

Marlowe

Storm Drainage Improvement Project

PROJECT STATUS
DECEMBER 2024
Planning begins.

PROJECT STATUS | DECEMBER 2024

Charlotte-Mecklenburg Storm Water Services is working with WK Dickson and their surveyor Tidemark Land Services to evaluate the storm drainage system in the Marlowe area.

Representatives may need to enter your property to collect survey data on the existing system. While state law authorizes access to private property, no building or structure will be entered.

The survey work is scheduled to begin in December and take about 3 months to complete.
