 3/13/2024	16 of 20

guidelines for that particular job, including a marked vehicle if specified in the job instructions.

Sworn employees who are unable to report for a secondary employment job must contact the job site coordinator or the Secondary Employment Unit during business hours and Operations Command after hours and on weekends, prior to the start of the job.

1. Sworn employees may self-cancel their assignment to a secondary employment job up to five (5) days (one hundred and twenty hours) prior to the start of the assignment. At the discretion of the job site coordinator, some jobs may have a longer self-cancellation period. A sworn employee may be excused from their assignment inside the set cancellation period prior to the assignment by finding a substitute and advising the job site coordinator or the secondary employment sergeant of the replacement up to the time the job is scheduled to begin, except in emergency situations as outlined in this policy.
2. Absences inside the cancellation period will only be excused for personal or family illness and emergencies.
3. Changes in on-duty schedules, court, training, or other CMPD duty assignments will take precedence over any secondary employment. Sworn employees should cancel a conflicting secondary employment job as soon as they are notified of the on-duty conflict.
4. Employees are required to work the scheduled hours assigned in the secondary employment system. Any officer unable to complete the designated hours of employment must contact the job site coordinator or the Secondary Employment Unit during business hours or Operations Command after hours and on weekends, prior to leaving the employer's worksite.

XIII. CORRECTIVE ACTION

- A. Employees found to be in violation of section XI.B., Work Hours and Record Keeping, may have the violation documented in a written entry to their personnel file for their first documented violation. The first violation may be documented in the IACMS system at the discretion of the secondary employment commander. Further violations will result in the violation being documented in the IACMS system and may result in the revocation of the employee's work permit at the discretion of the secondary employment commander or their designee.
- B. All other violations of any provision of the Secondary Employment Policy without exception will be documented in the IACMS system, and those violations solely of the Secondary Employment Policy will be forwarded to the secondary employment sergeant for further investigation and disposition. When a Secondary Employment Policy violation is combined with a violation of another policy or regulation, the investigation will be forwarded to the affected sworn employee's chain of command for further investigation and disposition. In limited situations, some policy violations may be referred to the involved officer's division for investigation.

		Effective Date: 3/13/2024	17 of 20

- C. Upon adjudicating any rules violation involving secondary employment in combination with any other policy violation(s), the ruling body will consider whether an employee’s permit to engage in secondary employment should be suspended in conjunction with any other corrective action considered.
- D. An employee violation of the Secondary Employment Policy will be addressed as a first violation if the employee has had no other documented violations of the Secondary Employment Policy within thirty-six (36) months prior to the date of the new violation.

Appendix A

Rules Governing Off-Duty Traffic Control on Public Streets

1. Officers seeking law enforcement secondary employment at a firm or establishment that requires traffic control on public streets will advise the prospective employer to notify the secondary employment sergeant in writing. No traffic control secondary employment may begin prior to the employer and conditions of employment being approved by CMPD. The employer must:
 - a. Obtain, if the job will be within the city limits of Charlotte, a valid traffic direction permit from the City of Charlotte Department of Transportation (CDOT) as required by City Code 14-9. A copy must be provided to the sergeant.
 - b. Advise the secondary employment sergeant of the intent to employ secondary employment officers and identify the specific need for police services.
 - c. State the duties to be performed, the hours of employment, and the salary to be paid to the officers.
2. All requests for secondary employment traffic direction will be forwarded to the secondary employment commander or sergeant for approval. If approved, the secondary employment sergeant will determine the number of officers required at each location.
3. Officers will not act to enforce any rule, regulation, or policy of the firm or establishment that are not otherwise violations of the law. Officers will act only to enforce the law and preserve public safety.
4. Officers will not impede the normal flow of vehicular traffic during peak travel hours, except in instances where a valid Parade, Festival, or Right of Way Use Permit is issued by CDOT, although a valid permit may be issued by CDOT as described above, the special events commander will make an independent assessment that the use of CMPD officers is in the best interest of the public and CMPD. Peak travel hours are 0700-0830, 1100-1300, and 1630-1830 Monday through Friday. As a rule, traffic direction should coincide with the nearest traffic control signals. Officers will serve the interests of all motorists in a fair and equitable manner without special regard for those entering or leaving the employer's business.

Appendix B

Rules Governing Alcohol Establishments

1. Officers seeking secondary employment at alcohol establishments will advise the prospective employer to contact the secondary employment sergeant. Employment will not be authorized until the employer and conditions of employment are approved by the secondary employment sergeant.
2. Duty guidelines for officers working at approved alcohol establishment parking locations:
 - a. Officers must confine their duties to those of a law enforcement nature.
 - b. Officers will limit their duties and responsibilities to the exterior of the alcohol establishment unless they develop reasonable suspicion that criminal activity is occurring, has occurred, or is likely to occur inside the alcohol establishment, and this information necessitates immediate action.
 - c. Officers will not work the establishment door or where patron identification is being checked.
 - d. When responding to situations where enforcement action is anticipated, officers will notify the Communications Division, furnish the location and nature of the situation, and request assistance from on-duty officers if needed.
 - e. Officers will ensure that all alleged crimes are documented in a KBCOPS report, regardless of the desire of the victim to prosecute the matter. It will then be the responsibility of the job site coordinator to maintain a cumulative log of all such reports and the documentation of any enforcement activities that occur relative to this employment. This log will be made available to the secondary employment sergeant upon request.
 - f. Officers will originate the appropriate call for service through the Communications Division in any instance where entry is made for law enforcement purposes into the interior of an alcohol establishment itself. Officers will articulate in the appropriate clearance paperwork the purposes for entry and any action taken. This information will be forwarded to the job site coordinator for maintenance in the location log.
 - g. Officers will enforce any observed ABC violations, and copies of any enforcement action will be forwarded to both the ABC Unit and the job site coordinator for maintenance in the location log.
 - h. Failure to abide by the restrictions in this attachment will result in the revocation of the employer work permit and corrective action to the officer(s).

Appendix C

Rules Governing Neighborhood and/or Apartment Complex Patrols

1. Officers working law enforcement secondary employment, when employed by a neighborhood or an apartment complex to conduct neighborhood/apartment complex patrols, will confine their actions to violations of law only. Officers will not take any action for violations of neighborhood rules, neighborhood association rules, or apartment complex rules not regulated by criminal law or city ordinance.
2. Off-duty officers working neighborhood/apartment complex patrols will monitor the radio channel for the specific neighborhood/apartment complex at all times. In any instance where the off-duty officer monitors a crime in progress outside the confines of the neighborhood/apartment complex but within close proximity to their location, the off-duty officer will be expected to notify the dispatcher of their location and their intent to respond to assist on-duty units. The off-duty officer will then respond to the crime in progress until relieved by on-duty officers. Any questions regarding time (on-duty versus off-duty) will be resolved by the secondary employment commander.
3. It is the responsibility of the job site coordinator to keep all off-duty officers working secondary employment in their respective neighborhoods informed regarding any information relayed to them by the response area personnel.

	Charlotte-Mecklenburg Police Department		300-009
	Interactive Directives Guide	Employee Drug and Alcohol Testing	
		Effective Date: 5/3/2023	1 of 9

I. PURPOSE

This directive establishes guidelines concerning the inappropriate use of drugs, alcohol, and controlled substances by Charlotte-Mecklenburg Police Department (CMPD) employees, volunteers, or applicants and the procedures for departmental drug testing.

II. POLICY

The protection of citizens, as well as its employees, is of prime concern to the CMPD. CMPD recognizes that substance abuse can have an adverse impact on the general public, city government, and CMPD operations and can adversely affect the image and general health, welfare, and safety of CMPD employees. To maintain the public's confidence and trust in CMPD and its employees, as well as to protect the safety of the public and CMPD employees, all employees must remain free from any physical and/or mental impairment. The unlawful use of any drug or controlled substance is prohibited and may result in denial of employment, termination, or other disciplinary action. Substance abuse cannot be tolerated, and CMPD shall have the right and authority to require employees to submit to substance analysis.

III. DEFINITIONS

Negative Result: The outcome of a urinalysis drug test when a sample's concentration of a substance is below the NIDA-specified or industry-accepted cutoff levels.

IV. PROCEDURE

- A. To ensure that CMPD employees remain free from unlawful drug and alcohol impairment and use while on duty, CMPD will conduct drug testing through urinalysis and alcohol testing through chemical analysis for impairing substances. This does not preclude other appropriate drug testing methods in a particular case where cause exists.
- B. A breath alcohol test administered by a chemical analyst is an analysis of the breath to check for the presence of alcohol in the body. Alcohol use means the consumption of any beverage, mixture, or preparation, including any medication containing alcohol. Chemical analysis that produces a blood alcohol content (BAC) reading of more than .00 can result in termination or other disciplinary action.
- C. CMPD can require drug and alcohol testing under any of the following circumstances:
 - 1. Pre-placement/employment
 - 2. Reasonable suspicion
 - 3. Random selection
 - 4. Post-accident/critical incident
 - 5. Return to duty
- D. The collection of urine, blood, and breath samples will occur at a City of Charlotte designated drug and alcohol collection site.

	Charlotte-Mecklenburg Police Department		300-009
	Interactive Directives Guide	Employee Drug and Alcohol Testing	
	Effective Date: 5/3/2023		2 of 9

1. The selected drug testing agency will follow the National Institute on Drug Abuse (NIDA) standards governing the collection and chain of custody of urine samples.
 2. The selected breath testing site will conduct a breath test administered by a chemical analyst.
- E. The analysis of urine samples will be performed by a private laboratory certified by NIDA. The drug testing procedure will be performed at the lab and consist of an enzyme immunoassay preliminary test. If the preliminary test is positive, a confirmatory test, gas chromatography/mass spectrometry (GC/MS), will be performed.
- F. Urinalysis drug testing will screen for the following classes of drugs at NIDA-specified or industry-accepted cutoff levels:
1. Amphetamines
 2. Barbiturates
 3. Benzodiazepines
 4. Cocaine
 5. Methaqualone
 6. Opiates
 7. Phencyclidine
 8. Propoxyphene
 9. Cannabinoids
 10. Methylenedioxy Methamphetamine (MDMA)
 11. Methamphetamine
- G. The results of any drug test administered under this policy will not be used as evidence in criminal prosecution. The test results will be used in considering suitability for employment or fitness for duty.
- H. Deliberate obstruction or substitution of a urine sample for the purpose of defeating a drug test will result in denial of employment, termination, or other disciplinary action.
- I. Once a CMPD employee has been designated for drug screening, he or she is not eligible to participate in the Employee Assistance Program (EAP) in connection with, or because of, any illegal drug or substance, including dependency or addiction to any illegal drug or other illegal substance. Prior to being selected, any CMPD employee is eligible to participate in the EAP.
- J. Failure to participate in any procedure required by this policy will result in denial of employment, termination, or other disciplinary action.
- K. Cannabidiol (CBD)

	Charlotte-Mecklenburg Police Department		300-009
	Interactive Directives Guide	Employee Drug and Alcohol Testing	
		Effective Date: 5/3/2023	3 of 9

1. Any product with a concentration of more than .3% tetrahydrocannabinol (THC) is classified as marijuana, a Schedule I drug under the Controlled Substances Act.
2. The Food and Drug Administration (FDA) does not currently certify the levels of THC in CBD products, providing no federal oversight to the accuracy of labeling CBD products.
3. CBD products may lead to a marijuana-positive drug test result; therefore, CMPD employees are prohibited from using CBD products.
4. CBD is not FDA-regulated and is not a medical justification for a laboratory-confirmed marijuana-positive result.

L. Medical Review Officer (MRO)

1. A medical review officer will review all positive drug test results and determine if a legally used medication caused the results. The MRO may review any relevant medical histories or records of the applicant or employee prior to making a decision. The MRO will also conduct a medical interview with the applicant or employee. There is no MRO review of alcohol tests.
 - a. Based on appropriate dates or facts, the MRO may deem a positive result to be scientifically insufficient for further action and declare the results negative.
 - b. Any positive test result not satisfactorily explained to the MRO is considered a positive test.
 - c. Should questions arise from the MRO concerning the legitimacy of a positive result, the MRO may cancel the results of the original specimen or request the collection and testing of a new specimen.
2. If the test is positive, the MRO will contact the donor immediately prior to issuing the results. Failure of the employee to contact the MRO within five (5) business days will result in the MRO issuing results as “positive without review.”
3. The MRO will verify a drug test confirmed at the NIDA-specified or industry-accepted cutoff levels as positive, even if an employee claims they used a CBD product.

M. Employee Responsibility

CMPD employees will:

1. Abide by this policy as a condition of employment.
2. Comply with all applicable laws regulating the manufacture, distribution, dispensing, use, or possession of illegal drugs, alcohol, or prescription drugs.
3. Ensure that their ability to perform their job duties is not negatively affected due to the use of drugs or alcohol when scheduled to report to work or when on "on

	Charlotte-Mecklenburg Police Department		300-009
	Interactive Directives Guide	Employee Drug and Alcohol Testing	
		Effective Date: 5/3/2023	4 of 9

call" status.

4. Advise their supervisor that they are unable to perform their duties or they have consumed alcohol within the last four (4) hours prior to reporting for duty, should they be requested to report to work for a safety-sensitive job earlier than their normal or previously assigned time. If the employee had received prior notice that he or she is on call, the employee may be subject to disciplinary action regarding their inability to report for duty as determined by his or her chain of command.
5. Submit immediately to a drug or alcohol test when their supervisor requests.

N. Record Keeping and Reporting

1. All information concerning an applicant's or employee's participation in drug testing procedures will be considered part of the individual's personnel records and subject to the nondisclosure provision of G.S. 160A-168.
2. Pursuant to state law 12NCAC 09C .0310, CMPD will report to the North Carolina Criminal Justice Education & Training Standards Commission any refusal to be tested or any reported positive results on a drug test administered to any applicant or lateral transferee seeking employment as a CMPD officer. Any positive result on a drug test administered to any currently certified police officer employed by CMPD will also be reported to the State. This may result in the suspension, revocation, or denial of the individual's state law enforcement certificate by the North Carolina Criminal Justice Education & Training Standards Commission.
3. Pursuant to state law 12NCAC 10B .0410, CMPD will report to the Sheriffs' Education and Training Standards Commission any refusal to be tested or any reported positive results on a drug test administered to any applicant seeking certification or currently certified as a CMPD Communications Division telecommunicator. This may result in the suspension, revocation, or denial of the individual's certificate by the Sheriffs' Education and Training Standards Commission.

O. Procedures for Pre-Employment and Lateral Transfer Drug Testing (Sworn Positions)

1. All applicants seeking employment in sworn positions, including lateral transfers to sworn positions and hirebacks, in CMPD, will submit to pre-employment drug testing procedures.
2. Each applicant will be tested no more than thirty (30) days prior to employment. These drug testing procedures will require the applicant to complete a Consent Form and a Drug Screening Questionnaire prior to the testing. The collection of the urine sample will be in accordance with NIDA standards and will occur at a drug collection agency selected by the City of Charlotte.
3. All applicants for employment in a sworn position, lateral transfer to a sworn position, and hirebacks in CMPD must test negative on the pre-employment drug

	Charlotte-Mecklenburg Police Department		300-009
	Interactive Directives Guide	Employee Drug and Alcohol Testing	
		Effective Date: 5/3/2023	5 of 9

test. A positive result or refusal to submit to testing will eliminate the applicant from further consideration for employment.

4. Any applicant seeking a sworn position, including hirebacks, who tests positive or refuses to submit to drug testing will not be eligible for employment with CMPD. The Recruiting Division will verify with the North Carolina Criminal Justice Education & Training Standards Commission the certification status of each applicant.

P. Procedures for Pre-Employment Drug Testing (Civilian Positions)

1. Applicants seeking employment in civilian positions in CMPD and applicants for internships, volunteer positions, and other non-paid positions will submit to pre-employment drug testing procedures and must have a negative result.
2. Applicants who refuse to submit to drug testing will not be eligible for employment with CMPD.

Q. Procedures for In-Service Drug and Alcohol Testing

1. CMPD forbids employees from consuming alcohol while on duty (except in the performance of duty) or appearing for duty with alcohol in their system or on their breath.
2. CMPD can order an employee to submit to a reasonable suspicion drug and/or alcohol test when there is reasonable suspicion for suspecting the employee may be intoxicated and/or impaired while on duty, may have alcohol in their system/on their breath, or may have recently engaged in the unlawful use of any alcohol, drug, or controlled substance. Drug and/or alcohol testing procedures will be used to confirm or dispel the reasonable suspicion.
3. The employee will be given a direct order to submit to a reasonable suspicion drug and/or alcohol test by the supervisor or Internal Affairs Division. Failure to follow or cooperate with drug and alcohol testing procedures as stated in the policy will be treated as a refusal to comply with a direct order.
4. The following drug and/or alcohol testing procedures will be followed:
 - a. Prior to providing a direct order to submit to a drug and/or alcohol test, the supervisor will determine if sufficient cause exists based on the [City of Charlotte Reasonable Suspicion Determination Report](#) and will notify the Internal Affairs Division before taking the employee to the testing location. A completed copy of this form will be submitted to the Internal Affairs Division and Human Resources Division.
 - b. At the time the supervisor determines reasonable suspicion, the employee shall remain in sight of the supervisor at all times prior to testing.
 - c. The supervisor and Internal Affairs Division personnel will accompany the employee to the testing facility. The Internal Affairs Division will ensure that the necessary paperwork is available for testing.

- d. The supervisor will complete the [City of Charlotte Drug and/or Alcohol Test Authorization Form](#), indicate the reason for the test, and take the completed form to the testing facility.
- e. A Forensic Drug Testing Custody and Control Form will be provided by the testing facility and completed by the collection agent who collects the sample and processes it for analysis.
- f. The collection of the urine sample will be in accordance with NIDA standards.
 - (1). If the employee claims to be unable to provide a urine specimen, the employee will remain at the designated collection site until the urine specimen is provided or three (3) hours have passed, whichever occurs first.
 - (2). Failure to provide a urine specimen of at least sixty (60) milliliters within three (3) hours will be considered a refusal to comply with a direct order.
- g. After the testing is completed, the employee will be made available to the Internal Affairs Division. The Internal Affairs Division is responsible for conducting administrative investigations regarding allegations of employees who may be intoxicated and/or impaired while on duty, have alcohol in their system/on their breath, or engaged in illegal drug use and/or substance abuse.
- h. Test results will be reported directly to the Human Resources Division administrative service manager who will notify the Chief of Police or appropriate designee.

R. Random In-Service Drug/Alcohol Testing

- 1. Sworn employees and employees assigned to a safety-sensitive position are subject to random selection for drug and alcohol testing.
- 2. Failure to submit to a random drug or alcohol test when requested is considered a refusal to comply with a direct order and a violation of this policy that will result in an Internal Affairs Division investigation into the allegation of misconduct.
- 3. Failure to provide a urine specimen of at least sixty (60) milliliters within three (3) hours will be considered a refusal to comply with a direct order.
- 4. Random selection will be accomplished through the use of a computer program.
- 5. The following procedures will apply to random drug or alcohol testing of eligible employees.
 - a. On the first business day an employee works after selection, the employee's supervisor will be notified of the employee's selection.

		Effective Date: 5/3/2023	7 of 9

- b. The employee's supervisor and/or other appropriate supervisor is required to transport the selected employee to the drug or alcohol testing agency as soon as possible during the employee's tour of duty.
 - c. If an employee is unable to be immediately transported for testing, the supervisor must contact the Human Resources Division and provide the following information:
 - (1). The employee's name (first and last)
 - (2). The reason the employee is unable to test (which may include leave such as vacation, sick, military, FMLA, etc.)
 - (3). The employee's next workday with date and time(s)
 - d. Failure of the employee's supervisor to immediately send the Human Resources Division the affected employee's information, including the reason for the inability to be immediately transported for testing and/or failure of the supervisor to execute the random drug test per this directive, may result in the responsible supervisor and/or chain of command through captain being subject to a Rule of Conduct #2: Violation of the Rules investigation.
 - e. Sample collection(s) of urine or breath will be done in accordance with NIDA standards.
 - f. The urine or breath sample collection will occur on the day of notification, except when extraordinary circumstances intervene. Employees on vacation leave, sick leave, or other approved temporary absence will be tested upon their return to work. Employees on extended sick leave, leave of absence, or educational leave who return to work within the same month they are selected will be tested.
 - g. Employees who fail to provide an adequate breath sample will be directed to obtain, as soon as practicable after the attempted provision of breath, an evaluation from a licensed physician acceptable to the City of Charlotte, addressing the employee's medical ability to provide an adequate amount of breath. If there is no medical reason for the employee's inability to provide the breath, the employee will be considered to have refused to submit to the alcohol test and will be terminated.
 - h. Test results will be sent to the Human Resources Division manager. All positive test results will be issued by an MRO.
6. Collection of an employee's urine sample will occur while the employee is on duty whenever possible. Employees providing a urine sample during non-duty hours will be appropriately compensated.

		Effective Date: 5/3/2023	8 of 9

7. Employees who test positive for illicit drugs have the right to request that the MRO have the Sample B tested by a second NIDA-approved laboratory at the employee's expense.
8. The Internal Affairs Division will immediately investigate any positive alcohol and/or drug test after review by the MRO. A positive alcohol or drug test will result in the employee being placed on administrative assignment or administrative leave as determined by the Chief of Police or designee, pending the outcome of the investigation.

S. Post-Accident/Critical Incident Drug /Alcohol Testing

1. Employees involved in a vehicular accident, non-vehicular accident, or critical incident may be required to take a drug and/or alcohol test. All accidents should be documented using the Post Accident Testing Checklist.

I. PURPOSE

The purpose of this policy is to identify, evaluate, select, and elevate qualified candidates to increased levels of responsibility within the Charlotte-Mecklenburg Police Department (CMPD). The following processes are designed to ensure fairness and consistency in the selection of employees for advancement or promotion.

II. POLICY

The evaluation and selection of employees for promotion is an essential part of professional development and leadership continuity at CMPD. Relevant and impartial promotion procedures will be used to identify those employees who possess the skills, knowledge, and abilities required to perform at a higher rank or position. It is the policy of CMPD to select and promote employees using standards and evaluation techniques that ensure qualified individuals are promoted into leadership positions with the skills, knowledge, and abilities that match the specific job description being filled.

III. PROCEDURES

- A. The CMPD Human Resources Division (HRD) is responsible for the administration of the promotional procedures for all Civil Service positions. Promotional processes for sworn employees will be initiated by the CMPD HRD with the publication of a promotional process announcement to all employees. This announcement will be specific to rank. It will provide, among other information, an eligibility date, a process commencement date, the dates of the written examination or other exercises, instructions for registering to participate in the promotional process, and any other information that may be appropriate. The various components in the promotional process shall be job-related and non-discriminatory.
- B. To participate in the promotional process, eligible candidates must begin by registering with the CMPD HRD. Resumes and other documentation should not be submitted unless specifically requested in the promotional process announcement.
- C. Eligibility requirements related to service time, education, and disciplinary history must be met by the eligibility date noted in the promotional process announcement. Lateral Police Officer Entry Program employees must follow the same eligibility requirements as outlined in section IV. C. of this directive.
- D. It is the responsibility of promotional candidates to ensure they are properly registered to participate in the promotional process and have the correct dates, times, and locations for the promotional exercises.
- E. In the sergeant's, lieutenant's, and captain's promotional processes, the combined score from all exercises will constitute a cumulative score for each candidate. However, the sergeant's multiple-choice exam is not included in the cumulative score but is used to determine the officer's eligibility to proceed to the next phase of the process. If a candidate fails to complete the sergeant's multiple-choice exam at the scheduled time, it may result in the candidate being disqualified from the promotional process. The cumulative scores of the candidates who complete all portions of the

	Effective Date: 7/29/2022		2 of 9

process will be consolidated into a rank-ordered promotional eligibility list. Being placed on the eligibility list does not guarantee a promotion.

- F. Promotional eligibility lists for sergeant, lieutenant, and captain will expire twenty-four months after the date on which they are initially established. At the discretion of the Chief of Police, an existing promotional eligibility list may be terminated early or extended.
- G. Promotional eligibility lists will be structured to minimize identical scores. In the event a promotional eligibility list contains identical scores, ties will be resolved by employee code number (priority given to the lowest employee code number) prior to an eligibility list being published.
- H. Administration of a promotional examination at a site and/or date different from the regularly scheduled examination session may be permitted by the Chief of Police or designee.
- I. Reporting to a promotional process exercise.
 - 1. Late arrivals at any promotional exercise (in-person or virtual) are not permitted. There will be a 15-minute grace period exception to tardiness when a sworn employee is directly reporting from an on-duty assignment (secondary employment/off-duty assignments are not exempted). Sworn employees are required to schedule shift coverage to participate in the promotional process.
 - 2. Process Abandonment – If a sworn employee fails to participate in any exercise of the promotional process, the sworn employee will forfeit eligibility in the current process.
- J. Questions regarding the CMPD's promotional policies should be directed to the CMPD HRD.
- K. Leave Accommodation(s)

An employee who is scheduled for military duty, approved military leave or any medical-related approved leave on the day(s) of assessment, must provide acceptable written documentation to request to participate in the promotional process. This request must be sent to HumanResourcesDivision@CMPD.org

- 1. Employees who are granted accommodation during approved leave will be permitted to participate in the promotional process virtually and must be on camera for each phase of the promotional process with the assessors and/or promotional process staff.
- 2. Failure to complete the promotional exercise as scheduled could result in disqualification from the promotional process, reference section III. I. “reporting to promotional process exercise”.
- 3. The employee requesting the accommodation will be responsible for ensuring access to the internet is secured, equipment is functional, and must maintain a private setting during the time of the assessment.

	Charlotte-Mecklenburg Police Department		300-011
	Interactive Directives Guide	Promotional Procedures	
	Effective Date: 7/29/2022		3 of 9

4. The specifications of the accommodation will be determined by the CMPD HRD Manager or designee and coordinated with the employee prior to the start of the promotional process. The employee will be provided the same exercises as other candidates.
 5. Due to the intricate components of the promotional process, if the employee is unable to participate in the current promotional process, the employee may participate in the next scheduled promotional process if eligible.
- L. All promotional material will be kept in a secure location.
1. Any material that is being reviewed, proposed, or amended prior to the commencement of any testing will be secured in the office of the CMPD HRD Manager. Any person who receives that material for review must properly secure the material while in their possession and immediately return all the material to the CMPD HRD Manager upon completion of that review.
 2. Once finalized, all testing material will be kept in a secured location at the testing consultant's office or at the CMPD HRD.
 3. After completion of the promotional process, all material will be stored in a secured area controlled by the CMPD HRD Manager. The material will be stored and disposed of as directed under Departmental Directive 800-004, Records Retention and Disposition.
- M. The Chief of Police has authority to make promotions of sworn employees. All recommendations by the Chief of Police for promotions to any sworn rank are subject to majority approval by the Civil Service Board who may review previous Civil Service Board cases on eligible candidates in their approval process. Promotions are probationary for six (6) months from the date the promotion becomes effective
1. Newly promoted employees will be closely observed and evaluated by their supervisor to ensure their performance meets expectations.
 2. The newly promoted employee's supervisor will complete a quarterly review at three (3) months and a "Promotion Probation" Performance Review and Development (PRD) at six (6) months from the date the promotion becomes effective.
 3. All quarterly reports will be promptly sent to the CMPD HRD.
 4. Employees who receive a score lower than "Performance Achieved Expectations (A)" on their quarterly PRD may be subject to performance probation and/or additional training.
 5. Any demotions after the probationary period, except voluntary demotions, shall be made only after an employee is cited to the Civil Service Board for demotion by a Chain of Command Review Board following an Internal Affairs investigation. The Civil Service Board will hold a hearing and make the final determination regarding the recommended demotion.

- b. Any employee that believes the promotional process was unfairly administered may grieve that process by following the procedures outlined in the City of Charlotte Human Resources Policy HR 11, Employee Grievance Process. I. PURPOSE

This policy establishes guidelines for the Charlotte-Mecklenburg Police Department's (CMPD) procurement of goods and services and strengthens internal controls for the CMPD's procurement process.

II. POLICY

Per the Citywide Procurement Policy (MFS 24), all Charlotte-Mecklenburg Police Department (CMPD) employees will procure goods and services through the City of Charlotte's financial system (hereafter referred to as "the system"). The CMPD will assist employees in the procurement process to ensure that CMPD processes comply with applicable law, the City of Charlotte Procurement policy, and Charlotte City Council directives.

III. DEFINITIONS

See the [Citywide Procurement Policy](#) (MFS 24).

IV. GENERAL PROCUREMENT RULES

- A. Goods, services, and technology purchases shall be made using a purchase order (PO) or procurement card (P-Card) unless otherwise provided for in Section 1.12 of MFS 24. Certain limited, authorized purchases may also be made using a request for check (RFC), as defined and approved by the [Accounts Payable Payment Policy](#) (MFS 6).
- B. Goods, services, and technology shall be purchased from a citywide or CMPD contract except as provided in Section 1.13 of MFS 24.
- C. All supporting documents (quotes, proposals, bids, contracts, POs, etc.) shall be maintained per applicable federal, state, and local records retention requirements and policies. Certain documents are required to be maintained in the system as attachments to the relevant contract, purchase order, invoice, receiving, or P-Card transaction record.
- D. Purchases made via purchase order or RFC may only be made from a vendor properly registered with the City of Charlotte per the [Citywide Vendor Policy](#) (MFS 19). While vendor registration is not required for P-Card transactions, the City of Charlotte Corporate Compliance Manager will monitor each vendor's frequency and cumulative spending to identify registration opportunities.
- E. Unless subject to one of the exceptions outlined in Section 1.12 of MFS 24, purchases shall follow the procurement process outlined in Appendix A: Thresholds, Processes, and Approval Authorities Table and be approved by the employee specified, based on the dollar amount and procurement type.
- F. Employees are responsible for estimating the total need for a good, service, and/or technology, to the extent practicable, to ensure proper application of this policy.

	Charlotte-Mecklenburg Police Department		300-015
	Interactive Directives Guide	CMPD Procurement Process	
		Effective Date: 12/20/2023	2 of 11

- G. Procurements shall not be split into multiple purchases to circumvent thresholds and approval authorities established in Appendix A.
- H. Purchases, regardless of type, shall be entered into the system.
- I. Purchases shall be encumbered or accounted for using a contract, PO, P-Card, and/or request for check (RFC).
- J. The use of P-Cards shall comply with the [Citywide Procurement Card Policy](#) (MFS 25) and may be, from time to time, governed by executive direction as required.
- K. A PO or P-Card shall be used when making purchases and can also be used against an approved contract (encumbered or unencumbered) for goods, services, and/or technology.
- L. A blanket purchase order (BPO) may be used in the purchase of goods, services, and technology, but only in those situations where a specific relationship between quantity and cost is not available. A [BPO Request Form](#) must be completed and attached to the requisition in the system for review and approval.
- M. The purchase type field of purchases initiated on a requisition in the system must be properly designated.
- N. Project accounts must be applied to contracts, requisitions, and P-Card transactions to be charged to a project.
- O. A list of city-wide contracts is available on the [Citywide Contact List](#).

V. PROCEDURE

- A. Before entering a purchase order requisition into the financial system, employees will obtain quotes as noted in MFS 24 Table 1 - Thresholds, Processes, and Approval Authorities. In addition, sole source purchases will require an approved [Sole Source Justification or Waiver Form](#) signed by the appropriate CMPD supervisor and a designee from the City of Charlotte Procurement Management Division. Other than obtaining informal quotes, employees will refrain from communicating with potential vendors before receiving direction from the CMPD Financial Management Division.
- B. Any employee soliciting goods, bids, or quotes for services or goods should not make any actual or implied verbal or written statements that could reasonably be interpreted by a vendor as an agreement of exclusivity for a particular purchase or contract.
- C. The City of Charlotte is not tax-exempt. Certain North Carolina taxes need proper allocation. Do not break out taxes from other states. If there are taxes from other states, include them with the receipt subtotal.
- D. Technology purchases of \$10,000.00 or more must be approved through the Technology Investment Process (TIP) before the requisition can be entered in the system. If a project includes the implementation of a new cloud-based software

	Charlotte-Mecklenburg Police Department		300-015
	Interactive Directives Guide	CMPD Procurement Process	
		Effective Date: 12/20/2023	3 of 11

product, the product must go through an IT security assessment, regardless of cost.

- E. Any new uniform or clothing purchase must comply with Directive 400-001, Uniform and Grooming Standards.
- F. Equipment purchases where an individual piece of equipment exceeds \$5,000 must be marked as a fixed asset on the purchase order requisition in the financial system and entered in the CMPD inventory system.
- G. Purchases of tangible non-consumable assets that are considered sensitive, have a useful life of more than one year, have a value of less than \$5,000, and are critical and/or essential to operations must be entered in the CMPD inventory system.
- H. To the extent possible, CMPD should utilize acceptable procurement processes even during emergencies. City of Charlotte departments are not required to use a formal solicitation when a special emergency is in effect, such that the health and safety of the people or their property are in jeopardy. Purchases needed in response to a natural disaster or other sudden and unforeseeable situations must closely reflect the intent of the emergency exception. The requirements for invoking the emergency exception are:
 - 1. The emergency must be present, immediate, and existing.
 - 2. Harm cannot be averted through temporary measures; and
 - 3. The emergency cannot be self-created due to failure to take precautions.
- I. Petty cash custodians are responsible for ensuring that their petty cash box always contains the required funds. In addition:
 - 1. Petty cash custodians must report petty cash issues to the CMPD Financial Manager.
 - 2. Petty Cash Custodians are responsible for reconciling cash boxes when funds are replenished and keying expense allocations into the system.
 - 3. The Petty Cash Fund is reconciled by the CMPD Financial Management Division designee at least quarterly and more often if the balance is low.
 - 4. Employees found to be abusing the petty cash system either through questionable use or late receipts will be reported to the employee's chain of command and may be subject to disciplinary action.
 - 5. Unannounced audits may be conducted by the CMPD Financial Management Division and/or the City's Internal Audit Office to determine compliance with City of Charlotte procedures.
- J. Appendix A outlines CMPD's internal purchase request approval process, including the signatures required and methods of procurement for each purchase threshold. Final authorization comes from the signature authority, and it is the

workflow approver's responsibility to ensure that the signature authority has approved the purchase. For purchases that require multiple signature authorities, all signatures must be obtained in the order listed.

K. Travel and P-Card Purchases

1. Travel shall be compliant with the City of Charlotte [Employee Travel and Expense Reimbursement](#) (FIN 18) policy.
2. All CMPD Employees must receive prior authorization from their chain of command up to the City Manager's Office before purchasing or making any travel arrangements. (i.e., hotel reservation, airfare, registration fees, etc.). Verbal approval is not an acceptable method of authorization.
3. At least three (3) weeks before the date of travel, CMPD employees must complete and submit the [CMPD Travel Request Authorization Form](#) electronically.
4. Once submitted, the CMPD Travel Request Authorization Form will be routed for electronic approval by the employee's chain of command.
5. Upon approval by the chain of command, a CMPD Financial Management Division designee will complete the City of Charlotte Travel Request in the citywide travel system and submit it to the City of Charlotte Finance Department for processing. The traveler will be notified when the travel loan check is available for pickup. Based on processing cost, a minimum amount of \$150.00 is required for loan requests unless there is a documented business need or prepaying would create a hardship for the employee, and such justification must be noted on the loan request form.
6. Travel Loan requests not submitted at least three (3) weeks in advance will be subject to using personal funds to cover all approved expenses and reimbursement upon returning from travel.
7. Each employee is expected to be fiscally responsible when making travel arrangements for hotel, airfare, and other components of City of Charlotte-approved travel.
8. Travel expenses may include airfare, hotel, car rental, lodging, meals, tips, and registration fees. Any additional and unapproved travel expense incurred outside of the assigned City of Charlotte business will be the responsibility of the employee.
9. Meal reimbursement requests should be calculated according to GSA Per Diem Expense Guidelines and the current [GSA Per Diem Rates](#).
10. If meals are provided during the trip, the per diem amount should be adjusted accordingly, as noted in the [Meals and Incidental Expenses Breakdown](#).

	Charlotte-Mecklenburg Police Department		300-015
	Interactive Directives Guide	CMPD Procurement Process	
		Effective Date: 12/20/2023	5 of 11

11. When traveling on approved business, per diem should be used for all meal expenses. Accordingly, the P-Card shall not be used for meals on overnight travel, but any other valid travel expenses may go on the P-Card.
12. The P-Card shall not be used for personal expenses. A traveling cardholder is personally responsible for any payment of a personal expense by personal means other than a City of Charlotte P-Card. Misuse of a P-Card may result in disciplinary action, including termination/dismissal, P-Card revocation, or temporary suspension of P-Card privileges.
13. Within five (5) business days of returning from travel, any unused travel loan must be submitted to the CMPD Financial Management Division designee, and itemized receipts, excluding meals, must be scanned and emailed to cmpdtravel@cmpd.org. This includes, but may not be limited to:
 - a. a copy of the P-Card statement,
 - b. a copy of all associated P-Card receipts, and
 - c. any additional receipts (e.g., airfare, conference registration paid by check, hotel, transportation, rental car, etc.)
14. In advance of the due date, a CMPD Financial Management Division designee will provide at least one (1) reminder to the traveler that the expense report, travel receipts, and any unused travel loan are due. If not submitted before the five (5) business day deadline, the CMPD Financial Manager will send a communication to the employee and their chain of command up to the deputy chief requesting submission of all outstanding items.
15. Emergency travel for criminal investigations must receive authorization from the affected chain of command. Emergency travel expense reimbursement requests must be completed immediately upon return to duty.
16. Each employee is responsible for ensuring receipts are itemized and accurate before submitting them to the CMPD Financial Management Division. Any discrepancies with the billing must be resolved by the traveling employee.
17. Once all receipts have been received by the CMPD Financial Management Division designee, the employee will complete the Travel Expense Report in the travel system based on actual expenses.
18. If an employee fails to reconcile the travel expense report after all efforts from the CMPD Financial Manager and the chain of command, have been exhausted the City of Charlotte will initiate a process to recoup loaned funds via payroll deduction, if necessary.
19. Each employee should keep in mind that failing to comply with this directive may result in disciplinary action, including counseling; written reprimand; and/or suspension of travel privileges.

VI. PROCUREMENT DUTIES AND RESPONSIBILITIES

A. P-Card Holders and Approvers

Any use of the P-Card is for business-related expenses. The P-Card holder is fully responsible for all transactions and the associated reconciliation process. All P-Card transactions must be reconciled in the system by the cardholder or cardholder proxy by the following Friday after the transaction is made. P-Card holders should not provide personal information, such as their social security number, home address, cell phone, or personal email address when completing business transactions. - g. Make a cash advance on the P-Card.
- h. Lend the P-Card to another person for use.
- i. Circumvent FIN 18 by use of a P-Card.

Specifically, no employee or prospective employee will be denied employment, reemployment or reinstatement, promotion, or any other benefit based on such membership. Furthermore, employees or prospective employees who exercise their rights under this directive will not be subjected to retaliation for doing so.

This policy references guidelines established by the Uniformed Services Employment and Reemployment Rights Act of 1994 (USERRA) and provides an outline of rights and expectations therein. Additional details and information may be obtained by contacting the CMPD Human Resources Division (HRD).

	Charlotte-Mecklenburg Police Department		300-017
	Interactive Directives Guide		Lactation Accommodations
	Effective Date: 10/4/2022		1 of 3

I. PURPOSE

It is the policy of the Charlotte-Mecklenburg Police Department (CMPD) to assist working mothers with the transition back to work following the birth of a child by providing lactation support. A lactation support program allows a nursing mother to express breast milk periodically during the workday.

II. POLICY

In compliance with the Fair Labor Standards Act, CMPD will provide lactation accommodations to include a reasonable break time and appropriate facilities for an employee to express breast milk for her nursing child for up to one (1) year after the child's birth (29 USC § 207).

III. PROCEDURES

A. Lactation Break Time

1. A rest period should be permitted each time the employee has the need to express breast milk (29 USC § 207). In general, lactation breaks that cumulatively total thirty (30) minutes or less during any four (4) hour work period or a major portion of a four (4) hour work period will be considered reasonable. However, individual circumstances may require more or less time.
2. Lactation breaks, if feasible, should be taken at the same time as the employee's regularly scheduled break or meal periods. While a reasonable effort will be made to provide additional time beyond authorized breaks, any time exceeding regularly scheduled and paid break time may be unpaid.
3. Employees assigned to patrol duties in need of a lactation break will appropriately check out of service through the CAD system and notify an immediate supervisor of the need to be out of service. Lactation breaks may be delayed if the break would seriously disrupt department operations.
4. Once a lactation break has been approved, the break shall not be interrupted except for emergency or exigent circumstances.
5. Expressed milk may be stored in a designated refrigerator, the employee's personal cooler, or other location. Expressed milk stored in an authorized refrigerated area within CMPD shall be clearly labeled and removed at the end of the employee's shift.

B. Private Location

1. CMPD will make reasonable efforts to accommodate employees with the use of an appropriate room or other location to express milk in private. Such room or place should be near the employee's work area, sterile, and will not be a bathroom or toilet stall. The location must be shielded from view and free from intrusion from co-workers and the public (29 USC § 207). If a locker room is to be used, there must be an enclosed wall between a toilet stall and the

designated area. Appropriate signage will be made available for posting on the door by the employee needing privacy for this purpose. The location will be in proximity to a refrigerator for storage and contain access to electrical outlets.

2. Employees occupying such private areas shall secure the door or otherwise make it clear to other employees that the area is occupied with a need for privacy. All other employees should avoid interrupting an employee during an authorized break, except to announce an emergency or other urgent circumstance.
3. CMPD has allocated resources towards the creation of lactation room facilities throughout the department. A list of lactation rooms is located in Appendix A and on the CMPD Portal Page (Human Resources Division under HR Forms Library).
4. Authorized lactation breaks for employees assigned to patrol duties may be taken at the nearest appropriate private location.
5. Lactation rooms are restricted, and access will only be provided to authorized employees by the Human Resources Division. Employees requiring access will contact the Human Resources Division to have authorization granted.
6. Employees will be granted access for one (1) year following childbirth. Access may be extended based on employee needs.
7. Employees who believe their rights have been violated under this policy or have been the subject of discrimination or retaliation for exercising or attempting to exercise their rights under this policy are encouraged to follow the chain of command in reporting the violation and may contact the CMPD Human Resources Division via email at cmpdhrleaveteam@cmpd.org.

I. PURPOSE

The purpose of this policy is to provide Charlotte-Mecklenburg Police Department (CMPD) employees with instructions regarding the proper method for planning and completing employee Performance Review and Development (PRD) evaluations.

II. POLICY

The City of Charlotte has adopted a pay-for-performance philosophy to reward employees based on their achievements. The performance review process provides supervisors and employees with opportunities to communicate and ensure that employees receive consistent verbal and written feedback about their performance. Additionally, by communicating about the quality and value of their performance and behaviors, employees are better equipped to achieve continuous improvement that will contribute to the overall success of the CMPD.

Since performance reviews are often used to make personnel decisions, they are subject to Equal Employment Opportunity (EEO) guidelines. Therefore, the performance review process must be consistently applied, job-related, and based on clear and non-arbitrary criteria. All decisions and judgments should be based on the achievements of the individual employee.

The CMPD has moved to an electronic system, allowing the PRD process to flow seamlessly from employee to supervisor to reviewer, and to the Human Resources Division.

III. DEFINITIONS

- A. **Competencies:** Employee skills and behaviors that are required based on the level of the employee's position within the CMPD.
- B. **Goals:** Observable and measurable expectations that are derived from the CMPD's strategic goals and are specific to an employee's role within the organization.
- C. **Special Events Hireback:** A rehired sworn retiree responsible for maintaining NC State Law Enforcement Officer Certification with the CMPD and working special events or at any other time deemed necessary by the CMPD.
- D. **Task-Oriented Hireback:** A rehired sworn or civilian retiree responsible for a specific task approved by the police chief or designee. All sworn retirees must maintain NC State Law Enforcement Officer Certification with the CMPD.
- E. **Performance Review and Development (PRD):** Performance Review and Development (PRD) is the City of Charlotte's formal employee performance management and appraisal program. PRD is a performance management, planning, coaching, review, and development program focused on performance standards that are specific to an employee's assignment and includes goals that are to be achieved by employees during the rating period.
- F. **Performance Review and Development and Learning Management System (PRD and LMS):** Currently, the City of Charlotte uses Workday as its electronic Performance Review and Development (PRD) and learning management system. Workday allows both the employee and supervisor to input goals and accomplishments.

G. Performance Ratings:

1. Salaried Civilians and Sworn Employees:

- c. Performance Achieved Expectations (A): This rating indicates that an employee's performance met and occasionally exceeded job requirements and indicates a job well done during the review period.
- d. Marginal Performance (M): This rating indicates that an employee's performance frequently did not meet the minimum job requirements. An employee who receives this rating needs improvement and requires closer supervision or guidance in some areas. As a result, the employee is placed on performance probation.
- e. Unacceptable Performance (U): This rating indicates that an employee's performance failed to meet job requirements or has areas where performance is unacceptable. As a result, the employee is placed on performance probation. Ratings of unacceptable performance require written explanatory comments.

IV. PROCEDURE

Performance evaluations must be conducted and documented annually. The due date of the evaluation is one calendar year from the last evaluation date except in the case of promotion, demotion, change of job class, or performance probation.

A. Employee Responsibilities

It is each employee's responsibility to review their work utilizing the expectations of their supervisor and to understand how their achievements contribute to the success of the CMPD.

1. Employee's primary responsibilities include:
 - a. Maintaining open and frequent communication with their supervisor.
 - b. Requesting the tools and support required to take greater ownership of their performance and future development.
 - c. Knowing what behaviors are necessary to be successful in their role and how their behavior impacts the success of their co-workers, the CMPD, and their performance.
 - d. Proactively discussing with their supervisor ways to improve their performance, learning what is expected of them, understanding their performance strengths and weaknesses, and working with their supervisor to develop and follow a plan for their future growth.
 - e. Referring to their annual goals and competencies regularly to assess their performance and evaluate their progress. Employees may not change or delete their goals without supervisor approval.
 - f. Verifying their performance review and/or merit date with their supervisor annually.
2. Employee's role in preparation for the annual performance review conference:
 - a. Complete the self-evaluation portion of the PRD on time in preparation for the annual performance review conference.
 - b. Be prepared to discuss their performance openly and honestly with their supervisor and think positively about the feedback provided by their supervisor to maintain a high standard of performance.
 - c. Prepare notes and ideas regarding new goals for the next review period and be prepared to discuss them with your supervisor.
 - d. Sign the performance review form electronically at the end of the review conference to indicate that the review was discussed. An employee's signature is not indicative of agreement with the evaluation.

	Charlotte-Mecklenburg Police Department		300-018
	Interactive Directives Guide	Performance Review and Development (PRD)	
		Effective Date: 12/3/2024	4 of 13

- e. As soon as possible, note any additional comments on the performance review, including agreement or disagreement with the feedback provided and/or about the accuracy and fairness of the review. These comments will be reviewed by the supervisor and the reviewer.

B. Supervisor Responsibilities

Supervisors are responsible for formally and informally reviewing and evaluating employee performance as it relates to division and/or CMPD objectives and helping employees understand how their achievements contribute to the overall success of the CMPD.

1. Supervisor's primary responsibilities include:
 - a. Setting expectations for achieving goals, competencies, and self-management.
 - b. Giving employees the tools and support to assist them with taking greater ownership of individual performance and future development.
 - c. Ensuring that employee goals are aligned with the CMPD business plan and initiatives.
 - d. Communicating with employees about performance expectations, job standards, goals, and competencies. When goals change, amend employee performance plans, and inform the affected employees.
 - e. Ensuring goals and competencies include appropriate performance measures.
 - f. Meeting with employees to assess progress and provide feedback on goals and competencies assigned for the year.
 - g. Ensuring that employees receive relevant and frequent feedback on performance, achievements, and any areas where improvement is needed. Vague, generalized, or subjective evaluations are not helpful and can lead to misunderstandings.
 - h. Routinely reviewing goals and employee progress towards goals. Ensuring that goals are consistently aligned with the CMPD's strategic goals. Reviewing and updating employee goals as necessary.
 - i. Addressing performance concerns. Occasionally, the performance review process will involve the need to provide constructive criticism, apply corrective action, clarify expectations, and discuss the consequences of unacceptable performance.
 - j. Promptly addressing unacceptable performance and/or non-productive employees and avoiding misleading employees by tolerating poor performance for extended periods.

	Charlotte-Mecklenburg Police Department		300-018
	Interactive Directives Guide	Performance Review and Development (PRD)	
		Effective Date: 12/3/2024	5 of 13

- k. Maintaining ongoing communication regarding employee performance throughout the performance review period so that employees are not surprised by the feedback they receive during their evaluation.
2. Supervisor’s role in preparation for the annual performance review conference:

The annual review is a time for evaluating employee performance in terms of achievements, behaviors, outcomes, responsibilities, personal development, and contributions to organizational and team success. Frequent feedback between supervisors and employees during the review period helps to ensure that there are no unpleasant feedback-related surprises during the annual review.

Supervisors should:

- a. Always seek employee input and perspectives before finalizing a performance review. Employee input includes but is not limited to:
 - (1) A completed employee self-evaluation.
 - (2) Mid-term meetings with employees to discuss and document performance and achievements.
 - (3) Information from work documentation and ongoing employee communication.
 - (4) Input from the reviewer during supervisor comment preparations and final rating recommendations.
- b. Schedule performance conferences far enough in advance to allow employees the opportunity to prepare and review their achievements, consider areas where they may need improvement, and begin to plan for the next review period.
- c. Schedule a time and place for the conference allowing enough time for the review to be conducted in a relaxed, private, and neutral setting. Do not schedule the conference too soon after a disciplinary action or disagreement. The discussion should be treated as confidential.
- d. Schedule a time to discuss performance goals for the next review period to ensure employee input in the planning process.
- e. Complete the performance review discussion before discussing the merit increase. This will keep the focus on the employee’s performance and not distract the employee from the developmental benefits and opportunities related to the performance discussion.
- f. Towards the end of the current year’s performance discussion, begin planning for the next review period by discussing which goals will be continued from the previous year and what goals will be added.

	Charlotte-Mecklenburg Police Department		300-018
	Interactive Directives Guide	Performance Review and Development (PRD)	
		Effective Date: 12/3/2024	6 of 13

- g. At the end of the conference, inform the employee of the merit increase.
- h. Ensure the PRD is complete and signed by all parties.
- i. Finalize goals for the next review period within four (4) to six (6) weeks after the conclusion of the current performance review process.

C. Reviewer Responsibilities

The role of the reviewer is valuable in ensuring that employees receive a meaningful and clear message about their performance and ensuring that job assignments and performance are aligned with the CMPD business plan.

1. Reviewer's primary responsibilities include:
 - a. Ensuring that employees are treated fairly and consistently as it pertains to performance ratings, the application of policies and rules, and the management of legal matters or concerns.
 - b. Ensuring that supervisors receive assistance with resolving performance concerns.
 - c. Ensuring that performance reviews are completed on time.
 - d. Ensuring that annual performance evaluations are reviewed and discussed with supervisors before discussions with employees.
 - e. Ensuring that supervisor evaluations of employees are autonomous. The reviewer should take a neutral position and avoid micromanaging the performance evaluation process.
 - f. Providing an explanation for any proposed changes to supervisor comments or rating recommendations and discussing them until a consensus or compromise can be reached. The goal for both the reviewer and supervisor is to ensure that every employee receives objective, consistent, and fair performance evaluations that include constructive feedback intended to support goal achievement.
 - g. Reviewing any employee comments and taking appropriate action as needed.
 - h. Including goals related to effective supervision, effective use of Workday and the PRD module, and timely completion of performance reviews in the performance plan of each subordinate supervisor.
2. Reviewer's Role in Preparation for the Performance Review Process:
 - a. At the beginning of the performance review year, review employee goals with supervisors and recommend changes as needed.
 - b. Review the completed employee performance review submitted by the

	Charlotte-Mecklenburg Police Department		300-018
	<i>Interactive Directives Guide</i>	Performance Review and Development (PRD)	
		<i>Effective Date: 12/3/2024</i>	7 of 13

supervisor. The completed PRD should include all relevant documents, written comments by the supervisor, recommended ratings for each objective, and a recommended overall rating.

- c. Discuss areas of disagreement with the supervisor. Often, due to work proximity, supervisors have more information about, or have had more opportunities to observe, employee performance. As a result, the supervisor's perspective should be considered in areas of disagreement.
- d. Ensure that the performance message to the employee is complete and clear. The documentation supporting the performance review and supervisor comments should be honest and helpful to the employee.
- e. Collaborate with the supervisor to edit supervisory comments as needed.
- f. Electronically sign the PRD after the employee and supervisor have signed.
- g. Seek support from the CMPD's Human Resources Division in difficult or unusual circumstances related to evaluating performance and interpretation of the Americans with Disabilities Act (ADA) or Federal Medical Leave Act (FMLA).
- h. Review any final written comments provided by employees after the performance review conference, discuss any needed action with the supervisor, and ensure appropriate follow-up.

D. The Performance Review Conference

1. Successful performance review sessions require input from both supervisors and employees. Performance review conferences provide supervisors with the opportunity to discuss the value of performance reviews with employees, acknowledge employee strengths, and identify opportunities for employees to improve performance where needed. They are also an opportunity for employees to assess their performance, strengths, and any needed improvements.
2. Supervisors should discuss with the reviewer the completed performance review, performance rating, and merit increase. When discussing employee performance ratings, supervisors should:
 - a. Ensure employee input has been considered.
 - b. Present specific facts and/or illustrations of job performance to support the rating and comments.
 - d. Be able to define the major purpose of the conference and the goals to be achieved.
 - e. Review the outline of the items to be discussed during the conference. This outline should be used as a guide only, allowing for discussion in the order best suited to meet each employee's needs. Having a plan will

	Charlotte-Mecklenburg Police Department		300-018
	Interactive Directives Guide	Performance Review and Development (PRD)	
		Effective Date: 12/3/2024	8 of 13

enable the supervisor to ensure important points are addressed without wasting time or creating confusion.

3. When conducting performance review conferences, supervisors should review each goal and competency and encourage employees to provide feedback. Supervisors should:
 - a. Discuss the rating for each goal and competency and relate it to specific incidents or accomplishments. Emphasize both performance strengths and weaknesses to provide a complete picture of the employee's job performance during the review period.
 - b. In situations where there has been a performance concern, summarize the facts and define the problem by discussing the expectations associated with the related goal and/or competency. Discuss the reason why the goal and/or competency is considered unachieved, focusing on the concern and associated behavior and not the person.
 - c. Establish objectives for improvement jointly with employees.
 - d. Inform employees of the overall performance rating.
 - e. Allow employees to react to evaluations, the review process, and any related concerns discussed during the conference. Discuss with employees any extenuating circumstances that may have affected the overall performance rating. Although employees may not agree with all ratings, try to ensure that employees understand the rationale for each rating.
 - f. Inform employees that they must electronically sign their performance form to indicate that the review was discussed and that their signature does not indicate agreement with the review.
 - (1) Discuss where to find the completed form in Workday.
 - (2) If an employee refuses to sign, the supervisor should notify the CMPD Human Resources Division.
 - g. Discuss goals for the next evaluation period and plan to finalize the performance plan after the conference.
 - h. Include career counseling relative to advancement, specialization, or additional training that would assist employees in their current position or in obtaining any desired positions.

E. Documenting Performance

1. Documenting employee accomplishments and performance based on job requirements and expectations is an important part of the PRD program. Supervisors must include all documentation used to rate an employee's performance on the employee's performance review form.
2. Although supervisors are required to document employee performance, supervisors are not required to document everything employees do. Documentation should be focused on:
 - a. Recording incidents, actions, and behaviors that are relevant to performance monitoring and review. This documentation should include incidents, actions, and behaviors that fall outside of the rating range of Performance Achieved Expectations.
 - b. Describing specific information about the actual performance of an employee. Documentation should be developed from direct observation and be factual, job-related, specific, and consistent.
 - c. Increasing employee awareness regarding poor performance, concerns, or problems and understanding of the consequences associated with failing to improve.
 - d. Incidents of poor performance, which require close monitoring. Documenting and discussing poor performance as soon as incidents occur is necessary to give employees the maximum time to improve. Documentation should be specific about the incident and should also include expected changes to help employees improve performance to an acceptable level where possible.
 - f. Identifying training needs. Supervisors should complete the Law Enforcement Enhancement and Development (LEED) Form and forward it to the Training Lieutenant. At the end of the training session, the lieutenant will return the form to the employee's chain of command and document the training completion on the employee's Learning Plan in Workday. The Supervisor should retain the form with all other performance-related documentation for the review period.
 - g. Informing employees of performance that needs improvement, what the supervisor expects, any deadlines associated with improvement, and the consequences if the performance is not improved.
 - h. Incidents, actions, and behaviors that demonstrate employee performance that exceeds the job requirements.
3. Employees should also be encouraged to monitor and document specifics of significant incidents of their performance, which should be included in their performance review.

F. Hireback Employee Performance Evaluations

All hirebacks will have an annual performance evaluation completed as described in the Hireback SOP.

G. Supervisor (Rater) Training

All supervisors will receive training on the PRD module in Workday including the development of employee performance objectives, proper completion of the various PRD forms, proper documentation of employee activities, and methods of conducting the performance review conference.

The CMPD Human Resources Division will monitor the PRD process and the quality of the submitted PRD forms to develop any additional training.

H. Probationary Evaluations

1. Probationary Employees

a. Sworn Employees

Probationary sworn employees will be reviewed quarterly, and these reviews will include a brief description of employee performance and performance goals for the next quarter. These quarterly reviews are especially important to ensure entry-level sworn employees' continued suitability for the position and to ascertain whether they can perform the required functions of their assignment.

- (1) All probationary sworn employees will receive their first quarterly review after the first three (3) months of the CMPD Basic Recruit Training. This review will include, at a minimum, a review of their academic and physical training performance.
- (2) The second quarterly report will be completed upon graduation from the CMPD Basic Recruit Training and will include an overview of their performance while in basic training. The PRD Mid-Year Review Form, which is required by the City of Charlotte at the end of the first six (6) months of employment, will be used to document the second quarter.
- (3) After the first three (3) months of assignment with a Police Training Officer (PTO), the third quarterly review should be completed in conjunction with the PTO Mid Term Evaluation. This review can be documented using the PTO Mid-Term Evaluation Form or the quarterly review form if it includes the PTO Mid-Term Evaluation criteria.
- (4) After completion of the PTO program, the fourth quarterly review should be completed in conjunction with the PTO Final Evaluation. This review can be documented using the PTO Final Evaluation

	Interactive Directives Guide	Performance Review and Development (PRD)	
		Effective Date: 12/3/2024	11 of 13

Form or the quarterly review form as long as it includes PTO Final Evaluation criteria. After completing this final quarterly review, all future PRDs will be completed as outlined in this directive.

b. Civilian Probationary Employees

- (1) All civilian employees must receive a probationary evaluation 30 days before the conclusion of the six (6) month probationary period. After completing the evaluation utilizing the Introductory PRD form in Workday, supervisors will meet with employees to provide a copy of the evaluation and discuss the employee's performance.
- (2) The purpose of the Introductory PRD form is to provide supervisors with an opportunity to evaluate employee continued suitability for the position for which they were hired, measure the quality of their work, reward exceptional performance, coach employee growth and development, and identify areas where improvement is needed.
- (3) Employees must be able to ask questions regarding the evaluation and provide written feedback regarding their performance.

