IMPACT UNDER CURRENT ZONING

Number of housing units allowed under current zoning: the approximately 18.88 acres zoned BP and R-3 would allow 22 single family detached

CMS Planning Group: North

Average Student Yield per Unit: 0.1225

This development may add 38 students to the schools in this area.

The following data is as of 20th Day of the 2021-22 school year.

*The total estimated capital costs of providing the additional school capacity for this new development is \$861,000, calculated as follow:

Middle School: $9 \times \$37,000 = \$333,000$

High School: $12 \times \$44,000 = \$528,000$

RECOMMENDATION

Adequacy of existing school capacity in this area is a significant problem. We are particularly concerned about a rezoning case where school utilization exceeds 100% since the proposed development may exacerbate the situation. Approval of this petition may increase overcrowding and/or reliance upon mobile classrooms at the school listed above.

Applicants are encouraged to contact us in advance of their project submittals to inform CMS of their prospective impacts and discuss mitigation alternatives.
