ZONING COMMITTEE ACTION/ STATEMENT OF CONSISTENCY

The Zoning Committee voted 5-0 to recommend APPROVAL of this petition and adopt the consistency statement as follows:

To Approve:

This petition is found to be **inconsistent and consistent** with the *2040 Policy Map (2022)* based on the information from the staff analysis and the public hearing, and because:

- The policy map recommends Innovation Mixed-Use for the site which includes uses that are incompatible with the requested zoning district such as light manufacturing and warehousing; and
- The Innovation Mixed-Use place type supports a number of mixed uses that are allowed in the TOD-UC zoning district.

However, we find this petition to be reasonable and in the public interest, based on the information from the staff analysis and the public hearing, and because:

- The site is within a ½-mile walk of the 36th Street Station.
- The TOD-UC district may be applied to parcels within a ½-mile walking distance of an existing rapid transit station, or within ½-mile walking distance of an adopted Metropolitan Transit Commission (MTC) alignment station location.
- The site is located directly adjacent to a number of parcels with a TOD designation and is located directly along the LYNX Blue Line.
- This rezoning would allow for the site to be redeveloped to transit supportive uses.

The approval of this petition will revise the Place Type as specified by the *2040 Policy Map* (2022) from Innovation Mixed Use to Community Activity Center.

**ZONING COMMITTEE
DISCUSSION**

Staff provided a summary of the petition and noted that it is inconsistent with the *2040 Policy Map*.

Chairman Gussman commented that this petition shows that the *2040 Policy Map* offers general guidance, but is not parcel specific given that Community Activity Center would be a good fit here.

There was no further discussion of this petition.