2. New Sworn Promotion Evaluations

- a. Per Article III. Sec. 4.61. of the Charlotte City Civil Service Ordinance, all newly promoted sworn personnel are on a probationary period of six (6) months from their effective date of promotion. These employees will be closely observed and evaluated by their supervisor to ensure their continued suitability for the position and to ascertain whether they can perform the required functions of their assignment.
- b. Upon promotion, the current PRD will be closed and a new one opened.
- c. The newly promoted employee's supervisor will complete a mid-year review three (3) months from the promotion effective date and a Promotion Probation PRD six (6) months from the promotion effective date in Workday.

3. Performance Probation

Performance probation is designed to inform employees that their performance does not meet job requirements and that they have a limited time to improve or they may be demoted or terminated. Non-probationary employees must be advised in writing that their performance is deemed to be unsatisfactory before the end of the annual rating period.

- a. If at any time during the year an employee's performance suddenly reaches a level that places the employee or the CMPD at risk, the employee will be placed on performance probation clearly indicating that

	Charlotte-Mecklenburg Police Department		300-018
	Interactive Directives Guide	Performance Review and Development (PRD)	
		Effective Date: 12/3/2024	12 of 13

immediate improvement or change is mandatory. Such action requires concurrence from the employee's chain of command and the CMPD Human Resources Division Director or designee. Employees should be informed that their performance has declined before being placed on performance probation.

- b. Employees are typically placed on performance probation for 90 days. If sufficient improvement has not occurred during that period, the employee may be terminated, or the probationary period can be extended for an additional 90 days.
- c. Employees should not be placed on performance probation for longer than six (6) months except in extenuating circumstances.
- d. Employees on performance probation at any time during the year may not be eligible for incentives and other awards that may be available to City of Charlotte employees.
- e. Employees placed on performance probation will have their merit dates extended by the length of time they are on probation.
- f. To place an employee on performance probation, the supervisor must close out the current PRD and assign a rating of Marginal or Unacceptable with appropriate documentation to justify placing the employee on probation.
- g. Performance Probation is not a prerequisite for termination from employment. An employee may be terminated without being placed on performance probation.

I. Evaluation Appeal

The PRD process is designed to provide employees and supervisors with an opportunity to communicate and to ensure that employees understand what is expected of them to meet the required level of performance. The process is much more than just a once-per-year conversation about performance. It involves daily leadership and ongoing feedback to and from employees. This process helps employees succeed by providing clear direction, guidance, correction as needed, and assistance with achieving current objectives and future career goals.

The procedures outlined in this directive are intended to minimize disagreements between supervisors and employees concerning performance evaluations. Employees may appeal evaluations that they believe are inaccurate by following the process outlined below.

1. During the performance review conference, the employee should ensure that the supervisor receives all documentation and information provided by the employee as a part of the self-evaluation. The employee should provide any additional

	Charlotte-Mecklenburg Police Department		300-018
	Interactive Directives Guide	Performance Review and Development (PRD)	
		Effective Date: 12/3/2024	13 of 13

written documentation and/or information that the employee feels is relevant to the evaluation.

2. If the conflict is not resolved at the performance review conference, the employee should schedule a meeting with the PRD reviewer. The name of the reviewer will appear on the Workday route map. Before the meeting, the employee should complete the self-evaluation and/or other written documentation to be used during the discussion with the reviewer.
3. If the conflict is not resolved during the conference with the reviewer, the employee may schedule a meeting with the supervisor at the immediate next higher level in the command structure. The same procedure will be followed as in the conference with the reviewer.
4. The Deputy Chief of the appropriate service group or an appropriate designee will make the final decision as it relates to any appeals of evaluations through the chain of command.

J. Records Retention

PRD files are considered part of an employee's official personnel file and will be maintained as outlined under CMPD Directive 800-004, Records Retention and Disposition.

	Charlotte-Mecklenburg Police Department		300-020
	Interactive Directives Guide		Police Critical Incident Stress
			Effective Date: 1/31/2023

I. PURPOSE

This policy establishes guidelines for Charlotte-Mecklenburg Police Department (CMPD) employees to obtain the assistance needed to cope with extremely stressful workplace incidents.

II. POLICY

Law enforcement duties often expose employees to emotionally painful and highly stressful situations that cannot be resolved through normal stress coping mechanisms. The Charlotte-Mecklenburg Police Department (CMPD) desires to provide employees with information regarding coping with such stressors. The CMPD will take immediate action after such incidents to safeguard the continued good mental and emotional health of all involved employees.

III. DEFINITIONS

- A. **CMPD Behavioral Health Specialist:** The operational behavioral health specialist (BHS) is assigned to the CMPD to enhance existing and develop new programs of wellness support for CMPD employees. Such programs include peer support, critical incident and/or traumatic stress response coordination, and outreach and education programs. The CMPD BHS's goals are to create an overall resilient CMPD workforce, mitigate distress, and increase positive growth after critical incidents. Only the information shared with the CMPD BHS one-on-one is privileged.
- B. **Critical Incident Stress:** An intense but normal reaction to any sufficiently powerful event that overwhelms usual coping mechanisms. Reactions to traumatic stress can continue for an extended period. These reactions may or may not seriously interfere with the ability to function in one's normal duties. Examples of critical incidents include:
1. Shooting incidents.
 2. The death or serious injury of a CMPD employee.
 3. The sudden, unexpected, or violent death of a person well-known to the law enforcement community.
 4. Instances of multiple fatalities.
 5. The death of a child.
 6. Prolonged incidents such as hostage situations, particularly when a death or injury has occurred.
- C. **Critical Incident Support Supervisor:** A supervisor dispatched to the scene who is not responsible for the incident but is primarily responsible for supporting the involved employees. For this directive, "supervisor" refers to the rank of sergeant or above.
- D. **Defusing:** An informal, initial debriefing that occurs as soon as practical but no more than a few hours after an incident, usually conducted by a peer support member and/or

	Charlotte-Mecklenburg Police Department		300-020
	Interactive Directives Guide		Police Critical Incident Stress
			Effective Date: 1/31/2023

the immediate supervisor of the involved or witnessing employees that may occur spontaneously. Defusing should:

1. Be positive, supportive, and focused on common reactions to a critical incident. Employees should be reminded of resources and effective self-care practices.
 2. Not be used to critique employee decision-making but as an opportunity to ensure the basic needs of employees are met. Employees should not be pressured to talk, but if they choose to discuss their immediate thoughts or emotions, they should be heard.
 3. Information shared by employees during defusing is not privileged information.
- E. Peer Support: The CMPD peer support program consists of employees who have received special training to offer voluntary and confidential support and assist fellow employees in dealing with stress, emotional difficulties, or other personal and job-related circumstances in compliance with Directive 300-025, Peer Support Program. Peer support members will not discuss the incident with involved or witnessing employees.
- F. Post-Traumatic Stress Disorder: A psychological disorder that can result from exposure to short-term severe stress or the cumulative effects of prolonged milder stress.
- G. Privileged Communication: Any communication made by the employee or immediate family member to the peer support team member while engaged in a support session that does not fall within the exceptions noted in Directive 300-025 Peer Support Program.
- H. Tactical Debriefing: A formal discussion of the incident with employees who were involved in and/or witnesses of the situation. This debriefing should allow employees to describe their experience and ask questions. Employees conducting the debriefing must be aware of indicators that an employee may be in distress. Confidential information critical to the investigation should not be shared during this session, and any information shared by employees is not privileged information.
- I. Traumatic Stress Response: The organizational response to critical incidents based on the needs of the involved CMPD employees.

IV. PROCEDURE

A. Post-Critical-Incident Procedures

1. Involved employees will be removed from the line of duty pending the investigation but will remain available for any necessary administrative investigations. As soon as practical, employees will be granted up to three (3) days of administrative leave with pay by their division or unit commander. Additional administrative leave days may be approved by the Chief of Police or designee.

	Charlotte-Mecklenburg Police Department		300-020
	Interactive Directives Guide	Police Critical Incident Stress	
		Effective Date: 1/31/2023	3 of 5

- a. During this leave, the employee(s) will remain available for administrative call-back needs.
- b. The work status of the employee(s) will be reviewed by the employee's chain of command within ten (10) days of the incident.
2. Administrative investigations will be conducted as soon as practical. However, investigators will be cognizant of the traumatic stressors following a critical incident and allow a break if necessary.
3. Peer support will be available to employees following the incident. Peer support team members may sit with employees during periods of waiting, contact family or friends if requested, and provide for the physical needs of the affected employees such as a change of clothes, food, drinks, etc. A peer support response to a critical incident should be requested through the Community Wellness Unit commander.
4. A brief defusing for all affected employees is recommended as soon as is practical following a critical incident.
5. If the affected employees are experiencing significant stress, the peer support employee, unit commander or manager, Community Wellness Unit commander, or CMPD BHS shall recommend a traumatic stress response.
 - a. The affected employees' unit commander or manager is responsible for coordinating with the Community Wellness Unit commander before scheduling the response session, which will include peer support team members and/or the CMPD BHS, who will provide support and information on available resources.
 - b. The response must take place as soon as possible but within 72 hours following the incident.
 - c. It is recommended that all employees directly involved in the incident, including CMPD Communications Division and Crime Scene Search Unit employees, attend the traumatic stress response session or tactical debriefing.
 - d. Generally, defusing and traumatic stress response participation is mandatory, but supervisors may exempt employees from attending if attending would constitute an unreasonable hardship.
6. Employees directly involved in a critical incident involving serious injury or death may meet with the CMPD BHS for a confidential session to address post-incident trauma reactions and stress management.

I. PURPOSE

This policy establishes guidelines for ordering and conducting psychological fitness for duty evaluations of Charlotte-Mecklenburg Police Department (CMPD) employees. Fitness for duty evaluations are necessary to ensure the safety and welfare of the community and CMPD employees.

II. POLICY

This policy is intended to provide an objective mechanism for the assessment of the mental and emotional ability of CMPD employees to perform essential job functions. Employees will undergo a fitness for duty evaluation if they exhibit observable behavior that suggests they are unable to perform the essential functions of their job or behavior that indicates continued service may be a threat to the safety of the employee or others. It is not the intention of this policy to interfere with a supervisor's ability to recommend or suggest personal counseling to a subordinate, nor is this policy intended to alter or replace confidential peer support interventions or stress debriefings provided by the CMPD in response to critical incidents.

III. PROCEDURES

A. Fitness for Duty Evaluation Purpose

1. To reduce the likelihood of an employee engaging in behavior that could be harmful to the employee or others.
2. To determine the fitness for continued duty of an employee when the employee's observed performance or behavior raises a reasonable question regarding the employee's psychological fitness for duty.

B. Fitness for Duty Evaluation Criteria

1. To determine the continued emotional and mental fitness of CMPD employees to carry out essential job functions, all supervisors should be alert to any behavior that may cause concern for an employees' emotional and/or mental well-being. Such behavior may include, but is not limited to, the following:
 - a. An abrupt negative change in behavior, objectively demonstrates an inability to perform the essential functions of a position.
 - b. Irrational statements or behaviors, including those related to delusions or hallucinations.

 - d. Inappropriate use of alcohol, medications, or other drugs, including displaying symptoms of illegal drug use.
 - e. A pattern of impatience or impulsiveness, especially with a loss of temper.

		Effective Date: 11/17/2022	2 of 4

- f. Conduct indicating either an inability to defuse tense situations or a tendency to escalate situations and/or create confrontations.
 - g. Any other factor or combination of factors that may cause a supervisor to reasonably suspect that a fitness for duty evaluation may be necessary.
2. The mere presence of any one factor or combination of factors may not be sufficient to order an evaluation. However, the presence of such factors should not be ignored and may lead to ordering an evaluation.
- C. Reporting
1. If an employee's behavior indicates that emotional or mental fitness may be in question, the immediate supervisor and division commander or manager should meet with the employee if there is a reasonable belief that doing so will not aggravate the situation.
 2. Supervisors may explore the conduct, behavior, or circumstances that give rise to concerns. When appropriate, supervisors may refer the employee to the Employee Assistance Program or other internal employee wellness resources.
 3. If the meeting does not relieve the supervisor's concerns, or no meeting is conducted, the involved supervisor will contact the division commander or manager and prepare a written report of the circumstances. The division commander or manager will advise the bureau commander and the CMPD Human Resources Division (HRD) of the circumstances.
- D. Relief from Duty
1. When an employee's conduct is a threat to the safety of the employee or others, the supervisor will immediately relieve the employee from duty with pay pending further evaluation.
 - a. The supervisor will order the employee not to exercise official police powers.
 - b. During normal business hours, the supervisor will immediately notify the division commander. Outside of normal business hours, the supervisor will immediately notify the operations commander. The supervisor will also notify the CMPD HRD and refer the employee for treatment.
 - c. If the employee refuses treatment, the supervisor will ensure that an emergency commitment proceeding is initiated.
 - d. Before the end of the employee's shift, the supervisor will prepare a report outlining the circumstances leading to the decision to relieve the employee from duty. This report will be completed and submitted to the division or operations commander and the CMPD HRD.

2. The Chief of Police or designee may relieve employees from duty with pay or reassign them as necessary, for public safety and/or the efficient operation of the CMPD, pending completion of an evaluation.
3. Any CMPD-owned weapon(s) and other CMPD property in the possession of the employee may be seized by the employee's supervisor. The supervisor may place personal weapons readily accessible to the employee in the custody of the CMPD Property and Evidence Management Division for safekeeping with the consent of the employee.
4. Nothing in this policy is intended to prevent or limit a supervisor from taking any emergency action reasonably necessary to protect life or property.

E. Order for Evaluation

1. The Chief of Police or designee, in consultation with CMPD HRD, will determine whether a fitness for duty evaluation is warranted. If an examination is warranted, a written order will be issued by the Chief of Police or designee and the evaluation will be scheduled at the earliest opportunity.
2. A CMPD HRD representative will coordinate and schedule all fitness for duty evaluations upon receipt of a written order from the Chief of Police or designee.
3. When the fitness for duty evaluation is ordered, the CMPD HRD representative will coordinate the daily duty status of the employee until a final disposition is reached.
4. All fitness for duty evaluations will be scheduled and conducted with the approved City of Charlotte psychological services provider.
5. The CMPD HRD representative will provide the employee with a written order for evaluation. This written order will include a brief description of the reason the evaluation is being ordered, the date, time, and place of the evaluation, the name of the mental health professional conducting the evaluation, and a directive to cooperate completely and honestly with the evaluation process.

F. Limited Scope of Fitness for Duty Evaluation Reports

1. The CMPD has a right to evaluate information that is necessary to achieve a legitimate purpose. This evaluation is ordered by and conducted on behalf of the CMPD. The purpose of the evaluation is not treatment but to determine an employee's fitness for duty. The report generated as a result of the evaluation will not be released to the employee unless approved by a legal advisor for the City of Charlotte.
2. The information provided to the CMPD, including information noted in the evaluation report, will be limited to:

I. PURPOSE

I. PURPOSE

To establish appropriate guidelines for training qualification and the carrying of firearms by Charlotte-Mecklenburg Police Department (CMPD) sworn personnel in all law enforcement related capacities, and to comply with the Law Enforcement Officers Safety Act of 2004 (“LEOSA”), codified at 18 U.S.C. § 926B and 926C.

II. POLICY

The nature of law enforcement requires on-duty sworn employees to carry firearms. Training and standards designed to enhance employee performance for the protection of citizens as well as the employee are of prime concern. These standards reduce the probability of criminal and civil liability that could arise from questions of a sworn employee’s skill and competency. To ensure that they are able to perform their duties and protect themselves and the public, sworn employees are required to demonstrate reasonable proficiency in all aspects of firearms use. In addition, sworn employees receive annual training in the use of firearms, levels of control, firearms safety, and basic marksmanship.

Sworn employees who choose to carry concealed firearms in an off-duty capacity and are authorized to do so under federal and state law, with certain limitations. This directive will provide guidance to sworn employees who choose to carry concealed firearms off-duty to ensure that their conduct remains in compliance with applicable laws as well as CMPD directives.

- D. This remedial firearms instruction will include practice qualification courses of fire.
- c. Sworn employees who fail to qualify during the initial session are encouraged to practice on their own time between sessions. The Training Academy Range Facility, all necessary equipment (including an officer's service weapon), and Range Staff will be available for training and practice by contacting the Range Master.
- d. The permit for law enforcement secondary employment of any sworn employee who fails to qualify will be suspended immediately until such time as he or she successfully qualifies. Any such sworn employee is prohibited from taking any law enforcement action (including exercising the power of arrest) until he or she successfully qualifies.
- e. Sworn employees shall be given two (2) additional opportunities to qualify within 30 days of their successful completion of remedial firearms instruction.
- f. If the sworn employee fails to qualify during the scheduled additional qualification sessions (70% in one (1) out of two (2) attempts), the sworn employee will be the subject of an IACMS investigation by the Internal Affairs Division. The recommendation of an Independent Chain of Command board hearing will determine further employment status.

the calendar year, the employee will be subject to the guidelines as outlined in 12 NCAC 09E.01069(a).

- h. Except when due to approved, extended absence or leave, failure of a sworn employee to appear for any required qualification session within the time period established by CMPD for that qualification will be deemed a failure to report for duty and the sworn employee's supervisor will initiate an administrative investigation. When a sworn employee's failure to appear for qualification during the prescribed period is due to an approved extended absence or leave, the failure to appear will not be considered as a failure to qualify. Upon the sworn employee's return, however, he or she will be assigned to administrative duties for up to five (5) working days for firearms re-familiarization and qualification. After the five (5) working days, a sworn employee's failure to qualify will be treated as any other failure to qualify with the weapon.
- i. Police Recruit Qualification
 - (1) Police recruits are required to qualify with the handgun and shotgun as required by the Basic Law Enforcement Training guidelines contained in the Firearms Section of the BLET manual.
 - (2) Failure to qualify or failure to successfully complete the firearms training as set forth in the BLET manual will result in dismissal from the BLET program.

VI. LAW ENFORCEMENT AIR TRAVEL WITH ACCESSIBLE FIREARMS

Federal law allows local sworn law enforcement officers to travel on commercial airlines in possession of firearms under very limited circumstances and only in connection with a law enforcement need for a firearm to be accessible such as escort of a prisoner. VII. OFF-DUTY CONCEALED CARRYING OF FIREARMS

- A. North Carolina Concealed Carry Law
 1. The offense of carrying a concealed weapon in North Carolina has been amended so as to exempt sworn law enforcement officers, when off-duty, from the general prohibition on the carrying of concealed weapons. This exemption applies only when the officer in question:
 - a. Is a sworn law enforcement officer;
 - b. Is in North Carolina;
 - c. Is off-duty; and

B. North Carolina Concealed Carry Permit

1. North Carolina law authorizes any qualifying citizen to obtain a concealed carry handgun (“CCH”) permit. A CCH permit authorizes a permit holder to carry concealed handguns in North Carolina, under certain restrictions. These permits are also recognized via reciprocity by numerous other states. (The North Carolina Department of Justice maintains a regularly updated list of reciprocating states available at www.ncdoj.com).
2. CMPD employees may utilize North Carolina’s concealed carry handgun permit authorization. Sworn law enforcement officers and recently retired sworn law enforcement officers (within one year) are not required to complete the standard CCH training course in order to secure a CCH permit. Employees who wish to secure a CCH permit should contact the sheriff’s office of his/her county of residence.
3. Any off-duty sworn employee who is carrying a concealed handgun under the authority of a North Carolina concealed carry handgun permit is under no CMPD restriction, but that sworn employee shall fully comply with all requirements and restrictions of North Carolina’s concealed carry handgun permit law.

C. The Law Enforcement Officers Safety Act of 2004, “LEOSA”

1. It is the policy of CMPD to comply with LEOSA.
2. LEOSA DOES NOT:
 - a. Grant law enforcement officers any police authority in jurisdictions outside of their home jurisdiction.
 - b. Authorize off-duty law enforcement officers to carry firearms, concealed or otherwise, on federal, state, or local government property.
 - c. Authorize off-duty law enforcement officers to carry firearms, concealed or otherwise, on private property.
 - d. Place any obligation on off-duty law enforcement officers to perform any law enforcement act or to assist any other law enforcement agency while carrying a concealed firearm.
 - e. Exempt current or retired officers from any state or local purchase or registration laws relating to firearms.
3. Off-Duty Carry under LEOSA
 - a. Off-duty CMPD sworn employees outside of their territorial jurisdiction do not have law enforcement authority and any action(s) taken under those circumstances are purely private acts that are not sanctioned, and therefore will not be defended by the CMPD or the City of Charlotte.

	Charlotte-Mecklenburg Police Department		400-002
	Interactive Directives Guide	Firearms	
		Effective Date: 9/19/2022	14 of 15

- b. While CMPD sworn employees are expected to be familiar with criminal laws applicable to their jurisdiction, the laws of other jurisdictions may vary greatly, and CMPD sworn employees are therefore advised to act with caution and with due regard for local laws when in other jurisdictions.
 - c. Hireback sworn employees are not eligible to carry firearms under LEOSA solely by virtue of their hireback status.
4. LEOSA Procedure for Current Sworn Employees
- a. Any current CMPD sworn employees carrying a concealed firearm while off-duty and under the authority of LEOSA, shall comply with the requirements and restrictions of LEOSA, as well as this directive. I. PURPOSE

The purpose of this policy is to establish clear written protocols for Charlotte-Mecklenburg Police Department (CMPD), private contractors, and/or vendor employees for the physical, logical, and electronic protection of Criminal Justice Information (CJI). All physical, logical, and electronic access must be properly documented, authorized, and controlled on devices that store, process, or transmit unencrypted CJI. This Physical Protection Policy focuses on the appropriate access control methods needed to protect the full lifecycle of CJI from insider and outsider threats.

II. DEFINITIONS

- A. Criminal Justice Information (CJI): Criminal Justice Information is the term used to refer to the data provided by the Federal Bureau of Investigations (FBI) Criminal Justice Information Services (CJIS) Division to law enforcement agencies and used to perform their mission and enforce laws, including but not limited to, biometric, identity history, person, organization, property – when accompanied by any personally identifiable information – and case or incident history data. This data is most often found in the Division of Criminal Investigation (DCI), National Crime Information Center (NCIC), and Criminal Justice Law Enforcement Automated Data Services (CJLEADS) systems.
- B. Physically Secure Location: A facility or an area, room, or group of rooms within a facility, with both the physical and employee-provided security controls sufficient to protect the FBI CJI and associated information systems. The FBI requires that security perimeters be defined, controlled, and secured by having the perimeter of the physically secure location separated from non-secure locations using physical controls and security warnings prominently posted. As a result, restricted non-public areas of CMPD facilities are physically secured and identified with signage at the entrances.
- C. Visitor: A person who is not employed by the CMPD who visits a CMPD facility temporarily and has no unescorted access to the physically secure location within CMPD facilities where FBI CJI and associated information systems are located.
- D. CMPD Escort: An authorized CMPD employee who must accompany a visitor while the visitor is within a physically secure location to ensure the protection and integrity of the physically secure location and any CJI therein. The use of cameras or other electronic means used to monitor a physically secure location does not constitute an escort.
- E. Local Agency Security Officer (LASO): The primary information security contact between the CMPD, the FBI, and the State of North Carolina. The LASO is typically a representative from the City of Charlotte Innovation & Technology Department, Cyber Security Team, led by the chief security officer (CSO). The CSO actively represents the CMPD in all matters regarding information security, disseminates information security alerts and other material to employees, maintains information security documentation – including system configuration data – assists with information

	Interactive Directives Guide	Criminal Justice Information Protection Policy	
		Effective Date: 9/9/2022	2 of 8

security audits of hardware and procedures, and keeps the FBI informed regarding any information security needs and/or concerns.

- F. Agency Coordinator (AC): A staff member of the contracting government agency, who manages the agreement between the contractor and the CMPD.

III. PROCEDURE

A. Visitors will:

1. Check-in before entering a physically secure location by obtaining a visitor badge and completing the visitor access log, which includes the visitor's name and agency, visit purpose, date of visit, arrival time, name of employee visited, the form of identification used to authenticate the visitor's identity, and the number of the badge issued.
2. Wear the issued visitor badge on the outer clothing during the duration of the visit and return it to the CMPD at the end of the visit, noting the departure time on the visitor access log.
3. Be accompanied by a CMPD escort for the duration of the visit, including delivery or service personnel, unless unescorted access has been granted in compliance with CJIS standards (See III. A. 3. below).
4. When applicable, follow CMPD policy for authorized unescorted access.
 - a. A Management Control Agreement between the CMPD and the noncriminal justice agency (NCJA) is required when City of Charlotte, Mecklenburg County, or other NCJA information technology (IT) employees require frequent unescorted access to restricted areas. Each NCJA employee with CJI access must have a state and national fingerprint-based record background check before restricted area access is granted.
 - b. A security addendum between the CMPD and each private contract employee is required when private contractors/vendors require frequent unescorted access to restricted areas. Each private contract employee must have a state and national fingerprint-based record background check before this restricted area access is granted.
5. Not be allowed to access secure information by viewing computer screens in use by employees.
6. Be courteously escorted to a public area of the facility if found unescorted in a restricted area without a legitimate business purpose. The presence of unknown individuals in physically secure areas without an escort should be challenged by employees. If resistance or behavior of a threatening or suspicious nature is encountered, employees must contact a sworn employee or 911 for assistance.

B. Prior Planning for and Notification of CMPDHQ Visitors

CMPD employees are required to plan for visitors to attend meetings at or participate in tours of CMPDHQ. The below procedure should be followed to plan for and notify CMPDHQ security desk employees of planned visits:

1. CMPD employees shall obtain a copy of the CMPD Visitor Form from the Records Management Division manager. The form should be completed and submitted to the Records Management Division manager no more than two (2) weeks and not less than twenty-four (24) hours in advance of the visit.

4. A daily visitor roster should be prepared for CMPDHQ security desk employees and used to check visitors in and out of the facility each day.
5. Failure to plan for and complete notifications of CMPDHQ visitors can result in visit requests being denied and/or policy violations being reported to the requesting employee's chain of command.

C. Authorized Physical Access

Only authorized employees will have access to physically secure non-public areas. The CMPD Computer Technology Solutions (CTS) Division manager will maintain and keep current a list of authorized employees. All physical access points into secure areas of CMPD facilities are controlled by access card entry. The CMPD has implemented access controls and monitors physically secure areas to protect the transmission and display of CJ. Authorized employees must take necessary steps to prevent and protect the CMPD from physical, logical, and electronic security breaches.

All employees with CJ physical and logical access must:

	Charlotte-Mecklenburg Police Department		400-007
	Interactive Directives Guide	Criminal Justice Information Protection Policy	
		Effective Date: 9/9/2022	4 of 8

1. Meet the minimum employee screening requirements before CJI access.
 - a. A state of residence and a national fingerprint-based record check shall be conducted to verify the identity of all employees who will have direct access to CJI and those who will have direct responsibility for the configuration and maintenance of computer systems and networks with direct access to CJI before granting access.
 - b. Support employees, private contractors and/or vendors, and custodial workers with access to physically secure locations or controlled areas (during CJI processing) shall be subject to a state and national fingerprint-based record check unless these individuals are escorted by authorized employees for the duration of their visit.

2. Complete security awareness training.
 - a. All authorized CMPD Noncriminal Justice Agencies (NCJA), such as City of Charlotte or Mecklenburg County IT and private contractor and/or vendor employees, must receive security awareness training within six (6) months of being granted duties that require CJI access and every two (2) years thereafter.
 - b. Security awareness training must cover areas specified in the CJIS Security Policy at a minimum.

3. Be aware of who is in the secure area before accessing confidential data.
 - a. Take appropriate action to protect all confidential data.
 - b. Protect all terminal monitors with viewable CJI displayed and shield the data from the view of the public and/or escorted visitors.

4. Properly protect and do not share any individually issued keys, access cards, computer account passwords, etc.
 - a. Immediately report the loss of issued keys, access cards, etc., to a direct supervisor. The direct supervisor is responsible for contacting the CMPD Human Resources Division to disable access cards immediately.
 - b. If the loss occurs after normal business hours or on weekends or holidays, employees are to call the Charlotte-Mecklenburg Police Department Headquarters (CMPDHQ) security desk to have the authorized credentials deactivated e.g., access cards. If door locks need to be rekeyed, the CMPD facilities manager should be contacted as soon as possible.
 - c. Safeguard and do not share passwords, personal identification numbers (PIN), security tokens (i.e., smartcards), and any other facility or computer system security access procedures.

5. Properly protect technology from viruses, worms, trojan horses, and other malicious codes.
6. Ensure that web usage is for business-related purposes and does not allow viruses, worms, trojan horses, and other malicious codes access to the CMPD network.
7. Do not use personally owned devices on CMPD computers with CJI access.
8. Use of electronic media is allowed only by authorized CMPD employees. Controls must be in place to protect electronic media and printouts containing CJI while in transport. When CJI is physically moved from a secure location to a non-secure location, appropriate controls must be in place to prevent data compromise and/or unauthorized access.
9. Immediately report any physical security incidents, including, but not limited to, loss of printed CJI, laptops, smartphones, thumb drives, CDs, DVDs, etc., to a direct supervisor. Supervisors shall report these incidents to the CTS Division manager and/or the City of Charlotte LASO immediately.

E. Front Desk and Visitor Sponsoring Employees

Administration of the visitor check-in/check-out procedure is the responsibility of the investigative technician in each CMPD facility. In the CMPDHQ, this responsibility belongs to employees assigned to the security desk in the Rotunda.

Before visitors gain access to physically secure areas:

1. Escort employees must acknowledge being responsible for properly evacuating visitors in case of emergency. Escort employees must know appropriate evacuation routes and procedures.
2. Before departure, escort and/or front desk employees must verify that visitors are not leaving CMPD facilities with any CMPD equipment or sensitive data.

All CMPD employees and supporting entities are responsible for reporting any unauthorized physical, logical, or electronic access to their immediate supervisor.

F. Enforcement

Violation of any of the requirements in this policy by authorized employees will result in suitable disciplinary action, up to and including loss of access privileges, civil and criminal prosecution, and/or termination.

Violation of any of the requirements in this policy by any visitor can result in similar disciplinary action against the escorting employee and can also result in termination of services with any associated consulting organization or prosecution in the case of criminal activity.

 - b. The entry must show a status of complete.
 - c. A temporary file number (TMP) is required for the magistrate to review the pre-entered information to consider the criminal process request.
 - (1). Misdemeanor Warrants

When an arrest warrant is sought for a misdemeanor offense, and a civilian victim/complainant is involved, that person must request the criminal process in person from the magistrate unless there is a compelling reason that would prevent them from doing so. In that situation, an officer is authorized to request the warrant; however, the victim/complainant will be considered the prosecuting witness (e.g., shoplifting). Officers will seek the appropriate criminal processes in compliance with Directive 600-005 Domestic Violence.
 - (2). Felony Warrants
 - (a). District Attorney pre-approval is not required to obtain a felony warrant. A felony warrant may only be requested by a law enforcement officer.

(N.C.G.S. 15A-301)
- C. Serving Legal Criminal Processes

 - e. The officer has verified that the criminal process is outstanding.
 - f. The officer has probable cause to believe the person to be arrested or served is the person named or described on the face of the criminal process and takes into consideration the descriptive information contained in the criminal process (i.e., the person's name, race, sex, date of birth, and address).
 2. Service Copies
 - a. Arrest warrants and orders for arrest (OFAs) obtained prior to January 2013 are housed in the Central Repository.

	Charlotte-Mecklenburg Police Department		500-001
	<i>Interactive Directives Guide</i>	Criminal Process	
	Effective Date: 6/1/2023		5 of 9

- c. A service copy of the warrant or OFA will be obtained after the original is verified as valid/outstanding and will be used in the following circumstances that require the warrant or OFA to be in hand at the scene of arrest:
 - (1). When an officer intends to force entry to execute an arrest warrant or OFA at a location where the person to be arrested lives.
 - (2). When a search warrant is obtained prior to a forcible entry of third-party premises for the purpose of locating and arresting a person named in an arrest warrant or OFA.
- d. A service copy of warrants for arrest or OFA signed out from the Central Repository must be returned immediately following a successful or unsuccessful attempt at service.

3. Criminal Summons

A criminal summons is a statement of a crime/infraction for which there is probable cause. A criminal summons does not authorize an officer to take the person into custody; rather, it is delivered to or “served” on the person. A criminal summons directs the person to appear in court to answer a criminal charge and is issued in any criminal case (or infraction) where it is not necessary to arrest the person or establish conditions of pretrial release.

A brief detention is authorized to serve criminal processes (citations, criminal summons, nontestimonial orders, and subpoenas) where the person is not taken into custody but should use discretion in detaining a subject for a minor offense. Officers will consider, but are not limited to, the below factors before detaining a person to serve a criminal summons:

- a. Seriousness of the offense.
- b. Danger presented by the person as well as danger to the public.
- c. The person with the criminal summons is a suspect in other, more serious crimes.
- d. Officers who encounter a person who has a confirmed active criminal summons will attempt to serve the criminal summons on that person by the following procedure:
 - (1). Print a defendant’s copy of the criminal summons and give it to the person.
 - (2). Print and sign an original copy of the criminal summons and turn the original copy into the Records Division to be taken to the Clerk of Court.
 - (3). Enter notes in the process tracking page of E-Warrants indicating the criminal summons has been served.

	Charlotte-Mecklenburg Police Department		500-001
	Interactive Directives Guide	Criminal Process	
		Effective Date: 6/1/2023	6 of 9

- e. The criminal summons will specify a certain date and location for the defendant to appear in court. If the court date has passed or is within the next seven (7) weekdays, the employee must change the date for the defendant's appearance. To change the date:
 - (1). Enter notes in the process tracking page of E-Warrants indicating the criminal summons has been served, changing the court date on the criminal summons to any date court is in session thirty (30) days in the future.
 - (2). Print the defendant's copy of the criminal summons showing the amended court date and give this copy to the defendant.
 - (3). Print and sign an original copy of the criminal summons with the amended court date and turn this copy into the Records Division for return to the Clerk of Court.

4. Misdemeanor and Felony Warrants
 - a. After a warrant has been verified, electronically or by the Communications Division, the arrestee will be transported to Intake.
 - b. Arrest Processing Web will be completed prior to transporting the arrestee to Intake.
 - c. Employees will be provided a copy of the warrant to be completed and returned after serving it on the arrestee.
 - d. After the arrestee clears the jail nurse, the arresting officer/detective may leave Intake.

5. Orders for Arrest (OFA)

An OFA differs from an arrest warrant in that it does not specify a criminal charge. Any judicial official is authorized to issue an OFA, which is often issued following a person's failure to appear in court or an indictment by a grand jury. It is executed by taking the person into custody.

6. Domestic Violence Protection Orders (DVPO)
 - a. CMPD does not serve Domestic Violence Protective Orders.
 - b. Officers who encounter a person violating a DVPO will arrest the person for the violation as outlined in Directive 600-005 Domestic Violence.

7. Involuntary Commitment Orders (IVC)

The following process will be utilized to serve involuntary commitment orders.

 - a. The Magistrates Office will fax the IVC to the Communications Division.

	Charlotte-Mecklenburg Police Department		500-001
	<i>Interactive Directives Guide</i>	Criminal Process	
	<i>Effective Date: 6/1/2023</i>		7 of 9

- b. The Communications Division will email a PDF copy of the IVC to the sergeant distribution list for the patrol division in which the person listed in the IVC is reported to be and create an IVC call for service in CAD to be assigned to the patrol division sergeant.
- c. The patrol division sergeant will complete or delegate a workup using various database searches (F7, KBCOPS, CJLEADS, etc.). The sergeant or designee will notate in CAD when the workup is complete and if additional resources are needed. Based on the finding of the workup, the sergeant will assign the proper number of patrol officers and resources to the call for service or may hold the call for service to acquire additional resources/determine a more appropriate response.

Note: Officers present with a person or have had information already relayed to determine a safe and appropriate response do not need to prepare a workup.
- d. After the call for service is complete, the responding officer(s) will document in CAD and/or KBCOPS the outcome of the IVC service, including if the person resisted, had a weapon, communicated a threat, if a less lethal device was deployed, or if there was a response to resistance.
- e. Based on the CAD/KBCOPS documentation, the Community Wellness Division and CPCRT will document the outcome of the IVC so that information will be included in the F7 for future intel gathering.

8. Medical Warrants

Employees involved in the arrest of a person on a medical warrant will take all reasonable precautions to protect himself or herself from the contagious disease and will wear personal protective equipment (i.e., protective gloves, facial masks, etc.). Employees will contact their supervisor and the exposure control officer if there are any questions concerning the possibility of contagion, methods for preventing the spread of infection, or the proper care of persons who are ill.

9. Search Warrants

Employees executing a search warrant will adhere to procedures outlined in Directives 500-004 A-D.

10. Fugitive Warrants

- a. Prior to arresting and transporting a person to Intake, the Communications Division must verify that a fugitive warrant is valid.
- b. The Non-Arrest Form in Arrest Processing Web will be completed prior to arrival at Intake.

	Charlotte-Mecklenburg Police Department		500-001
	Interactive Directives Guide	Criminal Process	
	Effective Date: 6/1/2023		8 of 9

11. Violent Criminal Apprehension Team (VCAT) Criminal Process

- a. In adherence with the VCAT SOP, violent felony warrants that are considered VCAT investigations include but are not limited to murder, rape (1st or 2nd degree), serious ADWs, ADW series, armed robbery, or out-of-county/state fugitives with violent felony warrants.
- b. Prior to serving a criminal process related to a violent felony charge, the officer/detective attempting to serve the process must coordinate with the VCAT sergeant or on-call VCAT detective to ensure that efforts will not compromise or hinder current or future VCAT investigations if the person in question is not already listed in deconfliction. To prevent duplicative efforts or an opportunity for a person to flee, employees should not attempt to conduct apprehension investigations or efforts on qualifying VCAT cases.
- c. This directive does not prevent officers from:
 - (1). Responding to a call for service regarding a person with a qualifying VCAT warrant. If a 911 call for service is received regarding the location of a person with a violent felony warrant, the officer should check deconfliction and coordinate with VCAT prior to responding. However, the need to respond to the needs of the public will be adhered to while not compromising ongoing VCAT investigations.
 - (2). Taking the appropriate action to safely take a person with a violent felony process into custody if the officer observes the person walking in a public area or into a business/residence and can positively identify the person.
 - (3). Responding to LPR hits for a person with a violent felony warrant.
 - (4). Taking efforts to locate a person when there is an immediate public safety need to apprehend a person who poses an imminent threat to others or the public.
 - (5). Attempting to locate a person immediately following a violent felony offense when probable cause exists to arrest a person for a violent felony prior to a criminal process being obtained.
- d. The need to protect the public from ongoing criminal acts will be taken into consideration when deciding to move forward with the apprehension investigation or efforts to serve a violent felony criminal process.

D. Reporting Requirements

1. CAD

Employees will document in CAD when an arrest is made, the arrestee's name, date of birth, race, criminal charges, and the address of the service.

	Charlotte-Mecklenburg Police Department		500-001
	Interactive Directives Guide	Criminal Process	
		Effective Date: 6/1/2023	9 of 9

2. KBCOPS

- a. When a visual arrest is made, a KBCOPS report with the appropriate offense will be completed.
- b. If serving an arrest warrant, the arresting officer will supplement the original KBCOPS report with the arrest number and may notify the assigned investigator of the arrest via email.

CMPD employees will follow all procedures for processing and booking arrestees as outlined in this directive.

III. PROCEDURE

- A. Only officers with arrestees in their custody will park in the secured parking area of the Mecklenburg County Intake Center (Intake Center). Officers without arrestees will park at adjacent facilities and utilize the public entrance.
- B. The arresting officer will complete the required information in the Mecklenburg County Arrest Processing System (Arrest Processing Web) prior to arriving at the Intake Center with an arrestee. The information will include the following:
 1. Information pertinent to the elements of the particular offense(s) being charged and a summary of the arrest.
 2. Any additional information the arresting officer wishes the District Attorney's Office to consider during the arrestee's first appearance.
- C. When bringing an arrestee to the Intake Center's booking area for processing, the officer will obtain the following:
 1. An arrest number for the person being processed.
 2. Information regarding any other warrants or orders for arrest that may be outstanding for that arrestee.
- D. During processing, all arrestees will be kept away from the data entry area of the Intake Center. Benches or holding cells are provided and will be utilized for this purpose.
- E. Upon completion of the positive identification process, the arresting officer will provide direct testimony of the facts of the case to the magistrate. The officer will provide any additional information for the magistrate to consider while setting the bond (i.e., the arrestee's willingness or unwillingness to cooperate, physical resistance by the arrestee, or any other information related to the arrest).
- F. The magistrate will determine if probable cause exists and set the arrestee's bond for release. Once the terms of release have been set and provided to the arrestee, custody of the arrestee will be relinquished to the Mecklenburg County Sheriff's Office (MCSO). At this time, the arresting officer has completed the booking process and may leave the Intake Center and resume regular duty.

		Effective Date: 7/19/2023	2 of 6

- G. Officers serving warrants or OFAs that do not require testimony to the magistrate will complete the arrest process to the point of positive identification. When positive identification is received, the officer will relinquish the arrestee to the MCSO. The officer does not need to see the magistrate.
- H. If the intoxilyzer test is to be administered, the arresting officer must witness the test. If the intoxilyzer test results indicate a blood alcohol reading of .35 or higher or medical personnel at the jail recommend medical attention, the person tested will immediately be taken to a nearby hospital.
- I. Arresting officers are required to collect DNA samples from arrestees charged with qualifying offenses under N.C.G.S. 15A-266.3A and will do so in adherence with Directive 500-004-A Conducting Person Searches. The following procedures only apply to CMPD arrests being made with a warrant. The MCSO will collect DNA samples on warrantless arrests for qualifying offenses. A list of qualifying offenses can be found on the CMPD Portal Page.
1. Officers must verify the identity of the arrestee prior to the collection of the DNA sample. The NCIC Criminal History Check will also indicate if a DNA sample needs to be taken from the arrestee. Officers must ensure that the arrestee is being charged with a qualifying offense.
 2. SBI buccal swab kits will only be utilized in accordance with provided training and the instructions in the kit. The SBI buccal swab kits will be available at the Intake Center. Officers will, in all cases, complete the SBI DNA Database Collection Card and provide the arrestee with the written notice of expungement procedures.
 3. Officers will ensure that the completed SBI buccal swab kit is properly packaged and labeled before submitting it to the Intake Center sheriff deputies. Officers will document the collection of all DNA samples in the KBCOPS case report.
 4. Force will not be used in the collection of DNA samples. Arrestees refusing to submit to the collection of DNA will be referred to the Magistrate's Office, where the collection will be made a condition of release.
- J. Any officer arresting a person who is unconscious or seriously injured will immediately evaluate the state of health of that individual and obtain any necessary medical attention as outlined in N.C.G.S. 15A-503. Officers will make every effort to check for any medical alert bracelets or necklaces containing the emergency alert symbol.
1. In addition, if the officer is unable to make a proper evaluation, the immediate supervisor and MEDIC will be summoned to assist in determining the person's state of health.
 2. When an arrestee in custody is transported to a hospital, the transporting officer will remain with the arrestee and notify the immediate on-duty supervisor.
 3. The following procedures will be followed when an arrestee is admitted to the hospital.

	Charlotte-Mecklenburg Police Department		500-002
	Interactive Directives Guide	Confinement of Arrestees and Booking Procedures	
		Effective Date: 7/19/2023	3 of 6

For the purpose of this directive, admitted to the hospital is defined as an arrestee who is placed in an inpatient care unit other than the emergency department and will generally stay overnight. The transporting officer shall consult hospital staff when there is a question as to if an arrestee has been admitted.

a. If the arrestee is admitted and in custody for a misdemeanor offense, the transporting officer can do one of the following:

- (1). Complete the [Prisoner Medical Discharge Notification Form](#).
- (2). Complete the required information in the Mecklenburg County Arrest Processing System (Arrest Processing Web), present the case to the magistrate, and seek a warrant before the end of the officer's tour of duty.
- (3). Issue a citation and release the person from custody, except in domestic violence cases where an arrest is mandatory.

Note: If the arrestee has been assigned an arrest number at intake and the officer decides to issue a citation, the immediate on-duty supervisor must call the Intake Center to cancel the arrest.

- (4). The officer or supervisor can request a prisoner watch through their chain of command if needed. The chain of command will determine if the prisoner watch is needed based on the circumstances presented.

b. If the arrestee who is admitted is under arrest for a felony offense and/or violent misdemeanor and cannot be released from custody for public safety, security, or legal reasons, a prisoner watch can be initiated at the discretion of the deputy chief of patrol or their designee. Operations Command will coordinate the response. The prisoner watch will ensure the following:

- (1). Adherence to hospital rules regarding visitation.
- (2). That sufficient personnel are assigned to guard the arrestee.
 - (a). The division in which the incident occurs is responsible for providing security for the first twenty-four (24) hours.
 - (b). When it becomes evident that the security duties will last longer than twenty-four (24) hours, the arresting unit will request assistance from Operations Command, who will coordinate a prisoner watch schedule for continued security.
- (3). That a log is kept identifying personnel assigned to guard the arrestee, including:

	Charlotte-Mecklenburg Police Department		500-002
	Interactive Directives Guide		Confinement of Arrestees and Booking Procedures
	Effective Date: 7/19/2023		4 of 6

- (a). The appropriate complaint number on top
 - (b). Officer's name
 - (c). Officer's code number
 - (d). Officer's assignment
 - (e). Date and time of duty
 - (f). Visitor's name with the date and time of the visit
- (4). Upon the arrestee's release from the hospital, the log will be scanned into the case file, and the original will be given to the officer in charge of the case.
 - (5). That without unnecessary delay, the person arrested is advised of his or her statutory right to communicate with counsel, family, and friends.

In the event the arrestee's counsel desires to meet with the arrestee, Operations Command shall ensure that the meeting locations are sufficiently private to maintain the attorney-client privilege. Under no circumstances will officers observe or record any communications between the arrestee and his or her attorney.
 - (6). No one is allowed to bring any items (packages, overcoats, etc.) into the arrestee's room except the arrestee's lawyer may bring a recorder, legal pad, or other items to assist with providing legal counsel.
 - (7). In the event of a legitimate objective security concern for the arrestee, the right of the arrestee to communicate with friends and family may be temporarily suspended.
 - (8). Only one family member or friend will be allowed to meet with the arrestee at a time. Before meeting with the arrestee, the family member or friend must consent to a pat-down search for weapons; otherwise, access to the arrestee will be denied.
 - (9). No visitor will be allowed to have physical contact with the arrestee except for legal counsel to obtain a signature.
- c. Operations Command may set up a specific time, in accordance with hospital rules, that friends and family are allowed to meet with the arrestee. However, legal counsel requests to meet with the arrestee will be granted as soon as reasonably possible. If the initial officer deems it necessary, additional officer(s) may be requested to respond to the hospital for security at times when visitors are expected.
 - d. The officer assigned to the case shall be notified if:

	Charlotte-Mecklenburg Police Department		500-002
	Interactive Directives Guide	Confinement of Arrestees and Booking Procedures	
		Effective Date: 7/19/2023	5 of 6

- (1). Any visit is made or attempted.
 - (2). The arrestee requests to make any statement.
 - (3). The condition of the arrestee significantly changes.
 - (4). The arrestee is discharged from the hospital.
- e. The original arresting officer must complete the required information in the Mecklenburg County Arrest Processing System and present the case to the Magistrate Office and seek a warrant before the end of the officer's tour of duty.
 - f. It is necessary to have proof of medical release with the arrest report before confinement to the jail will be permitted.
 - g. Assigned officers may sit directly outside the arrestee's room in a position that allows them to observe any entry or exit.
 - h. Assigned officers will enter the room with any visitor, except the arrestee's legal counsel or medical personnel, while the arrestee's case or medical condition is being discussed.
 - i. Assigned officers will coordinate with hospital staff to ensure that arrestees are only provided with plastic eating utensils.
 - j. Before the end of the officer's tour of duty, officers will complete a narrative supplement in KBCOPS under the appropriate complaint numbers detailing any activity during the officer's rotation at the hospital.

K. Officers will report any information which indicates that the arrestee is likely to be suicidal to the medical screening personnel at the jail. Officers will ensure that the information is documented by the appropriate jail personnel and will indicate in a KBCOPS supplement that the notification was given.

If the magistrate finds no probable cause (NPC), the officer will obtain any property of the arrestee collected by the deputy and immediately leave the Intake Center. Officers will:

1. Contact the immediate on-duty supervisor.
2. Ask the former arrestee if the officer can take them back to the location of arrest, if safe to do so.
3. If the former arrestee does not wish to be transported, the officer will release the former arrestee immediately from the Intake Center.

I. PURPOSE

This policy establishes guidelines and procedures for Charlotte-Mecklenburg Police Department (CMPD) employees when in contact with a person experiencing a mental health crisis who may be at risk of death and require proper medical care.

II. POLICY

CMPD recognizes and respects the integrity and paramount value of human life. Consistent with this value, CMPD is committed to protecting the safety of all persons, including those who are experiencing a mental health crisis.

This policy will provide employees with information to assist in identifying persons experiencing a mental health crisis who may be at risk of death during restraint encounters, identifying persons who have a mental illness that requires assistance and/or access to community mental health resources, managing situations in a manner that minimizes the risk to all persons involved, and facilitating medical care for persons as soon as practical.

III. DEFINITIONS

- A. **At-Risk Person:** Any person physically or mentally challenged who poses a risk to themselves or others (e.g., mental disorders, suicidal, patients with Alzheimer's, diabetics, or special needs according to the American Disabilities Act (ADA) regulations).
- B. **De-escalation:** The application of verbal and nonverbal techniques or strategies to reduce the intensity of interactions and the potential for physical altercations.
- C. **Excited Delirium Syndrome:** A serious and potentially deadly medical condition involving psychotic behavior, elevated temperature, and an extreme fight-or-flight response by the nervous system.
- D. **Mental Health Crisis:** An incident in which a person experiences or displays intense feelings or personal distress (e.g., anxiety, depression, anger, fear, panic, hopelessness, etc.) they are unable to manage with their ordinary coping strategies and may cause disruptions in thinking (e.g., visual or auditory hallucinations, delusions, cognitive impairment, etc.). A mental health crisis can result from mental illness, an intellectual or developmental disability, a personal crisis, or the effects of drugs or alcohol.
- E. **Mental Illness:** Any condition characterized by impairment of a person's normal cognitive, emotional, or behavioral functioning and caused by social, psychological, biochemical, genetic, or other factors, such as infection or head trauma.

IV. PROCEDURES

A. Mental Illness

When responding to a call for service or conducting an interview/interrogation, employees may encounter situations where they interact with a person suspected of suffering from a mental illness.

	Charlotte-Mecklenburg Police Department		500-003
	Interactive Directives Guide		Response to a Mental Health Crisis
	Effective Date: 12/8/2023		2 of 9

1. Employees are not required to make a diagnosis of whether a person is mentally ill or what form of mental illness a person may have but will use reasonable judgment and utilize their training to assist in recognizing and evaluating a person who may be suffering from a mental illness.
 - a. Verbal Cues
 - (1). Illogical thoughts (sharing a combination of unrelated or abstract topics, expressing thoughts of greatness, indicating ideas of being harassed or threatened, exhibiting a preoccupation with death, germs, guilts, or other similar ideas).
 - (2). Unusual speech patterns (nonsensical speech or chatter, word repetition, pressured speech, extremely slow speaking).
 - (3). Verbal hostility or excitement (talking excitedly or loudly, being argumentative, belligerent, or unreasonably hostile, threatening harm to self or others).
 - b. Behavioral Cues
 - (1). Physical appearance (inappropriate clothing to the environment).
 - (2). Body movements (strange postures or mannerisms, lethargic and sluggish, pacing, repetitive/ritualistic movements).
 - (3). Seeing, smelling, or hearing things that cannot be confirmed.
 - (4). Confusion about or unawareness of surroundings.
 - (5). Lack of emotional response.
 - (6). Causing injury to self.
 - (7). Nonverbal expression of sadness or grief.
 - (8). Inappropriate emotional reactions (overreacting to situations in an overly angry or frightening way, reacting with the opposite of expected emotion).
 - c. Environmental Cues
 - (1). Strange decorations (aluminum foil, pentagrams, etc.).
 - (2). Hoarding of items (garbage, newspapers, etc.).
 - (3). Presence of feces or urine on floors or walls.

	Interactive Directives Guide	Response to a Mental Health Crisis	
		Effective Date: 12/8/2023	3 of 9

2. The following guidelines should be utilized when interacting with a person who may be suffering from a mental illness.
 - a. Collect as much information on the person as possible from all sources before intervening.
 - b. Take your time and eliminate noise and distractions, recognizing that the person may be overwhelmed by external and internal stimuli.
 - c. Remain calm and avoid overreacting.
 - d. Talk simply and slowly.
 - e. Be helpful, patient, and accepting but firm and professional.
 - f. Understand that a rational discussion may not take place.
 - g. Indicate a willingness to understand.
 - h. Recognize that a person's delusions or hallucinations are very real for them.

B. Excited Delirium

1. Excited delirium is a potentially life-threatening condition most commonly seen in males with a history of serious mental illness and/or acute or chronic drug abuse, particularly stimulant drugs such as cocaine, crack cocaine, methamphetamines, amphetamines, or similar agents. Alcohol or substance withdrawal or head trauma may also contribute to excited delirium.
2. MEDIC and/or CFD will be requested immediately if excited delirium is suspected.
3. Persons experiencing excited delirium may be a risk to themselves, the officer, and bystanders. The person may exhibit a combination of delirium, psychomotor agitation, anxiety, hallucinations, speech disturbances, disorientation, violent or bizarre behaviors, insensitivity to pain, hyperthermia, and increased strength.
4. It is important for officers to recognize when a person may be experiencing excited delirium because the person could potentially die without proper medical attention. The following signs may be exhibited:
 - a. A person's ability to focus, sustain, or shift attention is impaired, and they are easily distracted.
 - b. A person may be incoherent or ramble, and it may be difficult or impossible to engage with the person in conversation.
 - c. A person may exhibit signs of paranoia, fear, and excitability. The presence of police officers may further heighten this feeling.
 - d. A person may be disoriented regarding time and/or locations, suffer from misleading perceptions, and/or experience hallucinations or delusions.

Charlotte-Mecklenburg Police Department		500-003
Interactive Directives Guide	Response to a Mental Health Crisis	
	Effective Date: 12/8/2023	4 of 9

- e. A person may remove one or more clothing items due to elevated body temperature.
 - f. A person may possess unusual strength and endurance and appear impervious to pain.
 - g. A person's symptoms can progress into agitation, anger, and aggressiveness.
 - h. A person may have a tendency towards violence against people, as well as inanimate objects, particularly glass.
5. Once it is determined that a person may be experiencing excited delirium, the incident will be managed as a medical emergency, in addition to whatever law enforcement response may be required under the circumstances, including the use of reasonable force.
- C. Positional and Restraint Asphyxia
- 1. Positional asphyxia occurs when the person's body position interferes with their ability to breathe. The inability to breathe adequately creates a lack of oxygen, which may result in unconsciousness or suffocation (asphyxiation). The inability to breathe correctly may result from the body's position interfering with the muscular or mechanical function of breathing, from the compromising or blocking of the airway, or from some combination of the following:
 - a. Hog-tied (handcuffed behind the back, feet bound and raised toward hands, and placed face down) is a body position that can contribute to positional asphyxia. Positional asphyxia may occur when the person is restrained in another position (e.g., handcuffing a person behind the back, which is the preferred method for safety reasons) and is placed face down.
 - b. Additional factors that may increase the risk of positional asphyxia include:
 - (1). Obesity
 - (2). Alcohol and substance use
 - (3). Enlarged heart
 - (4). Physical injury
 - 2. Restraint Asphyxia is typically caused by a combination of exhaustion, exertion, fear, and restricted breathing due to restraint or the response to resistance.
- D. Role of a Law Enforcement Officer
- 1. When an officer responds to an incident involving a person in a mental health crisis, the officer will, as soon as practical, request MEDIC and/or CFD (if not initially dispatched), designate a safe location for MEDIC and/or CFD to stage until the scene is secured, and notify their supervisor.

	Charlotte-Mecklenburg Police Department		500-003
	Interactive Directives Guide	Response to a Mental Health Crisis	
		Effective Date: 12/8/2023	5 of 9

2. Division supervisors will respond to the scene in instances of a person suspected of experiencing excited delirium, positional asphyxia, or restraint asphyxia.
3. Officers responding to a mental health crisis should request an on-duty Crisis Intervention Team (CIT) officer and/or the Community Policing Crisis Response Team (CPCRT) to respond to the scene. If necessary, the Mecklenburg County Mobile Crisis Team (MCT) can also be requested to respond. CIT officers, CPCRT, and MCT will serve as the gateway to community mental health resources. CPCRT and/or MCT will:
 - a. Assist in stabilizing the situation.
 - b. Complete a mental health assessment, if necessary.
 - c. Make referrals/linkages to the Alliance Health partnerships or other vital services as needed.
 - d. Conduct follow-up assessments.
4. If CPCRT and/or MCT are unavailable, officers will assess the situation and take appropriate action as needed.
5. If a person appears unarmed, does not pose an immediate threat to escape, or does not pose an immediate threat to the physical safety of themselves, officers, or other persons, the initial arriving officer will wait until backup arrives before attempting to approach the person. Officers will, if practicable, contain the person while maintaining a safe distance. The objective in this situation is to gain the person's voluntary cooperation. One (1) or more of the following may assist in achieving the person's cooperation:
 - a. Attempt to de-escalate the situation. Ideally, only one (1) officer should converse with the person. The officer should turn down their radio, project calmness and confidence, and speak in a conversational and non-confrontational manner. Whenever possible, the officer should determine if the person can answer simple questions, which can give the officer an idea of the level of coherence of the person.
 - b. Remember, a person's mind may be racing or delusional; officers should be patient and may need to repeat statements and questions several times.
 - c. If beneficial and safe to do so, an officer may enlist the assistance of a family member or another person who has a rapport with the person or a mental health professional who can safely participate in attempting to gain the person's cooperation.
6. If the person is armed, combative, or otherwise poses an immediate threat to the physical safety of themselves, officers, or other persons, officers shall employ the amount of force that is reasonable and necessary to protect themselves and others at the scene and to take the person into custody. To practical extents, efforts

	Charlotte-Mecklenburg Police Department		500-003
	Interactive Directives Guide	Response to a Mental Health Crisis	
		Effective Date: 12/8/2023	6 of 9

should be made to minimize the intensity and duration of the person’s resistance and to avoid engaging in a potentially prolonged struggle.

7. Officers will adhere to Directive 600-019 Response to Resistance and local medical protocols when attempting to stop a person from resisting arrest or harming themselves or others (e.g., use of physical restraints, OC, Taser, etc.).

Officers should use the following control techniques:

- a. Once physical restraints have been applied, if the person is behaving in a manner that could potentially cause self-harm or harm to officers, the person may be held in the prone position as it affords the officers on the scene the safest and most efficient means of controlling the person.
 - b. As soon as it is safe for the person and officers on the scene, the person should be rolled onto their side to reduce the likelihood of positional asphyxia or airway compromise. Officers should position themselves in a kneeling position beside the person to provide positional support.
 - c. Officers will closely and continuously monitor the person for signs of medical distress such as labored or irregular breathing, unresponsiveness, incoherence, or verbal indications. Officers will notify MEDIC and/or CFD of any observed changes in a person’s condition via the Communications Division. Officers should continue to attempt to communicate, calm the person, and obtain medically relevant information (e.g., drugs ingested, known medical conditions, etc.).
 - d. If the person becomes unresponsive and stops breathing, handcuffs should be removed, and the person should be placed on their back to begin Cardiopulmonary Resuscitation (CPR).
8. Officers will notify MEDIC and/or CFD via the Communications Division of any force applied to a person. Once MEDIC and/or CFD arrive on the scene, officers will provide a detailed description of the force used, the level/intensity of resistance by the person, and any relevant medical information.
 9. If an officer has reason to believe the person ingested contraband, the officer will:
 - a. Immediately contact MEDIC and/or CFD and have the person evaluated by emergency medical personnel.
 - b. Notify their immediate supervisor.
 - c. If the person is not under arrest, ensure that the arrest process continues and the person remains under arrest. The division commander or Operations Command will determine if there is a need to maintain a rotation to guard the person.
 - d. Advise Mecklenburg County Intake personnel anytime a person has been treated for ingesting contraband.

