

MEETING MINUTES

March 26, 2024

Subject: **East 4th Street SDIP**
Public Meeting
City of Charlotte Project #: PMSW201637
ESP Project #: KM60.400

Participants:

- Robert Jarzemsky (City of Charlotte)
- Tyler Howell (City of Charlotte)
- Amy Bice (City of Charlotte)
- Andrew Martin (ESP)
- Donna AlMelhem (ESP)
- Samantha Hayes (ESP)
- Marissa Klimkowski (ESP)

MEETING OVERVIEW

On March 26, 2024 a public meeting was held at St. John's Baptist Church from 6:00 pm to 7:30 pm to present the proposed storm drainage improvements of the East 4th Street SDIP to the public. The following items were discussed:

- **What level of service would the proposed design serve?**
 - ESP stated that the proposed storm drainage improvements would reduce roadway flooding in the 10-year storm event, as well as reduce finished floor elevation flooding for the principal and accessory structures on East 4th Street in the 25-year storm event. Additionally, the goal is to also maintain a maximum spread of 6 feet with 1 additional foot for valley gutter and 2 additional feet for standard curb and gutter for a rainfall intensity of 4 in/hr along the main corridor of East 4th Street, with side systems entering East 4th Street meeting the same spread requirements but for a rainfall intensity of 2 in/hr.

Please contact Andrew Martin at amartin@espassociates.com or Donna AlMelhem at dalmelhem@espassociates.com with any questions or comments regarding these meeting minutes.
