**STAFF
RECOMMENDATION**

Staff recommends approval of this petition.

Plan Consistency

The petition is **inconsistent** with the 2040 Policy Map recommendation for the Neighborhood 1 Place Type.

Rationale for Recommendation

- The parcel abuts garden apartments to the east, townhomes to the south, and townhomes under construction to the west on lots zoned N2-B.
- The N2-B zoning district is intended for the development of multi-family dwellings, including multi-family attached and multi-family stacked units. Lower-intensity residential dwellings, including single-family, duplex, triplex, and quadruplex dwellings are permitted within the zoning district, subject to the standards of the N1-E zoning district, or as components of a multi-dwelling development.

- The site has split zoning with most of the site zoned OFC and the remainder zoned N2-B. The request proposes to bring the entire acreage under one zoning district.
- The rezoning site has frontage along McAlway Road, a City-maintained major collector.
- The petition is located within ¼ mile of a Neighborhood Activity Center.
- The petition is location within an Access to Housing Gap (EGF). Access to housing is a high priority need in this area according to the EGF Community Reports. The petition for uses allowed in the N2-B zoning district on the site, including multi-family attached dwelling units, seeks to address the housing need.
- The petition is made up of remnant parcels.
- The petition could facilitate the following *2040 Comprehensive Plan* Goals:
 - 2: Neighborhood Diversity & Inclusion

The approval of this petition will revise the recommended place type as specified by the *2040 Policy Map*, from Neighborhood 1 Place Type to Neighborhood 2 Place Type for the site.

- **TRANSPORTATION SUMMARY**

The site is located adjacent to McAlway Road, a City-maintained major collector, south of Craig Avenue, a City-maintained major collector. A Comprehensive Transportation Review (CTR) is not necessary for the complete review of this petition due to the conventional rezoning. A CTR will be required during permitting if the site generates site trips over ordinance thresholds. The site will be subject to transportation improvements in accordance with the UDO and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to pursue all options to provide additional forms of connectivity that reflect the types of development associated with this place type and zoning district.

- **Active Projects:**

- Monroe Road Streetscape
 - Improves Monroe Road between North Wendover Road and Eaton Road to create a more pedestrian-oriented corridor and installs a pedestrian hybrid beacon in front of Time Out Youth Center. If during the permitting process the site generates the designated number of trips outlined on Table 3.1 in the Charlotte Streets Manual, then a Comprehensive Transportation Review will be required.
