Date	Description
6-16-2022	First Review (JT)

General Review Information

The petition is located south of Oaklawn Avenue, a City-maintained minor thoroughfare east of Beatties Ford Road, a City-maintained major thoroughfare west of Andrill Terrace, a City-maintained major collector north of Brookshire Freeway, a State-maintained Freeway. The petition is located in a Northwest Wedge inside of Route 4, and within the limits of the Westside Strategy Plan Study Area.

Active Projects Near the Site:

- Lincoln Heights Storm Drainage Improvement Project
 - Install and/or repair drainage infrastructure north of Lasalle Street, west of I-77, south of I-85, and east of Beatties Ford Road.
 - Warranty Period 1st Quarter 2023
- Beatties Ford Road Bike Boulevard
 - Connect bicycle facilities from West Charlotte High School to the Uptown Cycle Track.
 - 4th Quarter 2024 Completion

CDOT's review of this rezoning petition is intended to provide consistency with council adopted policies, plans, standards and guidelines including, but not limited to, the [Transportation Action Plan \(TAP\)](#), [Vision Zero](#), [Urban Street Design Guidelines \(USDG\)](#), [Center, Corridor and Wedges](#), [Charlotte BIKES](#), [Traffic Impact Study Guidelines](#) and [Charlotte WALKS](#). With a commitment to design complete streets, this review is to ensure that the City's transportation network supports current and future land uses and includes streets that provide safe and comfortable mobility for motorists, pedestrians, bicyclists, and transit users.

This document is primarily for communication to Planning Department staff as part of the overall City staff analysis of the rezoning petition and includes an overall summary of the case from a transportation perspective, information on trip generation, and resolved or outstanding site plan concerns. Additional advisory information about the driveway permit process is provided for information only.

Based on our review of the petition, we offer the following information for your consideration.

Transportation Summary

The petition is located south of Oaklawn Avenue, a City-maintained minor thoroughfare east of Beatties Ford Road, a City-maintained major thoroughfare west of Andrill Terrace, a City-maintained major collector north of Brookshire Freeway, a State-maintained Freeway. A Traffic Impact Study (TIS) is not needed for this site. CDOT will work with the petitioner during the permitting process to ensure all required streetscape and transportation related ordinance requirements are complied with for adequate access and connectivity to the site and surrounding network. Further details are listed below.

Trip Generation

Scenario	Land Use	Intensity	Trip Generation (vehicle trips/day)	Source
Existing Use	Single Family	166 Dwellings	1,660	Tax Record
Entitled Use	Single Family (R-5 71 acres)	355 Dwellings	3,340	General Guidance from Planning
Proposed Use	Single Family (R-5 HD-0 71 acres)	355 Dwellings	3,340	General Guidance from Planning

Petitioner to provide responses to the staff comments below as well as specify other changes to the site plan.

Outstanding Issues

~~Strikethrough~~ = Resolved

1. Traffic Study:

~~A Traffic Impact Study (TIS) is not necessary for the complete review of this petition due to the site generating less than 2,500 daily trips.~~

Advisory Information

The following are requirements of the developer that must be satisfied prior to driveway permit approval. These requirements shall be reflected on the rezoning plan, as appropriate.

1. CDOT has the authority to regulate/approve all private street/driveway and public street connections to the right-of-way of a street under the regulatory jurisdiction of the City of Charlotte, per the City of Charlotte's Driveway Regulations.
2. Adequate sight triangles must be reserved at the existing/proposed street entrance(s). Two 35' x 35' sight triangles (and two 10' x 70' sight triangles on NCDOT-maintained streets) are required for the entrance(s) to meet requirements. All proposed trees, berms, walls, fences, and/or identification signs shall not interfere with sight distance at the entrance(s) and shall be identified on the site plan.
3. The proposed driveway connection(s) to public streets will require a driveway permit(s) to be submitted to CDOT (and NCDOT on NCDOT-maintained streets) for review and approval. The exact driveway location(s) and type/width of the driveway(s) will be determined by CDOT during the driveway permit process. The locations of the driveway(s) shown on the site plan are subject to change in order to align with driveway(s) on the opposite side of the street and comply with City Driveway Regulations and the City Tree Ordinance.
4. All proposed commercial driveway connections to a future public street will require a driveway permit submitted to CDOT for review and approval.
5. Any fence or wall constructed along or adjacent to any sidewalk or street right-of-way requires a certificate issued by CDOT.