	Charlotte-Mecklenburg Police Department		500-003
	Interactive Directives Guide		Response to a Mental Health Crisis
			Effective Date: 12/8/2023

10. If an arrest is appropriate, the arrest process will be completed upon the person's release from the medical facility.
11. If MEDIC transports the person to a medical facility, officers will maintain custody of the person.

E. Role of the Communications Division

1. Telecommunicators may recognize a potential case of excited delirium; in this case, they will communicate their observations to the responding officers, contact MEDIC and/or CFD, and request that a CIT officer respond to the incident if available.
2. Telecommunicators are responsible for informing responding officers that MEDIC and/or CFD is responding and their ability to stage.
3. Telecommunicators will immediately relay information provided by officers about a person in a mental health crisis to MEDIC and/or CFD to include, but not limited to, scene security, the person's condition, changes to the person's condition, if officers believe the person ingested contraband, and force applied to the person by officers.

F. Role of MEDIC and/or CFD

1. In accordance with MEDIC dispatch protocols, MEDIC and/or CFD will respond to the staging area of a mental health crisis and await notification that the scene is secure.
2. MEDIC and/or CFD should evaluate and administer appropriate medical care to the person.
3. If a person is determined to be at risk for positional asphyxia, restraint asphyxia, or excited delirium, MEDIC should transport the person to an emergency medical facility.
4. For a mental health crisis where a person is not at risk for positional asphyxia, restraint asphyxia, or excited delirium, MEDIC and/or CFD should evaluate the person to determine if there is a need for MEDIC to transport to an emergency medical facility. If emergency medical personnel determine a person does not need to be transported by MEDIC and advise an officer can transport the person, the transporting officer will properly document the emergency medical personnel's decision and monitor the person's breathing closely. When possible, the transporting officer should have a second officer accompany them to monitor the person. If a second officer is unavailable, the transporting officer should stop the vehicle periodically and confirm that the person is conscious, alert, and can breathe normally.

I. PURPOSE

This policy serves as a definition list for terminology used in Directive 500-004-A, Conducting Person Searches, 500-004-B, Conducting Searches of Structures, 500-004-C, Conducting Vehicle Searches, and 500-004-D, Search Warrants.

II. DEFINITIONS

1. Buccal Swab: A swab of a person's cheek area to collect DNA and is compared to evidence collected from a crime scene or victim.
2. Compliant Warrant Service: An arrest warrant or search warrant served with the person's voluntary permission.
3. Consent Search: A clear and voluntary expression by a person to allow an officer to search the person or property of the consenting party or property over which the consenting party has apparent control. Consent may be requested when there is a non-arbitrary, articulable reason.
4. Crime Scene: A location where a crime has occurred or where evidence of a crime is located and there is an apparent need for investigative action and/or emergency services (e.g., homicide scene, fire scene, burglaries or breaking and entering scenes, etc.). For the purpose of this definition, the mere presence of contraband or evidence in private premises does not make such premises a crime scene.
5. Deliberate Entry: A warrant service tactic in which officers enter and clear a structure at a measured pace to methodically clear a structure to effect an arrest or conduct a search.
6. Dynamic Entry: An arrest warrant and search warrant service tactic in which officers enter and clear a structure rapidly to take advantage of the elements of surprise, speed, and shock of action.

			Effective Date: 10/11/2024

I. PURPOSE

This policy establishes procedures for the Charlotte-Mecklenburg Police Department (CMPD) when conducting person searches.

II. POLICY

CMPD shall conduct all searches and seizures in a lawful manner. The video and audio recording of searches and seizures will be conducted in accordance with Directive 400-006, Body Worn Camera (BWC).

III. DEFINITIONS

Definitions for Directive 500-004 A-D are found in Directive 500-004, Search Definitions.

IV. PROCEDURES

A. Warrantless Searches

1. Officers will wait for a backup officer before conducting a person search unless exigency exists that prevents the officer from waiting to search the person. The backup officer will provide cover/contact for the officer conducting the search until the search is complete and the person is secured.
2. To conduct a frisk/pat-down search, officers must be able to clearly articulate the reasons for their suspicion that the person is armed and dangerous. Examples of articulation include:
 - a. The nature of the crime.
 - b. Known history of the person.
 - c. Observation of the person's actions.
3. A search incident to arrest is justified by the need to prevent the arrested person from using weapons, destroying evidence, or locating additional evidence. Officers automatically have the right to search incident to arrest, which is legally justified for any arrestable offense.
 - a. A search incident to arrest is limited to a search of the arrestee's person and the area within the arrestee's immediate control.
 - b. While containers found on an arrestee or within the arrestee's immediate control may be seized, they cannot be searched incident to arrest unless the arrestee is unsecured and within reaching distance of the container at the time of the search. As this is unlikely to occur when an arrestee is in handcuffs, to search such containers, officers are advised to obtain consent, a search warrant, or to perform an inventory search as outlined in Directive 500-008, Prisoner Transport. Additionally, officers may search such containers when an arrestee denies ownership of the container and has abandoned the property.

4. Strip Searches

Strip searches for contraband, when an adult or juvenile is under arrest, require probable cause to believe that a person has concealed a weapon or evidence of the crime they were arrested for that would not otherwise be discovered by a standard search incident to arrest.

- a. Officers must notify their direct supervisor before conducting a strip search.
- b. Strip searches must be conducted in a private location outside the public's view and shall not be conducted on the roadside.
- c. Strip searches must be conducted reasonably to ensure the safety of the arrestee (e.g., officers shall not use sharp instruments to remove contraband).
- d. Strip searches must be conducted by two (2) officers and carried out with respect for the arrestee's privacy, sex, gender, gender identity, and/or gender expression. When reasonable, the primary officer conducting the search should be the same sex as the arrestee, and the secondary officer will only act as a witness to the search.
- e. Exigent Strip Search for a Weapon
 - (1) Strip searches for a weapon may be conducted if exigency exists to believe a weapon will be located on a person that would not otherwise be discovered by a standard search incident to arrest and, absent immediate action, officers or the public could be endangered.
 - (2) Officers are not required to wait for a backup officer to complete an exigent strip search for a weapon.
 - (3) If a weapon is detected, the immediate safety of the officers, arrestees, and the public is at risk, and removing the weapon is imperative to preserve safety and life. In this circumstance, a strip search may be conducted in public view and is considered reasonable and justified.
 - (4) Officers must notify their direct supervisor as soon as possible after conducting an exigent strip search.
- f. Strip searches must be documented in a KBCOPS narrative supplement.

5. Body Cavity Searches

A visual body cavity search of an adult or juvenile under arrest is permitted if an officer has probable cause to believe contraband or weapons will be located in or around a body cavity.

	POLICE	Charlotte-Mecklenburg Police Department	500-004-A
	Interactive Directives Guide	Conducting Person Searches	
		Effective Date: 10/11/2024	3 of 5

- a. Officers must notify their direct supervisor before conducting a body cavity search.
- b. Visual body cavity searches must be conducted in a private location outside the public's view and shall not be conducted on the roadside.
- c. Visual body cavity searches must be conducted by two (2) officers and carried out with respect for the arrestee's privacy, sex, gender, gender identity, and/or gender expression. When reasonable, the primary officer conducting the search should be the same sex as the arrestee, and the secondary officer will only act as a witness to the search.
- d. If the visual body cavity search reveals contraband, the arrestee should be told to remove the item. If the arrestee fails to remove the item, officers must obtain a search warrant and transport the arrestee to the hospital for the item to be removed by a licensed medical professional.
- e. If the visual body cavity search reveals a weapon, the search is considered exigent, and the weapon must be safely retrieved and secured.
- f. Body cavity searches must be documented in a KBCOPS narrative supplement.

6. Ingested Contraband Searches

A search of a person's mouth is permissible when there is probable cause to believe that the person has placed an illegal substance in their mouth. Exigency is created due to potential harm to the person and the destruction of evidence.

- a. The goal of officers is to get the person to spit out the illegal substance. Instead of using hands and/or fingers to retrieve the substance, officers should rely on the manipulation of pressure points such as the mandibular angle nerve, hypoglossal nerve, and jugular notch nerve.
- b. Officers are not permitted to block a person's airway or restrict blood flow to the brain.
- c. Officers will immediately request MEDIC and notify their immediate supervisor if a person has or is believed to have swallowed an illegal substance.
- d. Officers must obtain a search warrant to retrieve the ingested evidence.
- e. Ingested contraband searches and all actions taken in response during the search must be documented in a KBCOPS narrative supplement.

	Effective Date: 10/11/2024		4 of 5

B. Consensual Searches

1. A consent search is a clear and voluntary expression by a person to allow an officer to search the person or property of the consenting party or property over which the consenting party has apparent control.
2. Consent may be requested when there is a non-arbitrary articulable reason. The articulable reason must be noted in a Field Interview (FI) or KBCOPS narrative supplement.
3. If consent is revoked at any time during the search, the officer must cease the search unless probable cause has been developed to warrant the continuation of the search.
4. For traffic-related stops, all requests for consent searches, the approval or denial of the request, and the results of the search must be documented on the Stop Data Form.
5. If a person is not under arrest and the officer obtains specific consent to search under their outer clothing, officers may conduct a consensual strip search for contraband, following all guidelines listed in this policy for warrantless strip searches (IV.A,4.).
 - a. MEDIC will not be called for the sole purpose of conducting a strip search. However, if MEDIC is present at the time the time of the strip search, the officer may request assistance to retrieve contraband if feasible.
 - b. Consensual strip searches must be documented in a FI, KBCOPS narrative supplement, or Stop Data Form.

C. Search Warrants

1. Officers must obtain a search warrant before requesting medical personnel to retrieve any illegal substances that have been hidden in a body cavity or ingested.
2. Any search warrant served on a person to obtain items of evidentiary value (e.g., buccal, blood, photos, hair follicles, etc.) will be documented by a supervisor in the Internal Affairs Case Management System (IACMS) and require an investigation.

D. Non-Testimonial Application and Order (NTO)

1. The NTO may be used to obtain fingerprints, palm prints, footprints, measurements, urine specimens, saliva samples, hair samples, other reasonable physical examinations, handwriting exemplars, voice samples, photographs/lineups, or similar identification procedures requiring the presence of a suspect. If blood is needed, a search warrant is required.

	Charlotte-Mecklenburg Police Department		500-004-A
	Interactive Directives Guide		Conducting Person Searches
			Effective Date: 10/11/2024

2. The NTO requires probable cause for a felony or Class A1 or Class 1 misdemeanor, and there are reasonable grounds to believe the person committed the offense and that the results will be of material aid in determining if the person named in the affidavit committed the offense.
3. The NTO is completed by an officer or detective and presented by an assistant district attorney. A judge will approve and sign the NTO, which should include the time and place for the appearance of the suspect. The NTO may not be served on an adult suspect while in custody.

E. Collection of DNA Evidence via a Buccal Swab

1. If an officer wants to obtain a buccal swab from an adult, the officer must obtain consent, a search warrant, or a Non-Testimonial Order (NTO).
 - a. For persons not in police custody, the officer must obtain consent, obtain a search warrant, or apply for an NTO in conjunction with the assigned prosecutor.
 - b. For arrestee's in-custody, the officer must obtain consent or obtain a search warrant.
2. An officer must obtain a buccal swab from an adult upon arrest if a magistrate has found probable cause to believe the arrestee has committed one (1) of the offenses listed in [N.C.G.S. § 15A-266.3A \(f\)&\(g\)](#). If the arrestee does not consent, force may not be used, and a search warrant must be obtained.
3. An officer may use reasonable force to execute a search warrant for a suspect's DNA via a buccal swab.
4. If an officer wants to obtain a buccal swab from a charged or uncharged juvenile suspect, the officer must obtain an NTO.

	Effective Date: 11/17/2023		1 of 7

I. PURPOSE

This policy establishes procedures for the Charlotte-Mecklenburg Police Department (CMPD) when conducting searches of structures.

II. POLICY

CMPD will conduct all searches and seizures in a lawful manner. Lawful searches and seizures protect the constitutional rights of citizens and prevent the suppression of seized evidence. Video and audio recordings of searches and seizures will be conducted in accordance with Directive 400-006, Body Worn Cameras.

III. DEFINITIONS

Requirements for different types of structure searches are set forth below using terms defined in Directive 500-004, Search Definitions. For the purpose of this directive, the term officer will apply to all sworn CMPD employees, regardless of rank.

IV. PROCEDURES

A. Warrantless Searches

1. Consent Searches

- a. In accordance with [N.C.G.S. §15A-222](#), the consent to search must be voluntary and obtained from a person who, by ownership or otherwise, is reasonably apparently entitled to give or withhold consent to a search of premises.
 - (1). When a physically present co-occupant of a dwelling refuses to consent, it is a refusal even if other occupants consent to a search.
 - (2). Consent searches must be documented in a Field Interview (FI) Form or a KBCOPS narrative.
 - (3). Consent searches of a person's property based on a non-arbitrary articulable reason will adhere to Directive 600-017, Arbitrary Profiling.
 - (4). Recording of consent searches will adhere to Directive 400-006, Body Worn Camera (BWC).
- b. The scope of the search is governed by the terms of the consent. Officers should always consider requesting voluntary consent because the consent given may exceed the scope of the search authorized by law.
- c. Officers may not destroy property, such as doors, locks, etc., based solely on a general consent unless given specific permission by the consenter.
- d. The person who consents to the search may withdraw that consent at any time during the course of the search. Officers are not required to advise

	Charlotte-Mecklenburg Police Department		500-004-B
	Interactive Directives Guide	Conducting Searches of Structures	
		Effective Date: 11/17/2023	2 of 7

the person that they can withdraw consent or have a right to refuse consent.

- (1). If consent is withdrawn, the search will cease immediately unless probable cause to arrest or continue the search has been established prior to consent being withdrawn.
- (2). If probable cause to arrest has been established, the rules related to search incident to arrest should be followed.
- (3). If probable cause is established to continue searching a dwelling, a search warrant should be obtained unless there are exigent circumstances.

2. Search Incident to Arrest

- a. Officers must have probable cause to place a person under arrest, and officers must intend to arrest the individual.
- b. The scope of the search will depend on the location of the arrest. If an arrest is made of an occupant inside a building:
 - (1). Officers may search the arrestee's person to discover and remove weapons and to seize evidence to prevent its concealment or destruction.
 - (2). Officers may search the area within the immediate control of the person arrested, where the arrestee might gain possession of a weapon or destructible evidence.
 - (3). Officers will adhere to Directive 500-004-A, Conducting Person Searches for containers located on an arrestee or within the arrestee's immediate control.

3. Protective Sweep of Structures

- a. A protective sweep is a quick and limited search of a premise, incident to an arrest and conducted to protect the safety of officers or others. Officers must:
 - (1). Have a legitimate reason to be at the location.
 - (2). Have reasonable suspicion that the place to be searched harbors a person who is a danger to the officers there.
- b. When officers arrest a person in a home or other premises, they may as incident to that arrest automatically, that is, without needing probable cause or reasonable suspicion to do so, search closets and other spaces immediately adjoining the place of arrest from which an attack on them from another person could occur.

	Charlotte-Mecklenburg Police Department		500-004-B
	Interactive Directives Guide	Conducting Searches of Structures	
	Effective Date: 11/17/2023		3 of 7

- (1). This search is limited to looking for people who may pose a danger; its purpose is not to discover evidence.
- (2). While in a home to make an arrest or immediately after the arrest, officers may make a protective search for weapons if they have a reasonable belief that the search is necessary to protect themselves.

4. Warrantless Emergency/Exigent Entry

There are limited circumstances when officers may enter a residence without an arrest or search warrant. If an officer is unsure if the exception is applicable, they should consider securing a search warrant. Note: Entering a residence in hot pursuit of a fleeing misdemeanor offender is not an exigent circumstance.

a. Entry to Arrest

Officers may enter a private premises without a warrant or consent to arrest someone in the premises only if:

- (1). Someone is likely to be killed or seriously injured unless immediate warrantless action is taken.
- (2). A serious and/or dangerous criminal offender is likely to escape apprehension and/or prosecution unless immediate warrantless action is taken, and:
 - (a). There is probable cause to arrest the person sought.
 - (b). There is probable cause to believe that the person to be arrested is physically present in the premises at the time of the entry.

b. Entry to Preserve Evidence

- (1). When determining if exigent circumstances existed when officers enter to prevent the destruction of evidence, the court considers the following factors:
 - (a). Information that the possessors of the contraband are aware of police presence.
 - (b). The ready destructibility of the contraband.
 - (c). The officer's reasonably objective belief that the contraband is about to be removed or destroyed.
- (2). The totality of the circumstances determines the lawfulness of the entry. The following factors apply:
 - (a). The location is the subject of an ongoing investigation, or

	Charlotte-Mecklenburg Police Department		500-004-B
	Interactive Directives Guide	Conducting Searches of Structures	
	Effective Date: 11/17/2023		4 of 7

- (b). Officers have prior knowledge/information about the location and the individuals that frequent it (i.e., calls for service, previous criminal activity, citizen complaints, etc.); and
 - (c). The possessors of the contraband are aware of police presence.
 - (d). Officers have probable cause to believe contraband or evidence is present and capable of imminent destruction.
 - (e). The smell of marijuana alone is not sufficient to justify an exigent entry of the residence.
- (3). If an exigent entry is authorized based on the factors above, officers may:
- (a). Cross the threshold; or
 - (b). Enter a residence or business; or
 - (c). Prevent an occupant from closing a door; and
 - (d). Enter the residence to secure individuals to protect against the imminent destruction of evidence.
 - (e). Use what they see in plain view as further evidence to establish probable cause to obtain a search warrant or consent.
- (4). Once the premises are secured, no further search can be conducted unless or until one (1) of the following are obtained:
- (a). A search warrant for the premises is on the scene.
 - (b). Consent to search has been obtained.
 - (c). New/additional exigent circumstances arise that create the need for an additional warrantless search.
- c. Entry of Crime Scene
- (1). An officer may enter a private premises crime scene without a warrant or consent to:
 - (a). Locate and secure suspects, or
 - (b). Provide assistance to injured persons or others requiring emergency assistance.
 - (2). Once the actions described above are completed, no further search will be conducted unless or until one (1) of the following are obtained:

	Charlotte-Mecklenburg Police Department		500-004-B
	<i>Interactive Directives Guide</i>	Conducting Searches of Structures	
	<i>Effective Date: 11/17/2023</i>		5 of 7

- (a). A search warrant for the premises is on the scene.
 - (b). Consent to search has been obtained.
 - (c). New/additional exigent circumstances arise, necessitating a further search.
- d. Entry for Urgent Necessity
- (1). In accordance with [N.C.G.S. §15A-285](#), When an officer reasonably believes that doing so is urgently necessary to save a life, prevent serious bodily harm, or avert or control public catastrophe, the officer may take one or more of the following actions:
 - (a). Enter buildings, vehicles, and other premises.
 - (b). Limit or restrict the presence of persons in premises or area.
 - (c). Exercise control over the property of others.
 - (2). An action taken to enforce the law or to seize a person or evidence cannot be justified by authority of this section.
 - (3). An IACMS raid and search supervisor report must be completed following a search related to urgent necessity.
- e. Entry to Secure a Structure
- An officer who enters an unoccupied structure or residence during an investigation of an alarm call or an unsecured structure will document the entry in a miscellaneous incident (MI) report and notify their supervisor. Officers can enter when they reasonably believe a crime, injury to a person, etc., exists.

5. Notification Procedures for Warrantless Non-Consensual Entries

- a. When feasible, officers will notify their supervisor of their intent to conduct a warrantless, non-consensual entry prior to entering the premises to conduct a search.
- b. If, due to exigent circumstances, the officer has no opportunity to contact a supervisor prior to such a search, the supervisor will be notified as soon as possible.
- c. The supervisor will respond to the scene, review the circumstances, and determine if the search should continue.
- d. A raid and search report and an IACMS raid and search supervisor report will be entered following the search (except in entry for urgent necessity or an alarm call as stated above), with special emphasis placed on the facts that precipitated the search and gave rise to exigent circumstances.

B. Searching a Premises with an Arrest Warrant or Valid Commitment Order

1. Officers may make a non-consensual entry into a suspect's home or place where the suspect is residing to arrest only if an arrest warrant or valid commitment order for that person has been obtained, an original of the warrant or order is at the scene, officers reasonably believe that the place to be entered is the person's residence, there is probable cause to believe that the person is on the premises, and they give notice before entering of their authority and purpose unless exigent circumstances justify entry without an arrest warrant.
2. It is preferred that officers have a printout of the arrest warrant or commitment order from E-Warrants at the scene whenever practicable; however, the electronic version in E-Warrants on a patrol car laptop is sufficient since it is considered an original.
3. Officers may make a non-consensual entry into a third party's premises to arrest a person with an arrest warrant or valid commitment order only if a search warrant has been obtained for the premises, it is at the scene, and there is reasonable grounds to believe that the person is on the premises unless exigent circumstances justify an entry without a search warrant.
4. An officer may enter the premises when consent is obtained from a person who, by ownership or otherwise, is reasonably apparently entitled to give or withhold consent in accordance with [N.C.G.S. §15A-222](#).
 - a. A third party who shares an apartment with the respondent may give an officer permission to enter common areas of the apartment (i.e., kitchen or living room); however, a third party cannot consent to the officer entering areas of the apartment over which they do not possess common authority (i.e., the respondent's bedroom or private bath).
 - b. If the respondent is in the residence of a third party and the third party refuses to give consent to officers to enter and take custody of the respondent, the officer must weigh all the facts and circumstances to determine if the situation rises to the level of exigent entry and if an additional court order to gain entry should be sought.
5. Before entering, officers must knock and give appropriate notice of their identity and purpose to the person in apparent control of the premises to be entered. After announcing their identity and purpose, and if the officers believe that admittance is being denied or unreasonably delayed, the force necessary to effect the entry may be used.
6. Nothing in this subsection prohibits officers from entering a premises under the exigency exception to the search warrant requirement if officers observe an intervening exigent circumstance that would endanger the life or safety of any person.

The previous version of Directive 500-004-B Conducting Searches of Structures was published on 09/21/2021.

	Charlotte-Mecklenburg Police Department		500-004-C
	Interactive Directives Guide	Conducting Vehicle Searches	
		Effective Date: 9/21/2021	1 of 3

I. PURPOSE

The purpose of this directive is to set forth the procedures for conducting searches of vehicles.

II. POLICY

It is the policy of the Charlotte-Mecklenburg Police Department (CMPD) to conduct all searches and seizures in a lawful manner. Lawful searches and seizures protect the constitutional rights of our citizens and prevent the suppression of seized evidence. The video and audio recording of all searches and seizures will be conducted in accordance with 400-006 Body Worn Cameras.

III. DEFINITIONS

Requirements for different types of vehicle searches are set forth below using terms defined in Directive 500-004 Search Definitions.

IV. WARRANTLESS SEARCHES

A. Vehicle Exception

The vehicle exception provides that if an officer has probable cause to believe that a vehicle has evidence of a crime or contraband located in it, a search of that vehicle may be conducted without first obtaining a warrant if the vehicle is located in a public place (where the suspect has no expectation of privacy) or a public vehicular area.

Scope of search

- a. Every part of the vehicle where the object of the search could be located including the trunk can be searched.
- b. A search conducted pursuant to the vehicle exception may be conducted at the scene or after the vehicle has been impounded.

B. Consent Searches

1. Requirements

The consent to search must be voluntary and obtained from either:

- a. The registered owner of a vehicle to be searched or the person in apparent control of the vehicle, such as the driver, at the time the consent is given. If the registered owner is present, his or her consent must be obtained.
- b. Consent searches must be documented by completing the Stop Data Form.
- c. During a consent search officers who are issued a body worn camera (BWC) must comply with Directive 400-006.

2. Scope of the search

	Charlotte-Mecklenburg Police Department		500-004-C
	<i>Interactive Directives Guide</i>	Conducting Vehicle Searches	
	<i>Effective Date: 9/21/2021</i>		2 of 3

- a. The scope of the search is governed by the terms of the consent.
 - b. Officers may not destroy property, such as portions of a vehicle, based solely on a general consent unless given specific permission by the registered owner of the vehicle.
3. Withdrawn consent
- The person who consents to the search may, at any time during the course of the search, withdraw that consent. However, it is not required that police officers advise the person that he or she can withdraw consent, or that he or she has a right to refuse consent. If consent is withdrawn the officer must stop the search unless probable cause exists to continue the search.
- B. Frisk of vehicles
1. Requirement

Officers are conducting a lawful detention of the vehicle; and officers have reasonable suspicion to believe a person has access to a weapon and is therefore dangerous.
 2. Scope of the search

Officers may frisk the interior passenger area of a vehicle and any containers that are accessible and capable of containing a weapon.
- C. Search incident to arrest
1. Requirement

The arrest of an occupant or recent occupant of the vehicle.
 2. Scope of search
 - a. Officers may search the arrestee's person.
 - b. When officers have reason to believe the vehicle contains evidence of the offense for which the person is being arrested, officers may search the entire interior of the vehicle where the evidence could be located including, the glove compartment or any other compartment whether locked or unlocked and all containers found within the interior of the vehicle. The trunk of a vehicle is not subject to search as incident to an arrest.
- D. Inventory Search
1. Any officer having a vehicle towed will conduct an inventory of the interior and trunk areas in order to record all property in the vehicle.
 2. Locked, sealed or closed containers such as suitcases, packages or boxes will be opened when the contents cannot be determined from an examination of the

container's exterior. However, locked or sealed items will not be forcibly opened in order to inventory the contents if doing so will cause damage to the container. The vehicle's trunk and/or glove compartment will not be forcibly opened in order to inventory the contents of these areas.

3. Inventory searches will be documented on the Tow/Storage Report.

III. DEFINITIONS

See Directive 500-004 Search Definitions.

IV. SEARCH WARRANT PROCEDURE

The basis for the issuance of a warrant is probable cause.

A. The sworn employee seeking the search warrant will complete a deconfliction check prior to seeking the warrant.

B. Affidavit for Search Warrant

1. A search warrant must be based upon a duly sworn to and subscribed to affidavit which sets forth facts to establish probable cause to believe that the property sought to be seized is upon the premises, person, or vehicle to be searched.
2. A search warrant must describe the place to be searched with sufficient particularity so that a reasonable person who is unfamiliar with the investigation could read the description and find the premises, person or vehicle to be searched.
3. A search warrant must particularly describe the property obtained to be seized.
4. A confidential source can provide sufficient probable cause upon which to base a sworn affidavit for a search warrant.
5. The signature of any North Carolina Superior Court Judge must be sought for a search warrant that will be served in another North Carolina county.

C. Execution of a Search Warrant

1. A search warrant and its attendant sworn affidavit must be reviewed and signed by a judicial official and must be executed and returned to the clerk/magistrate.
2. Prior to the execution of an out of agency search warrant, CMPD sworn employees shall review it for probable cause and check to see if it is signed by a North Carolina Superior Court Judge. Sworn employees should not execute an out of agency search warrant if a CMPD supervisor determines no probable cause exist.

	Effective Date: 9/15/2022		2 of 7

3. "Knock and Announce" required:
 - a. CMPD will not seek or serve 'no-knock' search warrants.
 - b. A sworn employee engaged in the execution of a search warrant must give notice to those within the premises of law enforcement presence by knocking and announcing his or her authority and the purpose of his or her presence before making entry.
 - c. If the sworn employee executing a search warrant believes that he or she is being denied entry after giving due notice of his or her authority and purpose, the sworn employee may use reasonable force to gain entry.
 - d. Nothing in this subsection prohibits sworn employees from entering under the exigency exception to the search warrant requirement if sworn employees observe an intervening exigent circumstance that would endanger the life or safety of any person.

D. Preparation of the Plan for Execution of the Search

1. Responsibilities of the division captain, lieutenant, or operations commander:
 - a. The division lieutenant, captain, or operations commander will review the search warrant application prior to presentation to the judicial official.
 - b. The division lieutenant, captain, or operations commander will designate the police supervisor to be present at the scene and in charge of the search.
 - c. The division lieutenant, captain, operations commander, or police supervisor may request assistance from the CMPD SWAT Team if he or she determines the warrant to be high risk.
2. In the event a division lieutenant, captain, or operations commander is not available, a Vice and Narcotics Unit supervisor or a Homicide Unit supervisor of the rank of sergeant or above may assume the responsibilities of the division lieutenant, captain, or operations commander.
3. When a search warrant is initiated by a sworn employee assigned to the Vice and Narcotics Unit, his or her supervisor of the rank of sergeant or above may assume the responsibilities of the division lieutenant, captain, or operations commander as outlined above.
4. The supervisor in charge of the search will notify:
 - a. The supervisor in the division where a search is being conducted;
 - b. The Vice and Narcotics Unit captain or supervisor (if crimes within the Vice and Narcotics Unit primary responsibilities may be involved);

	Charlotte-Mecklenburg Police Department		500-004-D
	Interactive Directives Guide		Search Warrants
	Effective Date: 9/15/2022		3 of 7

- c. If the Vice and Narcotics Unit captain or supervisor cannot be contacted, the supervisor in charge of the search will notify his or her division captain or the operations commander that contact was not made. The contact can be simultaneous with the search if needed.
5. At times when the operations commander is in charge of CMPD operations the supervisor directing the search will notify the operations commander of the intent to serve the warrant.
6. The supervisor directing the search will:
 - a. Review the affidavit and search warrant for accuracy and validity. (The reviewer should not sign, initial, or mark the affidavit or search warrant.)
 - b. Identify any existing hazards.
 - c. Determine the personnel needed, giving consideration to utilizing on-duty officers with special training.
 - 1) The supervisor may request the assistance of SWAT (See SWAT SOP #13 High Risk Search and Arrest Warrants).
 - 2) If it is determined to be a warrant service not needing the assistance of SWAT, the supervisor in charge and the sworn employees serving the warrant must have successfully completed CMPD In-Service Basic Warrant Service and execute the warrant service in accordance with the most recent course refresher (e.g., deliberate entry, surround and call out, or other trained/authorized tactics).
 3. Sworn employees not assigned to the SWAT team shall not utilize dynamic entry as a pre-planned warrant service tactic. Should the supervisor directing the search conclude a dynamic entry is justified, they will request the assistance of SWAT through their chain of command as detailed in SWAT SOP#13.
 - d. Determine the equipment needed (e.g., camera, extra handcuffs, and weapons).
 - e. Notify an on-duty supervisor of that agency when the warrant is to be executed outside of CMPD jurisdiction.
 - f. Ensure all sworn employees involved in the search have participated in the pre-search briefing. Instruct participating sworn employees of the plan for the search and of their job assignments; ensure that each individual understands his or her role and if necessary, reduce each assignment to writing. All sworn employees involved in the search must participate in the pre-search briefing.

- i. Ensure that the first sworn employee to enter the premises is a uniformed officer.
- j. Ensure that all non-uniformed personnel are wearing proper CMPD search attire.
- k. Ensure that a sketch is made of the premises to be searched.
- l. Make every reasonable effort to ensure that the correct premises are being entered by verifying the address and by verifying the house or structure description.
- m. Ensure compliance by all personnel issued a BWC with Directive 400-006 Body Worn Camera during the search.

E. Conducting the Search

1. Entry into the premises:
 - a. If it is unclear whether anyone is present at the premises to be searched, notice must be given in a manner likely to be heard by anyone who is present.
 - b. The first person(s) to enter the premises must be in police uniform. Non-uniformed personnel will wear proper CMPD search attire.
 - c. A supervisor will be on scene at the time when a search warrant for a commercial or residential structure or a buccal swab for DNA search warrant is executed.
2. When entry is made, sworn employees will assist in securing the premises and its occupants, guarding exits, and providing communications support to the sworn employees conducting the search.
3. After the occupants are secure, the sworn employee in charge of the search or designee must read the warrant (excluding application) and give a copy of the warrant application and affidavit to the person in charge of the premises. If the premises are unoccupied, a copy of the warrant must be left at the premises in a conspicuous location and the warrant does not need to be read aloud to an empty structure.
4. Securing the occupants of the premises:
 - a. Prior to beginning the search, any person present can be patted down (frisk only) if the sworn employee reasonably suspects that the person is armed.

	Charlotte-Mecklenburg Police Department		500-004-D
	Interactive Directives Guide	Search Warrants	
	Effective Date: 9/15/2022		5 of 7

b. Persons present at a search of a private premise may be detained by the search party. If the search fails to produce the items named in the warrant, and those items may be concealed upon a person, then those persons present may then be searched for the same type of items which, if found, may be seized and used as evidence. All controlled substances are considered the same type of property if any controlled substances are listed in the warrant. Any other type of property found during a search of persons under such circumstances may not be used for prosecution but may be seized if it is contraband or stolen property.

5. Photographs of the premises will be taken before and after the search.
6. The supervisor will designate the primary impounding officer, who is responsible for collecting and submitting evidence.
7. Evidence discovered in different locations on the premises will be placed in separate envelopes or containers by the sworn employee responsible for collecting evidence and marked to indicate where it was found and by whom.
8. Notes will be taken describing the location of evidence.
9. The sworn employee who obtains the search warrant will make every reasonable effort to determine the identity of the owner or occupant of record for the premises where the search was conducted.

F. **Raid and Search Report**

At the completion of the search, the supervisor in charge will initiate a Raid and Search Supervisor Report in IACMS prior to the supervisor completing his or her shift.

G. **Return of Search Warrant**

A search warrant must be executed within forty-eight (48) hours of issuance. After service, the sworn employee responsible for drawing the search warrant will return the warrant, with a written inventory of the seized items, to the Magistrate's Office without unreasonable delay. The sworn employee will obtain a signed copy of the returned warrant to put in his or her court file. The inventory must be signed and sworn to by the sworn employee who obtained the warrant.

H. **Receipt after Seizure of Property**

If property is seized during the course of a search, even if by consent, the sworn employee in charge will deliver a copy of the CMPD inventory, listing the property taken, to the party from whom the property was taken, or to the party in charge of the premises from which the property was taken. If no one is present to accept a copy of the form, the sworn employee will leave the copy in a conspicuous location in the premises or vehicle that was searched.

I. **Impounded Coin and Currency**

The previous version of Directive 500-004-D was published on 09/30/2020.

	Charlotte-Mecklenburg Police Department		500-007
	Interactive Directives Guide		Use of Interview, Temporary Detention, and Testing Rooms
	Effective Date: 9/26/2024		1 of 4

I. PURPOSE

The purpose of this directive is to establish guidelines for the use of interview, temporary detention, and testing rooms. These guidelines are designed to provide a safe and secure environment for employees, the general public, and detainees/arrestees.

II. POLICY

Officers are authorized to use interview temporary detention, and testing rooms only in accordance with this policy. Officers are responsible for the safety and security of individuals in the officer's custody and control and will ensure that the individual is under continual observation and monitoring. This may be accomplished in person or via live video provided personnel are close enough to intervene in the event of an emergency within the interview room and to allow for de-escalation in encounters involving a higher state of agitation. Officers will not leave an individual unobserved and unmonitored until custody of the individual is transferred to another law enforcement agency such as the Mecklenburg County Sheriff's Office, SBI, FBI, etc.

III. DEFINITIONS

- A. Arrestee: A person placed in custody or charged with a crime when there is probable cause to believe that the person has committed a crime.
- B. Custody and Control: Legal or physical control of a person in an area or facility or while in transit, legal, supervisory, or physical responsibility for a person.
- C. Detainee: A person in the custody of agency personnel and whose freedom of movement is at the will of Charlotte-Mecklenburg Police Department (CMPD) personnel.
- D. Detention Ring or Bar: A fixed object such as a metal ring or bar that is mounted to the wall or floor of an interview room that allows an officer to secure an arrestee to the fixed object by handcuffing or shackling the arrestee to the ring or bar.
- E. Interview Temporary Detention, or Testing Room: A room or area that officers are authorized to use for the purpose of booking, interviewing, detaining or testing an individual. Interview rooms are generally equipped with a table, chairs, an audio and video recording device and mounted ring and leg shackles.
- F. Lockbox: A fixed metal box with secure lock capability for officers to secure their weapon(s). The Police Headquarters lockboxes are located in the upper cabinet inside room 2144, which is the Video Burn Room. The lockboxes are accessed with a key. Criminal Investigations Bureau (CIB) officers and supervisors can assist with access to the room.
- G. Processing: Pre-booking activities involving detainees in custody, after which detainees may either be released from custody or be escorted to a holding facility such as the Mecklenburg County Intake Facility.

	Charlotte-Mecklenburg Police Department		500-007
	Interactive Directives Guide		Use of Interview, Temporary Detention, and Testing Rooms
			Effective Date: 9/26/2024

- H. Temporary Detention: Temporary detention is measured in hours and does not involve housing or feeding detainees except in extenuating circumstances.
- I. Secured Area: For the purposes of this directive a secured area is any area within a CMPD Facility that does not provide open and unfettered access to the general public.

IV. PROCEDURE

A. Security Measures

All persons (visitors, witnesses and detainees/arrestees) escorted into any CMPD facility shall undergo security screening using a combination of metal detectors and package screening devices. Firearms, knives, scissors, sharp objects, glass items and personal protection devices are strictly prohibited.

1. All individuals will be physically searched prior to entry into secured CMPD areas to include interview, temporary detention, and testing rooms.
2. Prior to entry into secured areas in CMPD Headquarters all individuals will walk through the stationary magnetometer located at the main entrance or the prisoner entrance. CMPD personnel escorting individuals shall use the magnetometer as an additional layer of protection after physically searching all persons in CMPD custody or care.
3. Handheld magnetometers will also be available for use at CMPD Headquarters for use when the stationary magnetometer issues an alert and a narrower search is warranted.
4. CMPD Personnel escorting individuals into CMPD facilities without a stationary magnetometer will screen the individual with the handheld device after conducting a physical search.

B. Supervision of Individuals in Interview Rooms

Officers will ensure that the individual is under continual observation and monitoring. This may be accomplished in person or via live video provided personnel are close enough to intervene in the event of an emergency within the interview room or to allow for de-escalation in encounters involving a higher state of agitation. When monitoring via live video officers will conduct a face-to-face visual observation of secured detainees at a minimum of once every thirty minutes.

1. Officers will also ensure that males, females, and juveniles are kept in separate rooms.
2. Officers will provide the individual the opportunity to have access to water, restrooms, and other needs as necessary.
3. If the individual is intoxicated, under the influence of drugs or exhibiting behavior that indicates they are a danger to themselves; officers will ensure the individual

	Charlotte-Mecklenburg Police Department		500-007
	Interactive Directives Guide		Use of Interview, Temporary Detention, and Testing Rooms
			Effective Date: 9/26/2024

is under continual observation and monitoring as described in this directive. Medical personnel will be requested as necessary in accordance with directive 500-003 Management of Subjects in Extreme Distress.

4. Anytime an individual is detained in a CMPD temporary detention room, officers will use the in-room audio and video recording system and KBCOPS to document:
 - a. The reason for the detention
 - b. Date of the detention
 - c. Start and end time of the detention
 - d. Face to face visual observation times
 - e. Any food, drinks, restroom breaks, etc., that were offered or provided during the detention.

C. Safety Considerations for the Use of Interview Temporary Detention, and Testing Rooms

1. Fire Evacuation Plan

A fire evacuation plan will be posted near interview, temporary detention, and testing rooms. Officers are required to be familiar with the evacuation plan for that particular area and must also be familiar with the location and operation of fire suppression equipment such as fire extinguishers and fire alarms. In the event of a fire alarm or other emergency the officer in charge of the individual or interviewee is responsible for evacuating and resecuring the individual.

2. Annual Inspection

The Professional Accountability Bureau will conduct an annual administrative review and inspect the interview, detention, and testing rooms.

3. Weapon Control

- a. Officers using interview, temporary detention, or testing rooms at Police Headquarters will secure their weapon(s) in locked desk drawers, gun safes, or provided lock boxes located in room 2144 (Video Burn Room) prior to interviewing suspects or detainees. The lock boxes are key controlled. CIB officers and supervisors may assist with access to the room and lock boxes. Personnel who store their weapon inside a lock box should ensure they return the key to the box after retrieving their weapon.
- b. Officers using any interview, temporary detention, or testing rooms located at the Division Offices will secure their weapon(s) in locked desk

	Charlotte-Mecklenburg Police Department		500-007
	Interactive Directives Guide		Use of Interview, Temporary Detention, and Testing Rooms
			Effective Date: 9/26/2024

drawers, gun safes or lock boxes prior to interviewing suspects or detainees.

4. Arrestee Escape Prevention

Officers are authorized to secure the detainee/arrestee to a fixed object to prevent escape and limit the arrestee’s movement only when there is no other suitable method of detention available while using interview, temporary detention, or testing rooms.

5. Emergency Communications

Any officers inside an interview, temporary detention, or testing room with an individual will maintain direct voice, radio, video, or cell phone contact with a monitoring officer in the event of an emergency. The officer’s handheld radio emergency button may be used as a “panic alarm” while inside the interview room.

6. Access to Interview, Temporary Detention, or Testing Rooms

Only CMPD employees and other authorized law enforcement officers will have unrestricted access to interview, temporary detention, or testing rooms. Attorneys, family members or other individuals must have the authorization of the officer in charge of the investigation or the officer’s supervisor prior to being granted access to the interview, temporary detention, or testing room.

7. Searches

As stated in Section IV.A, all individuals must be searched prior to entering any CMPD interview, temporary detention, or testing room. Officers must search the interview, temporary detention, or testing room before allowing the individual access and must search the interview, temporary detention, or testing room again following the removal of the individual.

8. Training of Personnel

Personnel charged with monitoring temporarily detained individuals in the facility are provided initial training on the use of the temporary detention room(s) or area(s) and retraining at least once every four years.

Officers are to conduct a thorough search of the interior of their police vehicle at the beginning of each tour of duty, upon any change in vehicle assignment, and after any non-police personnel have been inside the vehicle.

2. Use of Transport Vehicles

- a. All prisoners transported must be physically restrained using approved restraining devices in accordance with the officer's training. Officers will use discretion and, when necessary, consult a supervisor when confronted with a prisoner who has an obvious or known physical condition that will prohibit the use of restraining devices.
- b. The transportation of prisoners will primarily be conducted using vehicles equipped with a protective shield and modified to minimize opportunities for the prisoner to exit from the vehicle's rear compartment without the aid of the transporting officer.
- c. The following procedures will be observed when transporting a prisoner in a vehicle with a protective shield:
 - (1) A unit consisting of one (1) officer will transport no more than two (2) prisoners. Prisoners must be placed in the rear of the vehicle.
 - (2) A unit consisting of two (2) officers may transport up to three (3) prisoners. Prisoners must be placed in the rear of the vehicle.
 - (3) Prisoner transport vans (PTVs), which are staffed with two (2) officers, may transport multiple prisoners in accordance with the Prisoner Transport Vehicle SOP.
- d. The following procedures will be observed when transporting a prisoner in a vehicle without a protective shield:
 - (1) Combative prisoners will only be transported in a vehicle equipped with a protective shield.
 - (2) A unit consisting of only one (1) officer will only transport a prisoner with the concurrence of a supervisor or as outlined in a unit-specific SOP.

 - (c) No more than one (1) prisoner will be transported in a vehicle not equipped with a protective shield.
 - e. When transportation for a large number of prisoners is required, as in mass arrest situations, alternative transport options will be used (e.g., modified vans). CMPD employees may request assistance from CMPD PTVs or the MCSO PTV.
 - f. Safety aspects of prisoner transport require that the detainee's right to communicate with attorneys and others will not normally be exercised during the period that the detainee is being transported.
 - g. When transporting a prisoner, juvenile, or involuntary commitment patient, employees must:
 - (1) Provide the starting location and beginning vehicle odometer mileage over the radio to the Communications Division at the start of the transport. The Communications Division telecommunicator will verbally state the start time of the transport and document it in CAD.
 - (2) Provide the arriving location and ending vehicle odometer mileage over the radio to the Communication at the end of the transport. The Communications Division telecommunicator will verbally state the end time of the transport and document it in CAD.
 - h. Officers will adhere to Directive 400-006, Body Worn Camera (BWC) when transporting prisoners. Officers may position the camera to record/observe a prisoner in situations the officer deems necessary.
- 3. Observation of Prisoners

Transporting officers will ensure prisoners are under continual observation and monitoring, except during certain medical examinations that require privacy. Under no circumstance will a prisoner in custody be left unattended in a transport vehicle or any other non-secure area.

- c. Transporting officers must always travel the most direct route to their final destination when transporting prisoners.
- d. PTVs can travel to multiple locations to pick up prisoners before transport by the most direct route to Intake. The maximum period a prisoner can be confined in the PTV is two (2) hours.

5. Special Transport Situations

- a. If a prisoner becomes sick or is injured incident to arrest and needs medical treatment, the arresting officer must seek medical treatment for the prisoner at that time. Prisoners with life-threatening medical conditions or injuries must be transported to a medical facility by ambulance. If this situation occurs, an officer will be designated to accompany the prisoner during transport. The need for restraining devices will be determined upon consultation with the medical personnel providing immediate treatment to the prisoner.
- b. Officers must inform the receiving agency personnel of any medical conditions or injuries the prisoner has that the officer has knowledge of.
- c. Prisoners with physical disabilities may be transported in the front of the police vehicle if the individual's condition prohibits the transport in the rear of the vehicle.
 - (1) Officers should request the Communications Division to contact Charlotte Area Transit (CATS) for assistance transporting a person with a disability that prohibits transport in police vehicles. When feasible, these arrangements will be made before the arrest takes place.
 - (2) Officers will use discretion and sound judgment when determining whether restraining devices are necessary for physically handicapped prisoners.

d. Involuntary Commitment Order (IVC) Transports

This option should only be used in limited circumstances where time, safety, or other factors limit the ability to wait for an officer of the same sex as the respondent.

- (2) To the extent possible, officers shall advise respondents when taking them into custody that they are not under arrest and have not committed a crime but are being taken into custody and transported to receive treatment for their safety and that of others.

8. Security and Control of Prisoners at Medical Facilities
 - a. Some medical procedures require the removal of restraints and/or privacy with the prisoner. During procedures, the safety of the officer and the public will not be compromised. Officers becoming aware of security hazards created by medical treatment procedures must consult with the attending physician and, if necessary, relay information to a field supervisor.
 - b. When a prisoner in custody is admitted to a hospital, the transporting officer will refer to the procedures outlined in Directive 500-002, Confinement of Arrestees and Booking Procedures.

IV. PROCEDURE FOR CONDUCTING EYEWITNESS IDENTIFICATION

A. Conducting a Sequential Photo Lineup

1. CMPD employees will only use the sequential photo lineup process in preparing and presenting a photo lineup to an eyewitness and will follow the guidelines listed below.
 - a. Photographs may be generated using the CMPD mug shot system. If photos from the mug shot system are not available or do not meet the guidelines set forth below, employees may rely on photographs from outside sources such as a yearbook, Department of Motor Vehicles (DMV), or other sources.

 - c. The photo of the suspect shall be current and, to the extent practicable, shall resemble the suspect's appearance at the time of the offense.
 - d. Fillers shall generally resemble the eyewitness's description of the perpetrator while ensuring that the suspect does not unduly stand out from the fillers. In addition,
 - 1) All fillers selected shall resemble, as much as practicable, the eyewitness description of the perpetrator's significant features, including unique or unusual features (i.e., facial hair, scars, tattoos, etc.).
 - 2) At least five fillers will be included in the sequential lineup in addition to the suspect.
 - e. The sequential photo lineup will be conducted by an independent administrator.
 - f. There will not be anyone present (to include the investigating employee) during the lineup who knows the suspect's identity, except the eyewitness and counsel as required by law.
 - g. During the sequential photo lineup, all photos will be presented to the eyewitness one at a time, in a previously determined order. Each photo will be removed after it is viewed and before the next photo is presented.
 - h. Only one suspect will be included in a photo lineup.

- j. If there are multiple eyewitnesses, the suspect shall be placed in a different position in the lineup or photo array for each eyewitness.

2. Separation of Witnesses

The lineup administrator shall separate all witnesses in order to discourage witnesses from conferring with one another before or during the procedure. Each eyewitness shall be given instructions regarding the identification procedure without other witnesses being present.

3. Instructions to Eyewitness

- a. The lineup administrator will read the instructions on the Sequential Photograph Lineup Instruction Sheet found on the CMPD Portal. The eyewitness shall acknowledge the receipt of the instructions in writing. If the eyewitness refuses to sign, the lineup administrator shall note the refusal of the eyewitness to sign the acknowledgment and shall sign the acknowledgment.
- b. Nothing shall be said to the eyewitness regarding the suspect's position in the photo lineup or anything that might influence the eyewitness's identification.

4. Identification by Eyewitness and Confidence Statement

If the suspect is not in custody, the suspect may be asked to voluntarily participate in a live lineup or may be required to participate through the use of a non-testimonial identification order. A live lineup will be conducted at the Mecklenburg County Jail Central Facility and will be coordinated with the Mecklenburg County Sheriff's Office to ensure that the suspect is not scheduled for a court appearance and will be available at the facility in a timely manner. A live lineup will be conducted under the guidance of a supervisor from the Criminal Investigations Bureau. CMPD employees conducting a live lineup will adhere to the following guidelines:

If it is necessary for the participants to perform any physical actions (speak a phrase, walk, etc.), each participant must perform the same actions.
- q. After viewing all participants, the eyewitness will be asked if he or she recognizes anyone in the lineup. If the eyewitness recognizes anyone, the eyewitness will be asked to state the circumstances from which the eyewitness recognizes the participant. All participants will be brought into the viewing area, even if the eyewitness makes identification during the presentation.

I. PURPOSE

To establish guidelines for Charlotte-Mecklenburg Police Department (CMPD) sworn employees in requesting and obtaining protected health information (PHI) from a healthcare entity (HCE) that must comply with the privacy regulations of the Health Insurance Portability and Accountability Act (HIPAA).

II. POLICY

The privacy regulations of HIPAA impose a legal obligation on an HCE to protect PHI from unauthorized disclosure. Because it may become necessary for sworn employees to obtain PHI in the course of a criminal investigation or for other legitimate law enforcement purpose, this necessity can come into conflict with the legal obligation of an HCE under HIPAA. CMPD endeavors to cooperate with HCEs to ensure that disclosures of PHI to sworn employees are in compliance with HIPAA regulations.

III. DEFINITIONS

- A. Health Care Entity (HCE): A health plan, healthcare clearinghouse, or healthcare provider that must comply with HIPAA privacy regulations.
- B. Protected Health Information (PHI): Individually identifiable health information (including demographic information) and information that relates to the past, present, or future treatment and care of an individual.

IV. PROCEDURE

- A. Sworn employees should provide verification of identity by displaying their official departmental identification to HCE personnel when requesting PHI.
- B. The following information applies to legally Mandated PHI disclosure:
 - 1. Even in the absence of a request by law enforcement, A HCE is required to report PHI to law enforcement, as soon as it becomes practicable, before, during, or after treating individuals for the following:
 - a. Bullet wounds, gunshot wounds, powder burns, or any other injury or wound actually or apparently caused by the discharge of a firearm.
 - b. Illness actually or apparently caused by poisoning.
 - c. Wounds or injury actually or apparently caused by a knife, sharp or pointed instrument where it reasonably appears that criminal conduct was involved.
 - d. Wounds, illness, or injury in which there is grave bodily harm where it reasonably appears that criminal conduct was involved.

	Effective Date: 11/17/2022		2 of 5

- e. Recurrent illness or serious physical injury to a child under the age of 18 where it reasonably appears such illness or injury is the result of non-accidental trauma.
 2. If mandatory disclosure is required, a HCE will disclose the following PHI (if known) of the individual being treated:
 - a. Name;
 - b. Age;
 - c. Sex;
 - d. Race;
 - e. Residence or present location;
 - f. Character and extent of the injury.
 3. If additional PHI is sought, sworn employees should pursue that information through the processes described in sections C, D, and E.
- C. Request for PHI
 1. Identification or Location Information
 - a. An HCE may disclose the following information upon the request of a CMPD sworn employee seeking to identify or locate a suspect, fugitive, material witness, or missing person:
 - (1) Name;
 - (2) Address;
 - (3) Date and place of birth;
 - (4) Social Security Number;
 - (5) ABO blood group and Rh factor;
 - (6) Type of injury;
 - (7) Date and time of treatment;
 - (8) Date and time of death, if applicable;
 - (9) Description of distinguishing physical characteristics, including height, weight, gender, race, hair, eye color, facial hair, tattoos, or scars.

	Charlotte-Mecklenburg Police Department		500-010
	Interactive Directives Guide	Requesting Protected Health Information	
	Effective Date: 11/17/2022		3 of 5

- a. If PHI is requested for the victim of a crime, a HCE may disclose the information if:
 - (1) The victim authorizes the disclosure, or
 - (2) The victim is unable to authorize the disclosure due to incapacitation or other emergency circumstances and:
 - (a) The sworn employee informs the HCE that the PHI is needed to determine whether someone other than the victim has violated the law and the information is not to be used against the victim.
 - (b) The sworn employee informs the HCE that immediate law enforcement action depends upon the disclosure and would be materially and adversely affected by waiting until the victim is able to authorize the disclosure.
 - (c) The disclosure is in the best interests of the victim as determined by the HCE.

3. Motor Vehicle Crash Investigation
 - a. If an individual is involved in a motor vehicle crash, a HCE providing medical treatment must disclose the following PHI upon the request of a sworn employee investigating the crash:
 - (1) Name,
 - (2) Current location,
 - (3) Whether the person appears to be impaired by alcohol, drugs, or other substance.
 - b. An HCE must allow a sworn employee investigating a motor vehicle crash access to visit and interview the individual upon request, except when the HCE requests temporary privacy for medical reasons.

4. Other Investigations
 - a. A completed [CMPD Request for Summary Health Information Form](#) should be submitted to the HCE in order to obtain PHI.
 - b. In order for the HCE to comply with HIPAA, the sworn employee must certify that:
 - (1) The PHI sought is relevant and material to a legitimate law enforcement inquiry.

	Charlotte-Mecklenburg Police Department		500-010
	Interactive Directives Guide	Requesting Protected Health Information	
	Effective Date: 11/17/2022		4 of 5

(2) The request must be specific and limited in scope to the extent reasonably practicable in light of the purpose for which the information is being sought.

(3) De-identified information could not reasonably be used.

c. If additional PHI is necessary for the investigation, the sworn employee should obtain a court order.

5. Disclosure of PHI based solely upon the request of a sworn employee (other than what is required to be disclosed by law) is entirely within the discretion of the HCE.

6. If a request for disclosure of PHI is denied a sworn employee should then obtain either an authorization for the release of health information or a court order.

D. Authorization for Release of Health Information

1. Sworn employees can obtain PHI by submitting a completed [CMPD Authorization for Release of Health Information Form](#) signed by the individual (or authorized representative) whose information is being requested to an HCE. (See attached CMPD Authorization for Release of Health Information Form and Information Sheet)

2. A HCE may require sworn employees to submit a completed and signed authorization form provided by the HCE. If so, sworn employees should utilize the form provided or obtain a court order.

E. Court Order

1. Officers may seek a court order requesting a HCE to disclose and provide PHI through the Police Attorney's Office.

2. When preparing a motion (with an accompanying affidavit) and order, prior to consultation with the Police Attorney's Office, sworn employees should verify that the motion and order contains the following:

a. Name(s), including aliases, of the individual(s) whose PHI is being requested. If PHI is being requested for an unidentified suspect, then information from which the HCE can reasonably ascertain the identity of the suspect should be provided.

b. A list of the specific PHI being requested e.g., "All medical records and details" or specific demographic information, such as name, address, and date of birth).

3. Only PHI that is listed in the final signed order will be released.

	Charlotte-Mecklenburg Police Department		500-010

		Effective Date: 11/17/2022	5 of 5

4. Release of PHI related to DNA, DNA analysis, dental records, samples, or analysis of tissue or bodily fluids (other than blood or urine), will require a court order.
 5. Release of PHI related to mental health or substance abuse will require a court order.
- F. Investigations with Department of Social Services (DSS) – When conducting a criminal investigation pursuant to a request by DSS, a sworn employee need only present a letter from DSS confirming the investigation and the sworn employee’s authority to investigate when requesting PHI.
- G. Once a suspect has been charged with a crime, requests for PHI should be handled as directed by the District Attorney’s Office.

4. Determine if the employee is required to complete a drug and alcohol test as outlined in Directive 300-009, Employee Drug and Alcohol Testing, and ensure that the required testing is completed. Drug and alcohol testing may be required for employees operating a CMPD vehicle involved in a vehicle collision occurring in Mecklenburg County or its surrounding counties in North Carolina and South Carolina (see Appendix A).
5. Open a crash investigation in IACMS prior to the end of the shift and attach and/or complete the following:
 - a. Collision Report or the Non-Reportable Crash Form.
 - b. Supervisor's statement.

sent to Risk Management Claims Department (claims@charlottenc.gov) within twenty-four (24) hours of the incident.

6. Supervisors are not required to complete a crash investigation in IACMS for a crash involving a parked and unoccupied CMPD vehicle. The Vehicle Accident Reporting Form will still be required.

C. Non-Collision Damage to Vehicles

1. Damage to a CMPD vehicle caused by criminal intent will be reported to the employee's supervisor, documented in a KBCOPS damage to property report, and the [Vehicle Accident Reporting Form](#) must be completed. The claim number provided by Risk Management should be documented in the KBCOPS report.
2. Damage to a CMPD vehicle caused by a natural occurrence (e.g., windstorm, hail, rain, etc.) or any other non-criminal event will be documented in an internal memo, to be forwarded to Risk Management, and the [Vehicle Accident Reporting Form](#) must be completed.
3. If an arrest is made in connection with the damage, the supervisor will contact Risk Management to determine an estimate of the cost to repair. This estimate will be included in the case preparation for the court to make a disposition on reimbursement.

V. REVIEW PROCEDURE

- A. The investigating supervisor will complete an investigation into the crash and take the following actions:
 1. Make a recommendation of preventable or non-preventable and if corrective action or training is needed.
 2. If the supervisor determines the crash to be preventable, the employee's previous preventable crashes shall be researched and included in the IACMS investigation.
 3. Transfer the supervisor's investigative report to the next level of command.
- B. The next command level will review the investigative report and take the following actions:
 1. Make a recommendation of preventable or non-preventable and if corrective action or training is appropriate.
 2. Forward the investigative report to the next level of command.
- C. Disposition and Corrective Actions
 1. The captain assigned to the employee's service area or bureau will make the final determination that the crash was preventable or non-preventable and if corrective action or training is needed.

		Effective Date: 8/30/2023	4 of 6

2. A suspension may only be issued for a crash investigation if it is determined that the employee violated a rule of conduct. The rule of conduct violation will be forwarded to the service area major and will adhere to Directive 200-001 Discipline, Internal Investigations, and Employees Rights.
3. The supervisor will notify the employee of the disposition of the investigation. The employee will acknowledge the disposition of the investigation with a written signature or electronic acknowledgment in the IACMS.
4. The employee's immediate supervisor will ensure that any corrective action or training is implemented and documented. A LEED form shall be completed and forwarded to the CMPD Academy training director if training is recommended.
5. Completed IACMS documentation associated with the investigation and disposition will be transferred to the Internal Affairs Division for review and storage.

