

East Worthington

Storm Drainage
Improvement Project

PROJECT STATUS
DECEMBER 2024
Planning begins.

PROJECT STATUS | DECEMBER 2024

Charlotte-Mecklenburg Storm Water Services is working with McAdams and their surveyor The Survey Company to evaluate the storm drainage system in the East Worthington area.

Representatives may need to enter your property to collect survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered.

The survey work is scheduled to begin in January and take about 1 month to complete.
