## Revision Log:

Date	Description
03-25-2021	First Review (KP)

## General Review Information

The petition is located adjacent to Arty Avenue, a City-maintained local street, Berryhill Road, a City-maintained collector street, and Wilkinson Boulevard, a State-maintained major thoroughfare. The petition is in the West Corridor inside Route 4. TOD standards apply in place of an area plan.

## Active Projects Near the Site:

- LYNX Silver Line Light Rail (and Rail Trail)
  - The draft refined alignment of the Silver Line will follow the freight rail corridor south of Wilkinson Blvd. With planned stations at Remount Rd and Suttle Ave, bicycle and pedestrian connectivity will be critical to meet the intent of TOD.

---

CDOT's review of this rezoning petition is intended to provide consistency with council adopted policies, plans, standards and guidelines including, but not limited to, the [Transportation Action Plan \(TAP\)](#), [Vision Zero](#), [Urban Street Design Guidelines \(USDG\)](#), [Center, Corridor and Wedges](#), [Charlotte BIKES](#), [Traffic Impact Study Guidelines](#) and [Charlotte WALKS](#). With a commitment to design complete streets, this review is to ensure that the City's transportation network supports current and future land uses and includes streets that provide safe and comfortable mobility for motorists, pedestrians, bicyclists, and transit users.

This document is primarily for communication to Planning Department staff as part of the overall City staff analysis of the rezoning petition and includes an overall summary of the case from a transportation perspective, information on trip generation, and resolved or outstanding site plan concerns. Additional advisory information about the driveway permit process is provided for information only.

---

Based on our review of the petition, we offer the following information for your consideration.

## Transportation Summary

This site is located at the northwest corner of Wilkinson Boulevard and Berryhill Road, a State-maintained major thoroughfare and a City-maintained collector street, respectively, less than ½ mile away from the anticipated Remount Road Silver Line Station. This site is requesting a TOD-NC zoning and will be subject to transportation improvements in accordance with the TOD Ordinance and the adopted CDOT Streets Map. CDOT will work with the petitioner during the permitting process to provide additional forms of connectivity, as applicable, supporting the types of development in the TOD-zoned areas.

## Trip Generation

Scenario	Land Use	Intensity	Trip Generation (vehicle trips/day)	Source
Existing Use	Single Family	3 Dwellings	30	Tax Record

Entitlement with Current Zoning	Office (O-2 0.31 acres) Apartments (R-22 0.56 acres) Retail (B-1 4.03 acres)	4,650 SF  12 Units  40,300 SF	3,360	General Guidance from Planning
Proposed Zoning	TOD-NC	Too many uses to determine	Too many uses to determine	General Guidance from Planning

**Provide comments to the specified comments below.**

### Outstanding Issues

**~~Strikethrough~~ = Resolved**

**1. Traffic Study:**

A Traffic Impact Study (TIS) is not necessary for the complete review of this petition due to this being a conventional TOD petition. If during the permitting process the site generates more than 2,500 daily trips, then a traffic study will be required.

### Advisory Information

The following are requirements of the developer that must be satisfied prior to driveway permit approval. These requirements shall be reflected on the rezoning plan, as appropriate.

1. The setback for this district is measured from the back of the existing or future curblines as determined by CDOT and Planning during the permitting process.
2. CDOT has the authority to regulate/approve all private street/driveway and public street connections to the right-of-way of a street under the regulatory jurisdiction of the City of Charlotte, per the City of Charlotte's Driveway Regulations.
3. Adequate sight triangles must be reserved at the existing/proposed street entrance(s). Two 35' x 35' sight triangles (and two 10' x 70' sight triangles on NCDOT-maintained streets) are required for the entrance(s) to meet requirements. All proposed trees, berms, walls, fences, and/or identification signs shall not interfere with sight distance at the entrance(s) and shall be identified on the site plan.
4. The proposed driveway connection(s) to public streets will require a driveway permit(s) to be submitted to CDOT (and NCDOT on NCDOT-maintained streets) for review and approval. The exact driveway location(s) and type/width of the driveway(s) will be determined by CDOT during the driveway permit process. The locations of the driveway(s) shown on the site plan are subject to change in order to align with driveway(s) on the opposite side of the street and comply with City Driveway Regulations and the City Tree Ordinance.
5. All proposed commercial driveway connections to a future public street will require a driveway permit submitted to CDOT for review and approval.
6. Any fence or wall constructed along or adjacent to any sidewalk or street right-of-way requires a certificate issued by CDOT.
7. A Right-of-Way Encroachment Agreement is required for the installation of any non-standard item(s) (irrigation systems, decorative concrete pavement, brick pavers, etc.) within a proposed/existing City-maintained street right-of-way by a private individual, group, business, or homeowner's/business association. An encroachment agreement must be approved by CDOT prior to construction/installation. Contact CDOT for additional information concerning cost, submittal, and liability insurance coverage requirements.
8. The petitioner needs to complete and submit the [Right of way Abandonment Petition form](#) to CDOT for review. The decision of this rezoning petition does not correlate with the decision of the possible abandonment, as this decision is issued within the separate Right of Way Abandonment process that is controlled by North Carolina General Statutes.