D. Training

1. CMPD employees involved in a preventable crash in a City of Charlotte vehicle may be required to attend driver training.

The lead driver training instructor will determine the type of training to be delivered based on the following criteria:

 - a. The number of preventable crashes an employee has had.
 - b. The specific circumstances related to each crash.
 - c. The value or effectiveness of training based on the circumstances of the crash.
 - d. Recommendation to the employee's chain of command following the IACMS investigation.
2. The criteria and process for training will be as follows:
 - a. Supervisors will complete a Law Enforcement Enhancement and Development (LEED) Training Form if they believe additional training would be beneficial. The lead driving instructor will determine the training that will be the most beneficial and how long training will be required.
 - b. At the conclusion of all training sessions, the lead driver training instructor will return the LEED Training Form to the training director. The training director will review the completed form and return the form to the initiating supervisor or Internal Affairs Division. The initiating supervisor will ensure the form is submitted to the employee's chain of command and scanned into any associated IACMS case.

The previous version of Directive 600-002 Vehicle Damage & Review Procedure was published on 06/08/2022.

 POLICE CHARLOTTE-MECKLENBURG	Charlotte-Mecklenburg Police Department		600-002
	Interactive Directives Guide	Vehicle Damage & Review Procedure	
		Effective Date: 8/30/2023	6 of 6

Appendix A: Map of Surrounding Counties

	Charlotte-Mecklenburg Police Department		600-003
	Interactive Directives Guide	Seizure of Electronic Evidence	
		Effective Date: 11/30/2022	1 of 5

I. PURPOSE

This policy establishes guidelines for the seizure, collection, and preservation of electronic evidence by Charlotte-Mecklenburg Police Department employees. This includes computers, mobile devices, removable storage media, video surveillance footage, etc., which are encountered by CMPD employees in connection with investigations and/or searches.

II. POLICY

It is the policy of the Charlotte-Mecklenburg Police Department (CMPD) that all employees who are engaged in the seizure of computers, mobile devices, removable storage media, or video surveillance footage for the evidence contained therein, shall seize those items by procedures designed to ensure the integrity of the seized items. These items will be impounded as evidence and examined according to the guidelines listed in this directive.

III. DEFINITIONS

- A. Computer System: Computer monitor, central processing unit (CPU), communication device, mobile device, data storage device, or peripherals configured to work together as a unit or cabled together externally.
- B. Recording Device: Universal serial bus (USB) or flash drive, compact disk (CD), digital versatile disc (DVD), floppy drive, tape drive, hard drive, and/or other mechanical, electrical, optical, or combination device used to store data that is not currently connected to an operating system.
- C. Electronic Media: Any material, written or photographic, that is stored on a computer's recording device.
- D. Network: Any two (2) or more connected computer systems that can communicate and share resources.
- E. Operating System: Software used to allow the equipment in the computer to interact with the computer applications and users. Examples include Windows operating systems, Mac OS X, Unix, and Linux.
- F. Tool Kit: Used to document, remove, package, and transport electronic evidence and consists of cameras, crime scene tape, stick-on labels, notepads, markers, evidence forms, and sketchpads.

Note: Because electronic media is susceptible to electrostatic charges and magnetic fields, anti-static bags (original silver or chrome packages in which hard drives are shipped) should be used to store hard drives, floppy disks, zip drives, etc. In the event an anti-static bag cannot be located, an appropriately sized paper bag can be used.

IV. PROCEDURE

- A. This policy shall apply only in those cases where data residing on computer systems, mobile devices, and removable storage media are being sought as evidence in an investigation. Computers, mobile devices, or removable storage media seized by CMPD

 POLICE <small>CHARLOTTE-MECKLENBURG</small>	Charlotte-Mecklenburg Police Department		600-003

employees as evidence, in cases such as burglary and retail theft, where the computer, mobile device, or related media is the actual item stolen or recovered, will be turned in to the Property and Evidence Management Division according to CMPD procedures.

- B. No employee, except one acting under the direction of a CMPD Cyber Crimes Unit employee, will attempt to examine any computer system, CPU, removable storage media, or similar device used to store electronic media for potential evidence contained therein.
- C. A basic examination of a mobile device may be conducted at the discretion of a sworn employee according to current legal guidelines with consideration given to cases where the property owner has given consent, exigent circumstances exist, or a valid search warrant has been obtained. Examples of this type of basic examination include retrieving phone numbers or reviewing recent call history or text messages related to an investigation. This type of examination should be conducted when investigative time constraints warrant doing so or when a full examination of the device is not needed. However, sworn employees should be aware that data may be lost or changed depending on the depth of their examination. The evidence located during the exam should be photographed and all actions noted and supplemented in a KBCOPS narrative supplement.
- D. Video surveillance footage may be retrieved and reviewed by any sworn employee during an investigation according to current legal guidelines. They may also request the assistance of individuals familiar with the surveillance system where the data is stored. If a sworn employee is unable to retrieve the surveillance footage, the CMPD Cyber Crimes Unit can be asked to assist with collecting the evidence.
- E. Any electronic evidence seized will be turned into the CMPD Property and Evidence Management Division or submitted directly to the CMPD Cyber Crimes Unit. Sworn employees will be required to submit a service request for evidence submitted to the CMPD Cyber Crimes Unit to be processed. The Service request for digital forensics will be completed in the Property and Laboratory Information Management System (PLIMS).
- F. When it is determined that a computer is to be seized and processed, employees must confer with their immediate supervisor. If an employee is unsure whether a seizure is appropriate, the immediate supervisor will make the final determination. Whenever electronic media is encountered and to be seized in compliance with a search warrant, owner consent, or probable cause, the employee making the seizure will take the following steps:
 1. If the computer is off, leave it off, and do not turn it on.
 2. If the computer is on, photograph the monitor to document what is displayed for evidentiary purposes.
 3. Photograph the computer or other electronic media in its original state before anything is touched.

 POLICE <small>CHARLOTTE-MECKLENBURG</small>	Charlotte-Mecklenburg Police Department		600-003
	Interactive Directives Guide	Seizure of Electronic Evidence	
		Effective Date: 11/30/2022	3 of 5

4. If the computer is on, unplug the power cord from the back of the computer, not the wall outlet. If the computer is connected to a modem, LAN, or router, disconnect it from the computer to prevent the computer from being accessed remotely and data changed or destroyed by a remote user.
 5. Document each step as it is taken, making detailed notes. One (1) employee should be responsible for the documentation and collection of the electronic media and actual computer. More than one employee can be involved in the search for evidence. However, each employee's name should be recorded and detailed notes of what they discovered and/or seized should be kept.
 6. Do not make any keystrokes or mouse clicks to the computer. If that occurs, document exactly what keystrokes or mouse clicks were made and the results of these actions.
 7. Once power has been disconnected from the computer, sticker labels should be applied to all connections and corresponding cables on the computer so that the computer can be reconnected to its original configuration for later analysis or court purposes.
 8. Do not transport electronic media near antennas or power supplies. Keep electronic media away from electromagnetic fields. Contact with these sources can cause the deletion of data.
 9. If electronic media seized is to be searched for potential evidentiary value, a Laboratory Examination Service Request in PLIMS must be completed by the investigating officer, and the evidence turned in at the Property and Evidence Management Division or submitted directly to the CMPD Cyber Crime Unit.
 10. The employee impounding the electronic media must provide the CMPD Cyber Crimes Unit with the background information of the case. This will include, but will not be limited to, the following:
 - a. Suspect name(s)
 - b. Special or street language used by the suspect(s)
 - c. Known code words
 - d. Passwords
 - e. Email addresses
 - f. Any other information that may be of use to the CMPD Cyber Crimes Unit detective or forensic analyst in the formulation of searches.
- G. When it is determined that a mobile device is to be seized and processed by the CMPD Cyber Crimes Unit in compliance with a search warrant or with the owner's consent, the sworn employee making the seizure will take the following steps:

 POLICE <small>CHARLOTTE-MECKLENBURG</small>	Charlotte-Mecklenburg Police Department		600-003
	Interactive Directives Guide	Seizure of Electronic Evidence

1. Mobile devices should be placed in airplane mode after being collected from a crime scene or the owner. This should be done before turning off the device and before submitting the phone to the CMPD Property and Evidence Management Division or Cyber Crimes Unit. Placing the device in airplane mode effectively secures the device by disabling the phone's ability to connect to a cellular tower. This should only be done if the individual seizing the device is familiar with the steps involved in placing that particular device in airplane mode. Prior to turning in an unfamiliar seized device, employees should power the device off or remove the battery.
 2. If a basic examination of the device is to be completed by a sworn employee, evidence located on the device should be photographed if possible and the sworn employee's actions during the examination should be noted in the KBCOPS narrative supplement.
 3. If the mobile device is found to be locked, the sworn employee should attempt to acquire the passcode from the owner. However, based on the type of case as well as the cooperation of the owner, the CMPD Cyber Crimes Unit realizes that this may not always be possible. Sworn employees should not attempt to "guess" the passcode, enter the wrong passcode multiple times or use unapproved methods to unlock the device. In cases where the owner of a device has given consent to search the device, the owner of the device should provide the sworn employee with the code to unlock the device before the examination.
- H. When it is determined that video surveillance footage is to be seized, the sworn employee making the seizure will take the following steps:
1. Sworn employees should determine if the system is on-site, if it is recording, and if the person on site has access to the system. If not, the sworn employee should attempt to contact the person in control of the surveillance system.
 2. The cameras needed as well as the date and time frame to be collected should be determined based on the needs of the investigation.
 3. The system's displayed date and time should be reviewed and documented in the sworn employee's notes. Any discrepancy between the system's displayed date and time and the actual date and time should also be noted.
 4. The assistance of the person in apparent control of the system or an individual familiar with the system may be requested.
 5. If the sworn employee is unsuccessful at collecting the video footage, assistance from the CMPD Cyber Crimes Unit may be requested.
 6. A copy of any surveillance footage collected as evidence will be turned into the Property and Evidence Management Division as evidence.

- I. Due to the ever-changing nature of electronic devices, the above-listed procedures may be modified by the CMPD Cyber Crimes Unit if needed on a case-by-case basis. Some examples of these may include the examination of:
 1. Electronic devices that have encryption software installed (if known). If a device has an encrypted hard drive or encrypted files that are open when the device is seized, contact a member of the CMPD Cyber Crimes Unit before turning off the device.
 2. Networked computer systems belonging to businesses or corporations should not be seized by any individuals other than the CMPD Cyber Crimes Unit. This does not include simple home or office-based Wi-Fi networked computers. If any questions arise regarding a networked computer environment, contact the Cyber Crimes Unit.
 3. Any questions or concerns regarding the seizure process of electronic evidence should be directed to the CMPD Cyber Crimes Unit sergeant.

The previous version of Directive 600-003 Seizure of Electronic Evidence was published on 07/29/2019.

	Charlotte-Mecklenburg Police Department		600-005
	Interactive Directives Guide		Domestic Violence
	Effective Date: 10/30/2023		1 of 11

I. PURPOSE

This directive establishes guidelines for Charlotte-Mecklenburg Police Department (CMPD) employees when responding to and processing information regarding domestic violence in accordance with Chapter 50-B of the North Carolina General Statutes, as well as related criminal and civil statutes. For the purpose of this directive, the term officer will apply to all sworn CMPD employees.

II. POLICY

CMPD will thoroughly investigate allegations of domestic violence, make appropriate referrals, and take appropriate action according to the totality of the information known. Coordinated community efforts for early intervention are encouraged to hold suspects accountable and provide victims with needed assistance. Due to the unique nature of domestic violence situations and statutory requirements, it is CMPD's policy that decisions regarding the dismissal of any charges will be made by the District Attorney's Office at the prosecution stage.

III. DEFINITIONS

A. Domestic Violence (DV): Defined by [N.C.G.S. §50B-1\(a\)](#) as the commission of one (1) or more of the following acts upon an aggrieved party or upon a minor child residing with or in the custody of the aggrieved party by a person with whom the aggrieved party has or has had a personal relationship, but does not include acts of self-defense:

1. Attempting to cause bodily injury, or intentionally causing bodily injury, or
2. Placing the aggrieved party or a member of the aggrieved party's family or household in fear of imminent serious bodily injury or continued harassment, as defined in [N.C.G.S. §14-277.3A](#), that rises to such a level as to inflict substantial emotional distress, or
3. Committing any sexual offense defined in [N.C.G.S. §14-27.21 through N.C.G.S. §14-27.33](#).

B. Personal Relationship: Defined by [N.C.G.S. §50B-1\(b\)](#), a relationship wherein the parties involved:

1. Are current or former spouses (including same-sex).
2. Are persons who live together or have lived together (including same-sex).
3. Are related as parents and children, including others acting as a parent to a minor child (in loco parentis) or as grandparents and grandchildren.
4. Have a child in common.
5. Are current or former household members (including same-sex).
6. Are persons in a dating relationship or who have previously been in a dating relationship (including same-sex). A dating relationship is one wherein the parties are romantically involved over time and on a continuous basis during the course

	Interactive Directives Guide		Domestic Violence
	Effective Date: 10/30/2023		2 of 11

of the relationship. A casual acquaintance or ordinary fraternization between persons in a business or social context is not a dating relationship.

- C. Ex Parte Order: An emergency or temporary court order valid until a hearing may be held to temporarily protect an aggrieved party or a minor child from danger due to acts of domestic violence.
- D. §50B Order: A court order entered after notice and a hearing for a fixed period of time not to exceed one (1) year but may be renewed for an additional one (1) year period. Ex parte or §50B domestic violence protective orders may grant the complainant any of the listed forms of relief found in [N.C.G.S. §50B-3](#) when there are allegations of domestic violence. Officers should always refer to the actual document for the specific parameters and forms of relief applicable to each individual case.

IV. PROCEDURE

A. Initial Response

1. Any reports of domestic violence will be thoroughly investigated and documented. Officers should enforce the laws and provide assistance regardless of the victim's willingness to prosecute.
2. Domestic violence is a pattern of behavior used to establish power and control over another through fear and intimidation, often including the threat or use of violence. Due to these psychological factors, victims are sometimes reluctant to report, fully disclose their abuse, or follow through with prosecution. Therefore, detailed initial investigations are critical in domestic violence cases. Initial investigations should include the following:
 - a. Detailed written and/or recorded statements (when applicable) from parties involved and witnesses; proper documentation and preservation of evidence, including but not limited to photographs of injuries, photographs of the crimescene, collection of weapons used, capturing of electronic evidence such as text messages, etc.
 - b. Information on any children present during assaults. If there is cause to suspect that any children present may be abused, neglected, or dependent, officers have a statutory duty to notify the Mecklenburg County Department of Social Services (DSS).
 - c. Officers who identify children exposed to violence and other trauma shall refer the family to the Child Development-Community Policing (CDCP) clinical team.
 - d. Officers shall use the [Lethality Assessment Program \(LAP\) Screening Guide](#) to gather pertinent information that will assist in determining the potential lethality of the suspect's behavior.

	Charlotte-Mecklenburg Police Department		600-005
	Interactive Directives Guide	Domestic Violence	
		Effective Date: 10/30/2023	3 of 11

- e. If the victim answers qualifying questions from the LAP affirmatively, the officer should immediately call the twenty-four (24) hour hotline number listed on the LAP screening guide. If the victim answers these questions negatively, officers should make additional inquiries as directed by the LAP screening guide. The completed LAP screening guide will be scanned and attached to the KBCOPS report.
- f. To better assess the volatility on a call for service, officers shall conduct a thorough background search of all parties involved utilizing available databases to include, but not limited to, past reports in KBCOPS, CAD event search for prior calls for service, CJLEADS, NCIC/DCI, etc. Relevant findings of the search shall be documented in the offense report or MI.

3. Strangulation Response

In keeping with current recommended best practices and the known correlations that exist between the crime of strangulation and the high potential for future lethality, employees shall perform the following actions when initially responding to a call for service with a victim who has reported being strangled:

- a. MEDIC shall be requested immediately upon the determination that probable cause exists that a victim has been strangled.
- b. The [DV Strangulation Case Evaluation Form](#) shall be completed with victims who report being strangled.
- c. Crime Scene Investigations shall be requested to report to strangulation cases where victims have any visible signs of injury, except when a victim is treated at a hospital and officers have confirmed a SANE nurse is collecting evidence in the form of a strangulation kit.
- d. Victims of strangulation shall be advised of the potential lethality and future health risks of strangulation using the [Facts for Victims of Strangulation Brochure](#) or the [Strangulation Assessment Card](#).
- e. The on-call DVU detective or the DVU supervisor will respond to reported strangulations with a documented loss of consciousness, loss of bladder or bowel control, or with a victim who is transported for injuries directly related to strangulation.

- 4. Through careful interviews and investigations, officers must determine if any criminal violations have occurred. Information obtained from the scene, database checks on parties involved, and the LAP will be considered when determining a course of action. Injuries, weapons, and other pieces of evidence should not be considered by themselves, but the totality of the scene should be used to determine the predominant aggressor and the appropriate charge. Self-defense is not a crime.

B. Officer's Authority to Arrest

	Charlotte-Mecklenburg Police Department		600-005
	Interactive Directives Guide	Domestic Violence	
	Effective Date: 10/30/2023		4 of 11

1. Officers are granted the authority to arrest under [N.C.G.S. §15A-401](#).
 - a. For offenses committed out of the presence of an officer, the officer may arrest any person whom the officer has probable cause to believe:
 - (1). Has committed a felony, or
 - (2). Has committed a misdemeanor, and
 - (a). Will not be apprehended unless immediately arrested, or
 - (b). May cause physical injury to himself or others or damage to property unless immediately arrested, or
 - (3). Has committed a misdemeanor under [N.C.G.S. §14-72.1](#) (Concealment of merchandise in mercantile establishments), [N.C.G.S. §20-138.1](#) (Impaired driving), or [N.C.G.S. §20-138.2](#) (Impaired driving in a commercial vehicle), or
 - (4). Has committed a misdemeanor under [N.C.G.S. §14-33\(a\)](#) (Simple assault, simple assault & battery, simple affray), [N.C.G.S. §14-33\(c\)\(1\)](#) (Assault inflicting serious injury, assault with a deadly weapon), [N.C.G.S. §14-33\(c\)\(2\)](#) (Assault on a female), [N.C.G.S. §134.3](#) (Domestic criminal trespass), or [N.C.G.S. §14-34](#) (Assault by pointing gun) when the offense was committed by a person with whom the alleged victim has a personal relationship as defined in [N.C.G.S. §50B-1](#), or
 - (5). Has committed a misdemeanor under [N.C.G.S. §50B-4.1\(a\)](#) (Violation of valid protective order), or
 - (6). Has violated a pretrial release order entered under [N.C.G.S. §15A-534](#) or [N.C.G.S. §15A-534.1\(a\)\(2\)](#).
 - b. Mandatory Arrest Provision: A law enforcement officer shall arrest and take a person into custody, with or without a warrant, if the officer has probable cause to believe that the person knowingly violated a valid protective order (ex parte order or §50B order) that:
 - (1). Excludes the person from the residence or household occupied by the victim.
 - (2). Directs the person to refrain from threatening, abusing, or following the victim.
 - (3). Directs the person to refrain from harassing the other party by telephone, visiting the home or workplace, or other means.

	Charlotte-Mecklenburg Police Department		600-005
	Interactive Directives Guide	Domestic Violence	
	Effective Date: 10/30/2023		5 of 11

- (4). Directs the person to refrain from cruelly treating or abusing an animal owned, possessed, kept, or held as a pet by either party or minor child residing in the household.
 - (5). Directs the person to refrain from otherwise interfering with the other party.
 2. Through thorough investigations, officers should determine the predominant aggressor and arrest accordingly. Dual arrests are discouraged. If a predominant aggressor cannot be determined, a supervisor should be notified prior to making a dual arrest. If, after careful consideration of evidence and information at the officers' and supervisors' disposal, the situation requires a dual arrest, the supervisory notification and justification for a dual arrest shall be documented in the KBCOPS report.
 3. When the suspect is still on scene and the officer has determined probable cause to make a warrantless arrest, the suspect should be arrested on scene. Supervisory approval is required when probable cause exists, and the officers on scene believe that an immediate arrest is not appropriate. The circumstances which caused the officers to believe that an on-scene arrest is not appropriate shall be documented in the report. This documentation must be completed either during the initial response or before the end of the officer's tour of duty.
 4. When the suspect has left the scene, and the officer has determined probable cause to make a warrantless arrest, the officer shall either:
 - a. Transport or accompany the victim to the Magistrate's Office to request an arrest warrant or criminal summons. The officer shall remain with the victim until the case has been reviewed with the magistrate; or
 - b. Personally request a warrant or summons from the magistrate immediately when the victim is unable or unwilling to pursue charges.
 5. When the investigation does not provide enough evidence or information for the officer to determine probable cause to make a warrantless arrest, the officer shall either:
 - a. Offer to transport the victim to the Magistrate's Office to request an arrest warrant or criminal summons. The officer shall remain with the victim until the case has been reviewed with the magistrate; or
 - b. Provide the victim with the information necessary to apply for a warrant or a summons at a subsequent time.
- C. Domestic Violence Protective Orders (Ex parte order or §50B order)
 1. Before any enforcement action is taken based solely on a domestic violence protective order, an officer must confirm, through the appropriate authorities, that the following factors exist:

	Charlotte-Mecklenburg Police Department		600-005
	Interactive Directives Guide	Domestic Violence	
	Effective Date: 10/30/2023		6 of 11

- a. The order is valid and signed by a judicial official.
 - b. The order is currently active.
 - c. The order has been served on the defendant.
2. State-issued orders can be searched by name through the Department of Criminal Information (DCI). Nationwide searches can be accomplished through the National Criminal Information Center (NCIC).
 3. If a protective order has been found either in DCI or NCIC, officers should contact the Communications Division to determine the exact provisions of the order by contacting the issuing agency.
 4. Orders must be carefully reviewed to determine the provisions outlined in each order to determine if the order has been violated. Some orders allow the defendants to have contact with the plaintiffs.
 5. An officer must make a mandatory arrest of a suspect pursuant to Section IV.B.1.b., regardless of the present relationship or circumstances between the victim and the suspect. Even if the suspect has moved back into the residence named on the court order or the victim has invited the suspect to the residence, the officer must arrest once the active order is confirmed.
 6. Only a subsequent court order amending or dismissing the original court order can nullify the enforcement of that order.
 7. If there is no record of the order being served on the defendant and the order does appear to be valid, an officer should contact the issuing agency to have an authorized officer respond and serve the order.
 - a. Defendants can be detained for a reasonable amount of time if an officer is confirmed to be responding to serve the protective order. The Mecklenburg County Sheriff's Office should be contacted for orders issued in Mecklenburg County.
 - b. If an officer is not confirmed to be responding with the order to be served,
 - (1). Officers should notify the defendant of the order and its conditions, and
 - (2). Document the verbal notification to the defendant on any appropriate report taken.
 8. Domestic violence protective orders initiated outside of Mecklenburg County will be respected and enforced in the same manner as local orders. Plaintiffs are not required to register court orders from other jurisdictions but may do so by contacting the Mecklenburg County Sheriff's Office.

	Charlotte-Mecklenburg Police Department		600-005
	Interactive Directives Guide		Domestic Violence
	Effective Date: 10/30/2023		7 of 11

9. If the suspect is not present when officers are at the scene, and officers have probable cause to believe the suspect knowingly violated any of the conditions of a valid protective order listed in Section IV.B.1.b., the officer shall immediately proceed to the Magistrate's Office and attempt to obtain a warrant or a summons or transport/accompany the victim to the Magistrate's Office.

D. Victim Assistance

1. Officers are required to respond to requests for assistance by victims of domestic violence pursuant to [N.C.G.S. §50B-5](#) as soon as practicable. [N.C.G.S. §50B-5](#) provides that officers may take whatever steps are reasonably necessary to protect the victim from harm, including:

CALEA

The previous version of Directive 600-005 Domestic Violence was published on 12/13/2022.

	Charlotte-Mecklenburg Police Department		600-006
	<i>Interactive Directives Guide</i>	Bomb Threats and Explosive Devices	
	Effective Date: 5/26/2023		1 of 7

I. PURPOSE

This policy establishes guidelines for Charlotte-Mecklenburg Police Department (CMPD) employees responding to bomb threats, incidents involving suspected explosive devices, and post-blast scenes.

II. POLICY

In the event of a bomb threat, the primary responsibility of (CMPD) is to ensure the safety of persons and the security of the affected area. Any movement or investigation of suspect devices should be left to the CMPD Bomb Squad Unit's certified hazardous devices technicians.

The decision to evacuate or search the location of a bomb threat or suspicious package will normally be left to the authority in charge of the property. CMPD employees will not actively participate in search operations unless required to do so.

III. BOMB THREAT PROCEDURES

A. Sworn employees responding to a bomb threat will take the following steps:

1. Ensure the Charlotte Fire Department (CFD), or the appropriate Mecklenburg County fire department, and MEDIC personnel are dispatched to the scene to stand by at a safe location.
2. CMPD will have command of any bomb threat situation unless a detonation occurs. Responding CFD apparatus will typically stage at the closest fire hydrant and should coordinate with CMPD command face-to-face.
3. Ensure all communication regarding bomb threats or suspected hazardous devices are conducted by a landline telephone or 150 feet outside the threatened area for any wireless communications (i.e., cellphones or portable radios).
4. Establish an incident command post in a safe location outside the threatened area (no less than three hundred (300) feet and undercover).
5. Ensure that the authority in charge of the threatened location has activated the bomb threat plan and that the search of the location begins. Sworn employees will provide advice to the authority in charge of the property as needed regarding the ongoing search.
 - a. If a search has not been started, suggest that this be done immediately.
 - b. If a search has been started but not yet completed, provide advice as needed regarding the ongoing search.
 - c. Sworn employees should inform the authority in charge of the property that conducting a search is not the responsibility of CMPD but, sworn employees may, at their discretion, assist with the search of the property if requested by the authority in charge but will not do so without a representative of the property present during the search.

	Charlotte-Mecklenburg Police Department		600-006
	<i>Interactive Directives Guide</i>	Bomb Threats and Explosive Devices	
	<i>Effective Date: 5/26/2023</i>		2 of 7

- d. Should the authority in charge of the property elect not to conduct a search in response to a received bomb threat, the sworn employee in charge should document such in the appropriate incident report.
 - e. Any search operations to be conducted on structures should start with all common areas and the exterior of the structure, and then proceed toward the interior.
 6. If circumstances warrant, the authority in charge of the property will be informed of the necessity of evacuating personnel from the property to a safe location.
 - a. Consider recommending sheltering in place, if practical. If an evacuation is not essential, persons on site should be sheltered in place, preferably in a common area, while the search is conducted.
 - b. If the decision is made to evacuate the property, all people inside or on the property will be instructed to take all personal items with them (i.e., car keys, purses, bags, etc.).
 - c. Evacuation is a voluntary act of the authority in charge of the property.
 - d. If the authority in charge elects to evacuate, officers should encourage the persons on site to evacuate through areas other than the primary means of ingress and egress (i.e., emergency exits, side doors, etc.).
 7. CMPD Explosive Detection Canines (EDC) can be requested to assist with bomb searches under limited circumstances.
 - a. An EDC should never be requested to examine a suspicious or confirmed hazardous device.
 - b. EDCs can assist with bomb searches if the threat indicates a specific area within the structure where a potential device could be located.
 - c. EDCs can also assist with searching building exterior areas, common areas, sensitive locations, or other specific areas but should not be requested to search entire locations or large search areas.
 - d. Any questions regarding the decision to deploy an EDC should be directed to the Bomb Squad Commander or the Canine Sergeant.
 8. Once an item believed to be a bomb has been found:
 - a. CMPD will assume control of the scene and initiate the Incident Command System (ICS).
 - b. Search operations will stop, the structure will be evacuated, and the authority in charge will coordinate with Operations Command on an appropriate location to direct evacuees and verify all persons on site are accounted for.
 - c. The Bomb Squad Unit will be notified immediately.

	Charlotte-Mecklenburg Police Department		600-006
	Interactive Directives Guide	Bomb Threats and Explosive Devices	
		Effective Date: 5/26/2023	3 of 7

- d. CMPD personnel will begin to establish an evacuation perimeter based on the size or type of the device. This should be accomplished in coordination with a Bomb Squad Unit supervisor.
 - 9. In situations where the threat is vehicle specific, officers will not search vehicles. The bomb squad will be called to the scene to handle vehicle specific threats.
 - 10. Bomb technicians will not be requested to respond to locations involved with a bomb threat where no suspicious package or hazardous device has been located, or to assist in searching the location. Bomb technicians will be requested to search locations only if there is a reasonable belief that the location has been or may be booby-trapped.
- B. Documentation of the incident will include the completion of a KBCOPS report, and a written statement will be taken from the person receiving the bomb threat. This written statement must include:
- 1. The method in which the threat was received, (i.e., telephone, verbally, or written),
 - 2. The exact wording of the threat received,
 - 3. Have there been any previous threats,
 - 4. The time the call was received,
 - 5. The phone number on which the call was received,
 - 6. Notation as to whether the person receiving the call dialed "* 57" after hanging up with the bomb threat caller,
 - 7. The name and telephone number of the last (or any other) call received immediately before the bomb threat call,
 - 8. The name and telephone number of the first (or any other) call received immediately after the bomb threat call,

NOTE: *57 is a feature provided as a means for customers to immediately initiate a trace for harassing or threatening calls (i.e., bomb threats).

IV. HAZARDOUS DEVICES PROCEDURES

- A. A hazardous device is any device, regardless of size, that could detonate or ignite, which includes military, commercial, or homemade devices designed for destruction (i.e., hand grenades, dynamite, blasting caps, military/commercial fusing systems or components, large quantities of fireworks or large commercial fireworks, suspected bombs, and improvised incendiary devices, etc.).
 - 1. Communications Division telecommunications who receive a call for service concerning hazardous devices will obtain as much information about the suspected hazardous device as possible. This includes the type of container or

	Charlotte-Mecklenburg Police Department		600-006
	Interactive Directives Guide	Bomb Threats and Explosive Devices	
		Effective Date: 5/26/2023	4 of 7

package, size, exact location, unusual characteristics (such as wires, ticking, odor, etc.), and information on any received threats.

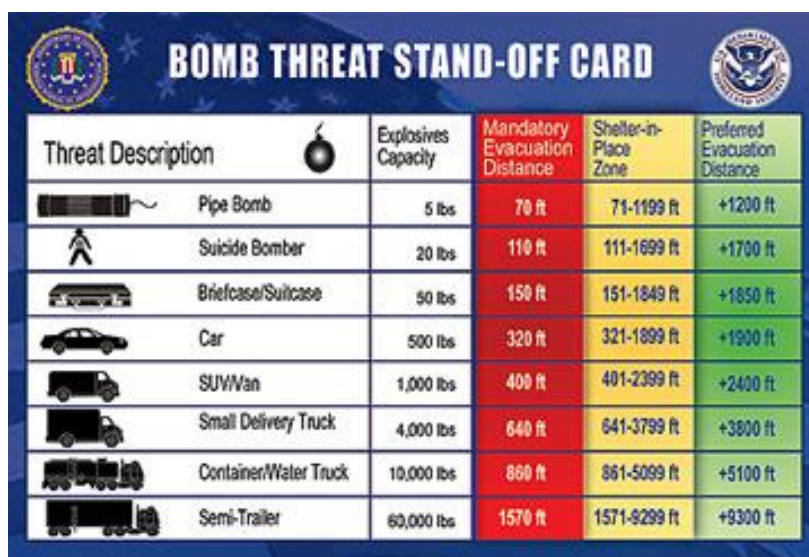

2. Appropriate division units will be dispatched to the scene along with the division supervisor. Sworn employees will assess the situation and gather further information about the suspected hazardous device from witnesses or complainants.
3. In cases of calls for service related to unattended packages or items, responding sworn employees should make every attempt to examine the area, determine if the area is sensitive or has received previous threats, and ascertain any additional information that could distinguish the item as suspicious versus unattended prior to taking any direct examinations of the item.

Explosives detection canines may be requested to examine unattended items only.

4. Bomb technicians will be requested to respond to the scene.
 - a. On-duty bomb technicians will be requested by the division supervisor. On-duty bomb technicians can be requested by Operations Command over main channels or directly via the Bomb 1 channel on the Special Operations talkgroup.
 - b. A bomb technician supervisor or bomb technician will attempt to contact the division supervisor to obtain the most up to date information regarding the incident.
 - c. Off-duty bomb technicians will respond when requested by a captain or by Operations Command.
 - c. The initial responding bomb technician will notify the Bomb Squad Unit commander or Bomb Squad Unit supervisor. A Bomb Squad Unit supervisor or the Special Operations Division Chain of Command will request additional bomb technicians as needed.
 - d. The Communications Division will maintain an active list of bomb technicians off-duty personnel to be immediately contacted.
5. Suspected hazardous devices must not be touched, moved, or physically inspected in any way by anyone other than FBI Hazardous Devices School certified bomb technicians.
6. CFD, or the appropriate Mecklenburg County fire department, and MEDIC will be dispatched to respond and stand by near the scene in case of a detonation.
7. Division personnel will evacuate and remove all unauthorized personnel to a minimum distance of three hundred (300) feet from the affected area.
 - a. When possible, the evacuation zone should be under cover or some other type of physical protection. The evacuation zone will be increased

depending on the size of the package, the availability of cover or physical protection, location, and other nearby hazards such as fuel or chemical storage tanks.

- b. Evacuated occupants should be directed uphill and upwind from the suspect device.
- c. In cases of suspected Remote Controlled Improvised Explosive Devices (RCIED) (i.e., those with antennas, remotes, cell phones, radios, etc.), all efforts should be taken to deny line of sight to the device by non-emergency personnel.
- d. Traffic should be diverted around the evacuation zone.

Threat Description	Explosives Capacity	Mandatory Evacuation Distance	Shelter-in-Place Zone	Preferred Evacuation Distance
 Pipe Bomb	5 lbs	70 ft	71-1199 ft	+1200 ft

- 8. Sworn employees will not cause or allow any radio transmission within one hundred fifty (150) feet of the suspicious item. This includes but is not limited to, portable radios, cellular telephones, mobile radio telephones, RADAR, and mobile computer or television transmissions. If possible, establish a landline telephone communication.
- B. Upon arrival, the bomb technician will comply with the incident command structure established on the scene and will be responsible for the elements of the event that involve rendering safe and/or disposing of the hazardous item. The bomb technician will assess the situation and advise the incident commander of any additional safety measures.
- C. Hazardous devices will not be brought into the CMPD Headquarters building or any CMPD facility.
- D. The bomb technician must complete a KBCOPS report and a PLIMS case on all recovered evidence. Hazardous or explosive items should not be submitted as evidence and should be photographed and then disposed of as soon as practical at the explosives bunker located at the CMPD Training Academy range or other appropriate disposal

location. The report should indicate whether the device will be stored in the Bomb Squad Unit's explosives storage magazine as evidence or for destruction. All evidence collection should be done in coordination with the CMPD Arson Unit and the Fire Investigations Task Force or Mecklenburg County Fire Marshal's Office. Any seized or recovered ordnance should be stored within the explosives storage magazine and documented with a KBCOPS report and hard copy property sheet, which will be scanned into the report.

- E. An incident report will be completed by division personnel for all found and recovered hazardous devices, suspicious packages, or hoax device calls.
- F. For incidents involving the potential manufacture or storage of homemade explosives (HME), a bomb technician should be notified immediately. Officers shall make every effort to take note of all obvious precursor materials in plain view without moving or disturbing any potential live product. The location should be immediately evacuated and secured until the bomb squad responds. Under no circumstances should anyone other than a certified bomb technician attempt to move or handle any suspected HME or precursors.

V. POST-BLAST INCIDENTS

- A. For any post-blast incident, the role of patrol personnel will be to respond to the scene and begin establishing a secure incident perimeter. Sworn employees should be mindful to remain alert and to advise the Bomb Squad Unit of any potential secondary devices.
- B. Bomb technicians will respond to all post-blast scenes to search the area for secondary hazardous devices or unexploded ordnance before crime scene processing or other follow-up investigation begins.
- C. CFD or the appropriate Mecklenburg County fire department will have incident command of any post-blast scene until all rescue, firefighting, and any necessary decontamination efforts have been completed. The preservation of the crime scene or collection of evidence should not take precedence over the life safety of potential victims.
- D. Sworn employees will take all necessary steps to secure and evacuate post-blast scenes of all persons until a search has been completed by bomb technicians.
- E. For the purposes of this directive, any incident where fireworks (commercial, consumer, homemade, or improvised) have been used to cause damage to any real or personal property shall be treated as a post-blast incident, the bomb squad shall be notified, and respond to conduct a post-blast investigation. CALEA

The previous version of Directive 600-007, Victim and Witness Assistance, was published on 04/08/2021.

	POLICE	Charlotte-Mecklenburg Police Department	600-008
	Interactive Directives Guide	Alarm Policy	
		Effective Date: 11/17/2023	1 of 8

I. PURPOSE

This directive establishes guidelines and procedures for the Charlotte-Mecklenburg Police Department (CMPD) and alarm users within CMPD's jurisdiction regarding alarm permit registration, police response, false alarm assessments, and the false alarm appeal process.

II. POLICY

False alarms cause significant strain on police resources and account for the majority of CMPD alarm activations. An alarm ordinance has been designed to reduce unnecessary calls for service, provide better use of limited police resources, and encourage alarm users and companies to help solve the problem of excessive false alarms.

III. DEFINITIONS

- A. Alarm Company: An entity engaged in selling, leasing, installing, servicing, or monitoring alarm systems.
- B. Alarm Permit: A permit issued by CMPD that allows the operation of an alarm system within the city limits of Charlotte and unincorporated areas of Mecklenburg County.
- C. Alarm Signal: A detectable signal, either audible or visual, generated by an alarm system to which the police are expected to respond. Audible alarms (siren, etc.) must have a fifteen (15) minute shutoff installed.
- D. Alarm System: Any single device or assembly of equipment designed to signal the occurrence of an illegal entry or other activity requiring immediate attention and to which the police department is expected to respond, not including alarms installed in motor vehicles, fire alarms, domestic violence alarms, or alarms designed to elicit a medical response.
- E. Alarm User: Any person, corporation, partnership, proprietorship, governmental or educational entity, or other entity owning or leasing an alarm system on whose premises an alarm system is maintained for the protection of such premises.
- F. False Alarm: The activation of an alarm system through mechanical or electronic failure, malfunction, improper installation, or the negligence of the alarm user/agent and signals activated to summon police personnel unless law enforcement response was canceled by the alarm user/agent before police personnel arrive at the alarm location.

An alarm is false upon inspection by CMPD when evidence indicates no unauthorized entry, robbery, or other such crime was committed or attempted in or on the premises, which would have activated a properly functioning alarm system.

- G. Keyholder: A person who has access and is responsible for responding to a premises in the event of an alarm activation.
- H. Panic Alarm: An electronic device designed to assist in alerting somebody in emergency situations where a threat to persons or property exists. A panic alarm is frequently but not always controlled by a concealed panic alarm button. These buttons can be connected to a monitoring center or locally via a silent alarm or an audible bell/siren. The alarm can be

used to request emergency assistance from local security, police, or emergency services. Some systems can activate video and/or audio recordings to record or assess the event.

- I. Permit Year: A twelve (12) month period beginning on the day and month on which an alarm permit is issued.

IV. PROCEDURES

A. Alarm Permits

1. In accordance with the [City of Charlotte/Mecklenburg County False Alarm Ordinance](#) (Sec. 15-188), no person shall use an alarm system without first obtaining a permit for such alarm system. Each alarm permit shall be assigned a unique permit number.
2. An alarm permit can be registered online through CryWolf Services. Paper applications for alarm permit registration can be provided by any CMPD division office or the False Alarm Unit located at CMPD Headquarters and may be submitted by mail or fax.
3. Failure to register an alarm can subject the alarm user to a \$100.00 fine.
4. The alarm user should receive an alarm permit within ten (10) business days after submitting a completed application.
5. Alarm permits are required to be renewed annually.

B. Communications Division

1. Upon receiving a call reporting an alarm activation, telecommunicators determine if the call for service is requested by the alarm user, alarm company, or a third party and will follow established alarm dispatch protocols (Appendix A) and dispatch patrol officers accordingly.
2. If the alarm company properly cancels an alarm prior to the officer's arrival on the scene, the telecommunicators will immediately advise the responding officers to disregard the call for service, and the alarm will not be counted as a false alarm.
3. Upon the responding officer's request, telecommunicators will contact a keyholder and request that they respond to the location.

C. Patrol Response

1. Responding officers will inspect the premises and determine if a police response was necessary. If the premises cannot be checked (i.e., fences, dogs, etc.), responding officers will request that the telecommunicator notify a keyholder that will allow the premises to be properly checked. If a keyholder is unavailable to respond, the responding officer will document the alarm as false in CAD using the clearance code miscellaneous incident (MI).

POLICE	Charlotte-Mecklenburg Police Department	600-008
	Interactive Directives Guide	Alarm Policy
	Effective Date: 11/17/2023	3 of 8

2. After determining the premises is secure and no break-in or attempted break-in has occurred, the responding officer will document the following information if known or relevant in a CAD MI:
 - a. Weather conditions
 - b. Old pry/tool marks or lack of the same
 - c. Pets loose inside the premises
 - d. Power outages
 - e. Loose fitting doors/windows
 - f. Unsecured doors/windows
 - g. Reason the entire premises could not be checked
 - h. User error (persons with no code or key to the alarm)
 - i. Description of reasons for determining the alarm to be false
 - j. Name of any person(s) on the premises
3. If an alarm is determined to be false, the responding officer will attach a false alarm notification sticker to a conspicuous location on the premises. The false alarm notification sticker advises the owner of the premises that the alarm was activated and the premises was checked.
4. Patrol supervisors are authorized to cancel police response to premises where multiple false alarm activations have occurred during a shift.
5. Officers responding to an alarm call for service will confirm the address of the alarm, make appropriate CAD updates, and clear the call for service utilizing the following alarm clearance codes:
 - a. CANCELARM: The call for service was canceled by the alarm monitoring center prior to patrol arrival.
 - b. CANSUPV: The call for service was canceled by a patrol supervisor with no patrol response.
 - c. MI: The alarm activation is false, and no additional violations exist.
 - d. OO/CASE: The alarm activation is not false, and a KBCOPS incident report will be completed.
 - e. UL: Unable to locate the address.

D. False Alarm Assessment and Fines

1. Registered alarm users are allowed two (2) false alarm responses at no charge within a permit year.

POLICE	Charlotte-Mecklenburg Police Department	600-008
	Interactive Directives Guide	Alarm Policy
	Effective Date: 11/17/2023	4 of 8

- a. A power failure is not considered excused unless the power outage lasts longer than the alarm system's battery backup.
 - b. A false alarm does not include an alarm determined to have been caused or activated by unusually violent conditions of nature or extraordinary circumstances not reasonably subject to control by the alarm user.
 - c. A false alarm does not apply when the call for service is canceled by the alarm company prior to an officer's arrival on the scene.

 - c. False Alarms 6-7: \$100.00 per response
 - d. False Alarms 8-9: \$250.00 per response
 - e. False Alarms 10+: \$500.00 per response
 3. Audible alarms sounding for more than fifteen (15) minutes can result in a fine of up to \$100.
 4. Registered alarm users will be notified and/or receive an invoice via mail or e-mail within one (1) to five (5) business days after receiving a false alarm.
 5. Alarm fines must be paid within thirty (30) calendar days from the invoice date. Alarm users who fail to pay alarm fines will be notified in writing that police will not respond to an alarm activation at their premises until all fines are paid. Note: Panic alarms, including CAD classifications of Panic, Hold-up, Duress, or Verified Video/Audio, are excluded from this policy and will be dispatched in accordance with the Communications Division's alarm dispatch protocols.
 6. Alarm fines may be paid online through CryWolf Services or mailed to Charlotte Alarm Management Services (PO BOX 602486 Charlotte, NC 28260-2486).
 7. Alarm users with an unregistered alarm system may attend an online alarm school through CryWolf Service. The end-of-course test must be completed within thirty (30) calendar days from the invoice date to waive the \$100.00 unregistered alarm fine.
 - a. Alarm users must successfully pass with a score of ninety percent (90%) or higher to waive the alarm fine.
 - b. If the alarm user does not successfully pass, the fine will not be waived.

E. False Alarm Appeal Process

1. The alarm user may appeal an assessment of a false alarm fee in writing within thirty (30) calendar days after the date of notification of the assessment of civil penalties. Written notice of appeals may be made via mail, email, or fax.
2. Appeals are not generally granted as a result of, but not limited to, the following:
 - a. Faulty, defective, or malfunctioning equipment supplied by an alarm company.
 - b. Improper installation or maintenance by an alarm company.
 - c. Improper monitoring by an alarm company.
 - d. Alarm activations that occur while alarm company technicians are repairing or servicing the alarm system.
 - e. An occurrence where no evidence of criminal activity is present.
 - f. Mistakes made by private contractors, maids, cleaning crews, visitors, realtors, etc.
 - g. Items within the home or business that move, causing motion detectors to be activated.
 - h. Doors and/or windows that become loose and cause a break in the contacts that activate the alarm system.
 - i. Caretakers who watch homes or businesses when owners are away and who activate the alarm in error or are not familiar with required codes or passwords.
 - j. Pets, rodents, or wildlife movement in or near the home or business.
 - k. Alarms caused by apartment management employees.
3. The False Alarm Unit is responsible for reviewing appeals and shall have the discretion to dismiss or reduce civil penalties or reverse other enforcement decisions where warranted. The False Alarm Unit will render a decision in writing.

YFS receives and screens child protective service referrals and conducts investigations and family assessments in abuse, neglect, or dependency cases.

IV. PROCEDURE

A. Child Abuse or Neglect

1. Child abuse or neglect reports shall be thoroughly investigated and documented. Officers will enforce the laws and refer incidents of child abuse or neglect to YFS.
 - a. Confidential law enforcement information can be shared between law enforcement agencies and YFS.
 - b. Officers may seek a court order to prevent the disclosure of the information if the officer believes that sharing confidential information will undermine an ongoing or future investigation or jeopardize the state's right to prosecute or any defendant's right to a fair trial.
2. In instances of neglect, officers will work to place the juvenile with a responsible caregiver.
3. A person in charge of a child is not criminally liable for inflicting reasonable moderate punishment to correct a child's behavior. However, signs of possible child abuse will be documented and reported to YFS.
4. Initial investigations of child physical abuse with minor injury will include the following:
 - a. Written statements will be taken from all involved parties and witnesses, proper documentation, and preservation of evidence, including photographs of injuries, collection of weapons used (if any), seizure of electronic evidence, etc.

	POLICE <i>Charlotte-Mecklenburg Police Department</i>		600-009
	<i>Interactive Directives Guide</i>		Juvenile Procedures
			Effective Date: 12/2/2024

- e. If officers are unable to determine the timeframe of the last sexual assault from the reporting adult, minimal fact-finding questions may be asked of the child victim. Minimal fact-finding questions are open-ended, non-confrontational, and non-judgmental without leading questions or suggestive prompts. Once the minimal information is acquired, officers and the reporting adults will stop questioning the child victim.
- f. Officers will properly document their investigation and take necessary steps to preserve any evidence of the sexual assault (e.g., biological evidence on clothes, bedding, electronic evidence on phones or technological devices, etc.). For guidance or assistance, officers should contact a CAC Unit detective.

C. Temporary Custody of a Juvenile

1. Temporary custody means taking physical custody and providing personal care and supervision until a court order for secure or non-secure custody can be obtained. A juvenile may be taken into temporary custody without a court order in the following circumstances:
 - a. Probable cause would exist for the arrest of an adult in identical circumstances under [N.C.G.S. § 15A-401](#).
 - b. If reasonable grounds exist to believe the juvenile is undisciplined.
 - c. If there are reasonable grounds to believe the juvenile is an absconder from any residential facility operated by DJJDP or from an approved detention facility.
 - d. If there are reasonable grounds to believe the juvenile is abused, neglected, or dependent and that the juvenile would be injured or could not be taken into custody if it were first necessary to obtain a court order.
2. After taking a juvenile into temporary custody without a court order, the officer's duties include:
 - a. Checking the juvenile's in-state record to determine if the juvenile should be treated as an adult due to a prior conviction for a misdemeanor or felony in a district or superior court, including a conviction of driving while impaired.
 - (1) Infractions and misdemeanor motor vehicle violations, other than impaired driving offenses, are not considered a "conviction" for this "once an adult, always an adult" rule.
 - (2) No juvenile court jurisdiction exists for juveniles with a prior "adult" conviction, and officers should treat the juvenile as an adult.

	POLICE	Charlotte-Mecklenburg Police Department	600-009
	<i>Interactive Directives Guide</i>	Juvenile Procedures	
		Effective Date: 12/2/2024	6 of 13

- b. Notifying the juvenile’s parent, guardian, or custodian that the juvenile has been taken into temporary custody and of their right to be present until a determination is made on secure or non-secure custody.
 - (1) Officers may release the juvenile to a parent, guardian, or custodian if they decide continued custody is unnecessary. If the juvenile is unlawfully absent from school, the employee may deliver the juvenile to the school where the juvenile is enrolled.
 - (2) Officers may complete a juvenile arrest worksheet, seek a petition, and request an SCO be issued.
 - (3) A juvenile who is taken into temporary custody will not be held for more than twelve (12) hours Monday through Friday or twenty-four (24) hours if any of the hours fall on Saturday, Sunday, or a legal holiday unless an intake counselor has filed a petition or motion for review and an order for secure or non-secure custody has been entered.
- c. Officers should select the most appropriate course of action for the situation and consider the needs of the juvenile and the protection of the public.

D. Juvenile Arrest Procedures

1. On-Scene Arrest

- a. Officers may decide to release the juvenile to a parent, guardian, custodian, or caretaker or to obtain an SCO. Factors include the severity of the crime, the juvenile’s behavior, and the juvenile’s history. If the officer chooses to send the juvenile through diversion in lieu of arrest, the officer will review the juvenile’s arrest histories from six (6) through seventeen (17) years of age. If the offender has a previous arrest history, the juvenile may not qualify for diversion.
- b. Officers will contact the Communications Division Department of Criminal Information (DCI) to determine if an SCO is on file and if the juvenile has a National Crime Information Center (NCIC) hit (i.e., missing person or wanted from another jurisdiction).
- c. Officers will complete a KBCOPS report and Juvenile Arrest Worksheet.
- d. If circumstances do not necessitate obtaining an SCO, officers will collect information needed for a juvenile arrest. The juvenile will be released to a parent, guardian, custodian, or caretaker.
- e. If an SCO is required, the assigned investigating officer will follow procedures outlined in this policy's secure custody orders section.

	POLICE	Charlotte-Mecklenburg Police Department	600-009
	<i>Interactive Directives Guide</i>	Juvenile Procedures	
		Effective Date: 12/2/2024	7 of 13

2. Search Incident to Arrest

- a. A search incident to arrest is justified by the need to prevent the arrested person from using weapons or destroying evidence. Officers automatically have the right to search incident to arrest and are legally justified no matter the offense.
- b. A search incident to arrest is limited to a search of the arrestee's person and the area and objects within the arrestee's immediate control. However, if the item within the arrestee's immediate control is a container, follow the procedures outlined in this policy's arrestee property inventory section.

3. Strip searches and body cavity searches conducted on a juvenile will adhere to Directive 500-004-A, Conducting Person Searches.

4. Juvenile Court Counselor (JCC) Referrals

Officers will refer the following offenses to juvenile court through juvenile arrest reports:

- a. Delinquent acts that would be a felony if committed by an adult.
- b. Delinquent acts involving weapons.
- c. Serious gang-related delinquent acts.
- d. Delinquent acts involving aggravated assaults.
- e. Other referrals may be made based on the totality of the circumstances.

E. Arrestee Property Inventory

While containers found on an arrestee or within the arrestee's immediate control may be seized, they cannot be searched incident to arrest unless the arrestee is unsecured and within reaching distance of the container at the time of the search. As this is unlikely to occur when an arrestee is in handcuffs, to search such containers, officers are advised to obtain consent, a search warrant, or to perform an inventory search as noted in Directive 500-008 Prisoner Transport. Additionally, officers may search such containers when an arrestee denies ownership of the container and has abandoned the property.

F. Secure Custody Orders (SCO)

1. SCO may be requested for the following situations:

- a. The juvenile is charged with a felony and has demonstrated being a danger to property or persons in the immediate future.
- b. The juvenile has demonstrated being a danger to persons in the immediate future and is charged with:

	Effective Date: 4/19/2023	1 of 6

I. PURPOSE

This policy establishes guidelines for parking City of Charlotte, CMPD, partner agency, and employee personal vehicles at Charlotte-Mecklenburg Police Department Headquarters (CMPDHQ), outlines the appropriate use of the CMPDHQ parking facilities, and ensures the availability of parking for authorized vehicles.

II. POLICY

This policy covers the use of the following locations:

- the parking deck located behind and attached to CMPDHQ,
- the surface parking lot between CMPDHQ and the parking deck, and
- the loading dock adjacent to CMPDHQ.

These parking facilities are intended for use by employees who work from CMPDHQ or are engaged in City of Charlotte, Mecklenburg County, or CMPD business such as attending court, training, meetings, or for other administrative matters. This policy remains in effect twenty-four (24) hours per day, seven (7) days per week, and compliance with this policy is critical to ensure that there is always adequate parking available for all authorized vehicles. For this reason, vehicles in violation of the policy are subject to citation and towing. Employees may also have their parking privileges suspended when violations of this policy are repeated and/or flagrant.

III. DEFINITIONS

- A. The Parking Deck: The parking structure located behind and connected to CMPDHQ, hereafter referred to as “the deck”.
1. Operational Side: Entrance closest to CMPDHQ
 2. Employee Side: Entrance closest to 5th Street
- B. Surface Lot: The parking lot located between CMPDHQ and the deck.
- C. Loading Dock: The secured parking area located on the Alexander Street side of CMPDHQ.
- D. Stored Vehicle: An employee-owned vehicle that is parked with the intention, either explicit or implied, of not being used on a routine and/or daily basis. Storage of personal vehicles in the deck is prohibited.

- F. Low Emission Vehicles (LEVs) and Electric Vehicles (EVs): Vehicles that emit relatively low levels of carbon emissions and have been analyzed for fuel economy and emissions by the United States Environmental Protection Agency (EPA) and the California Air Resources Board or have achieved a minimum green score of 45 on the American Council for an Energy-Efficient Economy (ACEEE).

IV. PROCEDURE

A. Deck Access

1. All CMPD employees assigned to work from CMPDHQ, the Court Services Unit, the District Attorney's Office, and the Charlotte-Mecklenburg Government Center (CMGC), who park their personal vehicles, including motorcycles, or individually assigned department vehicles, must pay the weekly fee to park in the deck. Payment will be made by weekly payroll deduction.
2. Parking privileges are assigned to the specific employee paying for access. Where City of Charlotte departments have parking deck access for their department's vehicles, access is limited to those specific City of Charlotte vehicles. Employees will use their parking access card to gain entrance only for the vehicle they are driving. Employees may not transfer possession of their parking access card to any other person or use their card to allow another person access to the deck. Employees, upon terminating their employment with the CMPD, shall have their CMPD parking access rescinded. This includes employees who terminate their employment with the CMPD for employment in another City of Charlotte department.
3. CMPD employees who operate CMPD vehicles will be allowed to enter the operational side of the deck with their parking access card. No employee will park a personal vehicle on the operational side of the deck, except when attending court, papering cases, obtaining warrants, etc., and in such cases, personal vehicles must be parked in the designated court parking spaces. Designated command staff may park their personal vehicles in the command staff parking spaces on the operational side of the deck.
4. Law enforcement agencies working permanently with the CMPD may be issued parking access. Employees of such agencies will pay for deck parking at the same rates and be subject to the same terms as City of Charlotte employees.
5. The CMPD Human Resources Division (HRD) is responsible for managing technical issues associated with access cards, making changes in payroll deductions for parking access, and maintaining an up-to-date list of individuals with parking authorization.
6. The Administrative Services Bureau major is responsible for approving requests for parking access and denying or terminating parking access.
7. A replacement access card will not be issued to an employee unless the previously issued card or an identifiable part is turned in to HRD. CMPD employees who lose their access card will report it as lost equipment as outlined in CMPD Directive 400-003, Equipment. Other City of Charlotte employees will report lost cards to CMGC security immediately.

	Interactive Directives Guide		CMPD Headquarters Parking Regulations
			Effective Date: 4/19/2023

8. The CMPD reserves the right to approve temporary parking deck access. The Administrative Services Bureau major may approve temporary parking deck access for non-paying individuals conducting department-related business as follows:
 - a. CMPD employees assigned to large-scale off-duty or special events
 - b. CMPD employees involved in emergency call-back situations
 - c. Individual visitors
 - d. Partner department or agency employees
 - e. Interns or cadets
 - f. Contractors
 - g. Volunteers

Note: Anyone utilizing the deck under these circumstances will adhere to the same policies as those paying to park in the deck.

9. To facilitate temporary parking deck access for special activities, an intercom system is connected to the CMPDHQ security desk. The employee assigned to the CMPDHQ security desk must be provided a list of all visitors or the name of the activity with an approximate number of attendees before that individual's or group's visit. Approved temporary parking access that extends beyond one (1) day will require the issuance of a temporary parking access card which will be coordinated through Facilities Planning.
10. Security cameras are installed at the entry points of the deck. Employees who do not have their access card and who cannot be visually identified by the CMPDHQ security desk employee must report in person to the CMPDHQ security desk in the lobby of CMPDHQ. Once parking privileges have been verified, the security employee will allow the employee access to the deck.

B. The Parking Deck

1. The deck is not used exclusively by the CMPD. Other City of Charlotte employees and partner agencies may choose to pay to park in the deck and are subject to the guidelines provided in this directive.
2. CMPD vehicles driven by more than one (1) employee will have dedicated parking assigned and must be parked in the designated parking space(s) of the deck. The CMPD Facilities Planning manager, along with HRD, is responsible for maintaining a current list of all space assignments. Requests for changes or new space assignments must be made through an employee's chain of command. The CMPD Facilities Planning manager must be notified of any approved change(s) and will assist in completing the approved change(s).

Employees are prohibited from parking marked and unmarked CMPD vehicles next to or near the courthouse including along 4th Street to attend court, paper cases, etc. Parking on Alexander Street is allowed for magistrate business only.
5. There are several spaces designated on the operational side of the deck for those on-duty employees driving CMPD vehicles who need to submit lost/found property or evidence to the Property and Evidence Management Division. These spaces are located to the right of the tunnel entrance.
6. Command staff assigned to CMPDHQ will pay to park in the deck and may park in those spaces reserved for command staff on the operational side of the deck.
7. Command staff who are from external facilities are not required to pay for deck parking, but to the extent possible, should park on the operational side of the deck in spaces reserved for command staff.
8. All other CMPD sworn and civilian employees assigned to other facilities are not required to pay for deck parking.
9. Individuals operating non-CMPD vehicles should park anywhere on the employee side of the deck when conducting CMPD business, except for in reserved parking spaces.

12. All drivers must adhere to the following when parking in the deck:
 - a. All vehicles are to be parked only in single, properly marked spaces. Motorcycles will be parked only in those spaces designated for motorcycle parking.
 - b. Designated spaces are set aside for compact vehicles. SUVs, trucks, and vans of any size are prohibited from parking in compact spaces.

E. Low Emission Vehicle Parking

In keeping with the City of Charlotte’s commitment to sustainability, parking spaces for LEVs and EVs have been installed in the deck. There are currently five (5) designated LEV parking spaces on the fourth floor and two (2) designated EV parking spaces with charging stations on the second floor of the deck and they are reserved for qualifying permit holders. To ensure that these spaces are being used properly, the City of Charlotte has initiated a permitting process. To qualify, vehicles must meet the LEED

I. POLICY

The Charlotte-Mecklenburg Police Department (CMPD) is licensed to broadcast official police communications to mobile units and will do so while complying with the rules and regulations established by the Federal Communications Commission (FCC) governing the use and transmissions over all radio frequencies.

