This project will include storm drainage improvements, new sidewalks, large planting strips and wheelchair ramps on the north side of Sunset Road. Design is complete and the project team is anticipating the project will go out to bid this fall.

During the bid phase, the city uses a competitive bidding process to procure the services of a contractor to build the project. By state law, the construction contract is awarded to the lowest responsible bidder. Construction is expected to start in the summer of 2025.

The NCDOT Sunset/Peachtree Road Intersection Project is now complete. The project provides a new traffic signal and turning lane on Sunset Road to Peachtree Road.
