Plan Consistency

The petition is **consistent** with the *2040 Policy Map* recommendation for the Commercial Place Type.

Rationale for Recommendation

- The petition is consistent with the recommended *2040 Policy Map* Place Type of Commercial. The CG zoning district permits a variety of uses that are in keeping with the character of the area, which is generally auto-oriented but also provides standards that are accommodating of other travel modes.
- The site is walkable to nearby neighborhoods as well as directly adjacent to daily needs. The site could increase the amenities, goods, and services offered at the existing shopping center.
- The Commercial Place Type calls for standalone nonresidential uses located along high-volume arterial streets.

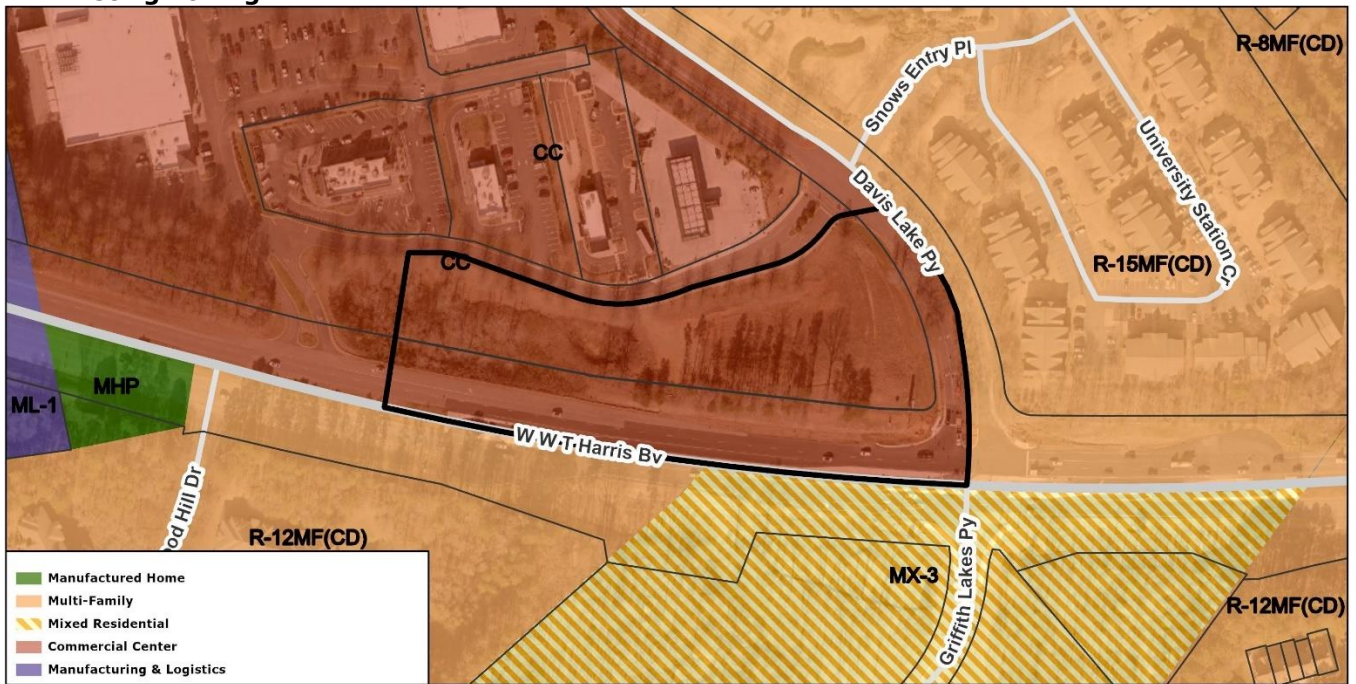

- The site is located at the intersection of a road designated by the *Charlotte Streets Map* as a Collector Street, and a 6+ Lane Parkway which is considered an arterial street and is intended to serve high volumes of traffic at relatively high speeds while limiting direct access to adjacent land uses.
- The site is adjacent to the future Davis Lake Parkway Urban trail that is proposed to feed into the existing Mallard Creek Greenway.
- The site is located along the route of the CATS number 21 local bus providing transit access to the Charlotte Transportation Center.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
  - 8: Diverse & Resilient Economic Opportunity