II. PROCEDURE

A. Police radio users are assigned a separate number or series of numbers to identify those individual users as a specific unit in all radio transmissions. This number or series of numbers is known as the radio user's "call sign."

B. All radio traffic will be conducted using the following professional protocol:

1. An off-duty employee's call sign is the employee's CMPD issued code number with the prefix "P" and is commonly referred to as "P unit."
2. All police radio users must use their designated call sign or "P unit" number when initiating or responding to all radio transmissions. CMPD Communications Division personnel (telecommunicators) will be identified as "Headquarters."
3. Radio transmissions will be brief and impersonal. First names or nicknames of employees will not be used when engaged in radio transmissions on a primary dispatch talk group.
4. Telecommunicators will initiate calls for service (CFS) to personnel using the designated call sign of the unit they are contacting.
 - a. Mobile patrol units (MPU) will repeat their designated call sign and provide their current location when acknowledging a CFS initiated by a telecommunicator. All other CMPD personnel will repeat their designated call sign to acknowledge the radio transmission.
 - b. When responding to radio transmissions from CMPD personnel, telecommunicators will acknowledge by repeating the unit's designated call sign and instructing the unit to continue with the radio transmission or standby.
5. Appropriate acknowledgment will be made before proceeding with radio transmissions. In the event of an emergency situation, a telecommunicator may instruct personnel to standby. Personnel should make no further radio transmissions until advised to continue.
6. The police radio and mobile computers shall be used for official police communication only. Personal messages or any type of unprofessional conversation will not be transmitted on the police radio or the mobile computer.

C. To avoid confusion with the emergency 10-code "10-33", no employee will be assigned a call sign ending with the number "33".

- D. Employees will use telephones or mobile computers for lengthy conversations or information requests when possible.
- E. Emergency radio transmissions have priority over all other radio transmissions.
- F. In non-emergency situations where reasonable access to a telephone exists, employees are encouraged to assist citizens by using telephones for calls or notifications rather than requesting contact be made by a Communications Division employee.

	Interactive Directives Guide	Towing Vehicles	
	Effective Date: 11/21/2022		1 of 9

I. PURPOSE

This directive establishes guidelines for the towing, inventorying, storing, and release of impounded vehicles by Charlotte-Mecklenburg Police Department (CMPD) employees.

II. POLICY

Charlotte-Mecklenburg Police Department (CMPD) employees must follow established guidelines to tow, inventory, store, and release all vehicles.

III. DEFINITIONS

None

IV. PROCEDURES

A. Determining When to Tow

CMPD sworn employees may authorize the towing of vehicles when one (1) or more of the following conditions exist.

1. When a crash occurs on a public roadway or public vehicular area that renders a vehicle disabled and the owner or operator is not available or, in the sworn employee's judgment, the owner or operator is not capable of making an informed decision regarding the disposition of the vehicle.
2. When a stolen vehicle is recovered, and the owner or a responsible party is not readily available to take possession of the vehicle.
3. When the operator of the vehicle has been arrested, and in the sworn employee's opinion, the judgment of the operator is impaired to the extent that the operator is unable to make an informed decision as to the disposition of the vehicle.
4. When a disabled vehicle is creating a hazard or obstructing traffic. When possible, sworn employees should attempt to contact the registered owner of the vehicle before towing.

B. If a sworn employee below the rank of sergeant believes it is necessary to tow a vehicle, in circumstances other than those in Section IV-A, the sworn employee will notify a supervisor and obtain approval to tow the vehicle.

C. If a vehicle is not creating a hazard or obstructing traffic, and the owner/operator of the vehicle is on the scene, the owner/operator should be allowed to decide if the vehicle is to be towed or left at the scene. This applies if the situation affords the owner/operator this discretion and if, in the sworn employee's opinion, the owner/operator's judgment is not so impaired as to render them incapable of making such a decision. Should a vehicle owner/operator request the services of a non-division wrecker, response time and existing conditions should be considered. If non-

	Charlotte-Mecklenburg Police Department		600-013
	Interactive Directives Guide	Towing Vehicles	
		Effective Date: 11/21/2022	2 of 9

division wreckers can respond in as timely a fashion as the assigned division wrecker company, the owner/operator's request should be honored.

1. In all cases where a vehicle is towed at the request of the owner/operator, or left at the scene, the "Owner/Driver Request for Vehicle Disposition" section of the Tow/Storage Report must be completed and signed before the vehicle is towed. If the owner/operator refuses to sign the form or safety issues preclude this action, the sworn employee will have the vehicle towed.

EXCEPTION: If the driver is incapacitated as a result of a motor vehicle crash and requires immediate transport to a medical facility but is able to give verbal consent, the sworn employee can indicate that verbal consent was given on the disposition section of the Tow/Storage Report and document the circumstances of that consent.

2. If the owner/operator is under arrest and decides to relinquish control of the vehicle to another person, the sworn employee must confirm that the person taking control of the vehicle has a valid operator's license and is not under the influence of an impairing substance. Sworn Employees must also complete the "Owner/Driver Request for Vehicle Disposition" section of the Tow/Storage Report when control of the vehicle is relinquished to a third party.
3. Sworn Employees will submit the Tow/Storage Report to the Public Records Unit by the end of their tour of duty.

D. Private Premises

When an on-duty sworn employee receives a request from a citizen to remove a vehicle from private property, the sworn employee will refer to N.C.G.S. 20-219.2 and Charlotte City Codes 6-561 through 6-567 concerning the towing of vehicles parked, without authorization, on private property and further explain to the citizen that he or she may have the vehicle towed without the assistance of the police. Sworn employees who are on-duty or employed in a secondary law enforcement capacity will not request tows of unauthorized vehicles parked on private property.

E. Division Wreckers

1. When a sworn employee requires a wrecker to remove a motor vehicle (other than a city-owned vehicle), the sworn employee will request a division wrecker, unless the owner/operator requests a specific wrecker service.
2. Division wreckers will tow vehicles to their company lots for storage unless the vehicle owner or operator has made other arrangements with the division wrecker service.
3. Inventory procedures serve to protect an owner's property while it is in the custody of the police, to insure against claims of lost, stolen, or vandalized property, and to guard the police and public against danger. A sworn employee must complete the Vehicle Inventory section, of the Tow/Storage Report each

	Interactive Directives Guide	Towing Vehicles	
		Effective Date: 11/21/2022	3 of 9

time a vehicle is towed at the direction of the CMPD. Additionally, an employee must complete the Vehicle Inventory section on an owner requested tow if the owner is not present to secure the vehicle and any possessions therein.

- a. Any employee having a vehicle towed will conduct an inventory of the interior and trunk areas and record all property in the vehicle.

EXCEPTION: No inventory is required for vehicles towed from tow-away zones during peak traffic hours. The vehicle must be locked.

- b. Locked, sealed, or closed containers such as suitcases, packages, or boxes will be opened when the contents cannot be determined from an examination of the container's exterior. However, locked or sealed items will not be forcibly opened to inventory the contents if doing so will cause damage to the container. The vehicle's trunk and/or glove compartment will not be forcibly opened to inventory the contents of these areas.

F. Tow/Storage Report

1. Anytime a sworn employee requests a wrecker, whether, at an owner or operator's request or at the discretion of the sworn employee, the Tow Storage Report must be completed. The white (top) copy should be submitted to the Public Records Unit and the remaining three (3) copies should be given to the wrecker driver.

EXCEPTION: If an owner/operator requests a specific wrecker company that is not a division wrecker company the sworn employee will submit all four (4) copies to the Public Records Unit.

2. Requesting Agency, Owner and/or Driver information, and Towing Information should be completed on every Tow Storage Report. If the tow is at the direction of CMPD, or the tow is per request of the owner, but the owner is not present to secure any property inside the vehicle, a vehicle inventory must also be completed. If the tow is at the owner's request, the Owner/Driver Request for Disposition section needs to be completed.

G. Seizing Vehicles

1. A sworn employee may seize a vehicle only in one of the following situations and with a supervisor's approval (if the sworn employee is below the rank of sergeant).
 - a. The vehicle is being held to be searched without a search warrant or pending the execution of a search warrant.
 - b. The vehicle is needed for evidence.
 - c. The vehicle has been seized for forfeiture or destruction as specifically provided by law. Listed below are examples of this type of impoundment.

- 1) N.C.G.S. 90-112 - Concealment, conveyance, or transportation of a controlled substance in a motor vehicle.
 - 2) N.C.G.S. 20-141.3(g) - Prearranged speed competition in a motor vehicle.
 - 3) N.C.G.S. 18B-504 - Motor vehicles used to transport non-tax paid alcoholic beverages.
 - 4) N.C.G.S. 14-299 - Motor vehicles exhibited by gamblers in conducting unlawful games or lotteries.
 - 5) N.C.G.S. 14-86.1 - Motor vehicles used to transport stolen property (larceny when the value of goods is more than \$2000.00) or used in the commission of a robbery.
 - 6) N.C.G.S. 14-2.3 - Motor vehicles acquired through the commission of other felonies.
2. Sworn employees who seize a vehicle must enter the vehicle information in the Property & Laboratory Information Management System (PLIMS). The employee should document all available vehicle information (e.g., owner information, Vehicle Identification Number (VIN), registration number, make, and model). The sworn employee must enter the name of the wrecker company and the tow-in number in PLIMS. The vehicle should be transported to the Vehicle Evidence Lot (VEL).
 3. If the keys are seized with the vehicle, they will be placed in property control and documented in PLIMS.
 4. Sworn employees will follow tow companies to the VEL, scan their assigned access cards to gain access to the VEL, escort tow companies onto the lot, supervise the placement of vehicles, and escort tow companies off the lot.
- H. Release of Towed Vehicles from Wrecker Company Lots
1. Each division wrecker company is responsible for the storage and release of towed vehicles in their possession. The division wrecker companies should not release towed vehicles (and items that are in vehicles) except upon presentation of proof of ownership by the claimant.
 2. Division wrecker companies will not release any vehicle when the Tow/Storage Report indicates the vehicle is to be held until the release has been authorized by the sworn employee who ordered the tow. Once a release is authorized, the sworn employee should change the status to ready to release in PLIMS. A supervisor will authorize the release in PLIMS.
 3. Once authorized for release, a sworn employee will advise the owner of the towed vehicle to go directly to the wrecker company to obtain the vehicle. If a vehicle is seized as evidence, the sworn employee will inform the

	Charlotte-Mecklenburg Police Department		600-013
	Interactive Directives Guide	Towing Vehicles

owner/operator that the owner will be contacted when the release of the vehicle has been authorized. A sworn employee seizing a vehicle will conduct a follow-up investigation concerning the status of the vehicle every fifteen days. When the District Attorney determines the vehicle is no longer needed as evidence, the vehicle can be released, and the sworn employee will change the status to ready to release in PLIMS. A supervisor will authorize the release in PLIMS and submit it to the Property and Evidence Management Division. The Property and Evidence Management Division will notify the vehicle owner and provide instructions for reclaiming the vehicle.

I. Release of Towed Vehicles from Vehicle Evidence Lot

When the vehicle release paperwork is completed, Property and Evidence Management will send a postcard notifying the owner to contact the Property and Evidence Management Division.

1. The owner will come to Property and Evidence Management to show a valid ID and sign the property sheet.
2. The owner will arrange for a tow company to tow the vehicle off the lot.
3. The owner will provide Property and Evidence Management with the tow company's information.
4. Property and Evidence Management will arrange a time and date for a Property and Evidence Management supervisor to meet the tow company at the VEL to accompany them as they retrieve the vehicle. Only the tow company is allowed on the VEL. (See G. 4.).
5. The Property and Evidence Management supervisor will ensure that the correct vehicle (along with any debris) is removed from the VEL.
6. The Property and Evidence Management supervisor will be responsible for closing the gate and resetting the alarm.

J. Abandoned Vehicles

1. A vehicle suspected of being abandoned will be towed by order of the sworn employee who discovers the vehicle if it is interfering with or obstructing traffic. The initiating sworn employee will enter "Traffic Hazard" and the related traffic violation on the Tow/Storage Report. Do not enter "Abandonment."
2. When a sworn employee observes an unattended vehicle inside the city limits of Charlotte that is suspected of being abandoned, but not interfering with or obstructing traffic, the sworn employee will enter the required information in the [City of Charlotte's Neighborhood Service Request portal](#).

K. Additional Towing Procedures and Responsibilities

	Charlotte-Mecklenburg Police Department		600-013
	Interactive Directives Guide	Towing Vehicles	
	Effective Date: 11/21/2022		6 of 9

1. General Explanation - State law establishes procedures that a sworn employee must follow under certain circumstances when vehicles are towed and further provides for a hearing before a magistrate for vehicle owners contesting these tows. N.C.G.S. 219.11 applies to any towing carried out under the direction of a sworn employee except under the following circumstances:
 - a. When seizing a vehicle for forfeiture or as evidence.
 - b. When the towing is requested or voluntarily consented to by the person in control of the vehicle (for example, in many wreck situations).

2. Duties of a Sworn Employee Ordering a Tow
 - a. The sworn employee will complete the Tow/Storage Report as thoroughly and completely as possible. Sworn employees must enter the color of the vehicle along with the make, VIN, and vehicle registration, including the state of registration. The information entered on the Tow/Storage Report will be utilized by Public Records Unit employees to complete the computer-generated Notice of Towing and Right to Hearing Form.
 - b. If the vehicle is registered in North Carolina, the sworn employee must, as soon as possible and always within two (2) hours of the towing, attempt to contact the registered owner by telephone. If the number is busy or there is no answer, a subsequent attempt must be made within twenty-four (24) hours. An immediate second call producing the same result (i.e., busy or no answer) will not satisfy this requirement. The Notice of Towing and Right to Hearing Form shall be mailed to the registered owner's last known address within twenty-four (24) hours of the tow.
 - c. If the vehicle is registered outside of North Carolina, a telephone notification as described above will be attempted as soon as possible, and always within seventy-two (72) hours of the towing. The Notice of Towing and Right to Hearing Form shall be mailed to the registered owner's last known address within seventy-two (72) hours of the tow.
 - d. If, after reasonable efforts (i.e., several calls), the sworn employee is still unable to speak to the registered owner, the sworn employee should, if possible, leave a clear message concerning the location and status of the towed vehicle.
 - e. If the sworn employee is successful in contacting the registered owner by telephone, the sworn employee shall give the owner the following information and, within reasonable limits, answer the owner's questions regarding the vehicle and the towing. If the employee is unsuccessful in contacting the owner, information (date, time, etc.) related to the

	Charlotte-Mecklenburg Police Department		600-013
	Interactive Directives Guide	Towing Vehicles	
		Effective Date: 11/21/2022	7 of 9

attempts to call the registered owner will be documented in the "Owner/Driver" section of the Tow/Storage Report, along with:

- 1) A description of the vehicle.
 - 2) The place where the vehicle is stored.
 - 3) The violation with which the owner is charged if any.
 - 4) The procedure the owner must follow to have the vehicle returned.
 - 5) The procedure the owner must follow to request a probable cause hearing regarding the towing.
- f. A vehicle recovered as evidence because it was used during the commission of a crime, contains evidence of a crime, or is a recovered stolen vehicle is subject to disposition under directive 700-002 Evidence Management. The initial investigating sworn employee will summarize all sworn employee-related actions and any relevant information in KBCOPS.
3. Hearing to Contest Tow
- a. If the owner wishes to contest the towing, the owner has a right to a hearing before a magistrate in Mecklenburg County. If the owner wants to obtain possession of the vehicle before the hearing, the owner will be required to post a bond of double the amount of the towing and storage fees with the Clerk of Court.
 - b. To obtain a hearing an owner must present a written request for a hearing to the magistrate on duty at the warrant-issuing office located at the Mecklenburg County Courthouse, 800 E. Fourth Street, Charlotte, North Carolina. If the owner makes a written request for a hearing, the magistrate will set a hearing time within seventy-two (72) hours of the owner's request.
 - c. The magistrate will determine if the sworn employee had probable cause to tow the vehicle.
 - d. If the magistrate finds probable cause for the tow, the wrecker service will be entitled to hold the vehicle until the owner pays all applicable fees unless a pre-hearing bond was posted.
 - e. If the magistrate finds no probable cause for the towing, the vehicle will be returned to the owner with no costs incurred.
 - f. Either party has a right to appeal an adverse decision by the magistrate to the District Court Judge.

		Effective Date: 11/21/2022	8 of 9

- g. Sworn employees are to comply with the procedures established by the Chief District Court Judge regarding these hearings. Sworn Employees may be required to file affidavits with the magistrate's office or to appear personally to give oral testimony at hearings regarding the probable cause to tow the vehicle.

L. Crime Scene Search Tows

1. A sworn employee below the rank of sergeant must obtain authorization from a supervisor before towing a vehicle that was part of, or is evidence of, a major crime (e.g., homicide, rape, assault with a deadly weapon, bank robbery) for Crime Scene Search (CSS) processing. Notification of the tow must be sent to a CSS supervisor.
 - a. A division supervisor will determine, in consultation with the Criminal Investigative Division, if the vehicle needs to be photographed and sealed on scene by CSS prior to being towed.
 - b. A sworn employee will contact a zone wrecker to tow the vehicle.
 - c. A sworn employee will follow the wrecker and vehicle to the Charlotte-Mecklenburg Police Department Headquarters (CMPDHQ) where the vehicle will be temporarily stored in the secure CSS vehicle bay until processed.

2. In the event a homicide victim is located inside a vehicle, the vehicle will be towed to the CSS secure vehicle bay at CMPDHQ after the on-scene investigation is complete.

The homicide detective will obtain authorization from a homicide sergeant to have the vehicle towed.

 - a. CSS will photograph and seal the vehicle at the scene.
 - b. The homicide detective will contact a zone wrecker to tow the vehicle.
 - c. A sworn employee will follow the vehicle to the CSS vehicle bay where it will be temporarily stored within the secured bay.

3. Sworn employees will follow the procedures outlined below anytime a vehicle is temporarily stored in the CSS secure bay at CMPDHQ:
 - a. A sworn employee will complete the Tow/Storage Report for the wrecker company.
 - b. As soon as possible, once the vehicle is delivered by the wrecker, the sworn employee will enter the vehicle information into PLIMS.
 - c. The sworn employee's copy of the tow-in-form will be scanned into KBCOPS and attached to the related case.

	Charlotte-Mecklenburg Police Department		600-013
	Interactive Directives Guide	Towing Vehicles	
		Effective Date: 11/21/2022	9 of 9

- d. The sworn employee assigned to the case must be present with CSS for the vehicle to be processed.
- e. When vehicle processing is complete the sworn employee will arrange for the same wrecker company that towed the vehicle to the CSS secure vehicle bay to tow the vehicle to the VEL.
- f. The sworn employee will follow the vehicle to the VEL. (See G.4.)
- g. When a vehicle is towed to the VEL. The towed vehicle must be transferred in PLIMS indicating the tow. The VEL is included in the drop-down box in PLIMS as a location.

	Charlotte-Mecklenburg Police Department		600-014
	Interactive Directives Guide	Passive Protest and Peaceful Demonstrations

E. Enforcement of Relevant Statutes and City Ordinances

1. Picketing Ordinances (City Code Sections 19-301 – 19-303)
 - a. Picketing may be conducted on public sidewalks or other pedestrian areas, but not on that part of the roadway primarily used for vehicular traffic. Picketing shall not disrupt, block, obstruct, or interfere with pedestrian traffic or the free passage of pedestrian or vehicular traffic into any driveway, pedestrian entrance, or other access to buildings where public sidewalks are.
 - b. Picketing may be conducted at the Old City Hall lawn, Charlotte Mecklenburg Government Center (CMGC) Plaza, Polk Park, Independence Square Park, Arequipa Park, or other City of Charlotte controlled parks unless a festival is occurring, or the property is reserved for private use.
 - c. Picketing is not permitted on median strips.
 - d. Focused or targeted residential picketing is prohibited.
 - e. There is no limit to the number of pickets on a particular block or the amount of space between pickets.
 - f. Banners are not limited in size but must allow safe and unobstructed passage of pedestrian and vehicular traffic.
 - g. The staff or pole on which a placard or banner is carried must be made of corrugated material, plastic, or wood, not metal or metal alloy. It cannot exceed forty (40) inches in length, nor can it be greater than ¾ inch in diameter at any point. It must be blunt at both ends.
 - h. Violations of the ordinance may be enforced by issuing a civil fine (using the parking ticket booklet) to the violator. Although, officers may wish to warn picketers prior to issuing a ticket.
2. Obstructing Traffic

obey law-enforcement or traffic-control officer). Arrests may be made under this statute if protesters refuse to move out of the roadway.

- b. Officers should advise persons on the scene not to walk in front of vehicles entering and exiting the parking lot of a business. The potential for confrontation between the various interests involved and the danger of a pedestrian being struck by a vehicle are additional law enforcement concerns.

3. Trespassing

Protesters standing on private property are to be verbally advised by a company representative that they are not allowed on private property. In addition, an officer shall provide a verbal warning to violators that they are going to be arrested for first-degree trespassing if they are unlawfully in a building or enclosed area and for second-degree trespassing if they are outside, but not on the sidewalk area or a public street.

4. Other Relevant Ordinances and State Statutes

- a. Noise Ordinance (City Code Sections 15-61 – 15-70)

A permit is required for amplified sound. Violations of the noise ordinance may occur if the protesters use megaphones or other sound amplification devices. Prior to issuing a citation for a violation under Section 15-64 (amplified sound), a measurement of the noise should be taken in accordance with the Noise Enforcement SOP.

- b. Weapons at Parades and Picket Lines (N.C.G.S. 14-277.2)

It is unlawful for any person participating in, affiliated with, or present as a spectator at any parade, picket line, or any demonstration upon a private healthcare facility or upon any public place owned or under the control of the State of North Carolina or any of its subdivisions to willfully or intentionally possess or have immediate access to any dangerous weapon. The provisions of the statute do not apply to a person with a carry concealed permit carrying a concealed handgun. The provisions of the statute do not apply to any person authorized by the State of North Carolina or federal law to carry dangerous weapons in the performance of duties, including any private security officers licensed to carry a firearm while on duty.

- c. Distribution of Handbills or Leaflets (City Code Section 15-1)

It is unlawful for any person to deposit in, paste on, or attach to any motor vehicle any handbills, advertisements, cards, circulars, leaflets, folders, banners, letters, or pamphlets on any motor vehicles without the consent of the owner.

	Charlotte-Mecklenburg Police Department		600-014
	Interactive Directives Guide	Passive Protest and Peaceful Demonstrations	
		Effective Date: 9/14/2023	4 of 4

- d. Officers should not charge protestors with littering for placing copies of their literature, picket signs, or other materials on public or private property for the period of the demonstration. However, signs or other materials placed on private property by protestors may be taken and disposed of by the property owner or his or her designee. This does not constitute larceny or damage to property, and no such report should be taken.

	Charlotte-Mecklenburg Police Department		600-015
	Interactive Directives Guide		First Amendment Activities
	Effective Date: 4/22/2024		1 of 4

I. PURPOSE

This policy establishes guidelines for Charlotte-Mecklenburg Police Department (CMPD) employees performing their duties before, during, and after a First Amendment activity.

II. POLICY

When CMPD employees perform their duties, they conform to the guarantees of the United States and North Carolina Constitutions. When conducting a work-related function involving a First Amendment activity, that function must be confined to a legitimate law enforcement objective. CMPD recognizes that the First Amendment of the United States Constitution promotes, encourages, and protects the right of free speech and the right of persons and groups to assemble peacefully. In addition, the Fourth Amendment protects individuals from unreasonable governmental intrusion into their person, houses, papers, and effects. Whether demonstrating, protesting, counter-protesting, or simply showing support for a cause, individuals and groups have the constitutional right to peacefully gather and express themselves without interference from law enforcement despite the content of their message. At the same time, it is also the role of CMPD to maintain law and order during a First Amendment activity and to investigate any potential for criminal behavior that might occur before, during, or after such an activity.

III. DEFINITIONS

- A. First Amendment Activity: Constitutionally protected speech or association, or conduct related to freedom of speech, the free exercise of religion, freedom of the press, the right to assemble, and the right to petition the government. A First Amendment activity includes but is not limited to the preparation, planning, and discourse conducted before, during, and after a particular occurrence or continuous activity such as a demonstration or a protest.
- B. Infiltrate: A covert investigative technique whereby an officer affirmatively identifies as a member of a group or organization and does not disclose as a law enforcement officer.
- C. Informant: A person who is not a police officer who provides information to law enforcement about individuals, groups of individuals, or organizations which are generally not publicly available.
- D. Legitimate Law Enforcement Objective: A legitimate law enforcement objective consists of the following: the detection and investigation of criminal behavior; the apprehension and prosecution of criminals; the identification of potential acts of civil disobedience designed to unlawfully disrupt the legitimate and lawful activities conducted within the Charlotte-Mecklenburg area; and, the identification of governmental resources necessary to staff a First Amendment activity sufficient to protect persons and property.

		Effective Date: 4/22/2024	2 of 4

- E. Public Source Information: Any information that can be obtained or accessed by the general public such as public records, social media sites, web pages, and observation of activity that is presented to and/or can be viewed by the general public.

IV. PROCEDURE

The procedures in this directive are intended to ensure that CMPD employees protect the guarantees of the Constitution while performing their duties with certainty, confidence, and effectiveness. These procedures are binding on all CMPD employees who are involved with the monitoring of a First Amendment activity.

Procedures Applicable to All Employees

- A. CMPD employees may respond to or monitor First Amendment activities to facilitate a legitimate law enforcement objective. Two (2) examples of facilitating a legitimate law enforcement objective are:
 - 1. Developing information that will assist with traffic and crowd control during First Amendment activities.
 - 2. Receiving information from a reliable informant that a group of counterdemonstrators plan to commit criminal acts to disrupt another group's demonstration.
- B. CMPD employees shall not investigate, prosecute, retaliate, prevent, or hinder any person from lawfully participating in First Amendment activities.
- C. CMPD employees shall not collect, document, or retain information on persons associated with a First Amendment activity based solely on that individual's:
 - 1. Ethnicity, national origin, race
 - 2. Religious, political, or social beliefs or association
 - 3. Sexual orientation
 - 4. Support for unpopular causes protected by the First Amendment
- D. CMPD employees will not encourage, suggest, or participate in any civil disturbance, civil disobedience, or violation of any criminal law.
- E. All questions will be limited to issues related to criminal conduct or to developing information related to a legitimate law enforcement objective.
- F. CMPD employees shall not take, confiscate, or seize a participant's or spectator's camera, cellular phone, or other electronic recording device simply because they are recording police activity. A camera, cellular phone, or other electronic recording device may be seized incident to arrest when sworn employees have obtained a search warrant, or there is an exception to the warrant requirement.

		Effective Date: 4/22/2024	3 of 4

- G. CMPD employees shall not take, confiscate, or seize a participant's or spectator's journal, written material, or other personal documents unless they have obtained a search warrant or there is an exception to the warrant requirement.
- H. Any photographing or video recording of an event by CMPD employees shall be conducted in a manner that minimizes interference with the First Amendment activity and must be related to a legitimate law enforcement objective.
- I. Nothing in this directive prevents an employee from recording or monitoring images by video/digital means or the taking of photographs to facilitate a legitimate law enforcement objective. This could include managing public resources, collecting evidence to be used in criminal investigation, or the collection of evidence to evaluate and defend civil claims or for other purposes in accordance with CMPD Directive 400-006 Body Worn Camera (BWC).
- J. Nothing in this directive prevents an employee from performing the following actions, provided that they are undertaken to accomplish a legitimate law enforcement objective:
 1. CMPD employees may gather, review, and disseminate public source information about planned or ongoing First Amendment activities. This includes publically available information such as internet and social networking sites and permit requests.
 2. CMPD employees may overtly communicate with any person, including informants, involved in or with knowledge of a First Amendment activity to ascertain general logistical information about the activity, such as number of participants, start and end times, planned march routes, rally locations, etc.
 3. CMPD employees may, with supervisor approval, attend public rallies, demonstrations, and marches in a plain clothes capacity without disclosing their identity, so long as their purpose is solely to monitor the event for logistical or criminal conduct issues. Employees acting in such a capacity will not direct or influence the event's participants and will not affirmatively represent themselves as members of a specific participating group or organization.
- K. No employee shall conduct an infiltration of a First Amendment activity unless specific approval has been obtained from the Chief of Police or designee. An approved undercover operation or infiltration will be conducted in accordance with the procedures outlined in this directive and the Criminal Intelligence SOP and Crime Analysis SOP.
- L. All intelligence investigations related to First Amendment activities must be coordinated, though, and in conjunction with the Criminal Intelligence Unit and will be in accordance with this directive and the Criminal Intelligence SOP and Crime Analysis SOP.

	Charlotte-Mecklenburg Police Department		600-017
	Interactive Directives Guide		Arbitrary Profiling
	Effective Date: 6/22/2022		1 of 4

I. PURPOSE

The Charlotte-Mecklenburg Police Department (CMPD) believes that the use of arbitrary profiling is inconsistent with effective policing. Effective policing requires CMPD employees and members of the community to work proactively together as partners to prevent crime and protect our community. The police-community partnership thrives through communication, trust, and fairness. The mere appearance of arbitrary profiling is harmful to the police-community partnership and is counter to effective policing.

In order to create and maintain a safe community, CMPD sworn employees are expected to stop citizens and enforce the law when they observe behavior indicative of criminal activity. This includes the use of physically descriptive characteristics in determining whether a person matches a specific description of a particular suspect.

CMPD is committed to treating all people, community members, and employees equally, fairly, and with respect. This policy is intended to serve four primary purposes:

- A. To provide sworn employees with clear guidance in the law and in their interventions into the activities of community members.
- B. To make it clear that CMPD is aware of and sensitive to the impact that police interventions have on the community.
- C. To reaffirm to the community that CMPD will not tolerate the use of arbitrary profiling in any form.
- D. To fairly and accurately establish a record of CMPD interventions into the activities of community members.

II. POLICY

All people have a right to receive equal treatment, courtesy, and respect from members of CMPD. Employees will treat all persons with whom they have contact with equality and without regard to their race, gender, ethnicity, religion, age, citizenship, sexual orientation, or any stereotype. The use of stereotypes as a motivation for a police activity constitutes arbitrary profiling and is expressly prohibited.

- A. Employees will not use any stereotypes as:
 1. A factor in the selection of whom to stop and search.
 2. A motivation for the decision to initiate a police activity.
 3. A motivation to conduct a police activity differently than they normally would.
 4. An assumption regarding an individual's immigration status.
- B. Employees will:
 1. Enforce the criminal laws through all lawful means of investigation.

	Charlotte-Mecklenburg Police Department		600-017
	Interactive Directives Guide	Arbitrary Profiling	
		Effective Date: 6/22/2022	2 of 4

2. Use physically descriptive characteristics, including race and gender, only in determining whether a person matches a specific description of a particular suspect.
- C. In compliance with N.C.G.S. §143B-903, the Stop Data Form must be completed for traffic-related stops. Sworn employees are required to complete the form for an encounter in which consent to search is requested, documenting either permission or denial of the request.
 - D. The CMPD will provide training regarding arbitrary profiling during recruit training and on an annual basis through in-service training.
 - E. The CMPD will conduct an annual administrative review of sworn employee practices, including citizen concerns. Upon completion of the annual review, CMPD will identify any areas that require updated or additional training.
 - F. The CMPD will provide law enforcement service and protection to all members of the Charlotte-Mecklenburg community.

III. DEFINITIONS

- A. **Arbitrary Profiling:** Any police activity that is motivated by race, gender, ethnicity, religion, age, citizenship, sexual orientation, or any stereotype rather than the behavior of an individual or information that leads to a particular individual that is reasonably suspected to be, or to have been engaged in specific criminal activity.
- B. **Stereotype:** A conventional, oversimplified opinion, conception, or belief regarding a person, group, event, or issue that is thought to typify or conform to an unvarying pattern, lacking any individuality.
- C. **Police Activity:** Any and all actions taken by sworn employees toward an individual that are due to the employee's position as a police officer, including but not limited to the following: any act of investigation, a voluntary contact or a request for consent to search either a person or property, a detention of a person or vehicle including the issuance of a traffic citation or warning, or an arrest of a person or a seizure of property.
- D. **Articulable Reason:** A fact not based on a stereotype that is capable of being determined and recited.
- E. **Reasonable Suspicion:** Knowledge of articulable facts or circumstances that are objective and without resort to arbitrary profiling, sufficient to induce a reasonable person under the attendant circumstances to suspect that an individual has engaged, is engaging, or is about to engage in criminal activity.
- F. **Probable Cause:** Knowledge of articulable facts or circumstances that is objectively, and without resort to arbitrary profiling, sufficient to induce a reasonable person under

	Charlotte-Mecklenburg Police Department		600-017
	Interactive Directives Guide		Arbitrary Profiling
	Effective Date: 6/22/2022		3 of 4

the attendant circumstances to believe that an individual has committed or is committing a criminal offense or an infraction.

- G. Voluntary Contact: A consensual contact between a sworn employee and a citizen under circumstances such that a reasonable person would feel free to leave and/or terminate the encounter.

IV. PROCEDURE

A. Detentions

Sworn employees may detain someone if they have reasonable suspicion. Arbitrary profiling may not be used as a factor to establish reasonable suspicion and may not be the motivation for initiating a detention. A sworn employee may rely upon race or other descriptive characteristics to determine whether a person matches a specific description of a particular suspect.

B. Arrests

Sworn employees may arrest someone if they have probable cause. Arbitrary profiling may not be used as a factor to establish probable cause and may not be the motivation for initiating an arrest. Sworn employees may rely upon race or other descriptive characteristics to determine whether a person matches a specific description of a particular suspect.

C. Voluntary Contact

Sworn employees may initiate a voluntary contact with a person provided the motivation for the contact is not based on arbitrary profiling. In all such contacts, the person must be free to leave and/or terminate the encounter.

When conducting a voluntary contact, the sworn employee will adhere to the constitutional rights of those individuals contacted. A field interview report in KBCOPS will be completed to document the contact.

D. Consent to Search

1. Sworn employees may request consent to search an individual's person or property provided the motivation for the request is based on a non-arbitrary articulable reason. In all such circumstances, the consent must be voluntary.
2. Sworn employees will not request consent to search without first establishing an articulable reason for such request.
3. The articulable reason for the request for consent to search should always be noted in a Field Interview (FI) or KBCOPS narrative. A Stop Data Form must be completed any time consent to search is requested on traffic-related stops.

	Interactive Directives Guide		Arbitrary Profiling
	Effective Date: 6/22/2022		4 of 4

V. DATA COLLECTION

A. Collecting Data

All CMPD sworn employees will complete and submit the electronic Stop Data Form whenever they initiate a traffic stop or when consent to search is requested. In the event of computer difficulties, a paper version of the Stop Data Form will be completed and entered into the electronic form when the computer difficulties have been corrected. The electronic Stop Data Form should be completed as soon as it is practical in all circumstances. It is the responsibility of all supervisors to ensure that the Stop Data Form is completed.

B. Checkpoints

DWI and license checkpoint detentions do not require any form to be completed unless the detention results in a written warning, citation, search, seizure, contraband being found, arrest, physical resistance, response to resistance, or injuries.

C. Collected Data

The data collected through the electronic Stop Data Form may be used in the CMPD early intervention system. The data may be used for the purpose of identifying training needs. The data collected may also be used to aid in the evaluation of possible violations of this policy by individual employees when the possible violations are brought to light independently of data collected through the electronic form.

D. Data Entry Errors

In the event that an error in the data entry process comes to the attention of an employee after an electronic Stop Data Form has been submitted to the database, the employee who entered the data will notify a direct supervisor, who will notify the supervising captain. The supervising captain, or designee, will verify the data in error and correct the information in the database with the assistance of Computer Technology Services (CTS).

VI. VIOLATION

Any violation of this policy will be addressed within the framework of the CMPD disciplinary philosophy.

	Charlotte-Mecklenburg Police Department		600-019
	<i>Interactive Directives Guide</i>	Response to Resistance	
	Effective Date: 6/26/2024		1 of 17

I. PURPOSE

This policy establishes guidelines for officers of the Charlotte-Mecklenburg Police Department (CMPD) for responding to resistance. For purposes of this directive, the term officer will apply to all sworn CMPD employees.

II. POLICY

The CMPD recognizes and respects the integrity and paramount value of human life. CMPD believes that human life is sacrosanct, and the goal of any encounter with the public is girded by the unwavering commitment to the preservation of life. Consistent with this belief is the department’s full commitment to a culture of guardianship while protecting the community.

Consistent with any free society, CMPD seeks to police in ways that enhance and facilitate policing by the consent of its citizens. When situations present themselves where policing by consent is not achieved, it is the department’s responsibility to use control methods only when it is reasonably necessary. In determining whether a control method is reasonably necessary, it must be taken into full consideration that officers may be forced to make split-second judgments in tense, uncertain, and rapidly evolving circumstances. It must also consider whether it was reasonable for the officer to attempt to control the situation when time and circumstance permit by using communication and other available resources to stabilize and/or de-escalate the situation.

A review of an officer’s application of control requires balancing the legitimate need for officers to apply control to safely and lawfully carry out their duties against the right of the person to be free from an excessive application(s) of control.

CMPD further recognizes that in some instances, a control method may be legally justified when the control method is administered, but an officer who intentionally and unnecessarily instigates a situation where the use of a control method becomes necessary may be in violation of training or other CMPD policies. For example, an officer who taunts, verbally baits, or initiates needless/unnecessary physical contact with a person and is forced to apply a control method immediately afterward will be in violation of this or other policies. Finally, passive physical resistance is not in and of itself synonymous with the risk of imminent harm or danger to oneself or others.

III. DEFINITIONS

- A. Active Aggression: At this level of resistance, the person poses a risk of immediate danger to the officer, another person, or themselves. This aggression may manifest itself through punching, kicking, striking, or any other action when apparent that the person has the immediate means to injure an officer, another person, or themselves.
- B. Control: The degree of force required by an officer to gain compliance of an unwilling person.
- C. Deadly Force: Any force likely to cause death or great bodily harm. Force that is not likely to cause death or great bodily harm but unexpectedly results in death or great bodily harm is not considered deadly force. The discharging of a firearm at a person is

	Charlotte-Mecklenburg Police Department		600-019
	Interactive Directives Guide	Response to Resistance	
	Effective Date: 6/26/2024		2 of 17

always considered deadly force except when an officer is discharging a less-lethal option approved pursuant to this policy.

- D. De-escalation: Tactics, techniques, actions, and verbal/non-verbal communication exercised by officers during a potential use of control encounter to reduce the imminence of a physical threat to officers or others. These tactics should be used when time, distance, communication, available resources, and circumstances permit.
- E. Defensive Resistance: Measures a person actively takes to prevent being taken into custody. These actions may include but are not limited to, twisting, pulling, holding onto fixed objects, running away, or preventing handcuffing.
- F. Great Bodily Harm: Bodily injury that creates a substantial risk of death. Note: the terms great bodily harm, serious bodily injury, and serious physical injury are often used interchangeably. There is no legal distinction between these terms.
- G. Imminent: An event that is likely to occur at any moment.
- H. Less-Lethal Control: Any physical exertion or device used to restrain or control another that is not reasonably likely to cause death or great bodily harm.
- I. Less-Lethal Option: Any control employed using specialized equipment that is designed to incapacitate a person temporarily and is not reasonably likely to produce death or great bodily harm, including, but not limited to, oleoresin capsicum (OC spray), impact munitions, conducted electrical weapon (CEW), and bean bag rounds.
- J. Passive Resistance: Non-violent, noncompliance to lawful orders when a person does not pose a continuing threat to the safety of officers. This type of resistance creates little to no risk of immediate danger. Purely passive resistance may still support the use of some level of control of the person. (Source: *Graham v. Connor*).
- K. Reasonably Necessary: The reasonableness of a particular use of a control method must be evaluated from the objective perspective of a reasonable officer on the scene rather than with the advantage vision of hindsight. It also depends on the severity of the crime, whether the person poses an imminent threat to the officers or others, and whether the person is actively resisting arrest or attempting to evade arrest by flight. The inquiry asks whether the officer's actions were objectively reasonable considering the facts and circumstances confronting the person.

IV. PROCEDURES FOR THE USE OF LESS-LETHAL CONTROL

A. Use of Less-lethal Control During Arrest

1. An officer may use less-lethal force upon another person when and to the extent that the officer believes it reasonably necessary to:
 - a. Prevent the escape from custody or to effect an arrest of a person who the officer reasonably believes has committed an offense unless the officer knows that the arrest is unauthorized; or

	Charlotte-Mecklenburg Police Department		600-019
	<i>Interactive Directives Guide</i>	Response to Resistance	
	<i>Effective Date: 6/26/2024</i>		3 of 17

- b. Defend oneself or another person from what the officer reasonably believes to be the use or imminent use of physical force while effecting or attempting to effect an arrest or preventing or attempting to prevent an escape from custody.
2. An officer who, without provocation, taunts, verbally baits, or initiates needless or unnecessary physical contact with a person and is compelled to use a control option immediately afterward may not rely on paragraph IV. A. 1. of this directive as justification for their acts in an administrative review of the use of control option.
3. An officer will use control options only when reasonably necessary. In deciding to use a control option, officers must decide what degree of control is appropriate based on the facts and circumstances they are confronted with. To determine what degree of control is appropriate, the officer must reasonably believe that a lower degree of control is not sufficient and a higher degree of control is not reasonably necessary. As some interactions with citizens requiring officers to use control may be tense, uncertain, and rapidly evolving, an officer may increase or decrease the degree of control utilized based on the circumstances confronting the officer, such as, but not limited to:
 - a. The officer's and/or person's physical size or strength.
 - b. The physical impairment of the officer and/or person, such as injury, incapacitation, or fatigue.
 - c. The availability of a weapon by the person.
 - d. The alcohol or drug use of the person.
 - e. The person's mental/developmental condition.
 - f. The number of officers and/or persons present.
 - g. Previous knowledge of the person.
 - h. Apparent skill level of the officer and/or person.
 - i. Whether the person poses an imminent threat to the public.
 - j. Whether the person poses an imminent threat to the officer.
 - k. Whether the person poses an imminent threat to themselves.
 - l. Whether the person is actively attempting to flee or escape lawful custody.
 - m. The length of time a person passively or actively resists an officer's legitimate efforts to control the person.
 - n. The time that the officer had to react to a real or imminent threat.

	Charlotte-Mecklenburg Police Department		600-019
	<i>Interactive Directives Guide</i>	Response to Resistance	
	<i>Effective Date: 6/26/2024</i>		4 of 17

- o. Potential escape of the person.
- p. Potential destruction of evidence.
- q. Environmental conditions.
- r. Other facts and circumstances confronting the officer that are unique to the incident.

B. De-Escalation, Verbal Warning, Dialogue, and Commands

- 1. Where time, distance, communication, and circumstance permit, and considering the safety of officers and the public, officers shall attempt to de-escalate situations through verbal dialogue and other de-escalation techniques. The goal of de-escalation techniques is to slow down or stabilize the situation so that additional time and resources can be used to resolve the situation with a minimal amount of control when possible.
- 2. If reasonable, an officer will identify themselves as a police officer and issue a verbal warning before using any control methods. A verbal warning, dialogue, or commands are not required in a split-second situation or if the officer reasonably believes that it would jeopardize the safety of the officer or another person.

C. Soft Empty Hand Control

Soft empty hand control techniques are not impact-oriented and include:

- 1. Grabbing onto a person
- 2. Applying pressure points
- 3. Handcuffing a person to maintain control
- 4. Applying a joint lock to control a person's movement
- 5. Armbar takedown
- 6. Leg sweeps
- 7. Team takedowns

D. Oleoresin Capsicum (OC Spray)

- 1. OC spray may be used when the officer is confronted with defensive resistance and:
 - a. The use is a reasonably necessary step in control methods to effect the arrest, to secure an arrestee, or to provide for the safety of the officer or others; and
 - b. Physical restraint of a person is not reasonable to bring the person under control without the risk of injury to the person or the officer.

	Charlotte-Mecklenburg Police Department		600-019
	Interactive Directives Guide	Response to Resistance	
		Effective Date: 6/26/2024	5 of 17

2. OC spray shall be utilized at a range of three (3) to eight (8) feet and will be accompanied by loud verbal commands.
3. OC spray may be used to discourage an attack by an animal.
4. Officers are required to demonstrate proficiency in the deployment of OC spray in a training environment on a biennial basis.
5. OC spray or any other physical control methods will not be immediately deployed where a person or group of persons are participating in a passive, non-violent protest unless there is an imminent threat to the officer or another person's safety.

E. Hard Empty Hand Control

1. Hard empty hand control techniques are impact-oriented and include:
 - a. Knee strikes
 - b. Elbow strikes
 - c. Punches
 - d. Kicks
2. Control strikes are used to gain compliance from the person and include strikes to pressure points such as the common peroneal nerve (side of the leg), radial nerve (top of the forearm), or brachial plexus origin (side of the neck).
3. Defensive strikes are used to protect the officer from attack and may include strikes to other areas of the body, including the abdomen or head.

F. Conducted Electrical Weapon

Deploying a CEW is a serious control option. A CEW will be deployed only in response to a situation where a reasonable officer would perceive some imminent danger that could be mitigated by using a CEW. The primary purpose of the CEW is to save human lives and prevent injuries. The CEW is authorized to be utilized as an alternative to employing deadly control in situations where time and circumstance permit.

The CEW should be used to gain control of individuals displaying imminent and active aggression or as a reasonable progression of control. The CEW shall not be used on a person who is merely displaying passively resistant.

1. Procedures
 - a. Only officers who have successfully completed CMPD's TASER™ Operator training are authorized to carry and use a CEW.

	Charlotte-Mecklenburg Police Department		600-019
	Interactive Directives Guide	Response to Resistance	
		Effective Date: 6/26/2024	6 of 17

- b. All officers authorized to carry and use the CEW are required to demonstrate proficiency and complete recertification training on an annual basis.
- c. When equipped with the CEW, officers will only wear the CEW holster on the non-gun side. Wearing the CEW on the gun side is strictly prohibited.
- d. Uniformed personnel who are issued a CEW are also required to carry all their issued equipment when on-duty or working a secondary employment assignment.
- e. Officers will not make any adjustments to their CEW device settings.
- f. Each officer is responsible for the condition of their CEW and will thoroughly inspect the device before taking it into the field. Officers will maintain and inspect their assigned CEW in accordance with Directive 600-019A, Management of Conducted Electrical Weapons.

2. Use of Conducted Electrical Weapons

- a. Examples of situations when the CEW may be used:
 - (1). When dealing with a person with a mental illness who is actively aggressive (refer to Directive 500-003, Response to a Mental Health Crisis).
 - (2). When confronted by a person armed with a knife, bottle, or object other than a firearm, and the person poses an imminent threat to officers or citizens.
 - (3). When attempting to control a violent person who may be under the influence of drugs and/or alcohol and is exhibiting aggressive behavior or a person whose aggressive behavior indicates that other methods of control may reasonably result in injury to the person or officers. Officers should be aware that there is a higher risk of sudden death in persons under the influence of drugs or exhibiting symptoms associated with excited delirium (Refer to Directive 500-003, Response to a Mental Health Crisis).
 - (4). When a person resists arrest, the person has the apparent ability to retrieve a weapon, and the officer reasonably believes the person has access to a weapon.
 - (5). When confronted with a person expressing the intent to and who has the immediate and reasonable means to commit suicide.
- b. When reasonable, officers will verbally warn the suspect before discharging the CEW. A warning Arc display may be used in conjunction with verbal warnings in an attempt to de-escalate the situation.

	Charlotte-Mecklenburg Police Department		600-019
	<i>Interactive Directives Guide</i>	Response to Resistance	
	Effective Date: 6/26/2024		7 of 17

- c. The initial use of the CEW will be for one (1) full five (5) second cycle, and then the officer will evaluate the need to apply a second five (5) second cycle. Each subsequent five (5) second cycle requires additional justification to deploy the CEW. Once the person has been exposed to three (3) cycles, the CEW may be deemed ineffective, and another control method should be considered.
 - d. The intentional use of two (2) or more CEWs simultaneously on the same person is strictly prohibited.
 - e. The CEW “drive stun” mode should be used primarily to supplement the probe mode to complete the conductive circuit. The “drive stun” requires the same level of justification as a probe deployment.
3. The CEW shall not be used:
 - a. Against more than one (1) person unless exigent circumstances arise that deem this a necessity, such as the simultaneous imminent threat of multiple actively aggressive persons. For example, the CEW will not be used on a second person after the CEW has been deployed and the first person is complying with the probes still intact.
 - b. When the officer cannot, for safety or other reasons, approach the person within the effective range of the CEW.
 - c. In the proximity of flammable liquids, gases, or any other highly combustible materials that may be ignited by the device, including any individual who may have been exposed to combustible substances or liquids such as gasoline.
 - d. In situations where deadly force is the most reasonably necessary option unless another officer is in position to use deadly force against the person.
 - e. On handcuffed persons unless doing so is necessary to prevent the person from causing great bodily harm to themselves or others.
 - f. Solely to prevent the escape of a suspect of a non-violent offense who is otherwise not displaying active aggression towards the officer or others.
4. In less-lethal control situations, officers shall not use a CEW under the following circumstances:
 - a. On a person who does not pose an imminent threat of physical harm to themselves, the public, or officers, unless as a progression of control to detain an individual who physically resists being handcuffed.
 - b. On a person who is mentally ill, has not committed a crime, and does not pose an imminent threat of physical harm to themselves, the public, or officers.

	Charlotte-Mecklenburg Police Department		600-019
	Interactive Directives Guide	Response to Resistance	
		Effective Date: 6/26/2024	8 of 17

- c. On a person in control of a vehicle (e.g., automobiles, trucks, motorcycles, ATVs, scooters) while that vehicle is moving or in gear unless no other option is available to prevent injury to the officer or others.
 - d. On a person who is complying with an officer's commands.
 - e. During a demonstration or other lawful protest where the person is only engaged in passive resistance.
 - f. When it is reasonable to believe that incapacitation of the person may result in great bodily harm or death (e.g., where the person's fall may result in death or great bodily harm).
5. In less-lethal control situations, officers will not intentionally target the head, neck, upper chest area, or genitalia of the person with a CEW.
6. In less-lethal control situations, officers should be cognizant if the person is visibly pregnant, elderly, otherwise infirm, or of very young age and consider other less-lethal control options before deploying a CEW.
7. In less-lethal control situations, officers should be cognizant of the risk of positional asphyxia and use restraint techniques that do not impair the breathing of an in-custody person after the application of the CEW.
8. Medical Considerations:
- Employees should be aware that there is a higher risk of sudden death in persons under the influence of drugs and/or exhibiting symptoms associated with excited delirium.
- In accordance with Directive 500-003, Response to a Mental Health Crisis, MEDIC and first responders will be requested as soon as practical once it has been concluded that the person may be at risk for positional asphyxia, restraint asphyxia, or excited delirium. For the purpose of this policy, the term first responders refers to medically trained personnel associated with the Charlotte Fire Department (CFD) and Mecklenburg County fire departments, including volunteer fire departments.
- a. Whenever possible, when officers respond to calls for service in which they anticipate the deployment of a CEW against a person who may be at risk for positional asphyxia, restraint asphyxia, or excited delirium, the officer shall, as soon as practical, notify an on-duty supervisor and request MEDIC and first responders if they were not initially dispatched. The officer shall designate a nearby safe location for MEDIC and first responders to stage until the scene is secure.
 - b. MEDIC and first responders shall be requested for anyone subjected to the electrical discharge, including drive stun exposures. Officers will closely monitor the person until MEDIC or first responders arrive.

	Effective Date: 6/26/2024		9 of 17

- c. MEDIC or first responders will complete the on-scene probe removal and a medical evaluation on all persons exposed to the CEW. MEDIC or first responders will evaluate the person and determine whether the person will be transported to the hospital. MEDIC and first responder determining factors for transporting a person to the hospital may include, but are not limited to:
 - (1). A person exposed to multiple CEW cycles exceeding fifteen (15) seconds.
 - (2). A probe embedded in the neck, female breast, or male/female genitalia.
 - (3). A broken probe.
 - (4). A person who is uncooperative with the field removal of an embedded probe.
- d. If MEDIC or first responders clear the person, the officer may then transport the person directly to the intake center. Officers will request MEDIC transport any person exposed to multiple CEW cycles exceeding fifteen (15) seconds to the hospital for further examination and clearance before transporting the person to Intake.
- e. CEW probes that penetrate the skin will only be removed by MEDIC, first responders, or hospital medical personnel and will be treated as biohazard materials.
- f. The Internal Affairs Division is responsible for administrative investigations of CEW applications when:
 - (1). The application exceeds fifteen (15) seconds.
 - (2). The CEW is applied outside of policy and/or training.
 - (3). The person is in an at-risk category (i.e., young children, elderly, pregnant).

G. Less-lethal Options

- 1. Officers with specialized training who are authorized and trained in the use of specialized equipment may use that issued equipment pursuant to a standard operating procedure approved by the Chief of Police or designee.
- 2. The use of less-lethal options is not considered deadly force.
- 3. Approved less-lethal equipment currently includes, but is not limited to:
 - a. Bean Bag rounds
 - b. Chemical irritants

- c. Rubber pellets
- d. Conducted Electrical Weapons (CEW)
- e. Canine
- f. 40mm Impact Munitions

H. Impact Weapons

- 1. Impact weapons may be used only when an officer is confronted with active aggression that is occurring or is imminent against themselves or another person.
- 2. An officer's use of a flashlight, baton, or similar object as a club to strike a blow to the muscle groups of a person's arms or legs will be considered the use of less-lethal control.
- 3. A flashlight, baton, or similar object used as a club to strike a blow to a person's head/neck is prohibited except when deadly force is reasonably necessary.
- 4. Officers are required to demonstrate proficiency in the use of impact weapons in a training environment on a biennial basis.

I. Officers will not use the following tactics unless deadly force is reasonably necessary:

- 1. Any hold with or without a device that restricts a person's airway (i.e., chokeholds, sleeper holds, etc.).
- 2. Any hold with or without a device that restricts blood flow to a person's brain (i.e., chokeholds, sleeper holds, etc.).
- 3. Any strike with an impact weapon or object to a person's head or neck.
- 4. Any other tactic that is reasonably likely to result in death or great bodily harm unless deadly force was reasonably necessary.

J. Officers will not taunt, verbally bait, or initiate needless/unnecessary physical contact with a person.

V. PROCEDURES FOLLOWING THE USE OF LESS-LETHAL CONTROL

A. Medical Treatment

An officer will summon appropriate medical aid when the person requests or, in the officer's opinion, requires medical assistance. If the officer is in doubt about the necessity of medical treatment, the officer will contact a supervisor. In the event a supervisor is contacted, the supervisor will observe the person prior to deciding whether to obtain medical aid.

	Charlotte-Mecklenburg Police Department		600-019
	Interactive Directives Guide	Response to Resistance	
		Effective Date: 6/26/2024	11 of 17

After requesting the appropriate medical aid, the officer will take appropriate measures to protect the integrity of the crime scene and render medical aid that the officer is trained and certified to provide. Those actions may include:

1. Secure the scene to protect the person from any further injury.
2. Apply any first aid they are trained and certified to apply.
3. Provide increased observation of the person to detect obvious changes in condition.

B. Documentation

1. Officers who use a control method on a person will contact their supervisor immediately.
2. The officer's supervisor must be notified when a control method is used and must thoroughly investigate and determine when an IACMS supervisor's investigative report is required.
3. If an IACMS supervisor's investigative report is required, the supervisor is responsible for investigating the incident and completing the report.
4. Upon completion of the investigation, the supervisor will utilize the transfer function in the IACMS supervisor investigative report to route the investigation to the next higher level in the chain of command for review and disposition.
5. There are additional requirements for supervisor investigative reports involving CEW discharges. Supervisors shall:
 - a. Photograph the impact points before and after removal (if possible).
 - b. Photograph the discharged cartridge, showing the wires and all probes.
 - c. Include a TASER™ Data Download report covering the previous 24 hours.
 - d. Complete the CEW addendum in IACMS.
 - e. TASER™ cartridges may be disposed of properly after being photographed unless serious injury or death occurs.
6. Secondary employment officers involved in situations where control is used are subject to the same procedures as on-duty officers. When a secondary employment officer is involved in a situation where control is used, the officer will notify a police supervisor immediately. If the job or location has a secondary employment supervisor assigned, that supervisor will complete the investigation and forward it to the officer's chain of command. If no secondary employment supervisor is assigned, an on-duty supervisor from the division where the job is located should be contacted. Additionally, on-duty supervisors shall assist secondary employment supervisors with investigations as needed.

	Charlotte-Mecklenburg Police Department		600-019
	Interactive Directives Guide		Response to Resistance
	Effective Date: 6/26/2024		12 of 17

7. CMPD has attempted to identify all situations where an IACMS supervisor investigative report investigation should be completed. An investigation is required in a situation that clearly involves the use of a less-lethal or lethal control method except for de-escalation, verbal warning, dialogue, commands, or soft empty hands. The following are examples of situations where the completion of an IACMS investigation is required:
 - a. An officer exercising police authority uses a control method that causes any visible or apparent physical injury or results in the person stating that an injury was received.
 - b. An officer exercising police authority uses any object, including a baton, flashlight, hand, fist, or foot, to strike a blow to a person.
 - c. An officer exercising police authority uses a control method that in any way causes a person to suffer a blow to the head.
 - d. An officer uses OC spray on a person.
 - e. An officer uses a CEW on a person.
 - f. An officer uses a less-lethal option to affect the arrest or to control a person.
 - g. The Civil Emergency Unit (CEU) or other specialized unit uses the less-lethal option(s) to disperse rioters, mobs, crowds, or barricaded persons. In this situation, the commander of that unit will complete one supervisor's investigative report.
 - h. A police canine bite.
 - i. An officer exercises police authority on a person, resulting in the person losing consciousness.
 - j. There is evidence that just prior to the application of a less-lethal control method, an officer taunted, verbally baited, or initiated needless/unnecessary physical contact with the person.

8. An IACMS investigation is also required when no apparent control method was used, but a person has sustained visible injuries or caused property damage while fleeing from police or in custody. These injuries are categorized as Non-Force Subject Injury (NFSI) investigations in the IACMS. Examples include:
 - a. A person flees from arrest and injures themselves.
 - b. A person injures themselves in any manner while handcuffed or in police custody.

	Charlotte-Mecklenburg Police Department		600-019
	<i>Interactive Directives Guide</i>	Response to Resistance	
	Effective Date: 6/26/2024		13 of 17

- c. A person in a vehicle flees from police contact (not a vehicle pursuit) and is involved in a crash. (In these cases, supervisors should include AVL of police vehicles involved to demonstrate a vehicle pursuit did not occur).

C. Witness of Use of a Control Method by an Employee

Any employee who witnesses or has knowledge of the use of a control method that is required to be reported will notify a supervisor immediately and complete an Investigative Witness Statement.

D. Notification

- 1. The investigating supervisor will notify the division commander and/or Operations Command as soon as possible whenever a CMPD employee has inflicted serious injuries on a person.
- 2. If the control method used causes the affected individual to require hospitalization, Operations Command or the division commander will notify the commander of the Internal Affairs Division immediately, regardless of the hour of the day.

- E. The existence of one (1) or more IACMS supervisor investigative reports documenting the use of a control method by an individual employee, by itself, cannot be the basis for discipline against that employee.

