

Addendum No. 3
Charlotte Douglas International Airport
RFP AVIA 24-28
CCTV Inspection and Cleaning Services
Addendum #3 - March 27, 2024

This Addendum is hereby made a part of the contract documents and specifications of the above referenced project. All other requirements of the original plans and specification shall remain in effect in their respective order. Acknowledge receipt of this addendum by indicating such on the "Proposal Form" page in your proposal.

This Addendum Includes:

- **Proposal Due Date Extension**
- **Review of Outstanding Questions**

Proposal Due Date Extension:

- The proposal submission due date has been extended to April 4, 2024 by 5:00 p.m. ET.

Outstanding Questions:

The following questions are outstanding and will be answered in a subsequent addendum once responses are available.

- 1. What size siphons are expected to be clean and videoed?**
- 2. We have multiple CLT contracts that require siphons to be cleaned and inspected however in all previous circumstances an inspector was present during cleaning operations. The inspector would approve the line was cleaned without CCTV due to the multiple difficulties that come with siphon inspections. Example of difficulties; Smaller pipe sizes such as 12 inch or smaller (the tractor is unable to make it past bends in lowest points of line), the line has to be under bypass and the process to remove water depending on length of pipe/ grade of pipe can be time consuming. Would an inspector be onsite for any siphon cleaning that may arise on this contract?**
- 3. Is bypass required for siphons? If so, whose responsibility is it to provide the bypass?**