VI. PROCEDURES FOR THE USE OF DEADLY FORCE

A. An officer may use deadly force only as follows:

- 1. When it appears to be reasonably necessary to defend themselves or another person from what the officer reasonably believes to be the use or imminent use of deadly physical force; or
- 2. To effect an arrest or prevent the escape from custody of a person who, the officer reasonably believes, is attempting to escape by means of a deadly weapon; or
- 3. To effect an arrest or prevent the escape from custody of a person who, by conduct or any other means, indicates that the person presents an imminent threat of death or great bodily harm to others unless apprehended without delay.

- B. Where time, distance, communication, and circumstance permit, and considering the safety of officers and the public, officers shall attempt to de-escalate situations. An officer shall resort to the use of deadly force only if the officer reasonably believes that a lower degree of control is not sufficient, practical, or feasible when the officer reasonably believes that it is necessary to defend themselves or another person from the use or imminent use of deadly physical force.

- C. If reasonable, an officer will identify themselves as a police officer and issue a verbal warning before using deadly force. A verbal warning is not required in a split-second

	Charlotte-Mecklenburg Police Department		600-019
	<i>Interactive Directives Guide</i>	Response to Resistance	
	<i>Effective Date: 6/26/2024</i>		14 of 17

situation or if the officer reasonably believes that issuing the warning would place the safety of the officer or another person in jeopardy.

- D. An officer will not discharge a firearm under the following circumstances:
1. As a means of warning or frightening a person.
 2. In connection to an investigation or arrest for a misdemeanor offense, and there is no imminent threat of death or great bodily harm to the officer or another person.
 3. To stop or detain an individual based on reasonable suspicion that the individual is involved in criminal activity when there is no imminent threat of death or great bodily harm to the officer or another person.
 4. To protect or prevent damage to real or personal property.
 5. When based on the totality of the circumstances, discharging a firearm would constitute a greater risk to innocent human life than the person's actions. For example, discharging a firearm into a crowd or shooting into a building or through a wall, where the person is not clearly identified, and it is unknown if other occupants are present.
- E. Vehicles
1. When confronted with an occupied and/or moving vehicle, officers will not position themselves in the vehicle's path, including the front and rear of the vehicle. Officers will take all reasonable steps to move out of the way of a vehicle's path and not block a vehicle's path using their bodies and/or firearms.
 2. The moving vehicle itself shall not presumptively constitute a threat that justifies an officer's use of deadly force. When possible, an officer threatened by an oncoming vehicle shall move out of its path instead of discharging a firearm at it or any of its occupants.
 3. An officer will not discharge a firearm at a moving vehicle for the sole purpose of disabling the vehicle except pursuant to the written protocol adopted by SWAT and approved by the Chief of Police or designee.
 4. An officer may discharge a firearm at or from a moving vehicle if the officer reasonably believes that no other option is reasonably available if:
 - a. Deadly force is being used against the officer or another person by an occupant of the vehicle by use of a weapon other than the vehicle itself.
 - b. The vehicle is being used as a weapon against the officer or another person or group, such as in an act of terrorism.

	Charlotte-Mecklenburg Police Department		600-019
	Interactive Directives Guide	Response to Resistance	
		Effective Date: 6/26/2024	15 of 17

Discharging a firearm is never authorized when it is reasonable to believe that the vehicle may contain an innocent passenger or it is reasonably apparent that the vehicle may careen out of control and injure an innocent bystander.

F. Pointing a Firearm at an Individual

An officer may point a firearm at another person if the officer reasonably believes that deadly force may become necessary. An officer need not wait until the threat becomes imminent before pointing a firearm at a person. However, the officer must be able to articulate why it is believed that deadly force may become necessary. Nothing in this section is intended to take away from an officer the ability to defend themselves or another person from great bodily harm or death.

VII. PROCEDURES FOLLOWING THE USE OF DEADLY CONTROL

A. Medical Aid

If deadly force is used against a person, and the person is injured or requests medical aid, the officer will immediately request medical assistance.

After requesting the appropriate medical aid, the officer will take appropriate measures to protect the integrity of the crime scene and render medical aid the officer is trained and certified to provide. Those actions may include:

1. Secure the scene to protect the person from any further injury.
2. Apply any first aid they are trained and certified to apply.
3. Provide increased observation of the person to detect obvious changes in condition.

B. Duty to Intervene and Report Excessive Use of Force

In adherence with [N.C.G.S. § 15A-401](#), an officer who observes another officer use force against another person that the observing officer reasonably believes exceeds the amount of force authorized by subsection (d) of the general statute and who possesses a reasonable opportunity to intervene shall, if it is safe to do so, attempt to intervene to prevent the use of excessive force.

Additionally, the observing officer shall, within a reasonable period of time not to exceed seventy-two (72) hours thereafter, report what the officer reasonably believes to be an unauthorized use of force to a supervisor, even if the observing officer did not have a reasonable opportunity to intervene. If the supervisor of the observing officer was involved or present during what the observing officer reasonably believes to be an unauthorized use of force, the observing officer shall make the report to the next ranking supervisor who was not involved in or present during the use of force.

	Charlotte-Mecklenburg Police Department		600-019
	Interactive Directives Guide	Response to Resistance	
	Effective Date: 6/26/2024		16 of 17

C. Internal Affairs Division

The Internal Affairs Division conducts an administrative investigation whenever an officer uses deadly force.

The Internal Affairs Division will provide an annual analysis report of CMPD use of force activities, policies, and practices.

D. Human Resources Division

The Human Resources Division will ensure that officers involved in an officer-involved critical incident are scheduled for a mandatory post-critical incident check-up with the CMPD behavioral health specialist, in accordance with Directive 300-020, Police Critical Incident Stress and the Employee Wellness Clinical Team SOP.

E. Immediate Supervisor

If an officer uses deadly force, the officer's immediate supervisor will ensure that a support supervisor is dispatched to the scene. The support supervisor will comply with the responsibilities outlined in Directive 300-020, Police Critical Incident Stress.

F. Support Supervisor

The support supervisor will ensure compliance with Directive 300-020, Police Critical Incident Stress.

G. Administrative Leave

1. If the use of a control method by an officer results in the serious injury or death of a person, the officer will be removed from line duties pending the results of criminal or internal investigations.
2. The Chief of Police or designee may grant an officer three (3) days of administrative leave with pay or longer.
3. An officer placed on administrative leave will remain available for call back.
4. The work status of an officer on administrative leave will be reviewed by the officer's chain of command within ten (10) days following the incident.

H. Negligent Discharge of Firearm

1. Any officer who negligently discharges a firearm will immediately contact the officer's on-duty supervisor.
2. The supervisor will notify the responsible chain of command and the Internal Affairs Division and initiate an IACMS investigation.
3. All negligent discharges will be reviewed by a Shooting Review Board convened by the Internal Affairs Division.

I. Euthanasia of Animals/Wildlife

1. Officers are authorized, with the approval of the officer's on-duty supervisor, to euthanize a seriously injured animal if delay would cause needless suffering.
2. Prior to authorizing an officer to euthanize an animal, supervisors will determine if an Animal Care and Control officer is available nearby and defer to that unit if it can respond in a timely manner.
3. Supervisors will document the euthanasia of any animal in IACMS and route the investigation through the responsible chain of command.

The previous version of Directive 600-019 Response to Resistance was published on 08/30/2023.

	Charlotte-Mecklenburg Police Department		600-019-A
	Interactive Directives Guide	Management of Conducted Electrical Weapons	
		Effective Date: 6/8/2022	1 of 3

I. PURPOSE

The purpose of this directive is to provide direction to Charlotte-Mecklenburg Police Department (CMPD) sworn employees regarding the maintenance and management of the department-issued Conducted Electrical Weapon (CEW).

II. POLICY

The TASER™ is a complex electronic device that requires routine preventative maintenance to ensure proper functionality and accurate device data. This policy will provide guidance to CMPD employees regarding the management of devices and the preventative maintenance required to keep the devices in working order.

III. PROCEDURES

A. Equipment Management

1. TASER™ repair will only be handled by CMPD sworn employees who are technician certified by TASER™ International and approved by the CMPD Training Academy. Firing logs and maintenance records will be maintained in Evidence.com.
2. Corrective actions to include disciplinary actions will be initiated when an employee's use or managing of a TASER™ is found to be in violation of policy as outlined in Directive 600-019 Response to Resistance.

B. Daily Spark Test and Preventative Maintenance

1. Employees issued a TASER™ device will perform a daily five (5) second spark test at the beginning of each shift. The TASER™ 7 spark test will be conducted in the following manner:
 - a. Conduct the spark test without unloading the TASER™ 7 CEW.
 - b. Point the CEW in a safe direction.
 - c. With the safety switch in the down (safe) position, press and release both Arc switches simultaneously, keeping fingers away from the front of the CEW. This action will place the CEW in Function Test mode. The Central Information Display (CID) will display the current firmware on the CEW and the battery percentage.
 - d. Place the safety switch in the up (armed) position. The colors on the CID will become inverted. Loaded cartridges and battery icons are black, and the background is yellow.
 - e. The spark test is done by pressing the Arc switch. Do not pull the trigger to conduct the spark test. Pulling the trigger will deploy a loaded cartridge.
 - f. Press and release either the right or left side Arc switch.

	Charlotte-Mecklenburg Police Department		600-019-A
	Interactive Directives Guide	Management of Conducted Electrical Weapons	
		Effective Date: 6/8/2022	2 of 3

- g. Observe and hear the outside edge of both cartridge bays arcing. The cycle should automatically stop at five (5) seconds.
 - h. After completing the spark test, the employee will check the CID to look for any fault icons. If a battery, cartridge, or weapon fault is detected during the spark test, an X will be displayed on the CID. Contact a division TASER™ technician or CMPD Logistics staff member for assistance with any faults.
 - i. To exit the Function Test mode, place the safety switch in the down (safe) position.
 2. Employees issued a TASER™ device will conduct a daily visual inspection of the device. Any damages or inoperable conditions will be reported to their supervisor.
 3. Preventative maintenance will be conducted quarterly by certified technicians.
 4. The trigger will be tested during the quarterly maintenance by certified technicians.
 5. Employees who are issued a TASER™ are expected to keep the device clean, removing dirt and debris that may accumulate on the TASER™ and in the holster.
 6. The correct cartridge load-out for the TASER™ 7 will be:
 - a. Close Quarters (CQ) cartridge (marked 12° with black front and cartridge body) in cartridge bay 1. The effective range of the CQ cartridge is 4-12’.
 - b. Stand Off (SO) cartridge (marked 3.5° with black front and gray cartridge body) in cartridge bay 2. The effective range for the SO cartridge is 11.5-22’.
 7. If a TASER™ is exposed to a significant amount of moisture (for example, directing traffic in heavy rain for an extended period of time), a division TASER™ technician should be notified to complete an inspection of the CEW. If a TASER™ has been completely submerged (for example, the CEW is underwater in a pool, creek, lake, etc.), leave the TASER™ in the holster, remove the battery as soon as possible and bring it to a division TASER™ technician. The CEW will be taken out of service and returned to TASER™ for a replacement.
- C. TASER™ technicians in each division will maintain a supply of batteries, cartridges, holsters, and spare TASER™ devices.
 1. Damaged cartridges can be exchanged within the division by a TASER™ technician.
 2. Discharged cartridges can only be exchanged for new cartridges by a supervisor.

	Charlotte-Mecklenburg Police Department		600-019-A
	Interactive Directives Guide	Management of Conducted Electrical Weapons	
		Effective Date: 6/8/2022	3 of 3

- a) If a cartridge was discharged as a result of a response to resistance, the supervisor will initiate a use of force investigative packet in the IACMS.
 - b) Supervisors will require a memorandum from any employee who has an accidental discharge of a TASER™ device. The supervisor will determine if any further investigation should be initiated. Accidentally discharged cartridges should be handled as described in Section C.1 - 2 above.
3. Batteries below 25% should be placed in the TASER™ 7 battery docking station to recharge. Employees should also dock the battery every 25-30 days and retrieve a fully charged battery from the docking station. Uploading the TASER™ firing log, downloading firmware updates, reconditioning, and fully recharging the battery takes approximately 5-8 hours. If a battery fault is detected in the dock or the TASER™ 7, a division TASER™ technician should be notified. Batteries will not be removed from the docking station until the LED status light located on the docking station is green.
 4. Only approved CMPD issued batteries will be used in the TASER™ device.
 5. If the device is malfunctioning, the employee will bring the TASER™ to a division TASER™ technician for evaluation or replacement.
 6. Broken or damaged holsters or belt clips will be repaired or replaced by a division TASER™ technician.
 7. In the event that a division TASER™ technician is not available, employees can seek assistance from the Logistical Operations Unit Monday – Friday 0700-1600.

	Charlotte-Mecklenburg Police Department		600-019-B
	<i>Interactive Directives Guide</i>		De-Escalation
			<i>Effective Date: 12/4/2024</i>

I. PURPOSE

This policy establishes guidelines for Charlotte-Mecklenburg Police Department (CMPD) employees' effective use of de-escalation techniques.

II. POLICY

When safe to do so based on the totality of the circumstances and when time, distance, and communication permit, CMPD officers will use de-escalation techniques to reduce resistance and obtain voluntary compliance. CMPD employees receive training on effective de-escalation techniques through scenario-based exercises, classroom instruction, and/or virtual training.

III. DEFINITIONS

- A. **Active Listening:** An intentional communication technique that promotes mutual understanding and effective communication, requires the listener to be keenly sensitive to the speaker's feelings, needs, and underlying messages and provides the listener with the information needed to respond appropriately.
- B. **Communication:** The continual process of sending and receiving information between two or more people that can include spoken words, body language, active listening, and written text.
- C. **De-escalation:** Tactics, techniques, actions, and verbal/non-verbal communication exercised by officers during a potential use of control encounter to reduce the imminence of a physical threat to officers or others. These tactics should be used when time, distance, communication, available resources, and circumstances permit.

IV. PROCEDURE

A. Principles of De-Escalation

Employee actions during encounters should be focused on stabilizing the encounter whereas more time, options, and resources may be engaged to resolve the situation.

1. Effective communication should be the first option in de-escalation and maintained throughout any encounter.
2. Employees should use distance and cover to slow down encounters and create more time for communication.
3. Employees should continuously re-evaluate the situation, making changes and responding as reasonably necessary.
4. Employees are prohibited from unnecessarily instigating situations (e.g., taunting, verbally baiting, initiating needless/unnecessary physical contact with a person, etc.).
5. Employees should avoid barriers to effective communication (e.g., distractions, bias, profanity, ambiguity, oversimplification, interruptions, etc.).

	Charlotte-Mecklenburg Police Department		600-019-B
	<i>Interactive Directives Guide</i>		De-Escalation
			<i>Effective Date: 12/4/2024</i>

B. De-Escalation Techniques

1. Verbal communication

Employees will communicate using clear and respectful language, managing their voice's volume, inflection, and cadence, and avoid using or reacting negatively to inflammatory statements.

2. Non-verbal communication

- a. Ensure a unified and calm approach.
- b. Use non-threatening body language, including hand gestures and an open posture.
- c. Evaluate space needs and avoid overcrowding a person.
- d. Slow down the pace of the encounter when it is feasible to allow a person time to process information and respond to the request.
- e. Make eye contact when culturally appropriate and manage facial expressions.

3. Active listening

- a. Use non-verbal communication to demonstrate engagement (e.g., having an open posture, making eye contact, and using appropriate facial expressions).
- b. Paraphrase to clarify content and build rapport.
- c. Mirror and ask open-ended questions to provide feedback and gain additional information.
- e. Acknowledge the emotions being communicated and demonstrate empathy.
- f. Summarize and reframe what was communicated to confirm understanding and focus the interaction on problem-solving.

C. E-LEAP Model

The E-LEAP model provides a framework for verbally de-escalating a person in crisis and encouraging collaboration with officers. The steps for E-LEAP are as follows:

1. Engage: Introduce yourself and communicate that you are there to help and learn information.
2. Listen: Use active listening and embrace silence. Give the person time to process information and vent emotionally.
3. Empathize: Use paraphrasing and acknowledge the person's emotions.

 <small>CHARLOTTE-MECKLENBURG</small>	Interactive Directives Guide	De-Escalation	
		Effective Date: 12/4/2024	3 of 3

4. Agree: Avoid arguing about any perceived differences and focus on the problem and what you can agree on.
5. Partner: Empower the person to choose a mutually agreed-upon solution. Help the person identify alternatives, meet reasonable requests, and address the person's needs.

I. PURPOSE

This policy establishes guidelines for the Charlotte-Mecklenburg Police Department (CMPD) regarding criminal investigations and investigative tasks.

II. POLICY

CMPD employees will thoroughly document and investigate all reports of criminal activity. The specific CMPD unit's standard operating procedure (SOP) will be referred to in situations not addressed in this policy.

III. DEFINITIONS

- A. Case File Management: The retention and organization of all discoverable records related to a criminal investigation, including paper documents and electronic recordings.
- B. Case Status: The current stage of an investigation.
- C. Clearance Status: A data element required by the FBI National Incident-Based Reporting System (NIBRS) program that signifies the end result of an investigation. For the purposes of federal crime reporting, a case can only be cleared by "arrest" or "exceptional means"; otherwise, the case clearance status is "open" or, in rare circumstances, "unfounded."
- D. Exculpatory Evidence: Evidence that is favorable to the accused; is material to the guilt, innocence, or punishment of the accused; and/or may impact the credibility of a government witness, including a law enforcement officer or other agency employee. Impeachment material is included in the disclosure requirements for prosecutors; however not intended to be for typical investigations that may or may not be prosecuted.
- E. Follow-up Investigation: The additional investigation conducted after a preliminary investigation.
- F. Preliminary Investigation: The information collected upon the initial response to an incident.

Supervisors will have shared authority when working together in the same investigative unit. A supervisor's responsibilities include, but are not limited to:

1. Providing leadership and direction while maintaining discipline through counseling and coaching. In units with more than one supervisor, employees are accountable to one supervisor at a time.

3. Encouraging problem-solving initiatives and participating in unit problem-solving initiatives, collaboration, and case reviews.
4. Assigning cases in KBCOPS to primary investigators within the unit who will be responsible for follow-up investigations. 9. Managing special investigations as assigned by the division's chain of command.
 10. Completing administrative duties such as callback schedules, time reporting, performance reviews, supervisor investigations in the Internal Affairs Case Management System (IACMS), evidence/property disposition management in the Property and Laboratory Information Management System (PLIMS), vehicle assignments, court subpoena service, etc.
 11. Reviewing search warrants and court orders submitted by unit personnel.
 12. Reviewing and approving reports and/or documentation submitted by unit personnel.

C. Responding Officers

Responding officers will conduct a thorough preliminary investigation and perform the following duties in the manner and degree deemed appropriate:

1. Secure and manage the crime scene, evidence collection, additional resources, etc., and take appropriate action until relieved by the appropriate personnel.
2. Identify and interview victims and witnesses for basic information to document what happened and determine if a crime occurred.
3. Use the Preliminary Investigations Guide as a reference when conducting a preliminary investigation to ensure the necessary information is obtained.
4. Facilitate medical treatment for injured persons or those who complain of injury and follow up with medical staff to determine the cause and extent of the injury.
5. Update the division supervisor on incidents involving violence, injury, or threats impacting community safety.
6. Complete and submit the KBCOPS report with required supplements and attachments before the shift ends. The N.C. Crimes book should be used to ensure the correct elements are present in both the public and confidential narratives.
7. Conduct thorough preliminary investigations in compliance with the procedures outlined in this directive.

D. Preliminary Investigations

Preliminary investigation procedures include:

1. Responding to the scene.
2. Identifying, locating, and securing the crime scene.
 - a. Locating and preserving evidence until relieved by the appropriate personnel.

	Charlotte-Mecklenburg Police Department		600-021
	<i>Interactive Directives Guide</i>		Criminal Investigations
	<i>Effective Date: 6/4/2024</i>		5 of 14

 - g. For any person detained related to the crime, complete a Field Interview (FI) and document the person's identification in the KBCOPS narrative.
6. Responding officers are responsible for the completeness of the initial investigation until the case is assigned to a primary investigator. If a specific investigative unit is contacted about an incident, responding officers will defer to the direction given by the investigative unit. Notification to an investigative unit does not relieve a responding officer from the responsibility of thoroughly investigating the incident and/or taking enforcement action when appropriate.
7. Responding officers are responsible for completing KBCOPS reports prior to the end of their shift. When a report is completed, all responding officers will complete a narrative and attach discoverable case information by the end of their shift unless otherwise approved by a supervisor.
- a. The confidential narrative will be written in detail, including reporting and describing all observations, spontaneous statements, evidence collected, etc.
 - b. The accurate spelling of names and contact information for the parties involved will be obtained.

9. Completing periodic reports and special assignments as directed by the unit supervisor or chain of command.
10. Properly managing case files and discoverable records.
11. Conducting follow-up investigations.

F. Follow-up Investigations

1. Cases will be routed automatically to a specific unit in KBCOPS based on the incident classification. When appropriate, a supervisor can re-route a case to another investigative unit or patrol division. Additionally, the case may be co-assigned to a secondary unit when the investigation requires the resources and expertise of more than one unit. - e. The original documents that are part of an investigation classified as closed or inactive will adhere to Directive 800-004, Records Retention and Disposition, the individual unit's SOP, and state law.

G. Case Status and Clearance Status

Case status and clearance status refer to two (2) different measures in CMPD's record management system and will be updated throughout the investigative process, which shows a comprehensive view of a unit's and/or division's workload, the current status of a case, and where the case is in the investigatory process.

- 1. The case status is an individual agency's determination of how it will continue the investigation of a case.

Case statuses include:

- a. **Active Investigation:** The primary investigator is actively investigating a case, including witness interviews, evidence collection, report writing, or completion of reports, various leads, and follow-ups.
- b. **Inactive/Leads Exhausted/No PC:** The primary investigator has not been able to develop enough probable cause after completing the investigation, exhausting all viable leads, has no expectation of further communication from outside sources, and has no evidence awaiting processing.
- c. **Inactive/Evidence Processing:** The primary investigator is awaiting the results of evidence being processed by the Crime Lab Division. The primary investigator may be waiting for shell casings, fingerprints, DNA, or computer forensic test results but is not actively working on the case day-to-day until lab results come back, at which time the case will be changed to active investigation status.
- d. **Inactive/Awaiting External Communication:** The primary investigator is waiting to receive contact from a person outside of the CMPD to further the investigation, and there are no other active leads (e.g., waiting for a victim/witness to return a call or respond to correspondence, a store manager to deliver a video of an incident, or a district attorney to complete a review of a case).
- e. **Warrant Issued:** The primary investigator has finished the investigation, secured a warrant/criminal summons, and is awaiting service.
- f. **Pending Prosecution/DA Follow-Up:** The investigation is complete, and the suspect has been arrested and is awaiting prosecution. In preparation for court, the district attorney requests further workup from the primary investigator. This may also be used to reflect multiple suspects in an investigation.

	Charlotte-Mecklenburg Police Department		600-021
	Interactive Directives Guide		Criminal Investigations
	Effective Date: 6/4/2024		10 of 14

- g. Pending Prosecution/No Further Work: The investigation is complete, and the suspect has been arrested and is awaiting prosecution, with no further work required for court.
 - h. Closed: An investigation has been completed, the suspect has been arrested, and the court has adjudicated the case.
2. The clearance status is based on national [Uniform Crime Reporting \(UCR\) Guidelines](#) for clearing offenses.

Clearance statuses include:

- a. Cleared by Arrest

The investigation must have resulted in the arrest of at least one (1) suspect charged with the offense, issued/served a criminal summons or citation, and turned over to the court for prosecution. Cleared by arrest includes:

- (1) Cleared by arrest
- (2) Cleared by arrest by another agency

- b. Cleared by Exceptional Means

An incident may be cleared by exceptional means only if the primary investigator could legally make an arrest in the case but does not due to a reason outside of law enforcement's control that precludes arresting and prosecuting a person.

- (1) Cleared by exceptional means includes:
 - (a) Death of offender
 - (b) Cleared by other means
 - (c) Extradition declined
 - (d) Prosecution declined by DA
 - (e) Victim chose not to prosecute
- (2) For a case to be cleared by exceptional means, the officer must be able to answer "yes" to the following four (4) questions and clearly document these details in their KBCOPS report.
 - (a) Has the investigation definitively established the identity of the offender?
 - (b) Is there enough information to support an arrest, charge, and turning over to the court for prosecution?

	Charlotte-Mecklenburg Police Department		600-021
	Interactive Directives Guide		Criminal Investigations
	Effective Date: 6/4/2024		11 of 14

- (c) Is the exact location of the offender known so that the person could be taken into custody now?
 - (d) Is there some reason outside law enforcement's control that precludes arresting, charging, and prosecuting the offender?
- (3) Reasons outside of law enforcement's control may include:
- (a) Suicide of the offender (death of offender).
 - (b) Double murder (death of offender).
 - (c) Deathbed confession (death of offender).
 - (d) Offender killed by law enforcement or a citizen (death of offender).
 - (e) A warrant is outstanding, but before being arrested, the offender dies (death of offender).
 - (f) Confession by an offender already in law enforcement custody or serving a sentence (extradition declined or cleared by other means).
 - (g) The offender is prosecuted by state or local authorities in another jurisdiction for a different offense or is prosecuted in another city or state by the federal government for an offense that may be the same (law enforcement makes an attempt to return the offender for prosecution, but the other jurisdiction will not allow the release) (extradition declined).
 - (h) The victim refuses to cooperate in the prosecution. This action alone does not unfound/clear the offense. The answer must also be "yes" to questions 1-3 in the section above (Victim chose not to prosecute).
 - (i) The offender is a juvenile between the ages of ten (10) and seventeen (17) and has successfully completed the Youth Diversion Program in adherence with Directive 200-006, Diversion Program. No juvenile arrest is completed, and no referral to juvenile court is made despite having enough evidence to charge the offender.
 - (j) A case cannot be cleared as exceptional due to a magistrate finding of no probable cause or a district attorney refusing to prosecute due to a lack of evidence.

	Charlotte-Mecklenburg Police Department		600-021
	Interactive Directives Guide		Criminal Investigations
	Effective Date: 6/4/2024		12 of 14

c. **Unfounded**

The unfounded clearance status is used if an investigation reveals a crime did not happen or the elements of the crime are not met.

- (1) An incident may only be unfounded when the primary investigator concludes that no criminal offense occurred or there were duplicate reports in KBCOPS for the same criminal incident.
- (2) If an incident is unfounded, the primary investigator must complete a detailed narrative supplement explaining the evidence for the decision.
- (3) If the incident is a duplicate, the primary investigator will reference the appropriate complaint numbers in both the unfounded case and the report it is being consolidated into. All information, narratives, attachments, etc., will be added to the consolidated report.
- (4) It is not required to reclassify an incident to unfounded solely due to a witness/victim recanting. If the investigation bears evidence that a crime of some type may have occurred, then the case should not be unfounded.
- (5) A case will be classified as unfounded if the investigation reveals the incident occurred outside of CMPD jurisdiction, and the case information should be forwarded to the appropriate jurisdiction.

H. **Internal Investigations**

The Criminal Investigations Bureau is responsible for investigating criminal cases in which the suspect is a CMPD or City of Charlotte employee.

I. PURPOSE

The purpose of this policy is to provide sworn employees with guidelines on the safe operation of police vehicles during emergency and pursuit situations and the tactics available to safely stop or slow down a pursuit. The Charlotte-Mecklenburg Police Department (CMPD) recognizes that sworn employees have a duty to apprehend persons who violate the law and have a duty to always operate a police vehicle with due regard for the safety of the public.

The CMPD is committed to promoting public safety. Sworn employees engaged in emergency driving or vehicle pursuits must continually balance the need to respond in an emergency response or to pursue against all known risks posed to the general public, the sworn employee, and in some circumstances the suspect.

II. POLICY

Sworn employees are authorized to engage in emergency driving or pursuits in accordance with the guidelines of this policy and all applicable training.

- C. Crime Dangerous to Life: An offense that resulted in death or serious bodily injury, or any act taken by the subject where the public or sworn employee is threatened with serious bodily injury or death (e.g., the subject has used or threatened to use a weapon). - X. Terminate: The language used by a supervisor (sergeant's rank or higher) or sworn employees engaged in the pursuit to clearly direct the pursuit to cease immediately.  - 1. Pursuit Interception Device or Stop Stick™: a nine-foot folding TDD designed to reduce the operating speed of target vehicles not heeding emergency equipment by causing the controlled release of air from the tire(s) of the target vehicle, thus permitting the driver to remain in control of the vehicle and bring it safely to a stop.

	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
	Effective Date: 12/8/2023		4 of 17

2. Stationary TDD: a three-foot single TDD designed for use on a stationary target vehicle by causing the controlled release of air from the tire(s) if the target vehicle moves, therefore considered a pursuit prevention technique.
- Z. Uncommitted Units: Any patrol units not actively engaged in the pursuit or authorized by a supervisor to assist.
- AA. Unmarked vehicles: Any vehicle operated by CMPD that is not marked externally but is equipped with sirens and internal front and rear blue lights.
- BB. Vehicle Apprehension: A pre-planned tactic where sworn employees who have successfully completed the vehicle apprehensions training from the CMPD Training Academy position vehicles in the path of a stationary-occupied vehicle for an arrest team to take the suspect(s) in the vehicle into custody.

IV. PROCEDURES FOR EMERGENCY AND PURSUIT DRIVING

Whenever a sworn employee is driving a police vehicle, the sworn employee will always drive with due regard for the safety of the public.

- A. Sworn employees will always have their body worn camera (if equipped) on and activated when engaged in emergency driving, a pursuit, or assisting with or responding to a vehicle pursuit. Sworn employees body worn camera should also remain on and activated when the decision is made to follow a vehicle after the pursuit has terminated. Sworn employees are required to use the factory-installed occupant safety restraining devices anytime they are operating a CMPD vehicle.
- B. Procedures for Emergency Driving
 1. Sworn employees not responding to a call for service will comply with the posted speed limit and all traffic laws. A sworn employee may initiate and continue to engage in emergency driving in the following circumstances:
 - a. In response to a Priority One (1) dispatched call for service.
 - b. In response to a self-assigned activity if the sworn employee can articulate a threat of serious bodily injury to another person.
 - c. In response to a self-assigned activity outside the sworn employee's talk group but only after obtaining specific approval from their supervisor.
 2. The responding sworn employee shall remember that the objective of emergency driving is to get to the location of occurrence as soon as possible safely and without danger to the sworn employee or others. Therefore, regardless of the situation presented to the sworn employee, the decision to operate the police vehicle in emergency response rests solely with that sworn employee. This decision shall be based upon the need for emergency driving balanced with the conditions present that may inhibit the sworn employee's ability to drive emergency response reasonably and safely.

	Charlotte-Mecklenburg Police Department		600-022
	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
	Effective Date: 12/8/2023		5 of 17

3. The supervisor will monitor the talk group during the emergency call for service. When at least three (3) units have arrived on the scene, and the emergency call is still in effect, the supervisor will evaluate, and request the Communications Division to close the talkgroup if necessary. Only the supervisor or an on-scene unit will make the determination when it is safe to open the talk group.
4. A sworn employee, while engaged in emergency driving, will do so with due regard to the safety of others. When a sworn employee exceeds the speed limit, the speed limit exemption granted by N.C.G.S. 20-145 shall not protect the sworn employee driving the police vehicle from the consequence of a reckless disregard of the safety of others. The speed of a sworn employee engaging in emergency driving must therefore be reasonable and prudent and take into consideration the following factors:
 - a. The need for the emergency response versus the risk to the public and sworn employees.
 - b. Seriousness of the call for service (severity of the offense or violation) and the sworn employee's knowledge of previous incidents.
 - c. The posted speed limit for the road(s) being traveled upon.
 - d. Pedestrian and vehicular traffic.
 - e. Proximity of the sworn employee to the actual location of the emergency call for service.
 - f. Time of day, road conditions, and environmental concerns, such as weather and visibility.
 - g. Type and condition of police vehicles involved.
 - h. Familiarity with geography.
5. A sworn employee must operate their emergency equipment, and siren when engaged in emergency driving.
6. Typing of computer messages and the use of a cell phone are prohibited during emergency driving.
7. A sworn employee must be able to articulate why emergency driving was necessary at any time. When a sworn employee exceeds the posted speed limit by twenty (20) mph during emergency driving, they must be able to articulate why such a speed is reasonable, prudent, and necessary in responding to the type of occurrence involved, given the factors present.
8. Sworn employees responding to calls for service will operate their patrol vehicles with due regard to the safety of others. When requesting the right of way in the roadway and at intersections, the sworn employees will have their emergency equipment (lights and siren) activated.

	Charlotte-Mecklenburg Police Department		600-022
	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
	Effective Date: 12/8/2023		6 of 17

9. Upon approaching a controlled intersection, even in the instance where sworn employees have a green light for their direction of travel or are confronted with traffic congestion, sworn employees will reduce the speed of the police vehicle. Police vehicles using emergency equipment will not proceed through an intersection until all traffic has yielded the right of way to the police vehicle.
10. Vehicles not equipped with both blue lights and siren will not be operated as emergency vehicles. Operators of vehicles not equipped with both blue lights and siren must always obey all traffic laws.
11. Sworn employees will always operate emergency equipment, under the following circumstances:
 - a. Anytime an emergency response requires the sworn employee to travel into opposing traffic. Sworn employees required to travel into opposing traffic will do so only for brief circumstances and in a safe and prudent manner with due regard for the safety of the public.
 - b. When attempting to catch up to another vehicle that would require the sworn employee to exceed the posted speed limit or to drive in a manner not normally permitted by law.
 - c. While attempting a u-turn in traffic for the purpose of attempting to catch up to another vehicle or to respond to any emergency call for service.
12. Upon arrival at the scene of a call, the responding sworn employee will rapidly evaluate the situation and determine whether additional units are needed, whether other units responding can cancel their emergency response or cancel their response to the call for service.

C. Procedures for Pursuits – Primary Unit

1. Pursuits are authorized only for pursuable offenses.
2. Sworn employees must always weigh the need to apprehend the suspect(s) against the danger created by the pursuit (pursuit risk). The danger created by the flight of the suspect cannot by itself constitute justification for the pursuit.
3. Only sworn employees are permitted to engage in a pursuit.
4. A sworn employee will not engage in a pursuit while transporting a prisoner or any civilian, including civilian CMPD personnel.
5. Sworn employees involved in a pursuit will operate their emergency equipment. Also, sworn employees will have their body worn camera on and activated in accordance with CMPD policy.

This includes activating BWC when a sworn employee displays a form of law enforcement authority and continues to follow behind a suspect vehicle.

	Charlotte-Mecklenburg Police Department		600-022
	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
		Effective Date: 12/8/2023	7 of 17

6. The responsibility for the decision to engage in a pursuit, rests with the individual sworn employee. Before engaging in and during a pursuit, a sworn employee will consider the following factors:
 - a. The seriousness of the crime committed by the suspect.
 - b. The danger presented to the sworn employees and citizens.
 - c. The location of the pursuit (residential neighborhood, school zones, open highway, etc.).
 - d. Pedestrian traffic in the area.
 - e. The type of terrain.
 - f. Traffic conditions.
 - g. The posted speed limit.
 - h. The weather conditions.
 - i. The ability to keep a sworn employee's vehicle under control.
 - j. The speed of a sworn employee's vehicle and that of the suspect.
 - k. Whether the condition of the law enforcement vehicle has changed during the pursuit (i.e., the police vehicle is no longer functioning in a manner allowing for safe operation).
 - l. Whether the suspect can be apprehended at a later time with little risk of more violence or danger to the public.

7. The sworn employee engaging in a pursuit must notify the telecommunicator immediately that a pursuit is underway. The sworn employee must provide the telecommunicator with the following information so that the sworn employee's supervisor will have the necessary information to evaluate the need to engage in, or terminate, the pursuit:
 - a. Call sign.
 - b. Specific reason or suspected offense for the pursuit.
 - c. Location, the direction of travel, speed, weather, and traffic conditions.
 - d. Suspect vehicle information.
 - e. Number of occupants in the vehicle and if weapons are involved.
 - f. Identity of the suspect(s) and a description, if known.

D. Secondary Units

A secondary unit is authorized to actively engage in a pursuit after notifying the

	Charlotte-Mecklenburg Police Department		600-022
	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
		Effective Date: 12/8/2023	8 of 17

telecommunicator that he or she will be engaging in the pursuit as a secondary unit.

1. At the direction of the primary unit, the secondary unit will assume responsibility for radio communications.
2. At no time will police vehicles pass each other while engaged in a pursuit unless circumstances require the vehicles to change positions, and it can be done safely. The changing of positions must be clearly communicated between the involved sworn employees, and each must acknowledge their intended actions.
3. The secondary unit will maintain a safe distance behind the primary unit but remain close enough to render backup assistance when required.
4. If the primary unit becomes disabled, the secondary unit will become the primary unit. The next authorized unit to join the pursuit will be designated as the secondary unit.

E. Uncommitted Patrol Units

Uncommitted patrol units may not engage in any pursuit that already has a primary and secondary unit unless authorized by the supervisor to become a committed unit in the pursuit. Uncommitted units that are near the pursuit may make an emergency response toward the pursuit until advised that a secondary unit is engaged in the pursuit. Once the secondary unit is in place, sworn employees must discontinue any emergency response unless approved by their supervisor.

F. Any body worn camera activated during the response will remain activated for the duration of the pursuit. Once an uncommitted unit becomes the secondary unit, all other responding units must discontinue their emergency response and turn off all emergency equipment. The secondary unit must advise Communications Division and their supervisor when this occurs.

1. Uncommitted patrol units in the area may move toward the vicinity of the pursuit while obeying all traffic laws and not using emergency equipment. Uncommitted units will not leave their assigned patrol division without the supervisor's authorization. The Events 4 channel will be patched to the primary talk group to facilitate assistance from other CMPD units and outside agencies.
2. At no time will uncommitted units engage in caravanning.
3. All other uncommitted units will remain aware of the direction and progress of the pursuit but will not actively participate.
4. Uncommitted units will make every effort to avoid crossing the path of an oncoming pursuit.
5. Canine officers may be authorized by a pursuit supervisor to utilize emergency driving to maintain relatively close proximity to the pursuit. Canine officers should not attempt to become active participants in the pursuit. However, canine officers should remain close to the pursuit to be able to assist with the deployment of

	Charlotte-Mecklenburg Police Department		600-022

canine resources to effect an arrest.

G. Tire Deflation Devices and Pursuit Interception

Sworn employees may utilize department-issued Tire Deflation Devices (TDD) to prevent a pursuit or intercept a pursuit by slowing or stopping the pursuit.

1. With the permission of the supervisor in charge of the pursuit or higher-ranking command staff personnel, sworn employees are authorized to intercept the pursuit by positioning a sworn employee with a TDD in a location to safely deploy the TDD before the pursuit arrives at the sworn employee's position. Sworn employees are authorized to use all emergency equipment to respond to that location while adhering to all emergency response policies. Sworn employees will not attempt to outrun a pursuit or pass a vehicle being pursued.
2. Supervisors will monitor and assist responding units in coordinating the deployment of the TDD.
3. A TDD must be deployed from locations that permit sworn employees to clearly observe the vehicles involved in the pursuit and other traffic as it approaches. In addition, it must be deployed from a location that allows sworn employees to maintain protective cover from moving vehicles. Sworn employees must use extreme caution to avoid crossing the path of an ongoing pursuit.
4. Only sworn employees who have received the required training may deploy a TDD. Training will be provided by a designated trainer and will include a review of the TDD training video and practice in the proper deployment of TDD's.
5. Before deploying a TDD, sworn employees will consider the following factors:
 - a. The proximity and vulnerability of the public.
 - b. The position and location of the property.
 - c. The proximity and vulnerability of sworn employees and police vehicles.
6. TDD's shall not be deployed:
 - a. Within approximately three hundred (300) feet prior to a major intersection.
 - b. On motorcycles or vehicles with two or three wheels, including all-terrain vehicles.
 - c. On streets with heavy traffic, congestion, or construction.
 - d. On or unreasonably close to a curve or slope in the roadway.
 - e. On wet or slick surfaces, gravel, or loose pavement.

	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
		Effective Date: 12/8/2023	10 of 17

f. On bridges or overpasses.

7. When sworn employees deploy a TDD, sworn employees must notify the Communications Division and their supervisor that the TDD has been deployed and the location. The Communications Division will immediately advise units involved in the pursuit where the TDD is located.
8. If the suspect continues to flee after deployment of the TDD, sworn employees may proceed with the pursuit pursuant to the guidelines set forth in this directive.
9. Sworn employees are NOT authorized to deploy TDD's at License or DWI Checkpoints unless the violation is a pursuable offense.

H. Procedures for Preventing Pursuits

1. As part of the CMPD's efforts to promote public safety in all aspects of law enforcement, sworn employees should prevent a pursuit if possible. Sworn employees anticipating a suspect will flee upon activation of emergency equipment are encouraged to utilize techniques and strategies to prevent a pursuit.
2. Sworn employees may use the following techniques and strategies to prevent a pursuit from occurring:
 - a. Tire Deflation Device (TDD): If a sworn employee has an articulable reason to believe that a stationary suspect vehicle will flee and has prior authorization from a sergeant or higher, then that sworn employee may utilize the TDD in accordance with training on a suspect vehicle that the sworn employee reasonably believes was involved in a pursuable offense. The TDD will be deployed as follows:

- 1) In between the front and rear tires of the stationary target vehicle allowing two (2) feet of travel distance in either direction or
- 2) Approximately two (2) feet ahead of the front tire or
- 3) Approximately two (2) feet behind the rear tire.
- 4) Sworn employees may deploy multiple stationary TDD's when sworn employees have reason to believe the target vehicle may flee by going forward or in reverse.

Note: A Stop Stick™ may also be used on stationary vehicles when stationary TDD's are not available.

- 5) If the suspect flees after deployment of the TDD, then sworn employees will attempt to stop the vehicle using emergency equipment. If the vehicle refuses to stop, sworn employees may engage in a pursuit pursuant to the guidelines set forth in this directive.

	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
		Effective Date: 12/8/2023	11 of 17

- b. Undercover Vehicles: To follow the vehicle, following all traffic laws until the suspect stops and can be approached on foot.
 - c. Aviation Assets: To track and follow a suspect vehicle to its destination.
 - d. Covert Vehicle Apprehension: Police vehicles surround a suspect vehicle while an arrest team performs the extraction of the wanted individual from the suspect vehicle.
 - 3. Sworn employees may not use the following techniques to prevent a pursuit from occurring:
 - a. Stationary Roadblock
 - b. PIT Maneuver
 - c. Rolling Roadblock
 - I. Unmarked vehicles
 - 1. Unmarked vehicles equipped with sirens and internal front and rear blue lights are authorized to initiate and engage in a pursuit with supervisory approval for a pursuable offense until a marked unit arrives to take the primary position. Unmarked vehicles will not engage in a pursuit unless there are no marked units available.
 - 2. An unmarked unit is not required to disengage or yield to marked units until the total number of units authorized by the pursuit supervisor has been met (e.g., four (4) units authorized, the unmarked unit can stay engaged until there are four (4) marked units in the pursuit).
 - 3. A supervisor may authorize unmarked vehicles to remain engaged in a pursuit when there are no marked units available; otherwise, the unit must terminate the pursuit. Unmarked units may attempt to follow and observe the suspect vehicle while obeying all traffic laws and turning off their emergency equipment.
 - J. Motorcycles

Motorcycles are authorized to initiate a pursuit; however, they cannot engage in an ongoing pursuit. If a motorcycle initiates a pursuit, the motorcycle will only pursue until a marked car arrives to take the primary position or the prevailing conditions dictate otherwise. The motorcycle cannot remain as the secondary unit unless the primary pursuing unit is another motorcycle. When a marked car is engaged in the pursuit, the motorcycle will disengage unless otherwise instructed by the supervisor. Dual Sport motorcycles are not authorized to engage in pursuits.
 - K. Helicopter Units

Once the helicopter has visual contact with the pursuit, the helicopter may assume the responsibility as the primary unit. With the assistance of the helicopter, the original

primary and secondary, or additional (as determined by the pursuit supervisor), ground units will continue their response toward the location of the suspect vehicle, and the supervisor will continue to evaluate the situation and determine the hazards related to the pursuit. The secondary unit will still provide speed, traffic, and weather conditions regardless if the helicopter is overhead. This allows for the supervisor to continually evaluate the continuation of the pursuit by knowing the accurate speeds of the units involved and the physiological/psychological effects of the driver of the primary vehicle.

1. The helicopter unit may assume primary radio responsibilities once visual contact is made with the suspect vehicle and must constantly give updates on the pursuit conditions and location of the suspect vehicle to ground units.
2. If the helicopter unit has engaged in a pursuit that proceeds into South Carolina, it is authorized to remain engaged.

L. Supervisor Responsibilities

Upon notification, the supervisor of the division that initiated the pursuit will notify the Communications Division and sworn employees over the air that they are taking command, has responsibility for the pursuit and will ensure compliance with all policies.

1. In allowing a pursuit to continue, the supervisor will carefully consider:
 - a. The seriousness of the crime committed by the suspect.
 - b. The danger presented to sworn employees and citizens.
 - c. The location of the pursuit.
 - d. The population of the area.
 - e. The type of terrain.
 - f. Traffic conditions.
 - g. The posted speed limits.
 - h. The weather conditions.
 - i. The ability of the pursuing sworn employee(s) to keep the patrol vehicle under control.
 - j. The speed of the pursuing sworn employee(s)' patrol vehicle and that of the suspect.
2. When an on-duty supervisor encounters radio traffic related to the possible initiation of a pursuit such as, but not limited to, a vehicle not stopping, the supervisor will immediately inquire further about the sworn employee's direct actions to determine if the policy is being followed.
3. The supervisor will allow the pursuit to continue only after the risks created by

	Charlotte-Mecklenburg Police Department		600-022
	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
	Effective Date: 12/8/2023		13 of 17

the pursuit have been carefully weighed against the need to continue the pursuit.

4. A pursuit will normally involve two (2) vehicles, the primary unit and one secondary unit. The supervisor may authorize additional units as deemed necessary after evaluating:
 - a. The nature of the offense.
 - b. The number of suspects and possible weapons involved.
 - c. Whether the participating units have more than one (1) sworn employee.
 - d. Whether clear and articulated facts would warrant additional units, including the involved units requesting additional sworn employees.
5. Supervisors from the division where the pursuit was initiated may operate emergency equipment to stay in proximity of a pursuit that travels into multiple divisions.

M. Division Lieutenant/Division Captain/ Operations Command Responsibilities

Upon notification, the division lieutenant, division captain, or operations commander will evaluate the pursuit to determine whether to terminate the pursuit, if appropriate. Clear verbal communication must take place when supervisory command over the pursuit is transferred from one supervisor to another, regardless of the rank structure involved.

N. Communications Responsibilities

Communications Division personnel will follow all internal standard operating procedures governing pursuits, including:

1. The dispatcher will immediately close the primary talk group to all routine transmissions not related to the pursuit. Only emergency radio transmissions and transmissions directly related to the pursuit will be allowed.
2. The dispatcher will ensure that the division and Communications Division supervisors are notified of the pursuit.
3. The dispatcher will patch the division talkgroup that the event originates from with Events 4.
4. The dispatcher will notify the Communications Division supervisor of the channel patching.
5. The Communications Division supervisor will have all other dispatchers issue an alert tone, announce that Events 4 has been activated, and the originating division of the event. This will ensure that the entire department is aware of the potential that the pursuit might impact their division. The Communications Division supervisor will also alert the support units (VCAT, TRAP, Vice/Narcotics, Air ops/K9) of the activation of Events 4.

	Charlotte-Mecklenburg Police Department		600-022
	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
	Effective Date: 12/8/2023		14 of 17

6. The Communications Division supervisor will work in tandem with the supervisor in charge of the pursuit to ensure that all policies and procedures are followed. Although the duties of the Communications Division supervisor may vary depending on the length of the pursuit and the seriousness of the crime involved, the primary duties are as follows:
 - a. Monitor the traffic concerning the pursuit.
 - b. Ensure that the correct channels are patched in (specifically Events 4).
 - c. Send out notifications as necessary.
 - d. Assist the dispatcher, as needed, with requesting any necessary support units or notifying surrounding jurisdictions or agencies of the pursuit.
7. All assisting units, no matter the talk group they are assigned, can switch to Events 4 to monitor the event. (SHP, CFD, MCSO, MEDIC, and all other law enforcement agencies in Mecklenburg County have Events 4 on their radio template).
8. The dispatcher will ensure notification to other agencies of the status and location of the pursuit when a pursuit appears to be headed into another jurisdiction. This includes notifications to the appropriate South Carolina agencies for pursuits headed toward South Carolina.
9. At the completion of the pursuit, the incident commander will determine if the division's talkgroup where the pursuit ends will be patched into Events 4 also. All traffic will still be broadcast over Events 4, and any other sworn employees involved will switch to Events 4 to monitor or assist. The Communications Division supervisor will determine which dispatcher will take the lead on the channel.
10. Once the event is terminated and the scene is secure, an announcement will be made notifying everyone that Events 4 is no longer in use.
11. The dispatcher will immediately notify any outside agency that was informed of the pursuit when a pursuit is terminated by the CMPD.

O. Terminating Pursuits

The primary unit may maintain pursuit if it is reasonable and prudent to do so. However, a decision to terminate a pursuit may be the most appropriate course of action. Sworn employees must continually question whether the seriousness of the crime justifies the continuation of the pursuit.

1. Any doubt concerning the reasonableness of a pursuit should be resolved in favor of the safety of sworn employees and the public. A pursuit will be terminated:
 - a. If, in the opinion of the pursuing sworn employee or the supervisor, there

	Charlotte-Mecklenburg Police Department		600-022
	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
		Effective Date: 12/8/2023	15 of 17

is an unreasonable danger to the sworn employee(s) or the public, which is created by the pursuit.

- b. If the prevailing traffic, roadway, and environmental conditions create an unreasonable danger if the pursuit is continued.
 - c. If the pursued vehicle's location is no longer known, or it becomes futile to continue the pursuit because the suspect vehicle is traveling a substantial or increasing distance ahead of the pursuing police vehicle.
 - d. When notified to do so by the supervisor or Communications Division personnel acting on the authority of the supervisor.
 - e. When communication with the dispatcher or the sworn employee's supervisor is lost or unreadable. In any event, the sworn employee will reestablish communication as soon as possible.
2. Sworn employees and supervisors will consider terminating the pursuit when the identity of the operator of the pursued vehicle is known, and the violator is not presenting an immediate danger to other persons.
 3. Sworn employees must immediately notify Communications Division personnel when a pursuit has been terminated. Sworn employees must give the last known direction of travel of the suspect vehicle and all known descriptions.
 4. The termination of a pursuit does not prohibit a sworn employee from continuing to follow a vehicle while complying with all traffic laws.
 5. Sworn employees will not pursue a fleeing vehicle that is traveling into opposing traffic (e.g., a suspect traveling north in the south travel lane of the interstate). Sworn employees may utilize oncoming lanes of travel in brief circumstances where there is no opposing traffic. For example, a sworn employee passes a vehicle on a two-lane road with no opposing traffic nearby.
 6. Sworn employees will use discretion and sound judgment to determine whether to continue the pursuit. If the pursuit is not terminated, sworn employees will travel in the correct travel lanes and continue to operate emergency equipment.

P. Re-Engagement

If a sworn employee engages in a pursuit of a fleeing vehicle that has been previously pursued by the police and has been lost, it will be considered a new pursuit and treated accordingly by immediately making the proper notifications.

V. INTER-JURISDICTIONAL PURSUITS

In any inter-jurisdictional pursuit, all CMPD policies are in effect. Violations of departmental policies by sworn employees of CMPD or any other law enforcement agency involved in a CMPD pursuit will result in termination of the pursuit.

	Charlotte-Mecklenburg Police Department		600-022
	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
	Effective Date: 12/8/2023		16 of 17

A. Counties within North Carolina

1. When sworn employee safety dictates, the supervisor will instruct Communications Division personnel to request assistance from the North Carolina State Highway Patrol or other appropriate jurisdictions. SHP can be notified of a fleeing vehicle, but under no circumstances will SHP be called to initiate a pursuit on CMPD's behalf for an offense that would not otherwise be permitted by this directive.
2. CMPD will maintain control of all CMPD pursuits. If other agencies become involved in the pursuit, CMPD sworn employees will weigh the risks in determining whether they should terminate their own involvement in the pursuit.
3. Sworn employees will not become involved in another agency's pursuit unless specifically authorized by a supervisor. Authorization to engage in another agency's pursuit also extends to the use of TDDs, but only with due consideration of the ability to communicate with the other agencies and weighing the inherent risks.

B. Pursuits into South Carolina

1. Since a reciprocal agreement with South Carolina exists, sworn employees may pursue across the state line when engaged in an immediate, continuous vehicle pursuit for crimes dangerous to life and in accordance with this directive.
 - a. The sworn employee shall operate emergency equipment inside South Carolina when engaged in a justifiable pursuit.
 - b. If CMPD is notified that a suspect has been apprehended in South Carolina by South Carolina authorities, CMPD sworn employees may proceed into South Carolina to assist in the investigation and identification of the suspect.
2. CMPD will maintain control of all CMPD pursuits. If South Carolina law enforcement agencies become involved in the pursuit, CMPD sworn employees will weigh the risks in determining whether they should terminate their own involvement in the pursuit.
3. Under no circumstance will a sworn employee return an arrestee to North Carolina unless the suspect has first waived extradition before a South Carolina Magistrate authorized by law to accept waivers of extradition.

VI. INVESTIGATION OF PURSUITS

- A. Whenever a sworn employee is involved in a pursuit, it is the responsibility of the unit supervisor in charge of the pursuit to initiate a pursuit investigation in IACMS. The unit supervisor will then complete the full investigation and subsequently forward the completed investigation through the chain of command to the service area major. If a two-sworn unit, both sworn employees should be listed as employees investigated.

	Interactive Directives Guide	Emergency Response and Pursuit Vehicle Operations	
		Effective Date: 12/8/2023	17 of 17

- B. The pursuit investigation will be reviewed by the entire chain of command above the rank of sergeant. A determination will be made at each level on whether all CMPD guidelines were met. Each level in the chain of command will make a recommendation regarding each sworn employee involved in the pursuit.
- C. Whenever a pursuit results in a serious injury requiring hospitalization or death, the responsible chain of command, Internal Affairs Bureau, Police Attorney's Office, CMPD's Safety and Training Coordinator, Accident Reconstruction Unit, and City of Charlotte Risk Management will be immediately notified.
- D. Internal Affairs or the appropriate chain of command may make a recommendation to the chief of police to convene a Chain of Command Review Board to examine the pursuit case.
- E. The Internal Affairs Bureau will undertake an annual review of all previous year's pursuits and publish the results of that review in a report to the Chief of Police. This report will also be made available to the public. Annually, the Professional Accountability Bureau will conduct an analysis of agency pursuit activities for the purpose of identifying trends or patterns, training needs, and/or equipment needs.
- F. Annually, a documented review of Directive 600-022 Emergency Response and Pursuit Vehicle Operations will be conducted.

POLICE	Charlotte-Mecklenburg Police Department	600-023	
 <small>CHARLOTTE-MECKLENBURG</small>	Interactive Directives Guide	Diplomatic Immunity and Consular and Military Notification Procedure	
		Effective Date: 4/16/2024	1 of 6

I. PURPOSE

This policy establishes guidelines for the Charlotte-Mecklenburg Police Department (CMPD) notification procedures when a foreign national is arrested or detained for an extended period. It also establishes CMPD procedures for managing special enforcement situations involving persons with limited or full immunity from law enforcement activities and notification procedures for incidents involving active-duty armed forces personnel. For the purpose of this directive, the term officer will apply to all sworn CMPD employees.

II. POLICY

Officers have an obligation to advise foreign nationals that they have a right to request that the CMPD notify their consul of their arrest or detention. In certain circumstances, the CMPD has an obligation to notify the foreign national’s consul regardless of the foreign national’s wishes.

Officers will adhere to and respect diplomatic immunity principles when encountering individuals who are entitled to claim limited or full immunity. While officers must recognize the immunity of the individual, officers will not ignore or condone violations of the law or the commission of crimes by those with diplomatic immunity.

Officers will notify a supervisor whenever they arrest local, state, or federal government officials and consult with their direct supervisor and/or the Police Attorney’s Office as soon as reasonably possible if they are unsure of their obligations pursuant to this directive.

III. DEFINITIONS

- A. Consul, Consular Official, or Consular Officer: A citizen or lawful permanent resident of a foreign country, who is employed by that foreign government, resides in the United States, and is authorized to assist the foreign government’s citizens in the United States on behalf of that government.
- B. Diplomat: An officer of a foreign government that is assigned to an embassy in Washington, DC; also known as Diplomatic Officers, they enjoy the highest degree of privileges and immunity.
- C. Diplomatic Immunity: A principle of international law in which certain foreign government officials are not subject to the jurisdiction of local courts and other authorities for their official and, to a large extent, their personal activities.
- D. Foreign National: Any person in the United States who is not a United States citizen.
- E. Dual National: A person who is a citizen of two (2) or more countries. A person who is a citizen of the United States and another country will be treated exclusively as a U.S. citizen when in the United States. - G. Armed Forces Personnel: Active duty, reserve, and guard force members of the six (6) U.S. service branches – the Army, Marine Corps, Navy, Air Force, Space Force, and Coast Guard.

IV. DIPLOMATIC IMMUNITY

- A. Diplomatic Immunity does not exempt diplomatic and consular officers from the obligation of conforming to national and local laws and regulations.
- B. Whatever the offense or circumstances of contact, law enforcement officers must keep in mind that such persons are official representatives of foreign governments who are to be afforded the maximum degree of respect possible under the circumstances.
- C. Officers are authorized to issue citations for violations of motor vehicle laws, but arrests will not be made.
 - 1. When citations are issued, officers must notify the CMPD Records Management Division and provide a copy of the citation and other documentation regarding the incident so that they can forward it to the U.S. Department of State as soon as possible.
 - 2. In serious cases (e.g., DWI, personal injury crashes, etc.), telephonic notification to the U.S. Department of State must be made.
 - 3. If the officer determines the individual is too impaired to drive safely, the officer must not allow the individual to continue to drive. Officers are authorized, with the individual's permission, to take the individual to the police station or another location where the individual may recover sufficiently to drive. Officers are authorized to call or allow the individual to call a friend, relative, taxi, or ride-share to transport the individual.
- D. The property of a person possessing full immunity, including the individual's vehicle, cannot be searched or seized. Such vehicles cannot be impounded or booted but will be moved the distance necessary to remove them from obstructing traffic or endangering public safety.
- E. For other criminal violations, including felonies, the U.S. Department of State will request a waiver of immunity if the local prosecutor indicates they will prosecute if the waiver is granted. If the country of the person with immunity does not waive immunity, the individual with immunity will be required to depart the United States.

V. CONSULAR NOTIFICATION

- A. Consular notification applies to any person who is not a United States citizen. This

includes permanent resident aliens and non-citizens who may or may not be in the country legally. Any person may decline the offer of consul notification; however, the notification must be made if the individual is from one of the “mandatory notification” countries listed on the [Consular Notification and Access Reference Card](#).

- B. Whenever foreign nationals are arrested or detained for more than one (1) hour, arresting or detaining officers will advise them of their right to have their country’s consul notified of their situation.
- C. The notification process will begin when the foreign national is detained or when the arrested foreign national is booked into the detention facility. The arresting officer is responsible for implementing the notification process.
- D. Officers will determine if the person under arrest or in custody is a foreign national by asking the individual if they are a citizen of the United States; asking the individual where they were born; and/or by examining documents such as passports and alien registration documents.
- E. Officers will determine whether the foreign national’s country is a “mandatory notification” country. If it is not on the mandatory notification list, then the foreign national is from an “upon request” country.
 - 1. The following procedures will apply to those foreign nationals from “mandatory notification countries”:
 - a. Even if the foreign national does not want their consul notified, officers will contact the nearest consulate of the foreign national’s country via fax or e-mail as soon as reasonably possible, but no later than before the end of the arresting officer’s shift to make the notification.
 - b. Telephone notification can be used if fax or e-mail is not available. Document the date and time of the notification and the name and location of the consular officer notified. If possible, make an audio recording of the telephone call and retain it in the incident report.
 - c. Never tell the consular officer that a foreign national has requested asylum.
 - d. Privacy concerns or the possibility that a foreign national may have a legitimate fear of persecution or other mistreatment by his or her government may exist in some mandatory notification cases. In such cases, disclosure should be consistent with privacy considerations and the applicable international agreements. If the consular officer insists on information the foreign national does not want to be disclosed, notify an on-duty supervisor and refer to the [Consular Notification and Access Manual](#) and the [Training and Outreach page](#) for procedures to follow.

- e. Inform the foreign national that the consul has been notified. Sample statements in several languages can be accessed on the [Consular Notification and Access](#) website.
 - f. Make a note of the completed notification in the incident report and retain the sent e-mail or fax and fax confirmation sheet.
 - g. This consular notification process will be repeated if the foreign national is charged with new offenses that are significantly more serious than the original charges.
2. The following procedures will apply to those foreign nationals from “upon request” countries:
- a. Inform foreign nationals that they may have their consul notified of their arrest or detention. Sample statements in several languages can be accessed on the [Consular Notification and Access](#) website.
 - b. Make a note of the foreign national’s decision regarding notification in the incident report.
 - c. If the foreign national requests notification, notify the nearest consul of the foreign national’s country via fax or e-mail as soon as reasonably possible but no later than 72 hours after arrest.
 - d. Telephone notification can be used if fax or e-mail is not available. Document the name and location of the consular official notified and the date and time of the notification. If possible, make an audio recording of the telephone call and retain it in the incident report.
 - e. Contact information for consuls can be accessed on the [Consular Notification and Access](#) website.
 - f. Officers will not make the consular notification if the individual refuses notification and the person is not from one of the “mandatory notification” countries.
 - g. Never tell the consular officer that a foreign national has requested asylum.
 - h. In cases where a foreign national has requested that their consul be notified, disclosure should be consistent with privacy considerations. If the consular officer insists on information the foreign national does not want to be disclosed, notify an on-duty supervisor and refer to the [Consular Notification and Access Manual](#) and the [Training and Outreach page](#) for procedures to follow.
 - i. Make a note of the completed notification in the incident report and retain the sent e-mail or fax and fax confirmation sheet.

j. If consular notification was previously completed, the consular should be notified of any new charges that are for offenses that are more severe than the original charges. If a foreign national is charged with additional offenses that are more severe than the original charges after declining consular notification, the foreign national should be given another opportunity to have the consular notified.

F. Investigating officers will make a consular notification when investigating the death of any foreign national. Document this notification in the incident report and retain a copy of the sent e-mail or fax and fax confirmation sheet in the incident report.

G. Officers will consult with their chain of command regarding making consular notifications when a foreign national is seriously ill or injured while in CMPD custody.

VI. CONGRESSIONAL AND STATE LEGISLATORS

A. Members of the United States Congress will, in all cases, except treason, felony, and breach of the peace, be immune from arrest during their attendance at the session of their respective House, in going to and returning from their respective House, and for any speech or debate in either House. This applies to members of the United States Congress in transit within the CMPD jurisdiction.

B. Members of the State Legislature, in some cases, have the same immunity granted to Congress and will remain immune from arrest while attending, going to, or returning from a session of their respective Houses. This applies to members of the State Legislature in transit within the CMPD jurisdiction.

C. There are no North Carolina laws that exempt any state or local officials, either appointed or elected, from federal, state, and local laws. The physical arrest of or issuance of a warning or traffic citation to such individuals is authorized whenever lawful except as noted in section VI.B. above.

VII. MILITARY PERSONNEL

A. Military personnel whose permanent residence or permanent duty station is located outside of North Carolina will be treated as non-residents of North Carolina. All others will be treated as residents.

B. There are no laws that exempt active-duty military personnel from federal, state, and local laws.

C. When military personnel are arrested and released on a summons or a predetermined bail for violating motor vehicle law, it is left to each military person's discretion whether to advise their chain of command of their arrest and any pending court appearances.

D. When military personnel are arrested for an offense for which they are required to post bail or await a bail hearing, arresting officers are responsible for notifying the military personnel's chain of command of their incarceration status.

1. Arrested military personnel are required to provide their unit of assignment and the name and contact information of their first sergeant or command chief.
2. If the military person is uncooperative or unable (e.g., due to injury) to provide said information, the arresting officer will contact the nearest Military Police Corps (U.S. Army), U.S. Air Force Security Forces (U.S. Air Force and U.S. Space Force), Master-at-Arms (U.S. Navy), or Provost Marshal's Office (U.S. Marines) and request assistance notifying the appropriate chain of command. - E. In the event of equipment failure, the sworn employee should thoroughly document what occurred and any efforts made to secure replacement equipment or to relocate the interview.
- F. This policy is not intended to preclude sworn employees in the field from capturing information from persons who make spontaneous utterances or provide information regarding designated felonies.

- I. If necessary, the sworn employee may establish a dialogue with the person suspected of committing a crime using language that the person is comfortable with and accustomed to, including derogatory or profane language. However, using such language should not be the primary or only approach taken by the sworn employee during the interview. In any case, the sworn employee should be prepared to articulate in court proceedings the reason the strategy was employed.
- J. The sworn employee may engage in deceptive methods and/or make false statements to the person suspected of committing a crime; however, such methods or statements shall not be employed to the extent that, based on the totality of the circumstances, they are calculated to procure an untrue confession or otherwise render the person's statement involuntary. 	Charlotte-Mecklenburg Police Department		600-025
	Interactive Directives Guide	Incident Command System	
	Effective Date: 9/14/2022		1 of 7

I. PURPOSE

To establish guidelines for the Charlotte-Mecklenburg Police Department (CMPD) concerning the utilization of the Incident Command System (ICS) and the National Incident Management System (NIMS).

II. POLICY

CMPD will operate under the Incident Command System to coordinate the efforts of multiple departmental divisions or outside agencies as they work toward the common goal of stabilizing an incident. Many incidents, whether major (such as hazardous material spills or civil disorders), minor incidents (such as vehicle crashes and utility outages), or disasters (such as tornadoes, hurricanes, or earthquakes), require a response from several different resources. Regardless of the size of the incident or the number of agencies involved in the response, all incidents require a coordinated effort to ensure an effective response and the efficient and safe use of resources.

CMPD will operate under the ICS in the following circumstances:

- A. Emergency situations where the CMPD Emergency Mobilization Plan is utilized.
- B. Situations where a CMPD response is required under the CMPD Emergency Mobilization Plan.
- C. Situations involving personnel from multiple divisions and units where the event is expected to last longer than twenty-four (24) hours.
- D. Situations requiring coordination with outside agencies.
- E. Situations that require activation of the CMPD Command Center.
- F. Other situations where the ICS would prove beneficial.

III. DEFINITIONS

- A. Incident Command System (ICS): The model tool for command, control, and coordination of a response to a specific incident. It provides a means to coordinate the response efforts toward mitigation of an incident.
- B. National Incident Management System (NIMS): Provides a consistent nationwide approach for federal, state, tribal, and local governments to work effectively and efficiently together to prepare for, prevent, respond to, and recover from domestic incidents, regardless of cause, size, or complexity. NIMS was created by the authority of the President in Homeland Security Presidential Directive (HSPD-5), Management of Domestic Incidents.
- C. Unified Command (UC): An important element in multijurisdictional or multiagency incident management. It provides guidelines to enable agencies with different legal,

	Charlotte-Mecklenburg Police Department		600-025
	Interactive Directives Guide	Incident Command System	
	Effective Date: 9/14/2022		2 of 7

geographic, and functional responsibilities to coordinate, plan, and interact effectively.

- D. Incident Action Plan (IAP): The overall incident objectives and strategies established by the incident commander or the unified command. The IAP also addresses tactical objectives and support activities for one operational period, generally twelve (12) to twenty-four (24) hours. The IAP is developed utilizing ICS forms.
- E. ICS Structure: The ICS organization is comprised of six major functional areas:
1. Command
 - a. Command is responsible for all incident or event activity. Although other functions may be left unfilled in the command area, there will always be an incident commander. The command staff positions under the incident commander are:
 - (1) Public Affairs representative
 - (2) Safety officer
 - (3) Liaison officer
 - b. At a minimum, the incident commander will address the following, if necessary:
 - (1) Activate the Incident Command System;
 - (2) Establish a command post;
 - (3) Initiate the notification and mobilization of additional agency personnel;
 - (4) Obtain additional support from outside agencies;
 - (5) Establish staging and triage areas;
 - (6) Provide information for public media relations;
 - (7) Maintain the safety of all affected personnel; and
 - (8) Be responsible for preparing a documented after action report. (Not available as an ICS form.)
 2. Operations
 - a. The operations section is responsible for directing the tactical actions to meet incident objectives.

	Charlotte-Mecklenburg Police Department		600-025
	Interactive Directives Guide	Incident Command System	
	Effective Date: 9/14/2022		3 of 7

- (1) Divisions and groups are established within the operations section when the number of resources exceeds the operations section chief's manageable span of control.
 - (2) Divisions demarcate physical or geographical areas of operation within the incident area.
 - (3) Groups demarcate functional areas of operation for the incident such as rescue, law enforcement, or fire.
 - b. At a minimum, the operations function will address the following, if necessary:
 - (1) Establish perimeters;
 - (2) Conduct evacuations;
 - (3) Maintain command post and scene security;
 - (4) Provide for detainee transportation, processing, and confinement;
 - (5) Direct and control traffic;
 - (6) Conduct post-incident investigations.
3. Planning
 - a. The planning section is responsible for collecting, evaluating, and disseminating tactical information pertaining to the incident. This section maintains information and intelligence on the current and forecasted situation, as well as the status of resources assigned to the incident.
 - b. At a minimum, the planning section will address the following, if necessary:
 - (1) Prepare a documented Incident Action Plan;
 - (2) Gather and disseminate information and intelligence;
 - (3) Plan post-incident demobilization.
4. Logistics
 - a. The logistics section meets all support needs for the incident, including ordering resources.
 - b. At a minimum, the logistics function will address the following, if necessary:
 - (1) Communications;

	Charlotte-Mecklenburg Police Department		600-025
	Interactive Directives Guide	Incident Command System	
	Effective Date: 9/14/2022		4 of 7

- (2) Transportation;
- (3) Medical support;
- (4) Necessary supplies;
- (5) Any specialized or technical teams' equipment needs;
- (6) Logistics may also provide facilities, equipment maintenance and fueling, and food service for incident personnel.

5. Finance/Administration

- a. The finance/administration section is responsible for keeping track of incident-related costs.
- b. At a minimum, the finance/administration function will address the following, if necessary:
 - (1) Recording personnel time;
 - (2) Procuring additional resources;
 - (3) Recording expenses;
 - (4) Documenting injuries and liability issues.

6. Intelligence

- a. Traditionally, information and intelligence functions are located in the planning section. However, in exceptional situations, the incident commander may need to assign the information and intelligence functions to other parts of the ICS organization. This placement may change as the information and intelligence needs to change.
- b. The information and intelligence function may be organized in one of the following ways:
 - (1) Within the command staff, this option may be the most appropriate in smaller incidents with little need for tactical or classified intelligence.
 - (2) As a unit within the planning section, this is the traditional placement of intelligence and would be most appropriate when the need for information is quickly available and does not involve classified information.
 - (3) As a branch within the operations section, this option may be the most appropriate in incidents with a high need for tactical or classified intelligence.

	Charlotte-Mecklenburg Police Department		600-025
	Interactive Directives Guide	Incident Command System	
	Effective Date: 9/14/2022		5 of 7

- (4) As a separate general staff section, this option may be most appropriate when an incident is heavily influenced by intelligence factors or when there is a need to manage and/or analyze a large volume of classified or highly sensitive intelligence or information such as in a terrorist incident.

IV. PROCEDURE

A. Establishing Command

The first arriving sworn employee at the scene of a major incident will establish “command” and designate themselves as “command” over the radio. That sworn employee will maintain this designation until command is either transferred or terminated.

B. Initial Report

The sworn employee will then transmit, via radio, a brief initial report of the conditions, including the following information:

1. A description of the situation
 2. Obvious incident conditions
 3. Confirmation of command establishment with the appropriate radio designation
 4. Location of command.
 5. A report of any actions being taken by the on scene unit(s).
- C. The incident commander may fill command and general staff positions when necessary and delegate responsibilities so that the span of control is not overextended.

Those positions may include:

1. Command Staff
 - a. Police Attorney Office
 - b. Public Affairs Division
 - c. Liaison officer
2. General Staff
 - a. Operations
 - b. Planning

	Charlotte-Mecklenburg Police Department		600-025
	Interactive Directives Guide	Incident Command System	
	Effective Date: 9/14/2022		6 of 7

- c. Logistics
- d. Finance/Administration

D. Command Transfer Guidelines

The command can be transferred to improve the quality of the response.

1. Transfers of command should occur on a face-to-face basis. However, some conditions may necessitate command transfer via radio.
2. A transfer briefing will occur between the command officer and the relieving command officer. The information to be exchanged will include:
 - a. Incident conditions;
 - b. Updates to the Incident Action Plan;
 - c. Safety considerations;
 - d. Assignments of responding units;
 - e. The need for additional resources.
3. Transfer of command will be at the discretion of the ranking sworn employee. Since the overall incident responsibilities rest with the ranking sworn employee on the scene whether command is assumed or not, they may assume command to ensure clarity of orders.
4. Individuals relieved of command responsibilities may be used by the incident commander to support the overall IAP.

E. When the IAP is utilized by the ICS, all necessary ICS forms will be formulated.

1. For simple incidents of short duration, the IAP will be developed by the incident commander and communicated to subordinates in a verbal briefing.
 - a. On smaller incidents that do not require a written action plan, the sequence of steps for a briefing by the incident commander to the general staff includes:
 - (1) Incident objective(s)
 - (2) Strategy (one or more)
 - (3) Tactics
 - (4) Assignments

	Charlotte-Mecklenburg Police Department		600-025
	Interactive Directives Guide	Incident Command System	
	Effective Date: 9/14/2022		7 of 7

- b. The ICS Form 201 provides the incident commander with a useful framework for preparing a briefing when no written action plan is prepared.
- 2. The decision to prepare a written IAP will be made by the incident commander. A written IAP documenting the planning decisions should be prepared whenever:
 - a. Two or more jurisdictions are involved
 - b. The incident continues into another operational period
 - c. Several organizational elements have been activated
- 3. Essential Elements in the Incident Action Plan are:
 - a. Statement of Objectives: Statement of what is expected to be achieved. Objectives must be measurable. (ICS Form 202)
 - b. Organization: Describes what elements of the ICS organization will be in place for the next operational period. (ICS Form 203)
 - c. Tactics and Assignments: Describes tactics and control operations, and what resources will be assigned. Resource assignments are often done by division or group. (ICS Form 204)
 - d. Supporting Material: Examples include a map of the incident, Communications Plan, Medical Plan, Traffic Plan, weather data, special precautions, and safety messages.
- 4. The ICS forms are available under forms on the CMPD Portal Page.
- F. An After Action Report will be completed upon demobilization of the incident command structure. The complete IAP and the After Action Report will be forwarded to the Strategic Policy Unit for storage.
- G. CMPD will participate in annual training on responses based on the CMPD Emergency Mobilization Plan. This training will be documented and can involve outside agencies in actual or tabletop exercises.

III. DEFINITIONS

- A. Deaf Person: A person whose hearing impairment is so significant that the person is impaired in processing linguistic information through hearing, with or without amplification.
- B. Qualified Interpreter: An interpreter certified and licensed as qualified under standards and procedures promulgated by the Human Resources Division and in accordance with N.C.G.S. 90D.
- C. Hard of Hearing: A person who has mild to moderate hearing loss who may communicate with sign language, spoken language, or a combination of both.

IV. PROCEDURE

- A. Deaf persons under arrest
 - 1. While at the scene, sworn employees will make appropriate accommodations to communicate efficiently with deaf or hard of hearing persons. Accommodations may include gestures or visual aids to supplement oral communication, such as a notepad and pen or pencil to exchange written notes, an assistive listening system or device to amplify sound, or a qualified interpreter.
 - 2. Sworn employees who determine that the arrestee is deaf will notify the Communications Division to request a qualified interpreter. The type of aid or service requested by the person with the hearing disability must be given primary consideration.
 - 3. Qualified interpreters must be used to interview deaf or hard of hearing suspects or arrestees and in any other actions where criminal proceedings are likely to follow. Family and friends of the suspect or arrestee shall not interpret for the arrestee.

POLICE	Charlotte-Mecklenburg Police Department	600-026

	Effective Date: 1/16/2023	2 of 3

4. If a qualified interpreter is utilized during an arrest, the interpreter will remain with the arrestee throughout the entire arrest process, including appearing before the magistrate.

B. Contact with deaf or hard of hearing persons not under arrest

1. CMPD employees will not interpret for a deaf person who is a party to or a witness in any civil or criminal proceeding in any superior or district court or proceedings before the magistrate.
2. CMPD employees will not interpret for a deaf person who is a party to or a witness in any administrative proceeding before any department, board, commission, agency, or licensing authority of the state or any county or city of the state.
3. Effective communication with a person who is deaf or hard of hearing involved in an incident, whether as a victim, suspect, or arrestee, is essential to ascertain what occurred, the urgency of the matter, and the type of situation. Efforts should be made to accommodate the deaf or hard of hearing person's request for a qualified interpreter.
4. Qualified interpreters will be used in communicating with complainants or witnesses when court proceedings are likely to occur.
5. In general interactions, the appropriate accommodation for a deaf or hard of hearing person will vary with the length and complexity of the communication involved. In certain circumstances, oral communication supplemented by gestures and visual aids or an exchange of written notes will be an effective means of communication with people who are deaf or hard of hearing.

C. Communications Division

Upon receiving a request for a sign language or oral interpreter for a victim, suspect, or arrestee, the Communications Division will make contact with the approved City of Charlotte/CMPD vendor to request a qualified interpreter.

Appendix A

Practical Suggestions for Communicating Effectively with Persons who are Deaf or Hard of Hearing

1. Before speaking, get the person's attention with a wave of the hand or a gentle tap on the shoulder.
2. Face the person and do not turn away while speaking.
3. Converse in a well-lit area whenever possible.
4. Do not cover your mouth or chew gum.
5. If a person is wearing a hearing aid, do not assume the person can hear you.
6. Minimize background noise and other distractions whenever possible.
7. When communicating orally, speak slowly and distinctly. Use gestures and facial expressions to reinforce what you are saying.
8. Use visual aids, such as pointing to printed information on a citation or other document.
9. Remember that only about one-third of spoken words can be understood by speech reading.
10. When communicating by writing notes, be mindful that some persons who use sign language may lack good English reading and writing skills. Preserve all notes.
11. If a person with a hearing disability cannot understand you, write a note to ask him or her what communication aid or service is needed. Preserve all notes.
12. If a sign language interpreter is requested, ask which language the person uses. American Sign Language (ASL) and Signed English are the most common. Remember that signing involves rapid gestures of a person's arms and hands, which may impact a person's ability to respond to certain commands.
13. When interviewing a witness and/or suspect or engaging in any complex conversation with a person whose primary language is sign language, a qualified interpreter should be contacted to ensure effective communication.
14. When using an interpreter, look at and speak directly to the deaf person, not the interpreter.
15. Talk at your normal rate or slightly slower if you normally speak very fast.
16. Only one person should speak at a time.
17. Use short sentences and simple words.
18. Do not use family members or children as interpreters.

- f. The booking employee is responsible for accurately weighing and/or counting all drugs submitted to the Property and Evidence Management Division.
- g. Significant discrepancies in the amount of controlled substances (drugs) seized and the amount reported in PLIMS may result in a criminal and/or internal investigation.
- h. If the seizure includes taxable quantities of controlled substances, the collecting employee or booking employee shall properly complete as many [BD-4 forms](#) (Report of Arrest and/or Seizure Involving Non-tax paid [Unstamped] Controlled Substances) as required (e.g., multiple drugs require multiple forms, multiple co-defendants require multiple forms, etc.), and submit them via e-mail to the Asset Forfeiture Unit (AssetForfeiture@cmpd.org) within forty-eight (48) hours of the seizure.

Taxable quantities of controlled substances are:

- (1) Marijuana – more than 42.5 grams.
 - (2) Controlled substance sold by weight – Seven (7) or more grams.
 - (3) Controlled substance sold by dosage unit – Ten (10) or more dosage units.
14. Perishables (e.g., food, edible drugs, etc.) shall be photographed and processed on the scene when applicable. Documentation must be made in the KBCOPS report explaining why the item was not collected.

	Interactive Directives Guide		Submitting Impounded Property
	Effective Date: 12/2/2024		6 of 9

- (b) Item #2 will contain the remainder of the edible drugs. This item will be immediately set for disposal and sent to a supervisor for approval.
15. Highly flammable, extremely toxic, or explosive or items that contain highly flammable, extremely toxic, or explosive substances (e.g., gasoline, chemicals, etc.) will not be submitted to the Property and Evidence Management Division except:
 1. Ammunition submitted as evidence, found property, safekeeping property, or evidence from a fire scene will be accepted only if submitted in approved storage containers.
 2. Items that contain gasoline (e.g., lawnmowers, lawn equipment, etc.) or flammable materials will not be submitted at the Property and Evidence Management Division window. During operating hours, a Property and Evidence Management Division technician will accompany the employee to the parking area to check in these items. After operating hours, these items must be submitted to the evidence cage. Employees should use their judgment in deciding to transport these items if they are leaking or if placing them in a vehicle would cause them to leak.
- C. When possible, items should be processed for evidence in the field before being submitted to the Property and Evidence Management Division (e.g., fingerprints on a television, etc.). When practical, an employee should take a photograph of this type of evidence, upload the photograph to Evidence.com, and return the item to the victim.
1. The complaint number, address, date, employee name, and code number should appear on a piece of paper in the first photograph for proper documentation.

- E. Employees will not inscribe their initials or make other marks on any found or safekeeping property (e.g., firearms, silverware, etc.).
- F. Employees (other than the investigating officer) turning in evidence must complete a narrative supplement report in KBCOPS.

			Effective Date: 12/2/2024

G. Safekeeping Property

1. Impounded property will be categorized as safekeeping property in PLIMS when the rightful owner is known.
2. If it is not practical to return the property to the owner in the field, the property should be entered into PLIMS as safekeeping property and set as 'ready to return to the owner.'

H. Personal Property

Employees who respond to a natural or accidental death, murder, suicide, fatal automobile accident, or any personal injury incident in which the victim has been transported from the scene are responsible for securing and collecting the victim's personal property of value that is not considered evidence. Personal property of this type will be handled as follows:

1. Personal property may be left in the custody of an adult relative (spouse, parent, sibling, son, or daughter) present at the scene.
2. Employees investigating a death at a private residence will secure personal property inside the residence and lock the door if there is no adult relative of the deceased present.
3. Employees investigating a death at a public or semi-public location (e.g., motel, boarding house, shopping mall, or traffic accident) will secure valuable personal property by entering the item in PLIMS and submitting it to the evidence lockers located at the nearest division office if there is no adult relative present.
4. If it is not practical to return personal property in the field, the property should be entered into PLIMS as safekeeping property and set as 'ready to return to the owner.'

I. Stolen Merchandise and Shoplifting Evidence

Employees collecting or seizing stolen merchandise in which the lawful owner can be readily identified or shoplifting evidence must photograph the evidence with a CMPD-issued device and upload it to Evidence.com.

1. Stolen merchandise and shoplifting evidence may be returned to the owner/retailer after it has been photographed and does not need to be entered into PLIMS.
2. The first photograph must include a piece of paper that documents the complaint number, address, date, and the employee name/code number.
3. Photographs must include unique identifying features such as store tags, serial numbers, identifying scratches, etc. This does not apply to illegal drugs or evidence subject to laboratory examination.

	POLICE	Charlotte-Mecklenburg Police Department	700-001
	Interactive Directives Guide	Submitting Impounded Property	
		Effective Date: 12/2/2024	8 of 9

4. Employees must have the victim sign for the release of any property returned to them, and the release must specifically describe all the property returned.
5. A notation that the property was returned should be made on a property sheet and retained by the investigating officer.
6. If photographing and releasing the evidence is questionable, the employee should contact a supervisor.
7. If the stolen property has conflicting claims of ownership, the employee should make every reasonable effort to resolve the dispute. If a resolution cannot be reached, the property will be seized and released only upon a court order. This process does not apply when the property was forcefully taken from the victim, resulting in charges involving violence.
8. The Property and Evidence Management Division will not accept stolen merchandise/shoplifting evidence without prior approval from the Property and Evidence Management Division lieutenant or Operations Command.
9. If it is not practical to return stolen merchandise/shoplifting evidence in the field, the property should be entered into PLIMS as safekeeping property and set as 'ready to return to the owner.'
10. The disposition of evidentiary photographs will be handled in the same manner as other types of evidence.

J. Electronic Media

1. All photographs must be uploaded to Evidence.com.
2. Photographs and other electronic media will not be attached to KBCOPS.
3. Videotapes and electronic media, not including crime scene digital images stored in Evidence.com that contain evidence (e.g., compact disc [CD], digital video disc [DVD], etc.) must be turned into the Property and Evidence Management Division for storage. The media must be placed in a small evidence envelope, sealed, and marked appropriately.
4. The disposition of evidentiary electronic media will be handled in the same manner as other types of evidence.

K. Hospital Evidence Collection

1. Employees are responsible for collecting evidence from hospitals and shall determine upon arrival if any evidence needs to be secured.
2. The collecting employee must complete a property sheet, scan and attach it in PLIMS, properly document the evidence collection in PLIMS, and keep the original copy of the property sheet for their records.

POLICE	Charlotte-Mecklenburg Police Department	700-001
	Interactive Directives Guide	Submitting Impounded Property
	Effective Date: 12/2/2024	9 of 9

3. If the property or evidence requires drying, the employee should contact the CSI supervisor for assistance with the proper drying and packaging procedures.

L. Outside Agencies

Outside agencies submitting property to the Property and Evidence Management Division must complete a paper property sheet. The sheet will be turned in to a Property and Evidence Management Division technician, who will enter the items into the PLIMS and scan them into the system. No KBCOPS report is required for outside agencies. PLIMS has a separate function to accommodate the impounding of items from agencies other than the CMPD.

	Effective Date: 8/30/2023		1 of 3

I. PURPOSE

This policy establishes guidelines for the management of evidence once it has been submitted to the Charlotte-Mecklenburg Police Department (CMPD) Property and Evidence Management Division.

II. POLICY

Only authorized personnel will have access to the Property and Evidence Management Division's evidence and property storage areas and rooms.

III. PROCEDURE

- A. The responsibility of the impounding employee for the handling and disposition of evidence ceases at the time it is properly documented on a KBCOPS supplement report and the evidence is submitted to the Property and Evidence Management Division. The disposition of the evidence becomes the responsibility of the assigned sworn employee.
- B. The assigned sworn employee in PLIMS is synced with the assigned sworn employee in KBCOPS. If the assigned sworn employee in KBCOPS is changed, the sworn employee will change in the related PLIMS case, and the new sworn employee will be responsible for the disposition of the property related to that case.
- C. If someone other than the assigned sworn employee adds an item to a PLIMS case, the assigned sworn employee will receive an email notification that an item has been added to their case.
- D. The assigned sworn employee will receive an email notification when the disposition of an item requires a retention review.
- E. After reviewing the available evidence, the assigned sworn employee will have the discretion to do one of the following:
 1. Release or dispose of the evidence.
 2. Complete a Crime Laboratory Evidence Analysis Request Form to forward the evidence to the Crime Lab Division for analysis.
 3. Hold the evidence pending further developments in the case.
- F. Evidence may be released or disposed of only by the assigned sworn employee. Evidence in felony cases that have been papered will be disposed of as directed by the Prosecution Disposition Form, which the District Attorney's Office forwards to the assigned sworn employee or the Property and Evidence Management Division once the case is completed.
 1. Release of evidence is accomplished by completing an appropriate status change for the item in PLIMS.
 2. A court order authorizing the destruction of evidence used in the prosecution of a court case may be obtained by the assigned sworn employee so that the

	Charlotte-Mecklenburg Police Department		700-002
	Interactive Directives Guide	Evidence Management	
	Effective Date: 8/30/2023		2 of 3

evidence can be destroyed. The assigned sworn employee will attach a copy of the court order to the PLIMS case prior to submitting the “ready to dispose” status change request to their supervisor.

3. Non-contraband property with evidentiary value (i.e., property seized as evidence but never introduced in court): Once it has been determined by the assigned sworn employee that no prosecution will or should ensue, the property will be released to the rightful possessor. If the entitled person does not claim the property, it will be disposed of properly.
 4. When the status change is initiated by a Prosecution Disposition Form, the assigned sworn employee or a Property and Evidence Management Division employee making the status change request will attach the Prosecution Disposition Form to the appropriate PLIMS case.
- G. In coordination with the Police Attorney’s Office and pursuant to N.C.G.S § 90-112, CMPD is permitted to use seized or forfeited controlled substances, weapons, or explosives for investigative or training purposes.
 - H. All items entered in PLIMS will be given an initial disposition status. This is based on the type of crime and type of item. Once that initial disposition time has expired, the investigator assigned to the case will receive an e-mail notification that a review needs to be done on that item. If the property is to be returned to the owner, it must be of sufficient value so that the owner will want to reclaim it. Contraband may not be returned to the original owner.
 - I. Whenever an item of property is subject to conflicting claims of ownership, the property may not be released in the absence of a court order.
 - J. Fingerprints turned in to the Property and Evidence Management Division will be released to the Crime Lab Division. A property technician will transfer custody of the prints to a representative of the crime lab. Fingerprint evidence will not be subject to disposition and will be kept indefinitely.
 - K. Firearms and fired/discharged ammunition evidence will be turned into the Property and Evidence Management Division in adherence with Directive 700-00, Submitting Impounded Property. The sworn employee in charge of the case will submit a service request in PLIMS. The request will be submitted to the Crime Lab Division for review. Applicable firearms and ammunition evidence (discharged cartridge cases and fired bullets) are required for entry into the Integrated Ballistic Identification System (IBIS).
 - L. Sexual assault evidence kits impounded as part of a sexual assault investigation will be retained and submitted for laboratory analysis. The sworn employee in charge of the case will submit a service request in PLIMS for the evidence to be analyzed by the Crime Lab Division. Note: This does not apply to anonymous sexual assault kits, as they are impounded as found property, not evidence.

	Charlotte-Mecklenburg Police Department		700-002
	Interactive Directives Guide	Evidence Management	
		Effective Date: 8/30/2023	3 of 3

Sexual assault evidence kits attached to a criminal investigation will be retained indefinitely due to their evidentiary value and may not be destroyed, even after the case is closed.

- M. Case file items may be checked out to the case file. Items checked out to the case file will show as disposed from PLIMS. The name, assignment, and signature of the sworn employee taking custody of the items will be recorded in PLIMS.
- N. Transferring Evidence from Storage to Court

When it is expected that evidence taken from the Property and Evidence Management Division will be held by the court, the following procedure will be followed:

1. After the sworn employee obtains custody of evidence from the Property and Evidence Management Division, the property technician transferring the item will print the Property and Evidence Out to Court Form. This document will be given to the sworn employee transporting the evidence and the document to court.
2. If the items are held in evidence, the sworn employee will have the presiding judge, the clerk of court, or the district attorney sign the Property and Evidence Out to Court Form indicating which items are being held.
3. The sworn employee will return the signed Property and Evidence Out to Court Form to the Property and Evidence Management Division.
4. The property technician receiving the document will place it in the supervisor's mailbox. The supervisor will then process the document and attach it in PLIMS.

	Interactive Directives Guide		Release of Property
	Effective Date: 9/27/2023		1 of 2

I. PURPOSE

This policy establishes guidelines for the Charlotte-Mecklenburg Police Department (CMPD) regarding releasing impounded property to the proper owner.

II. POLICY

CMPD will release impounded property when it is no longer required to be held to the rightful entity pursuant to established procedures and legal requirements.

III. DEFINITIONS

- A. Impounding Officer: The sworn employee responsible for collecting and submitting evidence.
- B. Investigating Officer: The sworn employee assigned to the case in KBCOPS and responsible for the property's disposition.
- C. Property & Laboratory Information Management System (PLIMS): The electronic system used by CMPD for documenting all property, including tracking the chain of custody from Intake, laboratory examination, and the disposition of all property in CMPD custody.

IV. PROCEDURE

- A. For evidence to be released, the Property and Evidence Management Division must have authorization for property release, a status change in PLIMS approved by a supervisor, or an associating document signed by a district attorney or judge. The release of found and/or safekeeping property requires a status change of ready to release to the owner in PLIMS and does not require a supervisor's approval.
- B. The sworn employee's supervisor is responsible for reassigning property impounded by/or assigned to a sworn employee who has separated from CMPD.
- C. When possible, the impounding officer should give the person to whom the property is to be released the complaint number of the case under which the property is filed.
- D. For found property or evidence, the investigating officer or impounding officer is responsible for making a reasonable attempt to determine the owner's name and complete address (i.e., checking serial numbers in NCIC, talking to witnesses, etc.), entering the information in PLIMS, determining the correct owner/person who should receive found property or evidence, and entering final dispositions into PLIMS.
- E. Firearms and fired evidence should not be released or destroyed until all analyses and investigations are complete or it becomes legally necessary.
- F. The Property and Evidence Management Division will ensure that the final disposition for found, recovered, and evidentiary property entered in PLIMS by the investigating officer is accomplished within six (6) months after legal requirements have been satisfied.

I. PURPOSE

This policy establishes guidelines for the Charlotte-Mecklenburg Police Department (CMPD) regarding dispositions and release of evidence in non-productive cases.

II. POLICY

CMPD will complete the proper disposition of items in felony and misdemeanor cases that are of no value to the investigation and the disposition of items where a suspect has not been timely identified in misdemeanor cases.

III. DEFINITIONS

- A. Investigating Officer: The sworn employee assigned to the case in KBCOPS and responsible for the disposition of the property.
- B. Property & Laboratory Information Management System (PLIMS): The electronic system used by CMPD for documenting all property, including tracking the chain of custody from Intake, laboratory examination, and the disposition of all property in CMPD custody.

IV. PROCEDURE

- A. Evidence should be disposed of when it becomes apparent that the evidence held has no value and will not contribute to the investigation using the following criteria:
 - 1. The evidence in question could not specifically identify a suspect.
 - 2. No suspect has been developed, and there is no likelihood that one will be developed.
 - 3. No circumstances exist which would justify retaining the evidence.
 - 4. The investigating officer or their supervisor concurs with the decision to dispose of evidence.
 - 5. Once it is determined that the property is of no value to the case, the property in question will be released to the rightful possessor, excluding contraband or illegal items that must be destroyed. If the property is not claimed by the person entitled, the items will either be disposed of or advertised and sold at an auction.
- B. Misdemeanor evidence collected in cases where no suspect is known can be disposed of after three (3) years.
- C. Misdemeanor evidence (excluding misdemeanor evidence from DWIs, domestic violence, misdemeanor death by vehicle, and sexual assaults) in cases dismissed with leave can be disposed of after five (5) years.
- D. Several qualifications for the release of evidence are applicable at all times:

1. Exceptions can be made in any case when reason exists for keeping evidence longer than the prescribed time.
 2. Fingerprint evidence will not be subject to disposition and will be kept indefinitely.
- E. The Property and Evidence Management Division will ensure that the final disposition for found, recovered, and evidentiary property entered in PLIMS by the investigating officer is accomplished within six (6) months after legal requirements have been satisfied.

I. PURPOSE

This directive establishes guidelines for Charlotte-Mecklenburg Police Department (CMPD) employees requesting forensic analyses of physical evidence from the Crime Lab Division in order to provide evidence integrity, continuity, and documented chain of custody.

II. DEFINITIONS

- A. AFIS – NGI: The Automated Fingerprint Identification System (NC) and the (NGI) Next Generation Identification (FBI) are systems that provide automated fingerprint search capabilities, latent searching capability, electronic image storage, and electronic exchange of fingerprints and responses. These systems allow the CMPD Crime Lab Division to quickly search for potential contributors of latent fingerprint impressions.
- B. Buccal swab: Known cheek scraping collected from an individual relevant to the case submitted as either a suspect standard or for elimination purposes.
- C. Combined DNA Index System (CODIS): The FBI managed database of DNA profiles, including casework and convicted offender samples.
- D. Elimination Standard: Known DNA sample from an individual other than the suspect that could potentially be linked to a crime scene or evidence item.
- E. Integrated Ballistic Identification System (IBIS): IBIS is the equipment that is used to acquire digital images of discharged cartridge casing for correlation in the NIBIN.
- F. Investigating Officer: The sworn employee assigned to the case in KBCOPS who is responsible for the disposition of the property.
- G. National Integrated Ballistic Information Network (NIBIN): NIBIN is the database of digital images maintained by the Bureau of Alcohol, Tobacco, Firearms, and Explosives (ATF).
- H. Property and Laboratory Information Management System (PLIMS): PLIMS is the electronic system used by the Charlotte-Mecklenburg Police Department for documenting all property. It will track the chain of custody from intake, laboratory examination, and disposition of all property in CMPD custody.
- I. Touch DNA (or contact DNA): Evidence that has no identifiable body fluid and could contain DNA only as a result of touching an item with the skin.

III. PROCEDURE

For the purpose of this directive, the “investigating officer” will be defined as the person assigned as the primary investigator as indicated in the KBCOPS case assignment history.

- A. The investigating officer may request laboratory analysis by properly completing the service request function in the PLIMS application.
- B. All evidence shall remain in the Property and Evidence Management Division until requested by Crime Lab Division personnel.
- C. Sexual Assault Cases

	Charlotte-Mecklenburg Police Department		700-006
	Interactive Directives Guide	Laboratory Analysis of Evidence	
		Effective Date: 11/1/2022	2 of 5

1. The first submission in sexual assault cases will be limited to the sexual assault evidence kit and any associated known standards, if applicable.
 2. If the kit produces a DNA profile foreign to the victim, no additional items will be accepted for DNA testing unless case circumstances (such as multiple suspects or the DNA detected is attributable to a consensual partner) dictate the need for additional processing.
 3. If the kit is negative, additional items such as clothing or bedding may be submitted in a separate request.
 4. Depending on case circumstances, additional evidence items may be submitted as part of the initial request after consultation with the CMPD biology section staff.
- D. Touch DNA (or Contact DNA)
1. Touch DNA evidence will be processed only in violent crime cases. Exceptions may be made with prior approval for cases of significant interest to the department and cases that are part of a series or suspected of being related (same suspect(s), MO, date/time, location, or other factors). Evidence other than touch items will be considered for testing prior to accepting touch DNA samples if available.
 2. Touch evidence in violent crimes will be considered after consultation with the investigating officer.
 3. Elimination standards from all victims and individuals with access to the area where the touch DNA sample was taken must be submitted prior to touch evidence being tested for DNA.
 4. Swabs from public areas or areas where all known individuals with access to that area cannot be eliminated will not be tested for touch DNA due to the high likelihood of mixtures with limited or no identification value.
- E. DNA Testing in Firearms Related Cases
1. Requests for DNA testing in non-violent firearms related cases will be reviewed by the CMPD Firearms Enforcement Unit. Requests in cases where possession of the firearm is in question will be placed in a hold status until the CMPD Crime Lab Division is notified by the supervisor of the CMPD Firearms Enforcement Unit to proceed with DNA testing. The CMPD Firearms Enforcement Unit will evaluate factors such as the involvement of prolific offenders, criminal history, and the likelihood of prosecution when determining which cases will go forward with DNA testing.
 2. The gun and magazine are the only items that will be processed in possession cases. Ammunition will not be tested for DNA in non-violent crimes since possession of live ammunition alone will not result in criminal charges.
 3. Items taken from an individual will not be processed when possession of the item is not in question or possession can be established by other means such as an eyewitness account or video.

	Charlotte-Mecklenburg Police Department		700-006
	Interactive Directives Guide	Laboratory Analysis of Evidence	
		Effective Date: 11/1/2022	3 of 5

F. Fired Evidence

1. Fired evidence will not be processed for DNA, except in homicides when there is no other evidence to identify a suspect or link an individual to the scene or when the circumstances of a homicide case dictate.
2. A meeting with a CMPD biology section supervisor is required to review the evidence prior to accepting a request to test DNA on discharge cartridge cases. Coordination with the CMPD Firearms Section may be required.

G. Combined DNA Index System (CODIS) Submissions

1. Unknown DNA profiles developed as a result of DNA testing must meet the following criteria in order to be entered into CODIS:
 - a. The profile must originate from and/or be associated with a crime scene;
 - b. There must be a direct link between the evidence being tested and a suspect.
2. The following are not eligible for CODIS entry:
 - a. Victim profiles;
 - b. Profiles from individuals expected to be linked to a scene or item (i.e., homeowners, family members, items removed from a person);
 - c. Items retrieved from a person or a person's property when the intent is to link that person to the item;
 - d. Possession of firearm by felon cases. DNA profiles from possession cases can be compared to known standards but cannot be submitted to CODIS.
3. The submitting officer must provide sufficient information regarding the origin of the evidence items for the lab to make a determination regarding CODIS eligibility using the criteria above.
4. CODIS eligibility of potential DNA samples will be considered when evaluating whether or not a request will be accepted for DNA testing, especially in cases where no suspect has been identified or when DNA testing (and the resulting CODIS entry) is intended to provide an investigative lead.
5. If a CODIS match is made, the CMPD Crime Lab Division will request a known standard from that individual for comparison to the evidentiary DNA profiles. This allows the Crime Lab Division to directly compare the individual's known profile to the profile from the evidence item. The CMPD Crime Lab Division does not have access or chain of custody rights to any DNA profiles that were generated by the North Carolina State Crime Lab.

H. Latent fingerprints shall be submitted daily by the Property and Evidence Management Division. Latent fingerprints of value shall be maintained or archived by the Latent Prints Section.

	Charlotte-Mecklenburg Police Department		700-006
	Interactive Directives Guide	Laboratory Analysis of Evidence	
	Effective Date: 11/1/2022		4 of 5

1. Latent prints received are evaluated as to their quality upon receipt. All AFIS quality latent prints are searched in the State AFIS as they are received. If a suspect is identified, the submitting officer will receive an identification report via email link, usually within several days after the prints are received. Notifications of AFIS entries with negative results will have an AFIS Entry Search Record form attached to the Case file in PLIMS. A service request is not required to evaluate and enter AFIS quality prints. In general, NGI searches will be limited to violent crimes.
 2. Officers may submit a direct comparison request to compare latent prints of value to a known suspect if the suspect has a PID or State ID number. Those individuals without numbers cannot be compared unless they are brought in and submit elimination prints or known standards are obtained by the investigating officer.
 3. Physical evidence may be submitted for latent print processing. Drug evidence processing requests must come from the District Attorney's Office or directly from the Narcotics Unit.
- I. Tests from applicable firearms and applicable discharged cartridge cases will be entered in the Integrated Ballistic Identification System (IBIS)/National Integrated Ballistic Information Network (NIBIN). A service request is not required for IBIS/NIBIN entry (exceptions noted below).
1. IBIS/NIBIN entry will be automatic for semiautomatic firearms chambered for 380 Auto, 9mm Luger, .40 S&W, and .45 Auto calibers. Semiautomatic pistols chambered for other calibers not previously noted, semiautomatic rifles chambered for 7.62x39mm Russ and 223 Rem calibers, and 12 Gauge shotguns can also be submitted for IBIS/NIBIN entry but will require a service request.
 2. Officers must submit a service request for firearms that are evidence in homicide, sexual assaults, robbery, ADW with injury, OIS cases, or when a direct comparison to fired evidence is needed.
 3. Discharged cartridge casings of applicable calibers submitted as evidence in shooting incidents (e.g., SIOD, DTP, ADW) will automatically be screened by the Firearms Section. Suitable representative samples will be submitted for IBIS/NIBIN inclusion. Cases in which the same caliber firearm is included will be the exception and will require a service request for analysis.
 4. Notifications of IBIS/NIBIN entries will be attached to the case information tab in PLIMS.
 5. The investigating officer will receive a report via email link of any association made due to IBIS/NIBIN searches.
- J. The investigating officer must provide as much information as possible about the relationship of the evidence to the facts of the case and what needs to be established through evidence analysis. This information is entered into PLIMS in the request field of the service request function.

	Charlotte-Mecklenburg Police Department		700-006
	Interactive Directives Guide	Laboratory Analysis of Evidence	
		Effective Date: 11/1/2022	5 of 5

- K. Crime Lab Division analyst may contact the investigating officer to obtain clarification or additional information regarding evidence analysis.
- L. Case priority, analytical procedures, processing sequence, techniques, and methodology, shall be determined by a Crime Lab Division analyst or supervisor. See the Crime Lab Priority SOP for requests to expedite testing.
- M. The chain of custody of evidence is tracked through the PLIMS application.
- N. The investigating officer shall immediately notify the Crime Lab Division, followed by a written supplement or e-mail, if for any reason a requested laboratory analysis becomes unnecessary or if there are changes in the case, which should modify, terminate or expedite laboratory work already in progress.

	Charlotte-Mecklenburg Police Department		700-007
	Interactive Directives Guide	Property Seized from Pawn Shops	
		Effective Date: 11/21/2022	1 of 3

I. PURPOSE

To establish Charlotte-Mecklenburg Police Department (CMPD) guidelines for the lawful seizure and disposition of property confiscated as evidence from a pawn shop.

II. POLICY

Property (i.e., voluntarily or involuntarily impounded or seized) from a pawn shop will be seized only when there is probable cause to believe it is evidence of a crime. All property seized from a pawn shop will be submitted to the Property and Evidence Management Division for storage according to the terms and provisions of this directive and in Directives 700-001, Submitting Impounded Property, and 700-002, Evidence Management.

III. PROCEDURE

A. Seizure of Pawn Shop Evidence

1. Sworn employees considering impounding evidence from a pawn shop must have probable cause to believe the property is evidence of a crime, as indicated by one of the following:
 - a. A positive identification of the property by the victim of a reported crime; or
 - b. Identifying information connecting the property in the pawn shop to a particular crime, such as a serial number or other identifying marks; or
 - c. Information connecting a particular suspect pawning the property to a particular crime.
2. The investigating sworn employee with probable cause to seize an item from a pawn shop as evidence of a crime will direct the victim or reporting person not to be present at the pawn shop when evidence is impounded. A victim or reporting person will be advised that property seized from a pawn shop is held by the department as evidence in a criminal case and will be released pursuant to the terms and conditions of this directive.
3. Under certain limited circumstances an investigating sworn employee may utilize a "Hold" procedure. The "Hold" procedure is a voluntary agreement between the department and the pawn shop to hold an item for thirty (30) days at the pawn shop prior to selling it. At the end of the thirty (30) days, the item(s) will be released. The following examples are provided as appropriate circumstances for utilizing the voluntary "Hold" procedure:
 - a. The sworn employee has probable cause to seize the property, but the size or weight of the property presents a problem for the department in transporting and storing the property in the Property and Evidence Management Division; or
 - b. The sworn employee does not have probable cause to seize the property at this time but has at least reasonable suspicion to suspect the

	Charlotte-Mecklenburg Police Department		700-007
	Interactive Directives Guide	Property Seized from Pawn Shops	
		Effective Date: 11/21/2022	2 of 3

property may be evidence of a crime and that probable cause may develop with an additional thirty (30) days to investigate the case.

4. The investigating sworn employee will ask for the consent of the pawn shop to voluntarily release the property. If the pawn shop voluntarily consents to release the property, a Property Report Form, Consent to Search Form, and an Inventory of Seized Property Form will be completed, and copies of each form provided to the pawn shop representative.
5. If the pawn shop does not voluntarily consent to release the property, the sworn employee will secure a search warrant prior to seizing the property. The search warrant will be executed, and the property impounded as evidence by the officer assigned to the case. A copy of the search warrant, the Property Report Form, and an Inventory of Seized Property Form will be completed, and copies provided to the pawn shop representative.
6. The Pawn Shop Unit will assist investigating officers with impounding property from a pawn shop when requested.
7. During an investigation involving evidence of a pawn transaction, the investigating sworn employee must submit the pawn ticket for fingerprint comparison.
8. If a case is presented for prosecution, the investigating sworn employee will obtain and present a written statement from the pawn shop employee who accepted the property for sale and a copy of the pawn ticket. The written statement must provide the District Attorney with available identifying information about the person who pawned the item. The statement may include a request for restitution from the pawn shop.

B. Disposition and Release of Pawn Shop Evidence

1. All property impounded from a pawn shop will be entered into Property and Laboratory Information Management System (PLIMS). Once the property is entered into the system, the system will automatically generate a status for the item.
2. Once it is determined that an item is no longer needed as evidence in a criminal case, the investigating sworn employee will complete a status change in PLIMS of "Ready to Release to Owner" and associate the owner. The property will be released to the owner unless the investigating sworn employee determines there is evidence of fraud on the part of the owner reporting the crime, there is a court order directing the disposition of the property to another person, or the victim refuses to prosecute the suspect. Property seized from a pawn shop will be held by the department for 90 days from the date of the pawn unless there is a court order specifying an earlier date to release the property. Property seized from a pawn shop as evidence of a crime will be released as follows:
 - a. Property seized from a pawn shop and held as evidence in a felony prosecution.

	Charlotte-Mecklenburg Police Department		700-007
	Interactive Directives Guide	Property Seized from Pawn Shops	
		Effective Date: 11/21/2022	3 of 3

When a felony case is presented for felony screening, the sworn employee presenting the case shall request the Assistant District Attorney papering the case to authorize the release of the evidence per departmental policy on the District Attorney Property Disposition Form (A-73-PD). Before completing a status change of ready to release to an owner in (PLIMS), the sworn employee papering the case will photograph the property and maintain copies of the photographs as evidence per directive 700-001; or

- b. Property seized from a pawn shop and held as evidence in a misdemeanor prosecution.

If a warrant is signed for the prosecution of a misdemeanor crime, the sworn employee in charge of the case will request the District Attorney's Office to authorize the release of the property per departmental policy pending the final disposition of the case. Prior to completing a status change of ready to release to an owner in PLIMS, photographs will be taken and maintained as evidence per directive 700-001.

- c. Property seized from a pawn shop and held as evidence for a time period of 90 days in PLIMS will be released if no suspect has been identified to prosecute for a crime involving the property.
- d. After 90 days, if a sworn employee assigned to investigate a crime involving property seized from a pawn shop has not identified a suspect to charge with the crime, the sworn employee will request a status change in PLIMS of ready to release to an owner and send it to an immediate supervisor for approval.

C. Enforcement of the Pawn Shop fingerprint ordinance.

- 1. Violations of the ordinance are to be referred to the Pawn Shop Unit for investigation.
- 2. The Pawn Shop Unit will document alleged violations of the Pawn Shop fingerprint ordinance in KBCOPS.

D. Retention schedule for pawn tickets

Pawn tickets will be retained by the Pawn Shop Unit for one year.

I. PURPOSE

This policy establishes guidelines for Charlotte-Mecklenburg Police Department (CMPD) employees regarding the use, access, and release of records and other information in the possession of the CMPD and to distinguish public records from confidential information.

II. POLICY

North Carolina law provides that records of criminal investigations and criminal intelligence information are confidential. Certain information is public record with respect to criminal investigations and personnel and is required to be released in accordance with North Carolina law.

All records and information created or collected during the scope of an employee's job duties are the property of the CMPD and are subject to the policies and applicable laws regarding access, release, retention, and destruction as outlined in Directive 800-004, Records Retention and Disposition and as listed below. Employees who edit, alter, erase, duplicate, copy, record, or otherwise create personal copies of CMPD records and information for an unintended purpose and/or without a justified law enforcement purpose will be subject to appropriate disciplinary action.

III. DEFINITIONS

- A. **Public Records:** All documents, papers, letters, maps, books, photographs, films, sound recordings, magnetic or other tapes, electronic data-processing records, artifacts, or other documentary material, regardless of physical form or characteristics, made or received pursuant to law or ordinance in connection with the transaction of public business by any agency of North Carolina government or its subdivisions. Agency of North Carolina government or its subdivisions shall mean and include every public office, elected or appointed public officer or official (State of North Carolina or local government), institution, board, commission, bureau, council, department, authority, or any other unit of government of North Carolina or of any county, unit, special district, or other political subdivision of government.
- B. **CMPD Information:** Any information accessed or maintained by CMPD including personnel information and information generated by other certified law enforcement agencies/government agencies and information available for use by CMPD employees.
- C. **Records of Criminal Investigations:** Records or any information that pertains to a person or group of people that is compiled by public law enforcement agencies for the purpose of attempting to prevent or solve violations of the law, including information or electronic evidence derived from victims or witnesses, laboratory tests, surveillance, detective work, confidential informants, photographs and measurements. Records also include any documents, worksheets, reports, or analyses prepared or conducted by the North Carolina State Laboratory at the request of any public law enforcement agency in connection with a criminal investigation.
- D. **Custodial Agency Recordings:** Any visual, audio, or visual and audio recording captured on a body worn camera (BWC), digital mobile video recording (DMCR),

traffic/real-time crime center camera (RTCC), or any other video or audio recording device operated by or on behalf of the Charlotte-Mecklenburg Police Department or other law enforcement agency, while carrying out law enforcement duties. This term does not include video or audio recordings created for the purpose of documenting internal investigation interviews, witness interviews, or suspect interrogations. Non-custodial recordings include visual, audio, or visual and audio recordings that are part of internal investigations or are owned by a third party and have been made available to CMPD for crime prevention, crime investigation, or other official law enforcement-related duties.

- E. Records of Criminal Intelligence Information: Records or information that pertain to a person or group of persons that is compiled by a public law enforcement agency in an effort to anticipate, prevent or monitor possible violations of the law.
- F. Personnel Records: An employee’s personnel file consists of any information, in any form, gathered by the City of Charlotte with respect to that employee and may include but is not limited to an employee’s application, selection or non-selection, performance, promotions, demotions, transfers, suspension, and other disciplinary actions, evaluation forms, leave, salary, and termination of employment. The term “employee” includes former employees of the City of Charlotte. This includes disciplinary files (including Response to Resistance materials) maintained in the CMPD Internal Affairs Bureau, Human Resources, or the employee’s assigned division.
- G. 911 Database: Automatic Number Identification (ANI) and Automatic Location Identification (ALI) information that consists of the name, address, and telephone numbers of telephone subscribers, or the email addresses of subscribers to an electronic emergency notification or reverse 911 system, that is contained in a city or county 911 database. An electronic emergency notification, or reverse 911 system, is confidential and is not a public record.

IV. PROCEDURE

- A. CMPD employees must observe security measures to maintain the privilege of using available information sources.
- B. The disclosure of criminal record or history information shall be only to members of authorized criminal justice agencies who have an official need for such information and in compliance with the restrictions set forth by the Division of Criminal Information (DCI). Violation of National Crime Information Computer (NCIC) or Division of Criminal Information (DCI) security measures could result in the termination of the CMPD’s participation in Federal and State networks and denial of access to those networks.
- C. Custodial agency recordings and recordings obtained for criminal investigation purposes through partnerships with third parties – e.g., the City of Charlotte Department of Transportation, Charlotte Area Transit System, Charlotte-Mecklenburg Schools, Charlotte Housing Authority, Ring Law Enforcement Portal, SafeBizCharlotte, etc. - are not public records as defined by G.S. 132-1 and G.S. 132-1.4 and are not personnel records as defined in Article 7 of Chapter 126 of the General Statutes, G.S. 160A-168,

and G.S. 153A-98. These recordings shall be released or disclosed only as provided by Chapter 132 of the General Statutes, GS 132-1.4, and GS 132-1.4A.

V. ACCESS TO CMPD INFORMATION

Employees may access CMPD information, including police, public personnel information, NCIC, DCI, records made available to the CMPD through partnerships with public or private entities, and any other county or city database only for the intended purpose, on a justified law enforcement basis. Access and subsequent release of such information must be in accordance with all laws and CMPD policies and procedures.

This does not restrict any employee from obtaining information that would be available to any member of the public. However, when acting in a non-law enforcement capacity, the employee must access such information in the same manner and follow the same procedure as a member of the public.

VI. USE OF INFORMATION

A. Use and Release of CMPD Information

This information is for law enforcement purposes and is not a public record.
 8. Employees working secondary employment should use information systems for law enforcement use on a justified basis only.  9. Employees are not to discuss case details with other employees who do not have a legitimate need for such information.
 10. In instances where CMPD has access to databases, records, recordings, and other information retained by other departments, employees will not provide access to or disseminate this information to others. This information does not belong to CMPD. No access or dissemination should be made of this information unless release is required by law or the information is public record and there is a legitimate law enforcement need.

Department employees (who are the appropriate spokespersons on a particular concern) are expected to respond accurately and promptly to media requests for information and shall not represent opinion as fact. Except for routine requests for information, department employees will notify the Public Affairs Director of any media requests they receive.

Any concerns regarding the parameters of this directive encountered by either police personnel or media representatives should be reported in writing to the Public Affairs Director.

2. Media representatives requesting a feature story interview or ride-along (excluding on-the-scene situations) with on-duty members of the CMPD should first contact the PAD. CMPD employees who receive direct requests for ride-alongs or interviews will contact, or refer the requestor to, the PAD.
3. Once a request for a media ride-along is approved by the PAD and service area or unit commander, the requestor must complete and sign the Request for Ride-along form. Unless otherwise approved by the Public Affairs Director, all media ride-alongs are limited to two (2) hours.
4. Media requests to accompany officers on ride-alongs during "at-risk" situations must be approved by the Deputy Chief of the affected division. An "at-risk" situation is defined as but is not limited to, planned incidents where there is a possibility that civilians face a higher-than-normal risk of injury or harm. This also

Media representatives will not accompany officers into a residence or onto private premises during the service of a search warrant and/or arrest warrant.

5. All requests for public records should be directed to the Public Affairs Division. Public Affairs employees will work with other divisions, including the Police Attorney's Office, to coordinate responses to such requests. See 800-001.

 - H. Communications Division
 1. The DCI Division terminals are the only designated twenty-four (24) hour DCI terminals in CMPD Headquarters. DCI messages received at any other terminal not specifically intended for that terminal should be forwarded to a DCI Division terminal for proper dissemination.
 2. The 911 hang-up/call-back position within the Communications Division is responsible for receiving DCI messages intended to be immediately broadcast to patrol divisions.
 3. If a telecommunicator or DCI technician receives a request for service through a DCI terminal, the request will be properly handled, and a call for service should be entered in CAD when necessary.
 4. Telecommunicator and DCI technicians must have sufficient information to enter a call for service, including the name, address, and telephone number of the party to be contacted, the purpose for the call for service, the content of the message to be delivered, and the contact information from the requesting agency or person.

POLICE	Charlotte-Mecklenburg Police Department	800-003

	Effective Date: 12/13/2023	3 of 7

5. A Communications Division supervisor should be contacted for questions concerning whether a DCI request requires immediate attention.
6. DCI technicians will immediately send the request for service to the respective dispatch terminal if a DCI message requires an immediate police response, and the telecommunicator will enter a call for service.
 - a. An officer will be dispatched to deliver the message to the intended recipient.
 - b. Upon completion of the call for service, the assigned officer will complete a miscellaneous incident (MI) report through the CAD system.
 - c. The officer will notify the telecommunicator and/or the Communication Division supervisor of their actions.
 - d. When requested, the telecommunicator or the Communications Division supervisor will advise the DCI technician of the disposition of the call for service and any additional information if the original request for service was received through the Communications DCI terminal.
7. Hit Confirmation Request
 - a. In accordance with [14B NCAC 18B .0204](#), any agency entering record information into the NCIC restricted and unrestricted files shall provide hit confirmation twenty-four (24) hours a day. Hit confirmation of NCIC record means that an agency receiving a positive NCIC response from an inquiry must communicate with the official record holder to confirm the following before taking a person or property into custody:
 - (1). The person or property inquired upon is the same as the person or property identified in the record;
 - (2). The warrant, missing person, theft report, or protection order is still outstanding; or
 - (3). A decision regarding the extradition of a wanted person has been made; the return of a missing person to the appropriate authorities is still desired; the return of stolen property to its rightful owner is still desired; or the terms, condition, or service of a protection order still exist.
 - b. The official record holder must respond after receiving a hit confirmation request with the desired information or a notice of the amount of time necessary to confirm or reflect the record.
 - (1). Urgent: The originating agency has ten (10) minutes to respond to a hit confirmation request. If the originating agency fails to respond, subsequent hit confirmation requests will be sent in ten (10) minute intervals. The priority level urgent is typically used when the hit is the only basis for detaining a suspect.

POLICE	Charlotte-Mecklenburg Police Department	800-003
	Interactive Directives Guide	DCI Access and Messages
	Effective Date: 12/13/2023	4 of 7

(2). Routine: The originating agency has one (1) hour to respond to a hit confirmation request. If the originating agency fails to respond, subsequent hit confirmation requests will be sent in one (1) hour intervals. The priority level routine is typically used when the person or property is being held on local charges.

c. All hit confirmation requests must be sent to the DCI Division's DCI terminals for confirmation regardless of the originating agency, including hits entered by CMPD.

I. Stolen Vehicles

Officers will notify the DCI Division via phone (704-336-2340 or 704-336-2348) that a vehicle needs to be entered immediately into NCIC if stolen during an armed robbery or the vehicle has been identified as being used in the commission of a felony.

1. It is the responsibility of the officer taking the initial report to advise the DCI Division of the information on the vehicle in these incidents as soon as possible upon receiving the tag, vehicle identification number (VIN), and/or the registered owner's name, and the description of the vehicle; usually within thirty (30) minutes of arriving on scene.
2. If the tag and VIN are unknown, the registered owner's name should be transmitted so that the telecommunicator may query DMV information for the vehicles registered to the individual and match the description given.

J. KBCOPS Report Procedures

1. KBCOPS reports containing stolen items with a serial number or VIN listed in the property section and a dollar amount listed under stolen are sent electronically to the DCI KBCOPS queue (56-Communications) for entry into NCIC when the report is submitted for approval.
2. Reports that need to be removed from NCIC require an incident supplement to be created for that report requesting the property to be removed from NCIC, and the recovered property section should be completed with the serial number/VIN and dollar amounts completed. Narrative supplement reports do not get routed to "56-Communications".

K. NCIC Validations

1. Reports entered into NCIC must be validated by the officer assigned to the case. Validations are emailed to officers ninety (90) days after the incident and again one (1) year after the first validation. Some records are required to be kept indefinitely and validated until they are recovered (e.g., guns, missing persons, and violent persons).
2. The assigned officer will complete a validation by creating a narrative supplement report in KBCOPS.

POLICE	Charlotte-Mecklenburg Police Department	800-003
	Interactive Directives Guide	DCI Access and Messages
	Effective Date: 12/13/2023	5 of 7

- a. The narrative supplement should indicate that the victim was contacted and, in the opinion of the assigned officer, the record needs to remain in or be removed from NCIC. Contact may be made via letter, telephone, or in person.
- b. The first line of the narrative supplement should include “This supplement is submitted for NCIC validation.”
- c. The narrative supplement should be submitted to 56-Communications DCI/HotDesk for approval.

L. Missing Persons

1. Missing persons, regardless of age or circumstances, must be entered into NCIC within two (2) hours from when the reporting officer obtains the basic information necessary for entry, not when the report is submitted for approval. Basic information necessary for NCIC entry includes:
 - a. Name
 - b. Race
 - c. Gender
 - d. Date of birth or age if DOB is unknown
 - e. The location, date, and time the person was last seen
 - f. Every effort should be made to determine if the person is armed
2. Officers must notify the DCI Division by phone for any missing persons who qualify as an Amber Alert or Missing Endangered Alert after obtaining the basic information necessary for NCIC entry.
3. All other information is secondary and not initially necessary for NCIC entry (e.g., clothing description, scars, marks, tattoos, mode of travel, direction of travel, possible reasons for being missing, etc.).
4. A photograph should be obtained and scanned into the KBCOPS report prior to submission for approval. Photographs subsequently obtained may also be brought to DCI to facilitate scanning the photo into NCIC.
5. DCI technicians may enter communicable diseases and/or health conditions into the miscellaneous field of an NCIC missing person entry.

M. FBI Terrorist Watch List Hit

1. Officers are required to notify the FBI Terrorist Screening Center when a Terrorist Watch List hit is received through NCIC.
2. If a delayed hit occurs, officers are requested to contact the FBI at 1-866-872-9001 and report as much information as possible to the answering agent.

N. Federal Probation and Parole Hits

Officers are required to contact the assigned federal probation and parole officer listed in the hit within twenty-four (24) hours of receiving the hit and provide the context of the interaction with as much detail as possible.

O. Emergency Messages

1. Delivering emergency messages is a legitimate law enforcement function. Requests for the delivery of emergency messages may be received from the public, law enforcement agencies, hospitals, etc. CMPD will honor requests of the following nature:

- a. Situations that pose a threat to the safety of the message recipient or others (e.g., requests to check the welfare).
- b. Notification of serious illness, injury, or death.

2. Reasonable attempts will be made to deliver such messages to the intended recipient.

P. Fugitive Warrant Service

1. A DCI hit must specifically state whether the inquiring agency will extradite on a fugitive warrant.

2. The Violent Criminal Apprehension Team (VCAT) should be contacted before attempting to serve the warrant when the offender is wanted for a violent felony. If patrol cannot locate the fugitive, or a problem prohibits patrol from making the arrest, then VCAT should be notified for proper follow-up.

a. Officers making a fugitive arrest will submit a copy of the DCI hit before their tour of duty ends. DCI technicians will email the hit to vcat@cmpd.org.

b. The Mecklenburg County Sheriff's Office (MCSO) is responsible for facilitating the extradition process in fugitive court.

3. DCI messages that are fugitive-related but do not require an immediate response will be forwarded to the VCAT Unit for appropriate investigation.

a. The VCAT Unit will maintain a file on any DCI message received for follow-up investigation.

b. The VCAT Unit is responsible for notifying any unit within the CMPD that may have an interest in the person.

4. The VCAT Unit is designated as the contact for law enforcement agencies requesting CMPD service regarding fugitive matters. The requesting agency will be given the VCAT Unit sergeant's name, telephone number, and information regarding when to reach the VCAT Unit sergeant for additional assistance.

Q. Criminal History Request

1. Criminal history requests may only be requested for official law enforcement purposes.
2. Officers may request a criminal history from the DCI Division twenty-four (24) hours a day.
 - a. Officers must have a person in custody, and the person must be in possession of a gun to request a criminal history over the phone.
 - b. Officers requesting a criminal history in person must complete the [Criminal History Information Request Form](#). A DCI technician will complete the request and provide the officer with a copy of the criminal history.
3. Criminal history requests are required to be signed by the requesting officer. If the DCI Division receives a request over the phone or the officer does not need a physical copy of the criminal history, the officer is still responsible for signing the criminal history paperwork and providing it to the DCI Division.
4. Criminal histories completed by the DCI Division must be collected within thirty (30) days of the request. Criminal histories will not be emailed or faxed to a division office; however, one officer from a division is permitted to collect the paperwork for the entire division.
5. Any DCI user certified in DCI Module 2 who utilizes NCIC to run a criminal history is required to keep the signed Criminal History Information Request Form for one (1) year from the date of the completed request.

IV. PROCEDURE

A. Retention of Records

1. Records must be retained for at least the minimum length of time required by the applicable schedule for local government agencies. The schedules categorize records into twenty-one (21) standards. Each standard contains a record series list that describes the records that may be created by local government agencies and the minimum retention period for such records. Retention requirements for CMPD related records are found in the following nine (9) standards:

Standard 1: Administrative and Management Records

Standard 2: Budget, Fiscal, and Payroll Records

Standard 4: Human Resources Records

	Charlotte-Mecklenburg Police Department		800-004
	Interactive Directives Guide	Records Retention and Disposition	
		Effective Date: 10/31/2022	2 of 4

- Standard 5: Information Technology Records
- Standard 6: Legal Records
- Standard 7: Public Relations Records
- Standard 11: Animal Service Records
- Standard 13: Emergency Medical Services and Fire Department Records
- Standard 20: Law Enforcement Records

2. Retention of records found in these nine (9) standards must be completed according to the steps below:

- a. Retain CMPD records as noted in the applicable schedule for local government agencies. Retention standards are periodically updated and should be verified via the State Archives of North Carolina website: <https://archives.ncdcr.gov/government/local>. The most recent versions, as of this directive's most recent update, are available as follows:
 - (1) General Records Schedule for Local Government Agencies <https://archives.ncdcr.gov/media/1066/open>
 - (2) Program Records Schedule for Local Government Agencies <https://archives.ncdcr.gov/media/1067/open>

B. Disposal of Records

- 1. Records listed on one of the schedules for local government agencies may be destroyed after the specified retention period ends.
- 2. The employee in possession of records that may need to be destroyed must contact the CMPD Records Management Division manager to confirm record destruction eligibility. When eligible for destruction:
 - a. Paper records must be shredded on-site by employees or by a firm contracted to provide secure shredding services to the CMPD. The Records Management Division manager will coordinate record destruction.

	Interactive Directives Guide	Records Retention and Disposition	
	Effective Date: 10/31/2022		3 of 4

- b. Digital records must be destroyed in such a fashion to render them unrecoverable. The Records Management Division manager will coordinate the destruction of any media containing record information that cannot be erased or overwritten.
 3. Original paper records that have been duplicated by electronic means may be destroyed before the retention period specified in the schedule without further approval from the Records Management Division manager if all the following apply:
 - a. The electronic copy of the information containing the original record is maintained for the time specified in the applicable schedule for local government agencies.
 - b. The original paper record has not been scheduled for permanent preservation.
 - c. Approval is obtained from the North Carolina Department of Natural and Cultural Resources (NC DNCR), Division of Archives and Records, Government Records Section.
 - d. The Police Attorney's Office agrees to the destruction of the original paper records.
 - e. The destruction is recorded in a permanent record.
 4. Records not authorized for destruction or other disposition may be disposed of by turning them over to the CMPD Records Management Division manager, who will either:
 - a. Request approval to destroy the records by submitting the State Archives of North Carolina "Request for Disposal of Unscheduled Records" form to the NC DNCR Division of Archives and Records, Government Records Section; or
 - b. Submit a written request to the NC DNCR Division of Archives and Records, Government Records Section asking that they assume custody of the records.
- C. Retention and Disposal of Email
 1. Records communicated through the email system are public records under the North Carolina Public Records Act and must be made accessible unless their content is exempt from inspection by statute or other regulation. As such, email messages must be easily identifiable, protected, and retained in compliance with the relevant record series as listed on the applicable schedule for local government agencies.
 2. Individual users are responsible for retaining email for the required retention period and should not rely on the Enterprise Vault for records management.

	Interactive Directives Guide	Records Retention and Disposition	
		Effective Date: 10/31/2022	4 of 4

3. Users may have the ability to retrieve deleted items for a short time in the instance of accidental deletion to recover emails that contain record information.
4. Emails that contain information not noted on the General or Program Records Schedules for Local Government Agencies that do not have administrative, fiscal, legal, or historical value are considered transitory records and are deemed not to have any documentary or evidential value. Such emails may be deleted as soon as they have served their purpose. Examples of such records include meeting notices or requests for meetings, confirmations of appointments, travel reservations, personal messages, junk mail, or transmittals of documents without comments.

I. PURPOSE

To establish guidelines for the immediate safety of law enforcement personnel and the community, provide coordination to ensure the integrity of investigations, and prevent duplication of investigative efforts.

II. POLICY

Employees will search KBCOPS to ensure that their investigation does not conflict with another investigation. Employees will use the “watch list” function in KBCOPS to enter their ongoing investigations so that other employees can search that information and trigger a notification of potential conflicting investigations.

III. DEFINITIONS

10. Covert activity by officers or by informants acting under the direction of sworn employees, that could initiate a response from citizens or local police who may reasonably believe that a crime is in progress;
 11. Any other high-risk or specialized law enforcement activities that would benefit from event deconfliction.
- E. Search Officer: Any employee conducting a KBCOPS deconfliction search pertaining to a particular person, location, or vehicle.

 - G. Authorized Users and Administrators: Any authorized sworn or civilian user of KBCOPS.

IV. PROCEDURE

A. Deconfliction Officer

Deconfliction entries are the responsibility of the deconfliction officer:

1. The deconfliction officer will enter persons, locations, and/or vehicles that may come into conflict with other sensitive investigations as a “watch list” entry in KBCOPS and identify it as a “deconfliction”.
 - a. Enter the effective dates, notes, and search officer notification action as “proceed” or “do not proceed” until contact is made with the deconfliction officer or the deconfliction officer’s supervisor.
 - b. A “do not proceed” entry must be approved by the deconfliction officer’s supervisor.
 - c. Enter persons, locations, and vehicles.

1. The search officer must conduct a deconfliction search in KBCOPS or another deconfliction system available in their current assignment both in the initial phase of an investigation and again no more than two (2) hours prior to a qualifying event. Using the required criteria described below, the search officer will determine if the planned interaction conflicts with an existing investigation.
 - a. Person: Requires both first and last name, including all known aliases containing first and last names.

	Charlotte-Mecklenburg Police Department		800-005
	Interactive Directives Guide		Deconfliction Policy
			Effective Date: 9/8/2022

- b. Location: Requires the block number, street direction, street name, and city.
 - c. Vehicle: Requires either VIN or Registration Plate; or a combination of make, model, and year.
 - 2. Normal KBCOPS searches may result in a potential conflict. If this occurs, the searching employee is still required to follow the deconfliction notice.
 - 3. Deconfliction Notice to Search Officer
 - a. If a deconfliction notice is displayed, the search officer must contact the deconfliction officer indicated as soon as practical before the planned interaction. If contact cannot be made, the officer must make direct contact with the deconfliction officer's supervisor(s).
 - b. If the deconfliction notice states "do not proceed" or in any way prohibits the officer from continuing the planned interaction, then contact must be made with the deconfliction officer or someone in the deconfliction officer's chain of command.

	Charlotte-Mecklenburg Police Department		800-010
	Interactive Directives Guide	Early Intervention System	
		Effective Date: 6/5/2023	1 of 11

I. PURPOSE

This policy establishes guidelines for Charlotte-Mecklenburg Police Department (CMPD) employee use of the Early Intervention System (EIS). The EIS seeks to identify sworn employees who may need assistance before policy violations arise. The primary goal of the EIS is to intervene before issues arise, address concerning patterns of behavior, enhance communication between supervisors and employees, and encourage supervisor coaching and mentoring of employees while supporting employees in a non-punitive manner. The aim of EIS is to identify and modify potentially problematic behavior before it results in actions that are contrary to the mission and fundamental values of the CMPD.

The EIS employs research-based information techniques to better identify employees who may need assistance to improve their interactions or behaviors. CMPD recognizes that stressors, trauma, and the cumulative effects of modern policing may have negative effects on behavior. The EIS is intended to help identify areas of concern, and potential issues, and design customized strategies to assist sworn employees in a positive manner.

II. POLICY

- A. The Charlotte-Mecklenburg Police Department’s (CMPD) Early Intervention System (EIS) shall provide predictive analytics for all sworn employees, by providing supervisors with the ability to provide appropriate non-disciplinary assistance as needed. Early Intervention System alerts are not intended to be punitive or synonymous with negative discipline.
- B. Using the EIS developed by Benchmark Analytics based on national research, CMPD will identify those sworn employees with the greatest need for intervention. Supervisors with employee input will implement a non-disciplinary intervention to assist them with professional development and ensure that they are providing the highest level of service to the public. The EIS algorithm will evaluate several years of CMPD data and based on multiple indicator categories, calculate overall activity, behaviors, and trends relative to the nature of the assignment, geography, and peer group.
- C. EIS alert records are considered a confidential part of an employee’s personnel record under NCGS 160A-168 and must be protected in compliance with the restricted personnel file guidance provided in Directive 300-008, Personnel Records.
 - 1. Access to the EIS Dashboard containing risk data and employee information will be limited to the EIS administrators, key Public Safety Technology Solutions (PSTS) employees, and those who have a documented business need to access it at the discretion of the Chief of Police or Chief of Police’s appointed designee.
 - 2. When an alert is issued, only an employee’s chain of command and the persons listed above will have access to the employee’s risk data and supporting information.

	Charlotte-Mecklenburg Police Department		800-010
	Interactive Directives Guide	Early Intervention System	
	Effective Date: 6/5/2023		2 of 11

3. EIS Records are considered a personnel record, per Directive 300-008 Personnel Records, the following may view EIS alert history specific to an employee's restricted personnel file:
 - a. Employee's Chain of Command
 - b. Police Attorney
 - c. Human Resources Division Designated Employees
 - d. EIS Administrators
 4. All EIS records will be maintained in accordance with Directive 800-004 Records Retention and Disposition.
 5. An employee's EIS record will not be used for transfer and/or promotional processes.
- D. EIS alerts shall be reviewed by the designated supervisor upon receipt. Supervisors will receive an overdue push notification if an alert has not been reviewed in the EIS within five (5) working days.
 - E. For alerts related to the use of benefit time, supervisors shall first contact the CMPD Human Resources Division (HRD) for assistance. A supervisor-initiated course of action plan concerning the use of benefit time shall not be created without first gaining approval from the HRD and the EIS administrators.
 - F. The HRD shall be contacted for concerns related to a performance improvement plan (performance probation) or overall job aptitude.

III. DEFINITIONS

- A. **Actionable Risk:** An employee is highly likely to experience an adverse situation from the current date and requires intervention to assist them with professional development and ensure that they are providing the highest level of service to the public.
- B. **Activity Type:** The specific law enforcement action or behavior (i.e., arrests, use of force incidents, etc.) being evaluated.
- C. **Adverse Interaction:** A potential violation of law or policy that may occur in the future if proper interventions or assistance are not offered to the employee.

21. Perseverance

22. Overall wellness

- I. Early Intervention System (EIS): The EIS is an assessment tool that incorporates numerous sources of information to help generate a full depiction of sworn employee activity to aid the CMPD in identifying any needed early interventions. It is a research-based information tool that can be used to prioritize outreach to sworn employees who may need additional leadership support.
- J. EIS Administrators: The Quality Assurance Division captain and Strategic Policy Division lieutenant that manages the operation and maintenance of the EIS.
- K. Intervention: Non-disciplinary leadership engagement with employees with the purpose of impacting behavior that based on EIS indicators deviates from the statistical norm and may lead to undesirable outcomes for the employee and the CMPD.
- L. Peer Group: Sworn employees of similar rank, unit assignment, geography, and years of service. Peer group results identify activity patterns relative to the norm and are broken down into the following category levels – Very Low, Low, Expected, High, and Very High.
 1. Very Low: The sworn employee’s rate of occurrence for the activity type is two standard deviation units below the expected rate of occurrence. This means that about 95% of employees within the peer group have greater rates of occurrence in this activity type than this sworn employee. This sworn employee is in the bottom 5% of the activity type within the peer group.
 2. Low: The sworn employee’s rate of occurrence for the activity type is one standard deviation below the expected rate of occurrence. This means that about 68% of employees within the peer group have greater rates of occurrence in this activity type than this sworn employee. This sworn employee is in the bottom 32% of the activity type within the peer group.
 3. Expected: The sworn employee’s rate of occurrence for the activity type is within range of the rate of occurrence seen in the employee’s peer group in a given time interval (the default time interval is one year).
 4. High: The sworn employee’s rate of occurrence for the activity type is one standard deviation above the expected rate of occurrence. This means that about 68% of employees within the peer group have lower rates of occurrence in this activity type than this sworn employee. This sworn employee is in the top 32% of the activity type within the peer group.
 5. Very High: The sworn employee’s rate of occurrence for the activity type is two standard deviation units above the expected rate of occurrence. This means that about 95% of employees within the peer group have lower rates of occurrence in

this activity type than this sworn employee. This sworn employee is in the top 5% of the activity type within the peer group.

- M. Post-Intervention Assessment/Follow-up: A process to determine if a course of action changed the employee’s behavior(s) that prompted the initial intervention.
- N. Risk Factor Profile: Highlights the combination of factors that caused the EIS to identify a sworn employee as being at risk.
- O. Risk Levels: An indicator that highlights the probability of a sworn employee experiencing an adverse situation (i.e., suspension, complaint investigation, etc.) in a time interval from the current date. Risk levels include:
 - 1. Minimal Risk: A sworn employee is unlikely to experience an adverse situation in a time interval from the current date.
 - 2. Advisable Risk: A sworn employee’s activity patterns are trending towards experiencing an adverse situation and may need intervention to assist them with professional development and ensure that they are providing the highest level of service to the public.
 - 3. Actionable Risk: A sworn employee is highly likely to experience an adverse situation in a time interval from the current date and requires intervention to assist them with professional development and ensure that they are providing the highest level of service to the public.
- P. Risk Score: The Benchmark Analytics risk score predicts future risk by identifying activity patterns in sworn employee data (i.e., arrest activity, use-of-force events, traffic stops, etc.) that have been shown historically to result in adverse situations for sworn employees or the public. Additionally, the risk scores consider the employee’s nature of assignment, geography, and years of service.
- Q. Supplemental Course of Action Form: A form used to document meetings and add additional information about the course of action that is in process.

IV. PROCEDURE

- A. The EIS program will run automatically. Upon logging on to the EIS dashboard, the EIS administrators and designated sworn employees will be provided with the most current information on all sworn employees based on an individual’s likelihood of experiencing an adverse event in the next year. The EIS administrator, the employee’s supervisor, and the employee’s second-level supervisor will thoroughly review the alerts. The EIS administrator will monitor to ensure the employees’ supervisors are reviewing the alert and submitting a course of action form.
- B. The following alert types can be generated in the EIS:
 - 1. Advisable Alert

	Charlotte-Mecklenburg Police Department		800-010
	Interactive Directives Guide	Early Intervention System	
		Effective Date: 6/5/2023	6 of 11

2. Actionable Alert
 3. Supervisor Initiated Alert
- C. When an alert is generated, it is assigned to the sworn employee's second-level supervisor, usually a lieutenant, as listed on the CMPD organizational chart.
1. The sworn employee's chain of command will have access to the sworn employee's alerts from the EIS dashboard.
 2. The assigned supervisor will have three (3) working days to draft an initial course of action.
 3. If the assigned supervisor is unable to complete the initial course of action in five (5) working days, another supervisor from that unit or division shall be assigned the alert by the EIS administrator.
 4. The course of action plan drafted by the initiating supervisor (e.g., the division lieutenant) will be routed to the next level of supervision for approval within three (3) working days of receiving the alert. The next level of supervision cannot alter the course of action plan but must approve the course of action plan, reject the course of action plan, or request additional information.
 5. If the next level of supervision rejects the course of action plan or requests additional follow-up, the initiating supervisor will respond within three (3) working days. An email will remind the supervisor, their supervisor, and the EIS administrator if this timeframe is exceeded.
 6. The management and documentation of all CMPD CI's is the responsibility of the Vice and Narcotics Unit.

II. POLICY

In many instances, a successful investigation cannot be conducted without the use of confidential and reliable informants. A CI has a relationship with the CMPD and not an individual officer. When an officer is used as the contact person with a CI, the officer shall be acting in his/her official capacity. Adherence by the officer to directives and procedures is required at all times when dealing with confidential and reliable informants. It shall be the policy of the CMPD and its' employees to maintain strict confidentiality concerning the identity and efforts of its CI's.

III. DEFINITIONS

- A. Confidential Source: Any person who provides information about criminal activity on a one time or infrequent basis that may result in an investigation. The information alone may not be considered to be reliable for court purposes. A confidential source is not considered to be an informant and does not need to be registered as one. Examples: a 911 call, information from a concerned citizen.
- B. Confidential Informant (CI): A confidential source that, on an ongoing basis, provides information concerning criminal activity which leads to a police action such as an arrest, seizure, or follow up investigation. The confidential informant may provide this information in exchange for monetary or other lawful consideration. The information a CI provides is vetted and the reliability of information provided in the past determines his/her reliability for the purposes of court. Examples: person working towards substantial assistance in a criminal case, a person providing reliable information leading to probable cause to search a person, vehicle, or residence.
- C. CI Packet and Information File: Documentation completed about a person in order to determine an individual's suitability for becoming a CI. This confidential information file will be maintained by the Vice and Narcotics Unit in a secure area and will include accurate and inaccurate information the CI has provided police. It will also designate whether the CI is active, inactive or terminated.
- D. Master File: The Vice and Narcotics Unit will maintain a master CI file. This file will be located in a secure area and their access will be limited to the Major of the Special Investigations Bureau, Vice and Narcotics Captain, and the Vice and Narcotics Sergeants. If a member of Executive Staff requests to review a CI file for official business purposes, he/she will be permitted to review those files which are directly related to his/her inquiry and will be accompanied by the Vice and Narcotics Captain or SIB Major.

2. Upon completion of the CI Packet, the initiating officer(s) and the CI shall meet with a Vice & Narcotics Unit Supervisor or a designated sergeant that has attended the Informant Registration class prior to utilizing the CI. At this time a determination will be made by the vice supervisor or designated sergeant as to the usability of a CI.
3. In the event of exigent circumstances, a prospective CI may be used without first completing the CI Packet. However, this may be done only with the approval of a Vice and Narcotics Supervisor or Division sergeant responsible for drug investigations. If approval is granted the officer must complete the CI

		Effective Date: 10/23/2020	3 of 4

Information Packet within 48 hours of the information being provided and acted upon.

4. Officers will not utilize a CI when it is known that the informant is wanted by any law enforcement agency. This does not nullify any information the informant may provide however, an officer will not direct a CI to make a drug buy or let the informant out of his or her sight to verify that information. Once this information is obtained, the officer will ensure the CI is arrested and turned over to the appropriate law enforcement agency. If the CI is wanted by a jurisdiction that is refusing to extradite, officers will need the approval of a Vice and Narcotics supervisor prior to using the informant.

 - c. Update the Imprest Fund database with relevant information pertaining to the CI.

The defendant's cooperation is usually provided with the expectation that it might lessen the punishment. N.C.G.S. 90-95(h)(5) allows a person to provide substantial assistance in drug trafficking cases only.
- E. Drug Trafficking: The manufacturing, selling, or delivering, or possessing with the intent to manufacture, sell or deliver a controlled substance. Also, the creating, selling or delivering, or possessing with the intent to sell or deliver a counterfeit controlled substance.
- F. On Scene Substantial Assistance: Cases in which officers, upon approval from their supervisor agree to allow a drug trafficker to provide substantial assistance prior to formal charging.
- G. Post Arrest Substantial Assistance: Cases in which officers, their supervisor, and the Mecklenburg County D.A. FCT Supervisor agree to allow a drug trafficker to provide substantial assistance after being formally charged.

IV. PROCEDURE

- A. Guidelines for Post-Arrest Substantial Assistance:

A drug trafficker wanting to provide substantial assistance must be thoroughly screened. The OIC should:

	Charlotte-Mecklenburg Police Department		800-013
	<i>Interactive Directives Guide</i>	Substantial Assistance	
	Effective Date: 7/13/2021		2 of 5

1. Obtain a written confession from the defendant for the charge(s) for which he/she has been arrested.
2. Obtain all Information needed to complete the CMPD Criminal Informant (CI) packet as outlined in the Criminal Informant Directive. Defendants with a history of committing violent crimes or multiple drug charges will be considered on a case by case basis.
3. If the OIC believes that a defendant may be a habitual felon, the officer should reach out to the FCT supervisor or the HFT (Habitual Felon Team) supervisor to verify that. If it is determined that the defendant is currently indicted for habitual felon, that defendant is probably not appropriate to provide substantial assistance. However, if the OIC still believes this defendant can provide substantial assistance, the OIC must receive authorization from the HFT supervisor first.
4. The OIC should determine if the defendant is wanting to provide substantial assistance is currently on probation. If the defendant is on probation, the OIC shall contact the defendant's probation officer and determine if it would be appropriate for the defendant to provide substantial assistance. In some cases, the terms of probation would need to be modified if the defendant provides substantial assistance.
5. Obtain their supervisor's authorization to use a person for substantial assistance prior to submitting a CI packet to the Vice and Narcotics Division. (See Directive 800-012 Confidential Informant.)
6. Not make any promises or inferences about case adjudication or sentencing. Those decisions are solely at the discretion of the D.A. and presiding judge.
7. Verify the defendant is not a suspect in other felony investigations by checking CMPD and court databases.
8. In consultation with the D.A. FCT supervisor, the OIC will contact the defendant's attorney, if applicable, and arranges a meeting between the OIC, defendant, and the defendant's attorney. The defendant should be debriefed during this meeting about the cooperation and information he/she can provide. In the event a meeting cannot be set, the officer should request a proffer from the defendant's attorney about the defendant's capabilities to provide assistance. During these debriefings, if a defendant provides information about other criminal activity the officer must make immediate notification to an appropriate supervisor (Homicide, Robbery, Auto Theft, etc.)
9. Ensure the defendant has voluntarily waived his/her 5th Amendment right, in writing. If the defendant has been formally charged before a magistrate, the defendant must also waive his/her 6th Amendment right to counsel regardless of whether an attorney is present.

	Charlotte-Mecklenburg Police Department		800-013
	Interactive Directives Guide		Substantial Assistance
	Effective Date: 7/13/2021		3 of 5

10. The OIC should consult with his/her supervisor and/or the FCT supervisor to determine when substantial assistance has been completed and as to the disposition of the property from the original offense.
11. Substantial assistance, in consultation with the FCT supervisor should, at minimum, be initiated within ten to fourteen days. If that time period has passed and the defendant has been either out of contact or has not provided any assistance, the OIC should either obtain warrants for the original offense or take other action as directed by his/her supervisor.

B. Guidelines for On-Scene Substantial Assistance

During a drug investigation a person's ability to provide substantial information about a source or location can be time sensitive. Therefore, an officer may wish to use a person prior to, and in some cases in lieu of, being charged with a criminal offense. It is important that no promises or guarantees are made to defendants prior to the approval of the FCT. So that we are prudent in our application of this discretion and in communicating with the FCT, on-scene substantial assistance can be considered once:

1. The officer has discussed the case with an immediate supervisor.
2. The defendant has voluntarily waived 5th Amendment rights, in writing.
3. The person provides a written confession to the crime for which they may be charged.
4. A positive identification has been made.
5. The necessary information has been obtained to register the person as a CI.
6. If the person provides immediate on-scene substantial assistance, that person must be registered as an informant before being used again.
7. The officer will notify the FCT Supervisor or designee within one (1) working day for all trafficking cases. This communication can be done via phone call or email. All contacts should be documented in the case file notes with the person contacted, date, time and summary of the conversation.

C. Information for Substantial Assistance Follow Up

1. Papering: At papering, the OIC should alert the ADA that the defendant is providing substantial assistance and has discussed the matter with the FCT Supervisor. Regardless of whether the defendant has provided substantial assistance, the papering ADA retains full discretion as to whether to accept the case for prosecution.
2. Guilty Plea: Defendants who plead guilty will likely have their sentencing delayed by the judge. The sentencing usually is scheduled during a substantial assistance hearing, 30 to 60 days after the defendant's guilty plea. Officers

	Charlotte-Mecklenburg Police Department		800-013
	Interactive Directives Guide		Substantial Assistance
	Effective Date: 7/13/2021		4 of 5

may be required to attend the substantial assistance sentencing hearing when subpoenaed by the defense attorney. Be mindful that the D. A's Office cannot excuse the OIC from a defense subpoena.

3. Information Provided to the FCT Supervisor:

- a. The OIC will provide the FCT Supervisor a detailed written report within 60 days post arrest on the defendant summarizing the substantial assistance provided. This summary will include the:
 - 1) Complaint numbers,
 - 2) Dates;
 - 3) Seizure amounts;
 - 4) Weights of seizures;
 - 5) Names of the persons in which the defendant provided assistance.
- b. The OIC should include whether the defendant provided the maximum amount of assistance he or she could, if the defendant is still involved in the drug trade, and how significant a source/dealer the defendant is in Mecklenburg County.
- c. This document should be provided by email or in a hard copy format so that the FCT supervisor will have a written record for court purposes.
- d. If the defendant is continuing to work after this time the OIC will continue to provide an update every 30 days.

4. Non-Trafficking Drug Cases:

Defendants with non-trafficking cases do not qualify for substantial assistance under N.C.G.S. 90-95(h)(5). Further, the Structured Sentencing Act does not allow for meaningful deviation in the DA's recommendation for non-trafficking offenses (Class G, H, and I felonies). However, consideration may be given on a case-by-case basis.

5. FCT Supervisor:

- a. Will present information for substantial assistance on behalf of the State to the presiding judge during the defendant's sentencing hearing.
- b. While officers are responsible for leading investigations in which persons are providing substantial assistance, they should be mindful of the following:
 - (1) Officers should NEVER discuss sentencing the State may recommend for a defendant. If asked by a defense attorney,

	Charlotte-Mecklenburg Police Department		800-013
	Interactive Directives Guide	Substantial Assistance	
		Effective Date: 7/13/2021	5 of 5

officers should reply that sentencing recommendations are made by the FCT.

- (2) Officers should never discuss the possibility of a continuance of any court date with the defendant. If the defendant inquires about a continuance, he/she should be directed to discuss the matter with his/her attorney.
- (3) Once all evidence is heard, the FCT will make a sentencing recommendation to the Court.
- (4) Officers must be mindful that final sentencing is entirely at the discretion of the judge. The judge may accept or reject the State's sentencing recommendation.

I. PURPOSE

The purpose of this directive is to identify the methods and procedures for which criminal intelligence may be obtained by the Charlotte-Mecklenburg Police Department (CMPD), the purpose for which it may be used, who may access the information, and methods for identifying the reliability of the information. In addition, the directive identifies the security and maintenance requirements for housing intelligence files and procedures for the dissemination of information contained in the files. It is the purpose of the CMPD criminal intelligence function to gather information from sources in a manner which is consistent with all applicable state and federal laws in support of law enforcement efforts to provide tactical or strategic intelligence information on the existence, identities, capabilities, and intentions of criminal suspects and enterprises, as well as to further crime prevention and law enforcement objectives which are identified by the CMPD.

II. POLICY

- A. The collection, retention, dissemination, and disposition of criminal intelligence are essential functions of law enforcement. It is the policy of CMPD to collect intelligence information that is directed toward specific individuals or organizations when there is reasonable suspicion that these individuals or organizations may be planning for or engaging in criminal activity or for a legitimate law enforcement objective. This intelligence information will be collected with due respect for the rights of those involved and will be disseminated only as authorized. When collected, intelligence information is used to prevent or reduce crime, pursue and apprehend offenders, and obtain evidence necessary for conviction.
- B. Although criminal intelligence functions may be assigned to specific personnel within the department, CMPD employees are responsible for reporting information that may assist in identifying criminal conspirators and perpetrators. All CMPD employees shall adhere to the guidelines established in this directive and the 28 Code of Federal Regulations (CFR) Part 23 (as applicable) to ensure the security, confidentiality, and proper maintenance and dissemination of criminal intelligence.

III. DEFINITIONS

- D. Participating Agency: An agency or local, county, state, federal, or other governmental agency that exercises law enforcement or criminal investigation authority and is authorized to submit and receive criminal intelligence information through an inter-jurisdictional intelligence system. A participating agency may be a member or nonmember of an inter-jurisdictional intelligence system.
- E. Reasonable suspicion is the minimum threshold necessary for submission of a criminal intelligence record to a criminal intelligence database.
- F. Right-to-know: Defined as the legal authority to obtain or receive criminal intelligence information pursuant to court order, statute, or decisional law.

- I. Third Agency Rule: The concept of intelligence sharing that means any recipient of intelligence from an originating agency is prohibited from sharing that information with another agency. This affords some degree of accountability yet may be waived by the originating agency when appropriate.
- J. Legitimate Law Enforcement Objective: a legitimate law enforcement objective consists of the following: the detection and investigation of criminal behavior; the apprehension and prosecution of criminals; the identification of potential acts of civil disobedience designed to unlawfully disrupt the legitimate and lawful activities conducted within the Charlotte-Mecklenburg area; and, the identification of governmental resources necessary to staff a First Amendment Activity sufficient to protect persons and property.

IV. PROCEDURE

3. Interim – Applies to newly submitted (“raw”) intelligence information while the intelligence submission is under preliminary investigation by an authorized unit/division. An interim working file will be opened for up to thirty (30) days to confirm content validity and source reliability or to unfound the information. When criminal intelligence information is deleted from a document, recording, or other record, the CMPD will clearly indicate that such deletion has been made.
5. Criminal intelligence information that is part of a criminal investigative file may be discoverable. G. Purging Procedures

Review and purging of intelligence information should be an ongoing process. The maximum retention period for intelligence information is five (5) years. If the information has not been updated and/or validated within five (5) years, the information shall be purged from any intelligence files. If intelligence information has been updated within the past five (5) years, the file may be retained for a period of five (5) years from the date of the latest update. Information purged from intelligence files shall be thoroughly deleted from any electronic storage devices, and/or hard copies shall be shredded or otherwise made unusable. A record of the purge may be maintained containing the date and reason of the purge, as well as the name of the person completing the purge. Criminal intelligence information that is of little or no value will be purged and destroyed after review and approval by the appropriate level supervisor.

- d. Patrol division supervisors are responsible for making additional notifications to their division major and deputy chief when the SWAT Team has deployed in their area.
2. Divisions requesting SWAT Team assistance with a search/arrest warrant service will submit a request using the SWAT Request and Threat Assessment Form located on the CMPD Portal Page. Requests must be approved through the service area or section major and the SWAT Team's chain of command. Requests should be submitted with as much lead time as possible to allow the SWAT Team sufficient time to complete an overall risk/threat assessment, determine appropriate resources, and conduct operational planning.

SWAT Request and Threat Assessment Form

B. SWAT Team Operations

Although not all-inclusive, the following situations may necessitate the deployment of the SWAT Team:

1. Hostage Situation: Situations where a person is holding another person against his or her will by bodily force or the threat of bodily injury or death.
2. Barricaded Person: A person known or believed to be armed who is wanted on criminal charges or for mental commitment proceedings and has assumed a position that provides a significant tactical advantage over the police officers attempting to take the person into custody.
3. Suicidal Person: A person known or believed to be armed who appears to be an imminent threat to himself/herself or others and has assumed a position that provides a significant tactical advantage over the police officers attempting to take the person into custody.
4. Search Warrants/Arrest Warrants: When armed resistance is likely during the warrant service or when the warrant service requires specialized tactics and equipment that is not available to non-SWAT Team members.
5. Surveillance/Stakeouts: When the crime is a felony or a crime of violence and information exists that the person(s) may be armed and the use of specialized tactics or equipment is required.
6. Woodland Search: When an armed person, who is wanted on criminal charges or for mental commitment proceedings, has taken refuge in a wooded or rural area and has been contained by police officers.
7. Civil Disorder/High-Risk Demonstration: A civil disorder where the skills or equipment of the SWAT Team can assist in maintaining peace and order and achieving department objectives or a high-risk demonstration or parade where violence is possible.

		Effective Date: 4/19/2023	3 of 5

8. Dignitary Protection: When a visiting dignitary may require specialized security while in CMPD jurisdiction.
9. Assistance to Other Law Enforcement Agencies: When any of the situations mentioned above exist, and another law enforcement agency requests assistance in accordance with state law or when a federal or state agency requests assistance within CMPD jurisdiction. The Chief of Police or designee will approve any request for assistance outside the territorial jurisdiction of CMPD. The SWAT Team major is responsible for ensuring that any required memorandum of understanding (MOU) is valid prior to any agreement to assist.

C. Deployment Logistics

1. Once it is determined that the SWAT Team will be deployed, a SWAT Team command staff member will contact the Communications Division supervisor and request a notification be sent to all SWAT Team members. Notifications will include specific information the SWAT Team command staff member provides to the Communications Division supervisor.
2. Once on the scene, the highest-ranking SWAT Team member will serve as the tactical supervisor until relieved by a higher-ranking SWAT Team member.
 - a. If immediate action is required, the on-scene tactical supervisor or SWAT officer will initiate the appropriate response.
 - b. If immediate action is not required, the SWAT Team supervisor will stabilize the situation pending the arrival of the SWAT captain or major.
3. Operations Command will act as the incident commander until relieved by a member of the appropriate patrol division command. The Incident Command System (ICS) will be initiated by Operations Command or the patrol commander and applied accordingly based on the scope of the incident.
4. Tactical decisions are the primary responsibility of the highest-ranking SWAT Team member on the scene and should be made jointly with the incident commander when circumstances permit.
5. Crisis negotiators will be contacted when the SWAT Team is deployed for hostage situations, suicidal persons, or barricaded persons. Negotiators may be contacted in other situations deemed appropriate by the incident or SWAT commander. Negotiators will not deploy without tactical support.
6. Tactical medics will be notified in every situation that the SWAT Team is deployed and will respond according to their agency's SOP.
7. SWAT team members who are not required to report immediately must be prepared to respond to the scene and relieve other SWAT team members as needed.

	Charlotte-Mecklenburg Police Department		900-001
	Interactive Directives Guide	Special Weapons and Tactics (SWAT) Team	
		Effective Date: 4/19/2023	4 of 5

8. When deploying new SWAT Team members, supervisors will consider whether the SWAT Team member has received the required training and displayed proficiency in a particular skill or piece of equipment prior to assigning a position during an operation. Supervisors will not assign a SWAT Team member to a task for which they have not been trained or demonstrated proficiency. If this occurs, the SWAT Team member is responsible for informing the supervisor that they have not been trained for the assigned task.

D. Radio Protocol

As soon as practical and when feasible, all radio communications pertaining to a SWAT deployment will be designated a specific SWAT talk-group (SWAT 1). The Communications Division will monitor this talk-group and record all radio traffic.

E. Support Services

1. During the initial deployment phase, notification of relevant support services may include but are not limited to CFD, police canine, helicopter, investigations, Crime Scene Search, and MEDIC.
2. During a tactical team deployment, the communication with other departments and/or agencies will be handled by the Communications Division or directly by the on-scene tactical command operations sergeant via cellular telephone or radio. Radio communications should be handled on a frequency other than the one selected as the primary talk group for tactical operations.

F. Establishment of Scene Perimeters

During incidents not pre-planned by the SWAT Team, responding patrol units will be responsible for the initial containment of the structure or incident location. Upon the arrival of SWAT, patrol officers will be relieved of their duties relevant to the actual containment of the incident scene or structure as quickly as is reasonably possible. Patrol officers will remain responsible for securing the inner and outer perimeters of the scene, including traffic and pedestrian control. Decisions pertaining to the inner and outer perimeters of an incident location will be made by the on-scene patrol commander or Operations Command in consultation with the SWAT Team chain of command.

G. Evacuation of Bystanders and Injured Persons

The evacuation of bystanders, residents adjacent to an incident location, and injured persons is an ongoing process and will be based upon such criteria as the general nature of the incident, the type of weapons involved, the population density surrounding the incident location, any indication of a chemical or biological agent, prior actions on the part of the suspect(s) that would necessitate the movement of people from the area and the nature and extent of injuries involved.

	Charlotte-Mecklenburg Police Department		900-001
	Interactive Directives Guide	Special Weapons and Tactics (SWAT) Team	
		Effective Date: 4/19/2023	5 of 5

1. Prior to the arrival of the SWAT Team, the on-scene patrol commander is responsible for evacuating bystanders and injured persons, except for persons who cannot be evacuated without compromising officer safety.
2. Persons who cannot be evacuated without compromising officer safety should be advised to remain in place until the SWAT Team arrives with the necessary equipment to move the person safely.
3. A person should only be moved if it can be accomplished without risking the safety of any responding officers; however, responding officers should quickly evacuate persons whose safety is at risk if not relocated.
4. If evacuations are conducted, the patrol supervisor will document all locations and persons evacuated and provide the information in written form to the SWAT command when the transition occurs.

H. Review and Operation Debrief

1. As soon as practical following the termination of a SWAT-involved operation, an incident debriefing and critique will be held. If necessary, all elements involved in the incident should be present, including, but not limited to, participating SWAT Team members, CMPD command staff, Communications Division personnel, support services, patrol, and investigations.
2. In addition to the review, a SWAT Team supervisor who was involved in the operation will be designated to complete a written Critical Incident Report (CIR). The CIR will include the details leading up to the incident, SWAT Team deployment, operational commands, actions while on the scene, and a copy of all relevant offense reports and related materials. The CIR and all SWAT officers' supplements/statements will be attached to all case files.
3. A SWAT Team supervisor will coordinate with patrol the completion of all necessary administrative paperwork related to the direct actions of SWAT Team members, such as raid and search reports and response to resistance documentation. Paperwork relevant to other employees on the scene will be handled by the appropriate division chain of command.

I. PURPOSE

This directive establishes guidelines consistent with Title VI of the Civil Rights Act of 1964 and the Omnibus Crime Control and Safe Streets Act of 1968 for Charlotte-Mecklenburg Police Department (CMPD) employees when providing services or interacting with individuals with Limited English Proficiency (LEP). Additionally, this directive establishes procedures for the use of interpreters and translators and the Secondary Language Incentive Program.

II. POLICY

CMPD will take reasonable steps to provide timely, meaningful access for Limited English Proficient (LEP) individuals to the services and benefits it provides. CMPD employees will provide language assistance services to LEP individuals when an LEP individual requests language assistance services. Employees will inform the public that language assistance services are available to LEP individuals.

III. DEFINITIONS

- A. Primary Language: An individual's native tongue or the language in which an individual most effectively communicates.
- B. Limited English Proficiency (LEP): Designates individuals whose primary language is not English and who have a limited ability to read, write, speak, or understand English. LEP individuals may be competent in certain types of communication (e.g., speaking or understanding) but still be LEP for other purposes (e.g., reading or writing). Similarly, LEP designations are context-specific; an individual may possess sufficient English language skills to function in one setting, but these skills may be insufficient in other situations where language is considerably more technical.
- C. Interpretation: The act of listening to a communication in one language (source language) and orally converting it to another language (target language) while retaining the same meaning.
- D. Translation: The replacement of written text from one language (source language) into an equivalent written text in another language (target language).
- E. Bilingual: The ability to use two languages proficiently. For CMPD employees, this refers to an employee who has successfully completed the CMPD foreign language testing procedure administered by the CMPD Human Resources Division.
- F. Oral Proficiency Interview (OPI): A live, twenty (20) to thirty (30) minute telephone assessment between a certified language instructor or tester and the candidate or employee.
- G. Vital Document: Any document that is used for official law enforcement purposes by CMPD.
- H. Non-Vital Document: Any informational and/or educational document used by CMPD.

	Charlotte-Mecklenburg Police Department		900-007
	Interactive Directives Guide	Interpreting and Translating Services	
		Effective Date: 7/29/2022	2 of 5

- I. Certified Bilingual Interpreter: A CMPD employee who is certified proficient to interpret for others in certain situations, Volunteers in Police Service (VIPS) who are certified proficient to interpret for the CMPD in certain situations, and all contracted interpreters, including the Language Line.

IV. PROCEDURE

A. Public Notification

Signage will be posted at each CMPD building entry point or lobby in the most commonly spoken languages, according to the area's demographics, stating that interpreters are available to LEP individuals. The CMPD will also maintain translated vital and non-vital documents for LEP individuals. In the case of illiteracy or languages into which written materials have not been translated, such forms and documents will be read to the LEP individuals in their primary language by either a bilingual CMPD employee or an interpreter.

B. Secondary Language Incentive Program

The Secondary Language Incentive Program is not a City of Charlotte benefit but a voluntary CMPD incentive program offering bilingual employees incentive pay for interpreting and translating services once the employee is certified as a bilingual interpreter. This program may be modified by the Chief of Police or designee at any time with or without notice to meet the needs of the City of Charlotte and the community.

1. To become a certified bilingual interpreter, a CMPD employee or approved bilingual volunteer must be tested by a certified language testing center selected by the CMPD Human Resources Division. The Oral Proficiency Interview (OPI) and the scoring are based on the American Council of Teaching of Foreign Language (ACTFL) scale, with a minimum passing score of "advanced low" or higher.
2. The Secondary Language Incentive Program is available to all non-exempt CMPD employees who meet the above criteria in the following languages: Spanish, Yoruba, Vietnamese, Chinese-Taiwan, Chinese-PRC, Arabic, Gujarati, Hindi, Portuguese, Somali, Hausa, Japanese, Korean, Ukrainian, and Russian.
 - a. Languages are selected based on the business need, supported data from the most recent US Census, and to remain compliant with federal non-discrimination language requirements.
 - b. Employees are not eligible to receive additional compensation if the employee speaks additional foreign languages.
 - c. The Chief of Police or designee may waive the non-exempt criteria due to CMPD or community needs.

	Charlotte-Mecklenburg Police Department		900-007
	Interactive Directives Guide	Interpreting and Translating Services	
		Effective Date: 7/29/2022	3 of 5

3. Testing will be hosted by the CMPD Human Resources Division annually. Employees who wish to participate may sign up for the test during the sign-up period, which will be announced annually by the Human Resources Division.

Employees who are on leave with pay or leave without pay during the selected testing period are ineligible to participate in the testing
4. Employees are responsible for the initial testing fee and are eligible for reimbursement pending a successful passing test score.
 - a. The testing fee must be paid directly to the selected vendor at a minimum of fifteen (15) days in advance of the testing date.
 - b. The employee must provide a written cancellation notice to the selected vendor and the Human Resources Division a minimum of forty-eight (48) hours prior to the scheduled OPI test date. Failure to provide such notice will result in non-refundable testing fees.
5. If an employee cancels or does not pass the OPI test or if a certified bilingual interpreter does not pass their OPI recertification, the employee will not be eligible for the pay incentive. The employee will be required to wait one (1) full year to retest during the selected testing period.
6. Certified bilingual interpreters are required to recertify every three (3) years to remain eligible for the Secondary Language Incentive Program.
7. Certified bilingual interpreters who refuse to translate or provide poor translation services may be removed from the program. There is no appeal process when an employee is removed from the program.
8. Certified bilingual interpreters may voluntarily withdraw from the program by submitting a written request to the Human Resources Division.

C. Interpreting and Translation Services

When considering the need for interpreting services, employees will assess the seriousness of the matter, including the nature of any potential criminal charges, and try to ascertain an individual's primary language to determine available resources to facilitate effective communication. The following options will be considered (in order) when deciding on the appropriate course of action.

1. When feasible, employees will use translated documents such as citation information, accident exchange slips, seized evidence forms, etc., to convey information.
2. If translated materials do not resolve the situation, employees will request the Communications Division contact an on-duty certified bilingual CMPD employee or approved certified bilingual volunteer to assist.

	Charlotte-Mecklenburg Police Department		900-007
	Interactive Directives Guide	Interpreting and Translating Services	
		Effective Date: 7/29/2022	4 of 5

3. If a certified bilingual CMPD employee or approved certified bilingual volunteer is not available, with supervisory approval, employees will use the language line of the contracted interpreter service. The Communications Division will contact the service and have the interpreter call the employee.

Note: A bilingual CMPD employee who is not a certified bilingual interpreter may interpret on a voluntary basis only if the language is the employee's primary language. If the language is not the employee's primary language, the language line of the contracted interpreter service must be used.

4. If telephone interpreting is not practical, with supervisory approval, the Communications Division will contact the appropriate interpreting service to respond to the scene to assist with interpreting.
5. Employees are required to use certified bilingual CMPD employees or approved certified bilingual volunteers for the translation and transcription of all audio recordings as well as written materials. Any exception where there is a need for the use of a contracted interpreting service requires the prior approval of the employee's supervisor.
6. Employees will document all necessary information to identify the interpreter used and specific services provided for court purposes.
7. Each certified bilingual interpreter is expected to maintain a Secondary Language Incentive Activity Log (Appendix A) on the foreign language interpreter or translator services provided. Activity logs are subject to periodic audits by the chain of command or CMPD Human Resources Division.

D. LEP Coordinator

The LEP coordinator will be the CMPD Human Resources Division administrative services manager or designee and will be responsible for coordinating and implementing all aspects of CMPD services to LEP individuals. The Research and Strategic Planning Division (R&SP) will serve as the liaison between the Department of Justice (DOJ) and the LEP coordinator.

I. PURPOSE

To establish guidelines to enhance the safety and awareness level of officers who respond to clandestine laboratories and to establish a protocol to be followed if a clandestine drug laboratory is encountered.

II. DISCUSSION

A clandestine drug laboratory is a very dangerous and volatile environment that can pose substantial health risks and can even cause death. Volatile organic compounds, explosives, metals, solvents, and salts are commonly found in such a laboratory. The manufacturing of controlled substances in a clandestine drug laboratory creates the potential for explosions, chemical fires, and the release of toxic gases.

III. DEFINITIONS

- A. Clandestine drug laboratory (clan lab): A laboratory used for the primary purpose of illegally manufacturing controlled substances. A clandestine drug lab is typically small in size and utilizes common household appliances, glassware, and readily available chemicals. Such a lab may be found in a variety of locations, such as homes, apartments, hotels, kitchens, bathrooms, garages and other outbuildings, mini-warehouses, and recreational vehicles. In addition, such a lab may contain sophisticated surveillance equipment and/or “booby traps” to prevent law enforcement from gaining access to the lab and to facilitate the destruction of evidence.
- B. Clandestine Enforcement Response Team (CERT): A team consisting of personnel from the State Bureau of Investigation (SBI), Drug Enforcement Administration (DEA), and CMPD that have successfully completed the DEA Clandestine Laboratory Safety Certification School and are, therefore, certified to enter, process and clean-up a clandestine drug laboratory site.
- C. HazMat Response Team: A team of experts or specialists in the area of hazardous waste disposal and/or industrial hygiene whose function is to remove/dispose of hazardous waste associated with a clandestine drug laboratory.

IV. PROCEDURES

A. Clandestine Drug Laboratory

An officer who discovers a clandestine drug lab is designated as the first on scene officer. A clandestine drug lab should be treated as a hazardous environment immediately upon discovery and the scene should be secured. It is the responsibility of the first on scene officer to protect themselves and others who may be in danger. The first on scene officer will observe and adhere to the following procedures:

1. Immediately notify the shift supervisor.
2. Never attempt to enter a known clandestine drug lab. If an officer becomes aware that he/she has entered a lab, he/she should evacuate all persons from

the lab, with or without their consent, for their safety and for investigative purposes.

3. Avoid turning on or off any light switches, electrical appliances or other electrical devices and avoid touching or smelling any lab equipment or chemicals.
4. Evacuate everyone from the vicinity of the lab site, in an upwind direction (i.e., neighboring houses, adjacent apartments, or motel/hotel rooms).
5. Administer first aid as needed.
6. Notify the Communications Division to contact the Charlotte Fire Department (CFD) HazMat Response Team so that they can respond and test the quality and safety of the outside air around the lab site, in order to determine a safe distance and area for evacuation.
7. Secure the area as a crime scene at the distance the CFD HazMat Response Team determines to be safe and prohibit others from entering that area.
8. Minimize exposure to themselves and others.
9. Prohibit smoking around or near the lab site.
10. Notify the Communications Division to contact the Clandestine Enforcement Response Team (CERT) Supervisor.
 - a. The Communications Division will maintain a current list of CMPD members of the team and supervisor.
 - b. On-duty CMPD officers and if necessary, off-duty officers, will be requested to respond by the CERT Supervisor, or Operations Command.
 - c. CERT Supervisor will be responsible for notifying other agencies that may be needed to process the lab.
 - d. Follow the Charlotte-Mecklenburg Police Department (CMPD) Exposure Control Plan if an exposure has occurred.
11. Upon arrival at the lab site, CERT will assume control of the scene and will maintain control until the site is processed and rendered safe. All personnel, other than CERT members, will be prohibited from entering the lab site.
12. CERT and/or the HazMat Response Team will dispose of all hazardous materials and/or chemicals removed from the lab site. Hazardous materials and/or chemicals will not be brought to CMPD Headquarters or a division office for storage.

B. Vehicle Stops

	Charlotte-Mecklenburg Police Department		900-012
	Interactive Directives Guide	Clandestine Drug Laboratories	
		Effective Date: 7/15/2020	3 of 3

A vehicle stop may develop into a clandestine drug lab situation during the stop or search of the vehicle. An officer who suspects that he/she has encountered a clandestine drug lab or hazardous chemicals should proceed as follows:

1. Immediately remove the occupants of the vehicle and secure them in an upwind direction. The officer should avoid securing occupants inside the patrol vehicle.
2. The officer should then follow the procedures set forth in section IV.A.
3. No attempt should be made to move the vehicle containing the suspected lab.
4. Follow the CMPD Exposure Control Plan if an exposure has occurred.

C. Reporting Procedures

1. The first on scene officer will brief the responding supervisor and the responding members of CERT upon their arrival.
2. The first on scene officer will document the preliminary investigation on an Incident Report in the Records Management System by selecting the offense category, Drug/Clandestine Drug Lab Investigation.

D. Supervisor's Role

Upon receiving notification that a clandestine drug lab has been discovered, the supervisor will:

1. Immediately respond to the scene.
2. Ensure that the scene has been properly evacuated and secured.
3. Verify through the Communications Division that members of CERT have been notified and are responding.
4. Complete a Supervisor's Investigative Report to document any exposures that officer(s) may have received from chemicals or chemical fumes produced at the lab.

	Interactive Directives Guide	Development of Departmental Forms	
		Effective Date: 4/18/2022	1 of 1

I. PURPOSE

This policy establishes guidelines for creating and approving standardized forms for use by the Charlotte-Mecklenburg Police Department (CMPD).

II. POLICY

All forms must be written using the standard format available from the Research and Strategic Planning Division (R&SP). All forms must reflect CMPD's values and philosophy of policing and must be promptly updated whenever a policy, program, and/or procedure change occurs that makes the current form obsolete. No forms will be used in an official capacity within CMPD that are not approved by the R&SP Division.

III. PROCEDURE

- A. When an individual or group of CMPD employees identifies a need to create, update, delete, or convert a standardized departmental form they will present the idea to their division or unit manager.
- B. If there is concurrence as to the need by the division or unit manager, the form request will be submitted to the R&SP Division. The submitting employee is responsible for assisting with the collection of information for the creation of the new form or editing of an existing form that impacts their respective division/unit according to the approved format.
- C. Once all required information is collected, the final version of the form will be completed by the R&SP Division.
- D. Upon approval by the appropriate Deputy Chief of Police or designee, the R&SP Division will note the approval date on the form and place the form on the CMPD Portal under the heading of "CMPD Forms." All previous versions of the form will then become obsolete, deleted from the CMPD Portal, and will not be used.
- E. The R&SP Division, in coordination with the affected division/unit, will review the content and/or need for a particular form at least every three (3) years. The R&SP Division will determine the criteria and approve or deny any deletion or edits to electronic forms or discontinuation of current forms.
- F. The R&SP Division will note in the "Announcements" section of the CMPD Portal that there is a new or revised form posted, whenever a new form is prepared, or a form is updated.
